In November of 2013, the Association convened its 54th Annual Convention and adopted the following two resolutions that are summarized below for your information:

Resolution 13-26 urges the activation of Ordinance 93-55 by the Mayor of the City and County of Honolulu. In 1993, Bill 18 established a City and County of Honolulu Historic Preservation Commission, the purpose of which was meant to identify, protect, preserve, restore and rehabilitate historic properties in the City and County of Honolulu, and specifically any ancient Hawaiian sites not already included on the Hawaiian or National Register of Historic Places.

Resolution 13-41 urges the State of Hawai'i and all of its County Councils to complete an environmental impact statement and cultural impact statement in order to determine and evaluate significant effects of the production, propagation, or development of genetically modified organisms within each county, and the use of all pesticides (restricted use, general use, and experimental) associated with the production, propagation, or development of genetically modified organisms.
