CITY CLERK
HONOLULU, HAWAII

To: Chair Ernest Y. Martin

Vice-Chair Ikaika Anderson

Members of the Council of the City & County of Honolulu

Re: Support of Bill 72, CD 1, prohibiting smoking in certain places

Hearing: Regular Meeting of the City Council Chamber, Wednesday, March 20, 2013 at 10 AM.

I am in strong support of Bill 72, CD 1, which would make certain beaches on Oahu smoke-free. This policy sends a strong message about the importance of protecting the health and environment of the people who live on and visit Oahu.

The negative health effects of tobacco and secondhand smoke are well-known. The US Surgeon General notes that any level of exposure to secondhand smoke is dangerous and can be harmful. Cigarette butts are not only unsightly litter—they can also be toxic to children, pets and marine life. They degrade the quality of coastal areas where people play, swim, fish and boat. With limited land space and a dense population, it is especially important to ensure that local families have access to clean and safe public recreation areas.

A 2012 poll shows that over 73% of Oahu residents support a law for tobacco-free public beaches and parks. Other states and counties have enacted smoke-free beaches laws and have realized the benefits of creating these protected spaces.

Please support this bill—for the health and safety of our residents and visitors.

Thank you for the opportunity to testify.

A 2012 poll shows that over 73% of Oahu residents support a law for tobacco-free public beaches and parks. Other states and counties have enacted smoke-free beaches laws and have realized the benefits of creating these protected spaces.

Please support this bill—for the health and safety of our residents and visitors.

Also, prohibit use of all tobacco products on all beaches.

Thank you for the opportunity to testify.

Re: Support of Bill 72, CD 1, prohibiting smoking in certain places

Hearing: Regular Meeting of the City Council Chamber, Wednesday, March 20, 2013 at 10 AM.

Thank you for your time and attention to this progressive bill! I am in strong support of Bill 72, CD 1, which would make certain beaches on Oahu smoke-free. This policy sends a strong message about the importance of protecting the health and environment of the people who live on and visit Oahu.

The negative health effects of tobacco and secondhand smoke are well-known. The US Surgeon General notes that any level of exposure to secondhand smoke is dangerous and can be harmful. Cigarette butts are not only unsightly litter—they can also be toxic to children, pets and marine life. They degrade the quality of coastal areas where people play, swim, fish and boat. With limited land space and a dense population, it is especially important to ensure that local families have access to clean and safe public recreation areas.

I've worked hard to be fit and healthy and I want to stay that way and enjoy OUR beaches, please.

A 2012 poll shows that over 73% of Oahu residents support a law for tobacco-free public beaches and parks. Other states and counties have enacted smoke-free beaches laws and have realized the benefits of creating these protected spaces.

Please support this bill—for the health and safety of our residents and visitors.

Thank you for the opportunity to testify.

The negative health effects of tobacco and secondhand smoke are well-known. The US Surgeon General notes that any level of exposure to secondhand smoke is dangerous and can be harmful. Cigarette butts are not only unsightly litter—they can also be toxic to children, pets and marine life. They degrade the quality of coastal areas where people play, swim, fish and boat. With limited land space and a dense population, it is especially important to ensure that local families have access to clean and safe public recreation areas.

A 2012 poll shows that over 73% of Oahu residents support a law for tobacco-free public beaches and parks. Other states and counties have enacted smoke-free beaches laws and have realized the benefits of creating these protected spaces. My teacher colleague said to me that she would rather die than give up smoking and a year later she passed away from smoking addiction. So, legislation is the only way to protect nonsmokers.

Please support this bill—for the health and safety of our residents and visitors.

Thank you for the opportunity to testify.

Re: Support of Bill 72, CD 1, prohibiting smoking in certain places

Hearing: Regular Meeting of the City Council Chamber, Wednesday, March 20, 2013 at 10 AM.

I am in strong support of Bill 72, CD 1, which would make certain beaches on Oahu smoke-free. This policy sends a strong message about the importance of protecting the health and environment of the people who live on and visit Oahu.

The negative health effects of tobacco and secondhand smoke are well-known. The US Surgeon General notes that any level of exposure to secondhand smoke is dangerous and can be harmful. Cigarette butts are not only unsightly litter—they can also be toxic to children, pets and marine life. They degrade the quality of coastal areas where people play, swim, fish and boat. Aloha Chair Ernest Y. Martin, Vice-Chair Ikaika Anderson and members of the Council of the City & County of Honolulu,

Re: Support of Bill 72, CD 1, prohibiting smoking in certain places

Hearing: Regular Meeting of the City Council Chamber, Wednesday, March 20, 2013 at 10 AM.

As a member of the Surfrider Foundation, I have cleaned up others cigarette liter from our beaches for over a decade. It would seem that littering laws and common decency just aren't working well enough to keep our beaches clean. Although I do support individual liberty, The abuse of an abundance of individuals of this liberty has brought us to a place to regulate it. Since the smoking public doesn't respect their environment and the health of their neighbors, I say it's time to remove their poor and destructive behavior from Oahu's beaches.

Furthermore, smoking does not have a place, in our modern and well informed society, on the beach where families are trying to enjoy some good clean and healthy recreation. Let's get on with progress and get the litter off our beaches, Let's rejoice in the clean marine air while we sit on a clean beach as we did before the scourge of cigarettes took it away from us.

Please support this bill—for the health and safety of our residents and visitors.

Re: Support of Bill 72, CD 1, prohibiting smoking in certain places

Hearing: Regular Meeting of the City Council Chamber, Wednesday, March 20, 2013 at 10 AM.

I am in strong support of Bill 72, CD 1, which would make certain beaches on Oahu smoke-free. This policy sends a strong message about the importance of protecting the health and environment of the people who live on and visit Oahu.

The negative health effects of tobacco and secondhand smoke are well-known. The US Surgeon General notes that any level of exposure to secondhand smoke is dangerous and can be harmful. Cigarette butts are not only unsightly litter—they can also be toxic to children, pets and marine life. They degrade the quality of coastal areas where people play, swim, fish and boat. With limited land space and a dense population, it is especially important to ensure that local families have access to clean and safe public recreation areas.

A 2012 poll shows that over 73% of Oahu residents support a law for tobacco-free public beaches and parks. Other states and counties have enacted smoke-free beaches laws and have realized the benefits of creating these protected spaces.

Please support this bill—for the health and safety of our residents and visitors.

Thank you for the opportunity to testify.
