Written Testimony

I believe that the preservation of Kanewai Spring is vital to the eco-system of Maunalua Bay and should be saved and turned into a cultural and living classroom to be used by Hawaiian civic clubs, hula halaus, preparatory and high schools as well as colleges and universities. It would benefit the community at whole to have a community center that could be utilized by all. It would be a means to perpetuate our Hawaiian values and culture and to demonstrate sustainability of the old world in the middle of our present day urbanization. This project is to protect one of the last remaining freshwater springs that is flowing into a fishpond on the island of Oahu. This source of water is the piko of life to Maunalua Bay. Please do not cut the funding for its purchase.
