Committee Meeting Held  
August 22, 2013

Honorable Ernest Y. Martin  
Chair, City Council  
City and County of Honolulu

Mr. Chair:

Your Committee on Zoning and Planning, to which was referred Bill 45 (2013) entitled:

"A BILL FOR AN ORDINANCE TO REZONE LAND SITUATED AT KAPAA VALLEY, KAILUA, OAHU, HAWAII,"

transmitted by Departmental Communication No. 506 dated July 5, 2013, and which passed First Reading at the August 7, 2013 Council meeting, reports as follows:

The purpose of Bill 45 (2013) is to rezone approximately 27 acres of land situated in Kapaa Valley from the P-2 General Preservation District to the I-1 Limited Industrial District at the request of Kapaa I, LLC (the "Applicant"), to permit development of a light industrial park.

Your Committee finds that the Planning Commission, after a public hearing held on June 12, 2013 at which testimony was received in support of and in opposition to the zone change request, voted to recommend approval of the rezoning in concurrence with the recommendation of the Department of Planning and Permitting (DPP) in the Attachment to Departmental Communication No. 506 (2013).

# REPORT OF THE COMMITTEE ON ZONING AND PLANNING

## Voting Members:

Ikaika Anderson, Chair; Breene Harimoto, Vice-Chair;  
Ann H. Kobayashi, Ron Menor, Kymberly Marcos Pine

---

Committee Meeting Held  
August 22, 2013  
Page 2

At your Committee's meeting on August 22, 2013, public testimony was received in support of the Bill. A representative of the DPP also stated that the Department supports the Bill and that the Applicant's proposal to use low-impact development techniques and to seek LEED certification is unique.

Your Committee has reviewed the conditions recommended by the DPP to be included in a Unilateral Agreement for this rezoning, as set forth in the Attachment to Departmental Communication No. 506 (2013). Although your Committee generally finds the DPP's proposed conditions to be appropriate, your Committee further recommends certain revisions and additions to the proposed conditions as discussed below.

### Stormwater Facilities

Your Committee recommends that the DPP's proposed Condition No. 3 be amended to read as follows:

3. Stormwater Facilities. The Land shall be subject to the following requirements related to stormwater facility improvements and maintenance, unless otherwise amended by the Director of the DPP.
  - a. The Declarant shall continue to accept all off-site stormwater drainage onto the Land from the culvert located under Kapa'a Quarry Access Road, which collects runoff from a drainage ditch on the south side of the road, as highlighted in Exhibit C attached hereto and made a part hereof.

Page 3

- b. Development on the lower-elevation portion of the Land, within the parcel identified as Tax Map Key: 4-2-15: 6 (see Exhibit B), shall utilize all of the low impact development approaches for stormwater as described in Appendix E of the zone change application, dated November 2012. These approaches include treating stormwater runoff on site through underground storage containers while avoiding infiltration of rainwater into the existing landfill body. Prior to the issuance of a certificate of occupancy for any building on the lower-elevation portion of the Land, the Declarant shall install stormwater management infrastructure to accommodate the development.
- c. The Declarant shall be responsible for monitoring and maintaining all on-site infrastructure for stormwater management, including infrastructure related to item "a" above.

### Exterior Lighting

Your Committee recommends that a new Condition No. 4 be added as follows to the Unilateral Agreement, and subsequent conditions be renumbered accordingly:

4. Exterior Lighting. To mitigate lighting impacts on migrating seabirds, all exterior lighting shall be fully shielded such that light emitted from the fixture is projected below the horizontal plane of the lowest point of the fixture. Prior to the issuance of building permits for the purpose of site development, the Declarant shall submit a conceptual plan for light management to the State of Hawaii Department of Land and Natural Resources (DLNR), Division of Forestry and Wildlife for review and approval, unless the DLNR grants an exemption, in whole or part, from the requirement; and, the Declarant shall thereafter provide the DPP

with documentation of approval or exemption. The Plan shall address the proposed location and design scheme of exterior light fixtures as well as light bulb brightness, bulb type, and light color.

