Bill 22 is good, but suggest it be ammended as suggested by the Hawaiian Humane Society for the reasons they give. They are:

1) Remove Section (a)(5). The surgical standard of care is the same for all cats, making it unreasonable to ask clinics to accept less for the spay/neuter of "feral or community cats."

Written Testimony

2) Remove Section (e). This amendment will reduce the amount reimbursed to veterinarians. We are concerned that this will lead to clinics opting out of participating in the Neuter Now programs, which will reduce access to spay/neuter services for the general public.

Thanks you.
