Subject: City Council Public Hearing Testimony

Aloha,

I think most officials have heard or know by this point that there are 1 or 2 companies that are creating a majority of the traffic that's affecting Kailua Beach right now. To punish all vendors, and effectively shut down their businesses, by passing Bill 11 will unjustly hurt the majority of rental companies while not affecting at all, the biggest company KSK, which is located next to the beach and creates most of the traffic.

Regulate, don't terminate.

Mahalo,

Jeremy Moncur
