Subject: Intergovernmental Affairs and Human Services Committee Testimony

Animal Haven does not support Bill 1 banning an entire species from the island, nor picking a number to be allowed. To do so is arbitrary and capricious, We do not limit the number of children allowed in a dwelling for instance. We have security deposits for damages, child services for addressing child abuse, and other thoughtful measures to deal with problems that may arise. What should be addressed in a thoughtful and surgical manner are the harms seeking to be prevented.

Frank DeGiacomo, Pres.
Animal Haven
