(3) The burden of proof that work to be performed qualifies for an exemption from the payment of building permit fees due to a major disaster shall be on the owner of the structure. (c) All owners and their contractors shall be exempt from paying that portion of any building permit fee for permits issued after September 15, 1994 attributable to the installation of ultra-low flush toilets that they install on their properties to replace existing nonultra-low flush toilets.

(d) The building official shall waive the collection of any building permit fee for a period of three years where the business has been certified to be a qualified business pursuant to Section 35-1.3.