Notwithstanding the foregoing, if a Special Management Area Use Permit (SMP) establishes different exterior lighting requirements for the portion of parcel identified as Tax Map Key 4-2-15: 6 that is within the Special Management Area, the SMP lighting requirements shall prevail in that area.

Attached hereto is a proposed Unilateral Agreement (draft dated 8/26/13) submitted by the Applicant. The proposed Unilateral Agreement (U/A) reflects the foregoing.

Your Committee finds that the conditions recommended by the DPP to be included in a Unilateral Agreement for this rezoning, as set forth in the Attachment to Departmental Communication No. 506 (2013) and as amended in accordance with your Committee's recommendations herein, appear to be in conformance with the criteria specified in Section 21-2.80 (b) and (c), Revised Ordinances of Honolulu 1990, as amended (ROH). In particular, your Committee finds that the conditions appear to be necessary to prevent circumstances that may be adverse to public health, safety and welfare and fulfill needs directly emanating from the proposed project.

Your Committee finds that the rezoning proposed in this Bill appears to be consistent with the General Plan and Development Plan of the City and is in the best interests of the people of the City and County of Honolulu. Your Committee plans to consider this matter further following the receipt of public testimony at the public hearing thereon to be held as required by law.

Your Committee finds that the time needed for further consideration of Bill 45 (2013) could exceed the time limit provided for that consideration. It, therefore, recommends that Bill 45 (2013) be granted a 90-day extension of time subject to receipt of a written request from the Applicant. (Ayes: Anderson, Harimoto, Kobayashi, Menor, Pine – 5; Noes: None.)

Your Committee on Zoning and Planning further recommends that Bill 45 (2013) pass Second Reading, be scheduled for public hearing, and be referred back to Committee. (Ayes: Anderson, Harimoto, Kobayashi, Menor, Pine – 5; Noes: None.)

Respectfully submitted,

  
\_\_\_\_\_  
Committee Chair

TITLE OF DOCUMENT: Unilateral Agreement and Declaration for  
Conditional Zoning

PARTY(IES) TO DOCUMENT: Kapa'a I, LLC

TAX MAP KEY NO. (1) 4-2-15: Portions of 6 and 12

---

**UNILATERAL AGREEMENT AND  
DECLARATION FOR CONDITIONAL ZONING**

THIS INDENTURE (hereinafter referred to as this "Unilateral Agreement" or this "Declaration"), made this \_\_\_\_\_ day of \_\_\_\_\_, 201\*, by Kapa'a I, LLC, a Hawaii limited liability

company, whose address is 905 Kalaniana'ole Hwy., Kailua, Hawaii 96734 (hereinafter referred to as the "Declarant"),

**WITNESSETH:**

WHEREAS, the Declarant is the owner in fee simple of that certain parcel of land situated in Kapa'a Valley, Kailua, Oahu, consisting of approximately 27 acres, described as Tax Map Key Nos. (1) 4-2-15: Portions of 6 and 12, and more particularly described in **Exhibit A** attached hereto and made a part hereof (the "Land"), and desires to make the Land subject to this Unilateral Agreement; and

WHEREAS, the Declarant plans to develop a light industrial park on the Land (the "Project"); and

WHEREAS, the City Council (the "Council") of the City and County of Honolulu (the "City"), pursuant to the provisions of the Land Use Ordinance ("LUO"), Revised Ordinances of Honolulu 1990 ("ROH") Section 21-2.80, as amended, relating to conditional zoning, is considering a change in zoning under the LUO of the Land from the P-2 General Preservation District to the I-1 Limited Industrial District (the "zone change"); and

WHEREAS, a public hearing regarding the change in zoning, Bill 45 (2013), was held by the Council on xxxxx ; and

