

RESOLUTION

PROPOSING AMENDMENTS TO CHAPTER 21, REVISED ORDINANCES OF HONOLULU 1990 (THE LAND USE ORDINANCE) AND ORDINANCE 86-106 ("ZONING MAP NO. 3"), AS AMENDED, RELATING TO THE WAIKIKI SPECIAL DISTRICT.

WHEREAS, the Waikiki Special District provisions of the Land Use Ordinance (LUO) begin with the following findings:

- "(a) To the world, Waikiki is a recognized symbol of Hawaii; and the allure of Waikiki continues, serving as the anchor for the state's tourist industry. In addition to its function as a major world tourist destination, Waikiki serves as a vital employment center and as a home for thousands of full-time residents.
- (b) The creation of the Waikiki special district was largely a response to the rapid development of the 1960s and 1970s, and the changes produced by that development. Now, Waikiki can be described as a mature resort plant and residential locale. Waikiki needs to maintain its place as one of the world's premier resorts in an international market; yet, the sense of place that makes Waikiki unique needs to be retained and enhanced.
- (c) Because of the city's commitment to the economic, social and physical well-being of Waikiki, it is necessary to guide carefully Waikiki's future and protect its unique Hawaiian identity."

Section 21-9.80, Revised Ordinances of Honolulu 1990, as amended (ROH); and

WHEREAS, the last major revisions to the Waikiki Special District provisions of the LUO were in 2011; and

WHEREAS the Council feels the Waikiki Special District provisions should be frequently reviewed and evaluated in order to ensure that they are accomplishing the objectives of the Waikiki Special District, which are stated in ROH Section 21-9.80-1 to be as follows:

- "(a) Promote a Hawaiian sense of place at every opportunity.
- (b) Guide development and redevelopment in Waikiki with due consideration to optimum community benefits. These shall include the preservation, restoration, maintenance, enhancement and creation of natural,

RESOLUTION

recreational, educational, historic, cultural, community and scenic resources.

- (c) Support the retention of a residential sector in order to provide stability to the neighborhoods of Waikiki.
- (d) Provide for a variety of compatible land uses which promote the unique character of Waikiki, emphasizing mixed uses.
- (e) Support efficient use of multimodal transportation in Waikiki, reflecting the needs of Waikiki workers, businesses, residents, and tourists. Encourage the use of public transit rather than the private automobile, and assist in the efficient flow of traffic.
- (f) Provide for the ability to renovate and redevelop existing structures which otherwise might experience deterioration. Waikiki is a mature, concentrated urban area with a large number of nonconforming uses and structures. The zoning requirements of this special district should not, therefore, function as barriers to desirable restoration and redevelopment lest the physical decline of structures in Waikiki jeopardize the desire to have a healthy, vibrant, attractive and well-designed visitor destination.
- (g) Enable the city to address concerns that development maintain Waikiki's capacity to support adequately, accommodate comfortably, and enhance the variety of worker, resident and visitor needs.
- (h) Provide opportunities for creative development capable of substantially contributing to rejuvenation and revitalization in the special district, and able to facilitate the desired character of Waikiki for areas susceptible to change.
- (i) Encourage architectural features in building design which complement Hawaii's tropical climate and ambience, while respecting Waikiki's urbanized setting. The provision of building elements such as open lobbies, lanais, and sunshade devices is encouraged.
- (j) Maintain, and improve where possible: mauka views from public viewing areas in Waikiki, especially from public streets; and a visual relationship with the ocean, as experienced from Kalakaua Avenue, Kalia Road and Ala Moana Boulevard. In addition, improve pedestrian access, both perpendicular and lateral, to the beach and the Ala Wai Canal.

RESOLUTION

- (k) Maintain a substantial view of Diamond Head from the Punchbowl lookouts by controlling building heights in Waikiki that would impinge on this view corridor.
- (l) Emphasize a pedestrian-orientation in Waikiki. Acknowledge, enhance and promote the pedestrian experience to benefit both commercial establishments and the community as a whole. Walkway systems shall be complemented by adjacent landscaping, open spaces, entryways, inviting uses at the ground level, street furniture, and human-scaled architectural details. Where appropriate, open spaces should be actively utilized to promote the pedestrian experience.
- (m) Provide people-oriented, interactive, landscaped open spaces to offset the high-density urban ambience. Open spaces are intended to serve a variety of objectives including visual relief, pedestrian orientation, social interaction, and fundamentally to promote a sense of "Hawaiianness" within the district. Open spaces, pedestrian pathways and other ground level features should be generously supplemented with landscaping and water features to enhance their value, contribute to a lush, tropical setting and promote a Hawaiian sense of place.
- (n) Support a complementary relationship between Waikiki and the convention center."
