**Subject:** Haleiwa sale

Aloha,

I am writing testimony AGAINST resolution 12-143. Our open space is precious - it has a value that is not necessarily appropriate for a closed bid.

Please consider allowing the City to retain the land in Haleiwa Regional Park. There are other lots that would be more appropriate for development, and the City has a precedent of buying land and creating real value (in tourist dollars, environmental services) for those pieces of land.