WHEREAS, the Council recommended by its Zoning and Planning Committee Report No. \_\_\_\_\_ that the said zone change be approved, subject to the following conditions contained in this Declaration to be made pursuant to the provisions of ROH Section 21-2.80, as amended, relating to conditional zoning, and to become effective on the effective date of the zoning ordinance approving the change of zoning (the "Rezoning Ordinance");

NOW THEREFORE, the Declarant hereby covenants and declares as follows:

1. Transportation. The Declarant shall carry out the following requirements related to traffic and transportation improvements for the Project:

a. A time line establishing the anticipated commencement and completion dates of the major phasing components of this development shall be prepared by the Declarant in a format acceptable to the Department of Planning and Permitting (DPP). The time line should identify when the construction management plan (CMP), the traffic management plan (TMP), and updates to the initial TIAR, dated November 2012, will be submitted for review and approval.

b. The Declarant shall submit a CMP to the DPP for review and approval, as required, prior to the issuance of building permits for the purpose of developing the Land.

The CMP shall identify the type, frequency and routing of heavy trucks, and construction related vehicles. Every effort shall be made to minimize impacts from these vehicles and related construction activities. The CMP shall include provisions to limit vehicular activity to periods outside of the peak periods of traffic, utilize alternate routes for heavy trucks, utilize staging locations for construction workers and vehicles, and other mitigation measures related to traffic. The Declarant shall document the condition of roadways prior to the commencement of construction activities and provide remedial measures, as necessary, such as restriping, road resurfacing, and/or reconstruction if the condition of the roadways has deteriorated as a result of the construction activities.

c. A TMP shall include traffic demand management (TDM) strategies to minimize the amount of vehicular trips for daily activities and large events. TDM strategies could include carpooling and ride sharing programs, transit incentives, including provisions for a shuttle service from public transit stops at Mōkapu Boulevard and Kalaniana'ole Highway, and other similar TDM measures.

d. The Declarant shall prepare and submit an updated TIAR, covering the same area as the TIAR submitted with this zone change application, to the DPP for review and approval, as required, prior to initiation of Phase D of the project phasing plan attached hereto as Exhibit B and made a part hereof. The Declarant shall not begin construction of Phase D or the DPP-approved equivalent of remaining buildings until receiving the DPP approval of the completed TIAR since mitigation may be required to accommodate future development traffic. The DPP will

determine if recommendations from the TIAR are necessary for the Declarant to implement.

e. The Declarant shall enter into an agreement with the DPP and the Department of Transportation Services (DTS) prior to building permit approval for the development of the Land. The agreement shall be finalized by the DPP and subject to amendments, as approved by the DPP.

As part of the agreement, the Declarant shall fund, construct, or cause to be constructed all necessary street improvements along the Project's frontage of Kapa'a Quarry Road and Kapa'a Quarry Access Road, or at other locations along these roadways if determined necessary by the DPP and DTS for development purposes at the Project site. Every effort shall be made to construct the roadway improvements to incorporate "Complete Streets" criteria to the greatest extent practical. Discussions of Kapa'a Quarry Road improvements shall also be in consultation with the State Department of Transportation.

2. Buffer Zone. The approximately 29.9 acres of land abutting the zone change area and also within the parcels identified as Tax Map Keys: 4-2-15: 6 and 12 shall remain in the P-2 General Preservation District to serve the purpose of a buffer zone for industrial uses on the Land. The Declarant shall establish and maintain the buffer zone, as required by the DPP, to sufficiently mitigate noise and visual impacts through landscaping that includes earth berms and vegetation that includes tall trees and shrubs. Prior to the issuance of any development permit in the buffer area, the proposed project shall be submitted to the DPP for review and approval to ensure it meets the purpose of the buffer area. The portion of the buffer zone within the parcel identified as Tax Map Key: 4-2-15: 12 contains an existing detention basin which shall be allowed to serve the function of stormwater management for the adjacent zone change area.

