RECEIVED
FEB 14 5 02 PM '12
CITY CLERK
HONOLULU, HAWAII

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Subject: Support Farmers, Remove the Purple Spot

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Aloha e Councilwoman Kobayashi,

Although I don't live in Lualualei I have friends who farm there and other places on O'ahu and I want to continue to be able to support local farmers and local produce and hope that my children will be able to do the same. We need to protect what little ag land we have left on this island!

I am sad to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). I know that you support farming, so why invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu? Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. Councilwoman Kobayashi,

I'm disappointed to hear that you voted against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). As someone who grew up in Lualualei Valley and comes from a family of farmers -- in fact, a whole community of farmers -- I hope you will come to see the intrinsic value of the land in this valley and vote for removing the "purple spot" from Bill 50.

You say you support farming. So why invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu? Approving the "purple spot" will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

Please vote against leaving the "purple spot" in Bill 50.

Mahalo.

The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Subject: Support Farmers, Remove the Purple Spot

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50..

Let?s grow food!

Mahalo.

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Subject: Please Support Farmers, Remove the Purple Spot!!!

Aloha e Councilwoman Kobayashi,

I was, and remain, shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. This makes absolutely no sense to me as it is completely unnecessary. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities. This action and trend would surely be unacceptable!

To be perfectly clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food. This land is currently being utilized in a "best use" manor and there is absolutely NO reason to change that.

I strongly support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

This land should grow more food!

Mahalo.

So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

Salutations Councilwoman Kobayashi,

I was semi-shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities. But perhaps that's what you want.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures, not even a mega-corporation could benefit from such bad use of land. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you do too. Please vote to remove the purple spot from Bill 50.

Subject: Support Farmers, Remove the Purple Spot

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

Aloha e Councilwoman Kobayashi,

My name is Kasha Ho, I live in your district, in the back of Palolo Valley. I am contacting you today with extreme concern about the vote on Industrial Park designation in Wai'anae.

I formerly worked in the Wai'anae community at Wai'anae Intermediate School with MA'O Organic Farms' youth development and agriculture programs, and I saw first hand the need to preserve and provide spaces for families on the West Side to continue and revive sustainable farming practices.

Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let's grow food!

Mahalo.

Aloha e Councilwoman Kobayashi,

I am highly dismayed by the proposal to allow some of the state's best farmland to industrial use. No only is the single road to Waianae too congested, but the people of the state, particularly on Oahu, need access to locally produced foods!

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Subject: Support Farmers, Remove the Purple Spot

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Subject: Support Farmers, Remove the Purple Spot

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Mahalo. P. S. I was raised on the Kalawelo Homestead in Lualualei. I do not want to see the sacrilege of development in Lualualei. It's bad enough that we had Mufi's sewer in 2006 from over development in Honolulu, & that people must avoid the beaches, the shoreline & ocean when there's a heavy rain & the septic tank/cesspool/sewer overflow contaminates everything. All the money in the world cannot pay for self-contaminated water, soil, ocean & fishing.

Thank you for your vote to remove the purple spot from Bill 50.

Aloha Councilwoman Kobayashi,

Hawaii, in its isolated location in the Pacific, is vulnerable for potential food shortages if the surface and/or air transportation were disrupted. We should be designating MORE areas as ag land, instead of establishing industrial areas on existing farmland.

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Aloha e Councilwoman Kobayashi,

I was saddened to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). What would you say about an industrial park in the middle of Manoa posing as an ag business? You claim you support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear: the purple spot is an industrial park. It is not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

Aloha Councilwoman Kobayashi,

Since I support small Ag whenever and wherever I can, I was not happy to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). I've heard you speak in meetings that you strongly support local farmers and agriculture. So why would you encourage an industrial park in the heart of Lualualei Valley? Surely this can not be a good for the farmers of that area.

Ms. Kobayashi, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning. Why reward this illegal behavior?

The truck baseyard, according to estimates, would increase traffic by at least 500 new vehicles every hour and this could increase the dust and erosion of the road. The legal access is a sometimes-single-lane country road and is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae who are opposed to this land use change. I hope you will too. We should malama aina, not crush the aina. Please vote against the industrial forces at work in this valley. Please vote to remove the purple spot from Bill 50.

Mahalo.

Aloha e Councilwoman Kobayashi,

I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

Let?s grow food!

Mahalo.

We don't need anymore toxic in this community. We need farms and a reeducation on the absolute vital practice of eating and farming organically.

Dear Ann Kobayashi,

I am kama'aina 22 years here on the island and I was shocked to hear that you voted in committee against removing the purple spot from the Wai`anae Sustainable Communities Plan (Bill 50). You support farming. So why would you invite a 100-acre urban area into the heart of Lualualei Valley -- the largest, most productive valley on Oahu. Approving the purple spot will encourage future urban sprawl in Lualualei that undermines the fabric of farming communities.

To be clear, the purple spot is an industrial park, not an agriculture-related business park. The current EIS for the project identifies truck baseyard as the primary use of the industrial park. Indeed, Tropic Land has been cited multiple times for baseyarding trucks on this property in violation of the current P-2 ag-zoning.

The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. So it makes no sense to build on this property. It does, however, make sense to grow food.

I support the farmers and residents of Wai`anae. I hope you will too. Please vote to remove the purple spot from Bill 50.

We need to make a difference on what's left of our beautiful aina!!

A hui hou,
