Written Testimony

As an owner and board member of Kaimala Marina @ 444 Lunalilo Hm Rd I am writing in support of funding for front loader rubbish trucks for the Environmental Svcs dept. A number of years back our association applied for trash pickup and were required to meet guidelines to qualify. These included purchasing and maintaining dumpsters and providing direct access to them that did not require the C&C trucks to reverse. My position is that as owners and tenants are tax payers and have met the minimum standards set forth by the previous department administrations. Funding should be approved for the operation of these vehicles. I also see no reason that we should be considered to receive special treatment as the association complied with all the requirements for this service. Respectfully Scott Cabral