3. Stormwater Facilities. The Land shall be subject to the following requirements related to stormwater facility improvements and maintenance, unless otherwise amended by the Director of the DPP:

a. The Declarant shall continue to accept all off-site stormwater drainage onto the Land from the culvert located under Kapa'a Quarry Access Road, which collects runoff from a drainage

ditch on the south side of the road, as highlighted in Exhibit C attached hereto and made a part hereof.

b. Development on the lower-elevation portion of the Land, within the parcel identified as Tax Map Key: 4-2-15: 6 (see Exhibit B), shall utilize all of the low impact development approaches for stormwater as described in Appendix E of the zone change application, dated November 2012. These approaches include treating stormwater runoff on site through underground storage containers while avoiding infiltration of rainwater into the existing landfill body. Prior to the issuance of a certificate of occupancy for any building on the lower-elevation portion of the Land, the Declarant shall install stormwater management infrastructure to accommodate the development.

c. The Declarant shall be responsible for monitoring and maintaining all on-site infrastructure for stormwater management, including infrastructure related to item "a" above.

4. Exterior Lighting. To mitigate lighting impacts on migrating seabirds, all exterior lighting shall be fully shielded such that light emitted from the fixture is projected below the horizontal plane of the lowest point of the fixture. Prior to the issuance of building permits for the purpose of site development, the Declarant shall submit a conceptual plan for light management to the State of Hawaii Department of Land and Natural Resources (DLNR), Division of Forestry and Wildlife for review and approval, unless the DLNR grants an exemption, in whole or part, from the requirement; and, the Declarant shall thereafter provide the DPP with documentation of approval or exemption. The Plan shall address the proposed location and design scheme of exterior light fixtures as well as light bulb brightness, bulb type, and light color.

Notwithstanding the foregoing, if a Special Management Area Use Permit (SMP) establishes different exterior lighting requirements for the portion of parcel identified as Tax Map Key 4-2-15: 6 that is within the Special Management Area, the SMP lighting requirements shall prevail in that area.

5. Compliance with Other Governmental Requirements. The Declarant acknowledges that approval of this zone change does not constitute compliance with other LUO or other governmental requirements. They are subject to separate review and approval. The Declarant shall be responsible for ensuring that the final

plans for the Project comply with all applicable LUO and other governmental provisions and requirements.

6. Annual Reports. On an annual basis, the Declarant shall submit a written status report to the DPP documenting its satisfaction and/or describing its progress toward complying with each condition of approval for this zone change. This status report shall be submitted to the DPP by December 31 of each year until such time as the DPP has determined that all conditions of approval have been satisfied. Failure to do so may result in delays in processing of further permits.

7. Noncompliance or Failure to Fulfill Any Conditions. In the event of noncompliance or failure to fulfill any of the conditions set forth herein, the Director of the DPP shall inform the Council and may institute action to terminate or stop the project until applicable conditions are met. Noncompliance also may be grounds for revocation of the permits issued under this zone change. Noncompliance also may be grounds for the enactment of ordinances making further zone changes, including revocation of the underlying zoning, upon initiation by the proper parties in accordance with the Revised City Charter.

NOW, THEREFORE, the Declarant hereby makes the following additional Declarations:

As used herein, references to a specific City department or agency shall be deemed to include a reference to any successor department or agency.

That the conditions imposed herein are reasonably conceived to fulfill public service demands created by the requested change in zoning and are rationally related to the objective of preserving the public health, safety and general welfare and the further implementation of the General Plan of the City and County of Honolulu.

That the development of the Land shall conform to the aforesaid conditions with the understanding that, at the request of the Declarant and upon the satisfaction of the conditions set forth in this Unilateral Agreement, the Department of Planning and Permitting may fully or partially release, as applicable, any of the foregoing conditions that have been fulfilled.

That if there are any conflicts between this Unilateral Agreement and any previous unilateral agreement(s) applicable to the Land, the terms and conditions of this Unilateral Agreement shall apply.

