Subject: City Council Public Hearing Testimony- re-commit Res 12-57 for Hawaii GMO Labeling

re-commit Resolution 12-57 for Hawaii GMO Labeling

Genetically modified foods have been linked to toxic and allergic reactions, sick, sterile, and dead livestock, and damage to virtually every organ studied in lab animals. The effects on humans of consuming these new combinations of proteins produced in GMOs are unknown and have not been studied. We ask that you require GMO foods be labeled.

The citizens of our County have a right to know if a food has been GMO modified. They have a right to choose what foods they eat.

Peace...

:) Teri Gwarek
