CITY CLERK
HONOLULU, HAWAII

I totally support the projects outlined in Bills 11 and 12 CD2 re: the Haleiwa Walkway Improvements, public parking, and economic clusters Strategic Plan. I Have worked as a volunteer each and every Friday for 4 years in the Haleiwa Chamber of Commerce office. As a volunteer, I deal with visitors all the time from all over the world. As interesting as that all is, however, the sorry aspect of Haleiwa is our roadways and total lack of safe walkways for anyone. If I walk across the street to the Post Office, I have a crosswalk and take my life in my hands. When the bus stops at its assigned stop, traffic in both directions ceases. When the KS project begins and is finally completed, it will be absolute hell out there for anyone on foot, bicycle, or car. It is so unsafe all the way through.

Haleiwa depends on tourists for its continued livelihood. Just as tourists driving on Nimitz to Waikiki see docks, dilapidated buildings, industrial, stop lights, traffic – we see little cute shops and interesting things to buy if anyone can get to them. We need to do a much better job. Please support these bills.

Alice J. Rogers, 95-204 Hoani Place, Mililani 96789
