To whom it may concern:

Unfortunately I could not attend this community meeting due to work. I have concerns with the parking situation in regards to Halolani Street. I am and have been a resident at this location all my life. I have never been in this situation where people who pay their taxes, support our lawmakers and our Constitution have their privileges taken away. We are all home owners at this area and find it an inconvenience that we cannot even park in front of our own homes. Every where on this island people are able to freely park in front of their homes without hesitation. All because of one individual that constantly calls our first responders for nonsense parking situations. Being a resident here I feel bullied because we are constantly inconvenienced with the parking situation making residents second guess their actions in their own homes. I feel like we shouldn't be an exception because of one resident constantly bullying the rest of us. People on Halolani Street should have the right to park in front of our homes without hesitation because it is only fair that we get the privilege of everyone else who lives on these islands.

Thank you,
Cristine Miguel
