RECEIVED
FEB 14 5 02 PM '12
CITY CLERK
HONOLULU, HAWAII

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai'anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai'anae Plan.

Mahalo.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Aloha e Councilman Anderson,

We already import over 90% of our food. This is dangerous and reckless. We need to increase our self sufficiency not reduce it.
As a structural engineer, I have the potential to gain from increasing our sprawl, but it is not worth the cost to the island and its people to develop in this manner. I support responsible planning.

Please reject the purple spot.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Aloha e Councilman Anderson,

I am highly dismayed by the proposal to allow some of the state's best farmland to industrial use. No only is the single road to Waianae too congested, but the people of the state, particularly on Oahu, need access to locally produced foods!

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed. As a resident of Waimanalo it is easy to see how important preserving what productive ag land there is remaining on Oahu. We all know there's only one way in and out of Waianae and to add more trucks on that road sounds ludicrous. Promote local food not mainland imports!!!!

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase truck traffic AND REDUCE THE AMOUNT OF LOCAL FOOD WHICH COULD BE GROWN==ONCE AG LAND IS CONVERTED TO INDUSTRIAL USE IT IS REAL TOUGH TO GET IT BACK.

Adding an industrial park to ag land is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Subject: Support Good Planning, Please Remove the Purple Spot

Aloha e Councilman Anderson,

I am writing to urge you to strongly oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, NOT an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures. To change the use of this land is unnecessary and unacceptable!

Simply put, the purple spot industrial park is a really, really bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment. We should be saving this land for it's current and best use, agricultural.

PLEASE support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Subject: Support Good Planning, Remove the Purple Spot

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Subject: Support Good Planning, Remove the Purple Spot

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Subject: Support Good Planning, Remove the Purple Spot

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Subject: ** SPAM ** Support Good Planning, Remove the Purple Spot

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

Although I don't live in Lualualei I have friends who farm there and other places on O'ahu and I want to continue to be able to support local farmers and local produce and hope that my children will be able to do the same. We need to protect what little ag land we have left on this island!

It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Subject: Support Good Planning, Remove the Purple Spot

Aloha e Councilman Anderson,

I am writing to urge you to oppose Bill 50, the Wai`anae Sustainable Communities Plan, unless the purple spot is removed.

To be clear, Tropic Land is advocating for a generic industrial park, not an agriculture-related business park. The EIS for the project indicates that it would primary be a trucking baseyard. It would increase traffic by at least 500 new vehicles every hour. The legal access is a sometimes-single-lane country road. The area is prone to drastic and sudden flooding. The soil is self-inverting and thus cannot support heavy structures.

Simply put, the purple spot industrial park is a bad idea. That is why the residents and farmers of Lualualei oppose the project. That is why the Land Use Commission denied Tropic Land's petition for a boundary amendment.

Please support good planning and remove the purple spot from the Wai`anae Plan.

Mahalo.
