## Written Testimony

I strongly oppose Bill 8, with would require City Council approval before a Complete Streets project can receive funding. This would give inappropriate authority to the council, which as the name implies is intended to serve in a "council" role and not in the role of a final decision maker. Such authority would also inevitably overwhelm the ability of the council to review projects and and delay much needed improvements to streets. The council's duty is to maintain a watch on proposed, Complete Street projects and provide input, not the final voice, on important projects. It's needs to stick to this role.
