

A BILL FOR AN ORDINANCE

RELATING TO DISPOSAL CHARGES.

BE IT ORDAINED by the People of the City and County of Honolulu:

SECTION 1. Purpose. The purpose of this ordinance is to change the discount on city disposal fees that private, commercial recycling companies receive for disposing of recycling residue at H-POWER or Waimanalo Gulch Sanitary Landfill.

SECTION 2. Section 9-4.2, Revised Ordinances of Honolulu 1990, ("Disposal charges for businesses and federal, state and city agencies"), is amended by amending subsections (b), (c), and (d) to read as follows:

"(b) Minimum and Special Charges.

- (1) Minimum Charges. The minimum charge per truckload shall be equal to the unit charge per cubic yard. The unit charge per cubic yard will be assessed only in the event of a breakdown or unavailability of weighing equipment at the disposal facility.
- (2) Special Charges. All special charges will apply to businesses, and federal and state agencies.
 - (A) Landfill. In addition to the unit charges established in this section, a charge per truckload for special wastes requiring special handling or arrangements by the city's or operating contractor's employees for proper disposal at landfills shall be imposed as follows:

Special Handling Charge

\$84.25

- (B) H-POWER. In addition to the unit charges established in subsection (a), a per ton and a per hour charge for waste delivered to the H-POWER facility requiring special handling or arrangements by the H-POWER contractor's employees shall be imposed as follows:

A BILL FOR AN ORDINANCE

Per Ton Charge

DISPOSAL AREA	Special Handling Per Ton Charge	Minimum Load Charge
Auger Bin	\$540.00	\$270.00
RDF Storage Floor	440.00	220.00
MSW Storage Floor	320.00	210.00

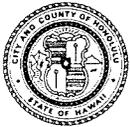

The charge per ton or minimum load charge, whichever is greater, shall be assessed against each business or agency served. In addition to this assessment, there shall be a per hour charge as specified below:

Per Hour Charge

DISPOSAL AREA	Special Handling Per Hour Charge
Auger Bin	\$250 per hour or fraction thereof
RDF Storage Floor	\$25 per hour or fraction thereof per H-POWER contractor's employee
MSW Storage Floor	\$25 per hour or fraction thereof per H-POWER contractor's employee

(c) The unit charge per ton or per cubic yard for residue from recycling operations shall be discounted to [20] 40 percent of the unit charge for businesses provided in subsection (a) for disposal at landfills and H-POWER. For the purposes of this subsection, a recycling operation is one that recovers post-consumer waste materials for use in new consumer products. Such residue from recycling operations shall meet all of the following conditions:

- (1) The recycling operations shall recover at least 2,000 pounds of recyclable material per month;
- (2) The recyclable material is shipped off-island or the recyclable material is incorporated into a new consumer product directly by the recycling operation;
- (3) The residue is a maximum of 25 percent of the weight of the recyclable material recovered;

A BILL FOR AN ORDINANCE

- (4) The residue is a direct result of the recycling operation only;
- (5) The residue is not commingled with other waste at delivery; and
- (6) The residue does not contain any recyclable material.

Upon submission of a written request and supporting data from the owner of the recycling operation, the director shall determine whether the residue from the recycling operation is eligible for this reduced unit charge. All residue from the recycling operation shall be transported to the disposal site in the recycler's own vehicle, or if the recycler utilizes the services of another company to haul its residue for disposal, the truck used for hauling shall be so constructed as to allow ready inspection of its load before disposal. Disposal charges shall be charged directly to the recycling operation, initially at the standard rates. The reduction in disposal charges for recycling residues shall be applied after the recycling operation submits a monthly report to the director documenting types and quantities of the materials recycled and the residues resulting therefrom.

- (d) Exemption. Any eleemosynary or charitable organization which has been determined by the Internal Revenue Service to qualify as a tax-exempt organization under the provisions of Section 501(c)(3) of the Internal Revenue Code and which recovers post-consumer waste materials for charitable use through a donated merchandise program, generating residue as a byproduct of its charitable function, shall be exempt from the disposal and special handling charges of subsections (a) and (b), the recycling residue charges of subsection (c), and the fees of subsection (f). The eleemosynary organization shall meet conditions (1) through (6) of subsection (c). The residue shall be clearly marked at the time of disposal to indicate it as the property of the eleemosynary organization and shall not be commingled with waste from any source other than that of the eleemosynary organization. In the event that an eleemosynary organization contracts with a private business to dispose of residue in compacted form or otherwise, the private business shall be initially charged the standard disposal fees for the disposal of the residue. The exemption to disposal fees shall be applied to the private business's account after the eleemosynary organization submits a monthly report to the [chief engineer] director documenting dates and numbers of loads of residue dispatched to the disposal sites."

SECTION 3. Ordinance material to be repealed is bracketed. New material is underscored. When revising, compiling and printing this ordinance for inclusion in the Revised Ordinances of Honolulu, the revisor of ordinances need not include the brackets, the bracketed material, or the underscoring.

A BILL FOR AN ORDINANCE

SECTION 4. On or before June 30, 2012, the Department of Environmental Services shall report to the Council on the effects and impacts of the 60% discount on disposal charges for recycling residue. The effects and impacts may include, but not be limited to, the following: (1) any increase or decrease in the tonnage of recycling residue disposed of at the city's municipal solid waste landfill and the H-POWER facility; (2) financial impacts on commercial recycling companies; (3) any impact on recycling rates or amounts of materials being recycled in the city; (4) effects on city revenues, including city disposal charges; and (5) any increase or decrease in bulky items in the community. On or before June 30, 2012, the Department shall also recommend to the Council on whether to keep the 60% discount on recycling residue, repeal the discount, or make any other change to the discount.

A BILL FOR AN ORDINANCE

SECTION 5. This ordinance shall take effect on July 1, 2011. The amendment made to Section 9-4.2(c) in Section 2 of this ordinance shall be repealed as of June 30, 2012.
