I urge you to ensure Residential A does not place an unreasonable burden on those flagged to pay it. The tier system is a step in the right direction. Our family property since the 1990s is now rented out to a 85 year old senior citizen. Residential A rationale for "stability and continuity of local neighborhoods" is and will be undermined by pressure for illegal short term vacation rentals. In conclusion, you are penalizing local families and local housing supply with a revenue-generating proposal.
