Subject: Council Meeting Testimony

Testimony in support of Bill 11.

Dear Councilmembers,

As existing law has been neglected by tour operators and bus companies, and as the plunder of our frail road and beach systems continue to be overwhelmed by people who do not come as guests, or as visitors but rather they come as profiteers in an area that just cannot support the number of people now descending upon our residential community, I write to you today to ask for your full support of Bill 11 and ask that you and your fellow councilmembers respect and honor the voices of the people of Kailua and all O'ahu coastal communities when we respectfully request that you pass this important and life changing bill when it comes before you. It is important to remember the purpose and the intent of creating a Park in our communities. Parks are for community, residential use, for use by our family and friends, not for the commercial exploitation, the likes that we have never seen in Kailua. I ask you to consider this. If Bill 11 is NOT passed, and we have so many problems now, what is to follow? I thank you for your service to our communities and our island, for your time, and for these important considerations. Please vote yes on Bill11!

Mahalo & Aloha, Russell Francis Kailua 71'