AND IT IS EXPRESSLY UNDERSTOOD AND AGREED that the conditions imposed in this Declaration shall run with the Land and shall bind and constitute notice to all the parties hereto and subsequent lessees, grantees, assignees, mortgagees, lienors, successors, and any other persons who have or claim to have an interest in the Land, and the City and County of Honolulu shall have the right to enforce this Declaration by rezoning, appropriate action at law or suit in equity against all such persons, provided that the Declarant or its successors and assigns may file a petition with the Department of Planning and Permitting for amendment or removal of any conditions or termination of this Declaration, such petition to be processed in the same manner as petitions for zone changes.

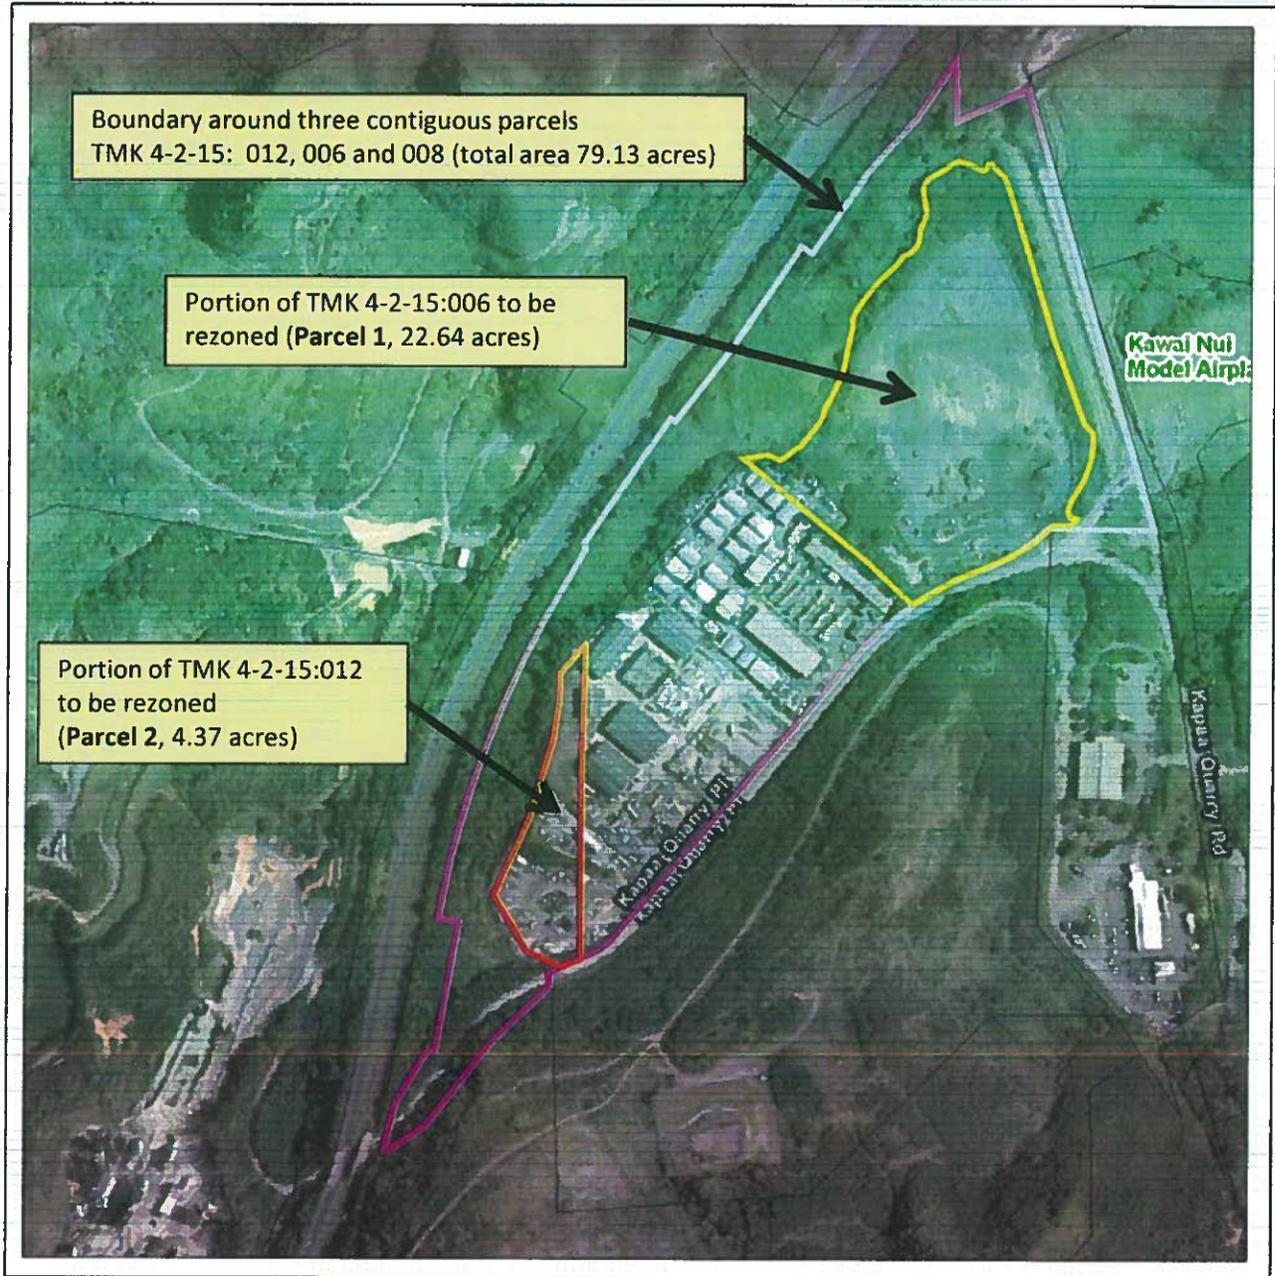

IN WITNESS WHEREOF, the parties hereto have executed this Unilateral Agreement and Declaration for Conditional Zoning on the day and year first above written.

DECLARANT:

DESCRIPTION OF  
PARCEL 2  
REZONING FROM P-2 TO I-1

