**I am in favor of Bill 11.** Those who mention that Bill 11 would create a monopoly are incredibly misleading and this fact must be clarified. All businesses can continue to operate within the confines of their commercially zoned location and allow customers to transport equipment on their vehicles. This was a sustainable model that worked for the community and business alike since the early 80's. I applaud the solution offered by Councilman Anderson and the full council support would be greatly appreciated by the community and business owners alike.
