Subject: THE LABELING OF GMOs - a person plea

Aloha,

I know the vote on GMO labeling is tomorrow and although I wish I could be on Oahu in person to give testimony, I sadly cannot.

We have the RIGHT TO KNOW what we are spending our money on and if it may be poisonous to our health, supporting GIANT CORPORATIONS CONTROLLING AGRICULTURE in Hawaii and around the World, or DESTROYING the LAND of Hawaii through EXPERIMENTAL, OPEN AIR FIELD TESTS of engineered crops that THREATEN ORIGINAL SEED.

Already 50 COUNTRIES REQUIRE GMO labeling.

GENETICALLY MODIFIED Organisms are IN OUR FOOD SUPPLY. We HAVE THE RIGHT TO KNOW! I have to right to protect my babies.

Please do the right thing tomorrow, for our islands, for our health, for our reputation in tourism. and especially for our Keiki. We are poisoning them.

Aloha,

CT Casey
