Signatures for Uber!

Uber is transforming the way people in Hawaii live, work, and move around the state. Every day, thousands of people across Hawaii request safe, affordable, and hassle-free rides with uberX - all at the tap of a button.

Right now, certain regulations and legislation being considered by the Honolulu City Council and by State lawmakers could threaten Uber's ability to operate in Hawaii. Voice your support for Uber by signing this petition. Let your elected officials know how important this issue is to you. Hawaii deserves a world-class transportation experience.

Add your name to the petition if you agree. #HawaiiNeedsUber

Dear [Recipient's title] [Recipient's name],

I am writing to urge the City Council of Honolulu and the State of Hawaii to continue working with Transportation Network Companies like Uber to ensure legislation and regulations can support their innovative business model. Some proposed legislation and regulations threaten Uber's ability to operate in Hawaii. This means thousands of flexible income opportunities are on the line, and access to safe rides that arrive in a matter of minutes is in jeopardy.

Please ensure any legislation or regulations passed enable the Uber I know and love to operate in Hawaii. Thank you.

Sincerely,

PETITION 4

Lynn	Miyahira	lynn.miyahira@gmail.com	96817	Hawaii deserves more affordable transportation options! Uber not only provides customers with a cheaper, quicker option to taxis & buses, but also provides flexible income opportunities for our residents.
Joseph	Nounou	jmnounou@gmail.com	37663	It is convenient easy safe and allows for competition
Philip	Risken	prisken45@gmail.com	96817	We need Uber in Honolulu let's keep it unfettered and not burden them with regulations. These guys provide an awesome service there look at taxi drivers cannot provide. They are my first and only choice for transportation. Let's get them to pick up at the airport and drop off at the airports whenever we need them this is democracy at its finest
Andrew	Spring	andrew.spring@rocketmail.co	96753	It's nice to have an alternative to rely on a taxi
Laron	Tamaye	ltamaye@gmail.com	96816	
Byron	Word	word_byron@yahoo.com	30337	Uber is a convenient source of transportation and convenience nationally. I appreciate their reliability, the safety of not having to carry cash and the personal aspect of it. It's great to know that no matter where I am, the prices and service is uniform. Taxis are too unpredictable and regular public transportation is too unreliable. Hawaii NEEDS Uber as an alternate form of transportation. I used it on my recent trip to Honolulu with my family.
