Council Chairman Martin, Budget Chair Kobayashi and Council Members

Oppose: Amendment to Council Bill 15 CD2 FD1-Ozawa

Dear Council Members:

Please keep the Clean Water funding in the budget for Kānewai Spring to preserve this critical source of fresh water. Without this funding, it is very likely Kānewai Spring will be lost to private development.

Kānewai Spring is a life-giving source of water for many fish and wildlife species. It feeds Kānewai Fishpond, Paikō Wildlife Sanctuary and finally Maunalua Bay. It is likely the last large open spring that freely flows to the ocean in Honolulu. It is also a cultural and historic piko.

We members of the Hui Nalu Canoe Club treasure Maunalua Bay and use it year 'round. It is cherished by all who use it.
