R-1

My name is Debi Roblin. I [illegible] the Territory of Hawaii. I am a [illegible] resident of the windward side and horsewoman. My Husband & I bought a run down horse boarding facility known as Circle C. It had sat stagnant for sale for 11 years when we purchased it. We bought a Horse Recreational Business and have an [illegible] permit 2000/CUP111 and and [illegible] 2004/[illegible]. We did not buy a farm. I am not a farmer. The EPA then made us put in six high volume septic tanks in conjunction with the high volume of boarders we have. Now, our representatives who are supposed to be working for the benefits of the people, made a sweeping action bill that affects thousands of people and businesses. They did it behind closed doors, without researching the ramifications their bill would produce. Nobody was told about this bill or that it would affect all horse properties, commercial and private. Bill 44 was passed in 2004. You are basically condemning my business in favor of another venue of revenue. When the government condems a property, they buy the property owner out at the Fair Market Value. You valuate Circle C over 9 mill. dollar. I'll take the 9 million Dollars.

The Fall of the Roman Empire was not defeated by her outside enemies. She imploded from the inside

432-8000 Yonne

MISC COM COUNCIL

First was the decay of the Home and Family
Then they were taxed higher and higher so the ~~whole~~ Gov.
~~Community~~ could ~~have service~~ provide more and more to
the masses
Pleasure seeking became their highest priority
They built great Armaments
And they lost Religion

This sound like the way we are headed. The workers of this country will be taxed to death. When there is no more money at the top to give to the masses
