Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

We already import over 90% of our food. This is dangerous and reckless. We need to increase our self sufficiency not reduce it.
As a structural engineer, I have the potential to gain from increasing our sprawl, but it is not worth the cost to the island and its people to develop in this manner. I support responsible planning.

Please reject the purple spot.

Mahalo

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot.

Although I don't live in Lualualei I have friends who farm there and other places on O'ahu and I want to continue to be able to support local farmers and local produce and hope that my children will be able to do the same. We need to protect what little ag land we have left on this island!

Aloha e Councilwoman Gabbard,

I agree with the letters you have already received about the need to protect agricultural lands throughout the Wai`anae Coast.

Every time an agricultural or forest area is developed for industry or anything besides its rural use, it makes Hawaii more dependent on imported food and fuel, more polluted, and less healthy.

I support the farmers and residents of Wai`and I'm glad that you do, too.

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment.

All they want is to make sure there is a place for farming families in Wai`anae?s future. They told it to the Planning Commission, who failed to make a decision one way or another.

They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Subject: Mahalo for your support against the purple spot

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilwoman Gabbard,

Mahalo nui loa for standing up against the developer-driven purple spot. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae?s future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. Thank you for your well-reasoned and coherent defense of good planning, community engagement, and farming families. As we make this last stand on Wednesday, we hope that you will remain strong.
