RECEIVED
CITY CLERK
C & C OF HONOLULU

2017 MAR 23 AM 8:20

3-21-17

I called Fire Chief 3-19-17 Sunday and left message. Monday 7:30 am She returned my call. I had concern that fire hydrant across street had been covered up by homeless camp site. She told me what I already knew about parking car distance from hydrant and said certainly it should not be hidden from view. She ask me to call Mayor's office, which I did. Later that morning 2 or 3 police cars showed up to make them take down covering hiding hydrant. Officer Espiritu from Kalihi office called me & talked to me. He ask me to call him any time we have a problem here on Lwilei Rd.

I also had made 5 calls to 911 about tents that had set up right near corner that made it impossible to pull out from off ramp from Nimitz to Lwilei left lane &

MISC. COM. 1257

PH

Right lane that goes to light at N. King St.
On my 5th call I explained I was not going to call anymore I would just take pictures I had taken to council meeting.
I have pictures taken from car showing how difficult it is to pull out left on Iwilei. Coming off ramp turning left & coming down Iwilei right lane going to N. King at light. A lot of the officers use excuse about ACLU law suit, I understand but they who break these laws that effect public safety. People here in our senior apt. @ 888 Iwilei have been very upset that this didn't seem to be important to correct.
Officer Espiritu was the only one who took the time to take off ramp to Iwilei to see the problem.
The police dept. needs to stop using ACLU law suit as excuse for

not enforcing safety laws.
We are tired of hearing this
answer for not doing their job.
We all have to go by the laws.
They cannot be exempt from
all laws because they on our
Street choose to be homeless
when there is help offered.
I could go on and on, this
is not how we as older seniors
wont to live out the rest of our
years.
