RECEIVED
FEB 14 5 02 PM '12
CITY CLERK
HONOLULU, HAWAII

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Our home is in Lualualei Valley. We are small time farmers. We need you to continue to protect ag in Lualualei. A few miles away is Campbell industrial Park.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

We already import over 90% of our food. This is dangerous and reckless. We need to increase our self sufficiency not reduce it.

As a structural engineer, I have the potential to gain from increasing our sprawl, but it is not worth the cost to the island and its people to develop in this manner. I support responsible planning.

Please reject the purple spot.

The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Luaualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

Aloha e Councilman Berg,

Mahalo for your support! I am highly dismayed by the proposal to allow some of the state's best farmland to industrial use. No only is the single road to Waianae too congested, but the people of the state, particularly on Oahu, need access to locally produced foods!

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Luualalei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. I can think of no better way to utilize this land. The purple spot absolutely erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. This would certainly serve NO proper purpose. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning. I can't believe that they actually had the nerve to say that! Unbelievable indeed!

You are one of the few that has stood up for the farmers. And we thank you!!!! As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convulted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

Subject: ** SPAM ** Mahalo for your support against the purple spot

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process.

Although I don't live in Lualualei I have friends who farm there and other places on O'ahu and I want to continue to be able to support local farmers and local produce and hope that my children will be able to do the same. We need to protect what little ag land we have left on this island!

You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. Aloha e Councilman Berg,

I agree with the letters you have already received about the need to protect agricultural lands throughout the Wai`anae Coast.

Every time an agricultural or forest area is developed for industry or anything besides its rural use, it makes Hawaii more dependent on imported food and fuel, more polluted, and less healthy.

I support the farmers and residents of Wai`anae. I'm glad that you do, too.

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future.

The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

You are one of the few that has stood up for the farmers. And we thank you. As we make this last stand on Wednesday, we hope that you will remain strong.

Aloha e Councilman Berg,

Thank you so much for standing up against the developer-driven purple spot and corruption of good public process. You listened to the residents of the Wai`anae Coast, and especially the farmers of Hakimo Road, who have participated in every step of this process and been denied fair treatment. All they want is to make sure there is a place for farming families in Wai`anae's future. The purple spot erodes that place by introducing a new and isolated urban land use into the agricultural district of Lualualei. They explained this to the Planning Director, who ignored them. They told it to the Planning Commission, who failed to make a decision one way or another. They made themselves perfectly clear to the Planning and Zoning Committee, who chose to deny them on the convoluted logic that concrete and industrial zoning is "closer to ag" than crop production allowed in P-2 zoning.

We don't need anymore toxic in this community. We need farms and a reeducation on the absolute vital practice of eating and farming organically.
