PREFACE

An outdated version of the Kailua Beach Park Master Plan drawing was inadvertently included in the Draft Environmental Assessment. The current Kailua Beach Park Master Plan proposes no realignment of the entry road to Makalii Road and no modification to the parking lot near the pavilion as was depicted in the drawing included in the Draft Environmental Assessment. The current Master Plan is included in the Final Environmental Assessment.

The text of the Draft Environmental Assessment has not been revised as a result of public review of the Draft Environmental Assessment. All comments received and their responses are appended in the Final Environmental Assessment.