ALL that certain piece or parcel of land being portions of Deed: Minister of the Interior to C.C. Harris dated March 24, 1876, Liber 45, Page 286, Grant 11 07, Apana 1 to Kahunahana and Royal Patent 5642, Land Commission Award 7712, Apana 1 to Tute.

Situate at Oneawa, Kionaole, Kaohia and Kalaheo, Kailua, Koolaupoko, Oahu, Hawaii.

Beginning at the southeast corner of this parcel of land, the same being the south corner of Parcel C and on the northerly side of Road and Utility Easement 1, the coordinates of said point of beginning referred to Government Survey Triangulation Station "KAILUA" being 3,997.98 feet North and 1,313.64 feet East and thence running by azimuths measured clockwise from true South:

1. 65° 10' 81.04 feet along the remainder of Grant 1107, Ap. 1 to Kahunahana and along Road and Utility Easement 1;
2. 167° 02' 12.25 feet along the remainder of Grant 1107, Ap. 1 to Kahunahana and along Drainage Easement C-2;
3. 115° 53' 107.75 feet along the remainder of Grant 1107, Ap. 1 to Kahunahana and along Drainage Easement C-2;
4. 148° 20' 234.18 feet along the remainders of Grant 1107, Ap. 1 to Kahunahana and Deed: Minister of the Interior to C.C. Harris dated March 24, 1876, Liber 45, Page 286 and along Drainage Easement C-2;

