Dear City Counsel members,

We are home owners in Ewa Beach and want to voice our support for the public use lagoon on the Hasco property instead of the previously proposed marina.

Most of the property owners in the Ewa Beach area would probably not get much use from a marina, on the other hand, a lagoon with beaches and flat water recreation including canoeing, paddleboarding, kayaking, swimming etc would be very desirable for the folks in the area.

Please support this proposed change in use, we do.

The Hanset family,  
Pupu street  
Ewa Beach
