REPORT OF THE COMMITTEE ON BUDGET

Ann H. Kobayashi, Chair; Barbara Marshall, Vice-Chair
Romy M. Cachola, Charles K. Djou, Rod Tam, Members

Special Committee Meeting Held
May 24, 2004

Honorable Donovan Dela Cruz
Chair, City Council
City and County of Honolulu

Mr. Chair:

Your Committee on Budget, which considered Bill 14 (2004), CD1 entitled:

"A BILL FOR AN ORDINANCE RELATING TO THE EXECUTIVE CAPITAL BUDGET AND PROGRAM FOR THE FISCAL YEAR JULY 1, 2004 TO JUNE 30, 2005,"

reports as follows:

The purpose of this Bill is to appropriate funding for the Executive Capital Budget for Fiscal Year 2004-2005.

Your Committee made amendments to the bill, as reflected in the list of CD2 amendments attached to the bill.

Your Committee on Budget is in accord with the intent and purpose of Bill 14 (2004), CD1, as amended herein, and recommends its passage on Third Reading in the form attached hereto as Bill 14 (2004), CD2. (Ayes: Kobayashi, Cachola, Djou, Marshall, Tam - 5; Noes: None.)

Respectfully submitted,

Ann Kobayashi

Committee Chair

6/4/04 Council Meeting: Bill 14, CD2, further amended to FD1 and subsequently passed Third Reading as amended (Bill 14, CD2, FD1).

UTILITIES OR OTHER ENTERPRISES		12,815,000
TOTAL	$	298,132,398

SECTION 10. General Provisos.

(a) As used in this Ordinance:

"Agency" includes any department, office, board, commission, or other governmental unit of the City and County of Honolulu, as the case may be.

"Charter" or "RCH" means the Revised Charter of Honolulu 1973, as amended.

"City" means the City and County of Honolulu.

"Council" means the Council of the City and County of Honolulu.

"Government" means the federal government, the State government, the government of any other state, any political subdivision of any state, or any quasi-governmental entity.

"ROH" means the Revised Ordinances of Honolulu 1990, as amended.

(b) Single purpose monies. The City and County of Honolulu may receive single purpose monies from: (1) any governmental or quasi-governmental agency due to the funding of a grant application thereto which has been authorized by Council resolution pursuant to the provisions of Chapter 1, Article 8, ROH; (2) any private source pursuant to a contract which has been authorized by Council resolution; or (3) any combination thereof. When such monies are received, the Director of Budget and Fiscal Services shall maintain special funds or accounts showing the monies so received and specifying the purposes for which they have been received and held.

All such receipts specified in Sections 2 through 8 of this ordinance are hereby appropriated in the amounts and for the purposes set forth, and all expenditures shall be made as provided by law. Should the revenues from these sources exceed the amounts specified

herein, the excess is hereby appropriated in accordance with the provisions of the grants and of this section; provided that when a project is financed by both City and non-City funds and the revenues from a non-City fund source exceeds the amount approved in this ordinance, the City fund appropriation shall be decreased by the amount of the excess revenues unless such decrease would jeopardize the receipt of the increased amount from the non-City fund source or the award of the contract. The scope of the project shall not be increased unless approved by amendment to the appropriate budget ordinance.

New single purpose monies include but are not limited to grants to begin new projects, and monies to fund ongoing projects or projects funded in prior fiscal years that become available during the fiscal year for which no appropriation has been made in Sections 2 through 8 of this ordinance. Such monies are hereby appropriated in the amounts and for the purposes for which they are contracted or received, provided that the receipt and expenditure of such monies are authorized by Council resolution.

The Director of Budget and Fiscal Services shall report to the Council no later than thirty days after December 31 detailing, for the Capital budget fiscal year just ended, the amount of any excess monies and any new monies received, and the function, program, and project to which the monies have been allotted for expenditure.

Whenever the City receives gifts of single purpose monies which the Council has accepted in accordance with Section 13-113 of the Charter and Council Resolution 86-298, the Director of Budget and Fiscal Services shall maintain special funds or accounts showing the monies so received and specifying the purposes for which they have been received and for which they are held. All such receipts are hereby appropriated for expenditure; and the expenditures from any such fund or account, to carry out the purposes for which such monies have been received or for which such fund or account is maintained, shall be approved by the Director of Budget and Fiscal Services and may be expended in accordance with the terms and conditions by which said monies have been received by the City.

