Subject: Ambulance service

Aloha,

I understand there is application submitted in care of an additional ambulance service which would serve Ewa as well as other areas.

The city cannot afford not to affirm the additional service. Response times are currently too long and with the ever increasing traffic problem, response times without additional service will only get worse.

I support the addition of another ambulance provider, and ask that the city approve the application so that the citizens of Honolulu will better served.

Lives are at stake.

Mahalo,

Kirk