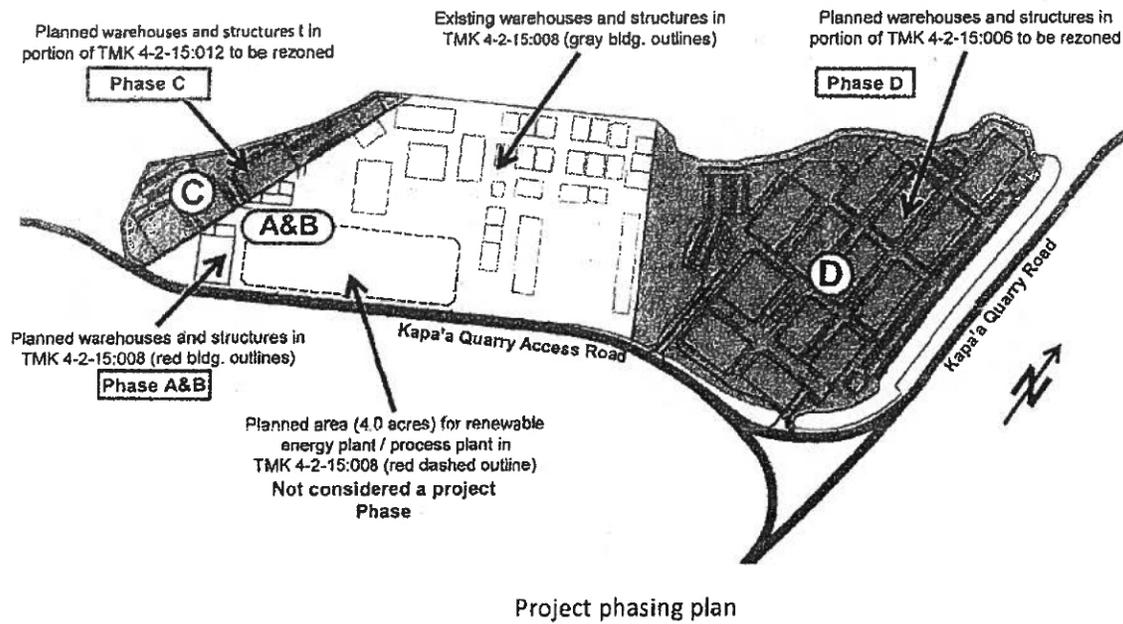

5. 238° 20' 5.00 feet along the remainder of Deed: Minister of the Interior to C.C. Harris dated March 24, 1876, Liber 45, Page 286 and along Drainage Easement C-2;
6. 148° 20' 13.96 feet along the remainder of Deed: Minister of the Interior to C.C. Harris dated March 24, 1876, Liber 45, Page 286 and along Drainage Easement C-2;
7. 204° 14' 286.31 feet along the remainder of Deed: Minister of the Interior to C.C. Harris dated March 24, 1876, Liber 45, Page 286;
8. 196° 30' 283.95 feet along the remainders of Deed: Minister of the Interior to C.C. Harris dated March 24, 1876, Liber 45, Page 286 and R.P. 5642, L.C. Aw. 7712, Ap. 1 to Tute;
9. 188° 20' 142.60 feet along the remainder of R.P. 5642, L.C. Aw. 7712, Ap. 1 to Tute;
10. 181° 33' 71.69 feet along the remainder of R.P. 5642, L.C. Aw. 7712, Ap. 1 to Tute;
11. 220° 10' 151.97 feet along the remainder of R.P. 5642, L.C. Aw. 7712, Ap. 1 to Tute;
12. 1° 01' 1,101.17 feet along Parcel C to the point of beginning and containing an area of 4.374 acres.

Zone Change Application for Kapa'a Light Industrial Park - Kapa'a I, LLC Applicant  
By Sustainable Design & Consulting LLC November 2012

**EXHIBIT B**

Definition of water resource features of interest identified and examined in the investigation:

- A. Kapa'a Stream
- B. 13-acres wetland area in the lower reaches of the Kapa'a Stream corridor
- C. Drainage basin for runoff from the Kapa'a landfill.
- D. Vegetated wedge
- E. The water resources within existing industrial development in the upper portion of the project site.
- F. Drainage of runoff through culvert and to percolation field on project site
- G. Existing drainage swale in upper portion of project site
- H. Eight acres of permeable area within development footprint
- I. Lower portion of the site
- J. Drainage canals along western side of Kapa'a Quarry Road
