Written Testimony

I am strongly opposed to this measure. Living in this community for over 40 years, we have seen the desecration of valuable water resources such as Kanewai Spring over the years. The change in these precious water resources that feed into Maunalua Bay have led to the problems that we now experience in the bay - mud weed, dirt runoff, loss for food resources for fish such as mullet that were once prolific in the bay. We have seen a decline of the fish population because of human development tampering with these fresh water resources. Please repeal this measure and keep clean water funding for Kanewai. Mahalo.
