Aloha Chair Anderson and Zoning and Planning Committee members,

RE: Support the Ewa Development Plan and Haseko's project

Please support Haseko's decision to add a lagoon as an alternative to a marina on the Ewa Development Plan.

This new plan protects our shoreline. Having a lagoon instead of a marina means we get to keep our reef intact. It also allows for a continuous promenade that connects Oneula Beach Park with White Plains.

This change in Haseko's plan benefits our community. It's a great asset and definitely more family oriented than a marina. It compliments what our rocky shoreline is missing by adding a new place for swimming and flatwater conditions for learning and practicing canoe paddling, kayaking, and other ocean sports like stand up paddling – which I find much more attractive place for families to gather.

Give your support for a better alternative for our families.

Aloha Chair Anderson and Zoning and Planning Committee members,

RE: Support the Ewa Development Plan and Haseko's project

Please support Haseko's decision to add a lagoon as an alternative to a marina on the Ewa Development Plan.

This new plan protects our shoreline. Having a lagoon instead of a marina means we get to keep our reef intact. It also allows for a continuous promenade that connects Oneula Beach Park with White Plains.

This change in Haseko's plan benefits our community. It's a great asset and definitely more family oriented than a marina. It compliments what our rocky shoreline is missing by adding a new place for swimming and flatwater conditions for learning and practicing canoe paddling, kayaking, and other ocean sports like stand up paddling – which I find much more attractive place for families to gather.

Give your support for a better alternative for our families.

Please support Haseko's decision to add a lagoon as an alternative to a marina on the Ewa Development Plan.

This new plan protects our shoreline. Having a lagoon instead of a marina means we get to keep our reef intact. It also allows for a continuous promenade that connects Oneula Beach Park with White Plains.

This change in Haseko's plan benefits our community. It's a great asset and definitely more family oriented than a marina. It compliments what our rocky shoreline is missing by adding a new place for swimming and flatwater conditions for learning and practicing canoe paddling, kayaking, and other ocean sports like stand up paddling – which I find much more attractive place for families to gather.

Give your support for a better alternative for our families.