(c) Multi-purpose federal monies. Multi-purpose federal monies are monies from the United States of America that are allocated by formula entitlements and may be expended for multiple purposes. Such monies include Community Development Block Grant monies, HOME Investment Partnerships Program monies, Federal Transit Authority monies and similar federal assistance programs that Congress may enact from time to time.

No expenditure of such monies shall be made unless the Council has authorized such expenditure by the enactment of or an amendment to a budget ordinance appropriating such monies in accordance with applicable Charter provisions, ordinances and other legal requirements. If such monies are received prior to an enactment of or amendment to a budget ordinance, the Director of Budget and Fiscal Services shall maintain such monies in special accounts showing the monies so received and specifying the purposes for which they have been received and temporarily held. A bill for an ordinance appropriating such monies shall be submitted to the Council as soon as possible following the receipt of such monies.

A BILL FOR AN ORDINANCE

(d) The Council finds that the delay in program implementation incident to any reprogramming action pursuant to certain Charter provisions involving Community Development Block Grant funds and/or HOME Investment Partnerships Program funds will jeopardize the availability and receipt of those funds. Accordingly, pursuant to Section 13-122, RCH, the Council hereby waives Sections 3-204, 9-105, 9-106.1 and 9-106.2, RCH, and authorizes all such reprogramming actions of such funds within the total amount appropriated by this ordinance to be taken by Council resolution. Amounts in excess of the total amount appropriated herein shall first be appropriated by ordinance prior to expenditure or reprogramming.

(e) For the purposes of this subsection, "City funds" excludes pension or retirement funds, funds under the control of any independent board or commission, funds set aside for the redemption of bonds or the payment of interest thereon, park dedication funds, or private trust funds.

In the event there are monies in any City fund that, in the judgment of the Director of Budget and Fiscal Services, are in excess of the amounts necessary for the immediate requirements of the respective funds, and where, in the judgment of the Director of Budget and Fiscal Services, such action will not impede the necessary or desirable financial operations of the City, the Director of Budget and Fiscal Services may make temporary transfer or loans therefrom to the Sewer Revenue Bond Improvement Fund, General Improvement Bond Fund, the Highway Improvement Bond Fund, the Solid Waste Improvement Bond Fund, and the Housing Development Special Fund, up to the total amount of appropriations authorized herein which are specified to be financed from the sale of general obligation bonds, notes or revenue bonds and to be expended from such funds; that monies transferred or loaned shall be used only for appropriations authorized herein which are specified to be financed from the sale of general obligation bonds, notes or revenue bonds and to be expended from the Sewer Revenue Bond Improvement Fund, General Improvement Bond Fund, the Highway Improvement Bond Fund, the Solid Waste Improvement Bond Fund, and the Housing Development Special Fund. In all other cases, the Director of Budget and Fiscal Services may with the consent of the Council by resolution adopted on one reading and without publication, make temporary transfers or loans therefrom without interest to other funds of the City.

All transfers or loans under this section shall be reimbursed or repaid no later than twelve months from the date on which the transfer or loan was made, unless a later date is approved by the Council by resolution adopted on one reading without publication. Interest may be charged if the monies originate from enterprise funds.

Within 14 days of the transfer or loan, the Director of Budget and Fiscal Services shall report to the Council on: (1) the amount of transfer or loan required; (2) the reason or justification for the transfer or loan; (3) the total amount outstanding and unreimbursed in temporary transfers and loans for the fiscal year after making the subject transfer or loan; and (4) the anticipated date of the reimbursement or repayment. The Director of Budget and Fiscal Services shall notify the Council of the reimbursement or repayment of the temporary transfer or

loan as soon as such reimbursement or repayment is made. Such notification shall identify the source of funding of the reimbursement or repayment of the temporary transfer or loan.

(f) At the close of each quarter, the Director of Budget and Fiscal Services shall submit to the Council a Statement of Cash Receipts and Disbursements showing for each quarter for each individual fund the cash balance at the start of the accounting period, the cash receipts and disbursements during the period, and the cash balance at the end of the period.

(g) Amounts appropriated for expenditure from the Capital Projects Fund and Federal Grants Capital Projects Fund shall be transferred to these funds as allotments are approved by the Mayor from the funds specified in this ordinance as providing the source of financing.

(h) Any appropriation authorized in this ordinance or any amendment thereto shall be valid for the fiscal year 2005 and six months thereafter. Any part of such appropriation which is not expended or encumbered shall lapse on December 31, 2005.

