

In regards to Aloha Harvest,

Aloha Harvest has been a great provider for the community at Sea Winds in Waianae. Sea Winds houses more than 230 residents which have benefitted tremendously from the numerous and plentiful donations Aloha Harvest provides. The tenants always ask me when they are coming and are always very pleased when there are deliveries. The tenants will come out and help unload the items into our food pantry and kitchen. Here is where the Sea Winds community works together to distribute the items fairly and clean up when finished. We have received donations in the past in excess of three pallets! All of the food is used and nothing is ever wasted. The items the tenants receive are of very high quality and there is almost always a generous variety of items provided. The tenants and community is always appreciative and joyous for the blessings Aloha Harvest provides. Please accept this letter as a declaration of the community at Sea Winds. Sea Winds Apartments tenants very graciously ask that Aloha Harvest be considered with very high regard as an all around good and honest company. If anyone deserves grant aid to help our community, we feel there wouldn't be many other candidates more qualified to receive it than Aloha Harvest. The difference they make in the lives of our tenants here is tremendous.

Sincerely – Andy Kress
