Sent: Sunday, June 03, 2012 7:52 AM
Subject: Please STOP rail!

I oppose HART funding and want you to STOP the rail project without delay. Please oppose funding for rail at Wednesday's council meeting. It has been so badly managed, communicated, not shared or disclosed, off track and ugly. It smacks of shabai from Big Builders and political insiders. Ignored experts say it is far too big and overcostly for our population and usership. We do need something to help the poor folks who bought Kapolei (without sufficient infrastructure to support them), but this big mostrosity is too pilau.

Subject: Please move rail forward!

I support HART funding and want to see the rail project move forward without delay. Please support funding for rail at Wednesday's council meeting. We NEED rail for the thousands of jobs it will create and the alternative it provides to grid-locked rush-hour traffic. If you haven't noticed, the Lunalilo Freeway is jammed even on weekends! We need relief! Now is the time to start to build! We should have built it 20 years ago when the cost was only \$1 billion. Instead, we waited -- and now look at the cost! If we delay rail again, the cost will be beyond our reach. The time to build rail is NOW!

Subject: Stay committed & please move rail forward!

I support HART funding and want to see the rail project move forward without delay. Please support funding for rail at Wednesday's council meeting.

In addition to impacting the increasing traffic problems in Honolulu, West & Central Oahu, rail transit and transit-oriented community development will help restore local community qualities to our island that huge, isolating motor vehicles and more, wider, and faster roads to accommodate them have taken away.

The current rail project is the first step in a 50 - 100 year horizon for island-wide rail that will benefit all of us.
