 Meeting Date 06-15-2016
 Council/PH Council
 Committee
 Agenda Item Bill 36
 Your position on the matter Support
 Representing Self
 Organization
 Do you wish to speak at the hearing? No

Written
 Testimony

As a business owner with clients in the hospitality industry and with colleagues who occasionally use commercial transportation, I support the steps that Bill 36 takes toward standardizing regulation in the commercial transportation industry. There are many sound reasons -- consumer safety, prevention of fraud, collection of taxes and fees -- why regulation has been developed for this industry. It should apply to all commercial transportation companies whether they are dispatched through an app or not.