(i) If any portion of this ordinance or the application thereof to any person or circumstance is held to be invalid for any reason, the Council hereby declares that the remainder of this ordinance and all other provisions thereof shall not be affected thereby. If any portion of a specific appropriation is held to be invalid for any reason, the remaining portion shall be independent of the invalid portion and such remaining portion shall be expended to fulfill the objectives of such appropriation to the extent possible.

SECTION 11. The funds provided from the Project Adjustments Account may be expended to pay for any excess in contract price(s) or project cost when the contract price(s) or the project cost exceeds the City's estimate for land acquisition, planning, design, construction, inspection, relocation and equipment. The City Council's approval by resolution is required when the cumulative sum provided to a project from the Project Adjustment Account during a fiscal year exceeds either the lesser of $100,000 or ten percent of the budgeted amount.

Whenever a project's contract is executed for an amount less than the project's appropriation, only that amount that is excess within that phase, shall be transferred to the Project Adjustments Account by the Director of Budget and Fiscal Services. The Director of Budget and Fiscal Services shall report all transactions to and/or from the account to the City Council within 30 days after December 31 detailing, for the capital budget for the fiscal year just ended, the projects and work phases transferred from and to and the amounts thereof.

SECTION 12. Community Development Block Grants are monies from the United States of America which are allocated for the purpose of viable urban communities by providing decent housing, a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income. No expenditure of Community Development Block Grant monies shall be made from the appropriations in the ordinance unless the expenditure is in compliance with all Federal Community Block Grant requirements including the requirement that the expenditure must be made to: 1) principally benefit low- and moderate-income families; 2) aid in the prevention or elimination of slums or blight; or 3) meet other community

development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not to meet such needs.

SECTION 13. The Executive Capital Program for the Fiscal Year July 1, 2004 to June 30, 2005, is included in and made a part of this ordinance in the form of narrative descriptions of each capital project in Sections 2 through 8 herein. Such Programs is hereby adopted as required by the City Charter. In case of any conflict between the substantive provisions of the Executive Capital Program and the Executive Program and Budget for the Fiscal Year 2005, Volume II (Capital Program and Budget), as transmitted to the Council, and this ordinance, the provisions of this ordinance and the amendments thereto shall prevail, and the specific provisos contained in the narrative descriptions of each capital project shall have the same force and effect as the general provisos contained in this portion of the ordinance.

Any transfer of funds between phases of a project must relate to the description of the project. The project number is included for accounting purposes only. If there is a conflict between the number and the project title in this ordinance, the project title shall prevail.

SECTION 14. Sewer Revenue Bonds.

For the capital improvements authorized in Section 5 hereof and designated to be financed from the proceeds of sewer revenue bonds, the Director of Budget and Fiscal Services is hereby authorized to issue sewer revenue bonds in such principal amount as shall be required to yield the amounts appropriated for each capital improvement, and, if so determined by the Director of Budget and Fiscal Services and approved in the resolution providing for the issuance of such sewer revenue bonds, such additional principal amount as may be deemed necessary by the Director of Budget and Fiscal Services to establish, maintain, or increase reserves for such sewer revenue bonds, and to pay all or any part of the expenses related to the issuance of such sewer revenue bonds. All interest on sewer revenue bonds shall be paid out of appropriations made in the debt service function of the executive operating budget. The aforesaid sewer revenue bonds shall be issued pursuant to Chapter 49, Hawaii Revised Statutes.

SECTION 15. If any of the following projects is located where a Development Plan Public Facilities Map is in effect, no land acquisition or construction funds shall be expended or encumbered unless the project is either a minor facility in accordance with ROH, Chapter 24, or shown on the Development Plan Public Facilities Map prior to July 1, 2004. If any of the following projects is located where a Public Infrastructure Map is in effect, in the event the project is of a type listed in section 4-8.3 and is a major public infrastructure project as described in ROH, section 4-8.4, no land acquisition or construction funds shall be deemed appropriated unless a Public Infrastructure Map amendment is adopted prior to July 1, 2004. Inclusion of a project on this list does not imply that, for the purposes of Development Plan Public Facilities Map conformance, the projects listed are major projects or that, for the purposes of Public Infrastructure Map conformance, the project is of the type listed in section 4-8.3 or is a major public infrastructure project as described in ROH, section 4-8.4. The

administration shall provide the council with a detailed description of the specific expenditures made for these projects in the CIP quarterly status report.
