RECEIVED  
CITY CLERK  
C & C OF HONOLULU  
2015 APR -6 AM 9:56

**Written Testimony**

Myself like many others still cannot believe that the City & County is singling out the condominium owners in the Mililani area, and expects them all to pay for trash pick up while everyone else on the island gets to have their trash picked up without worry. Why the front loaders are not maintained properly or why the trusted people in the position to budget so that these vehicles can function and operate efficiently is a problem that we should not concern ourselves... We trust the process... and in the end, we get dumped on. If Police cars, fire trucks, or ambulances are broken or are in need of repair, does the service stop? No! They are replaced. Do people get charged for something that taxes are supposed to cover? No! It is a ridiculous thought... unfortunately, this is what everyone in the community is being presented with... and so I challenge anyone to present a logical reason why people should accept that the City & County needs to charge every condo owner in the Mililani area, rather than cut useless spending by terminating the faulty department heads that have failed due to poor planning, terminating the direct subordinates that share the same philosophical business values, and terminate every

serviceman and technician that cannot execute their orders without providing excuses. A bus was designed and built to transport 26 imaginary people but the current refuse trucks have been falling apart at this expense? This is equipment that we trusted in the hands of the Mayor, Councilman, and everyone else that falls under their umbrella... an umbrella that apparently provides a false sense of service and protection. Unfortunately, people do not begin to take their jobs seriously until the responsible people lose theirs... this may be the case here.
