Subject: Council Meeting Testimony Bill 7

As a long time member of City & County of Honolulu Maikiki Neighborhood Board 10. I strongly oppose the banning of tent on sidewalks that are call out in both bill 6 and 7. Both these bills violates the Law of the Splinted Paddle and will not be legal in court. If you want to fix the housing problem why don't you put in a bill requiring big corporations to pay their employee a living wage. You have allowed Wal-mart to put 90% of their workers on part time wages and you're wondering why people are living on the sidewalks. Your first problem is you are not talking to the right people. If you want to fix the problem try talking to the Occupy Honolulu Activists that are living at Thomas Square they have great ideas and are dedicated to helping the houseless.
