Honolulu, HI 96813-3014

Aloha Council Member - District 3 Anderson,

As a REALTOR, I work with many Oahu residents to help their dream of homeownership come true. However, rising property values, which results in higher property taxes, have made it increasingly more difficult for local, working families to own or rent a home.

I support keeping the Residential rate at \$3.50 and the two tier Residential A rate at \$4.50 and \$9.00. Any increase in these rates will only add to the cost of housing for local families, whether they rent or buy.

I urge the City Council to support the current rates.

Thank you for the opportunity to provide testimony in support of Resolution 17-70, CD1 and appreciate your consideration.

Honolulu, HI 96813-3014

Aloha Council Member - District 5 Kobayashi,

As a REALTOR, I work with many Oahu residents to help their dream of homeownership come true. However, rising property values, which results in higher property taxes, have made it increasingly more difficult for local, working families to own or rent a home.

I support keeping the Residential rate at \$3.50 and the two tier Residential A rate at \$4.50 and \$9.00. Any increase in these rates will only add to the cost of housing for local families, whether they rent or buy.

I urge the City Council to support the current rates.

Thank you for the opportunity to provide testimony in support of Resolution 17-70, CD1 and appreciate your consideration.

Aloha Council Member - District 7 Manahan,

As a REALTOR, I work with many Oahu residents to help their dream of homeownership come true. However, rising property values, which results in higher property taxes, have made it increasingly more difficult for local, working families to own or rent a home.

I support keeping the Residential rate at \$3.50 and the two tier Residential A rate at \$4.50 and \$9.00. Any increase in these rates will only add to the cost of housing for local families, whether they rent or buy.

I urge the City Council to support the current rates.

Thank you for the opportunity to provide testimony in support of Resolution 17-70, CD1 and appreciate your consideration.

Aloha Council Member - District 5 Kobayashi,

As a REALTOR, I work with many Oahu residents to help their dream of homeownership come true. However, rising property values, which results in higher property taxes, have made it increasingly more difficult for local, working families to own or rent a home.

I support keeping the Residential rate at \$3.50 and the two tier Residential A rate at \$4.50 and \$9.00. Any increase in these rates will only add to the cost of housing for local families, whether they rent or buy.

I urge the City Council to support the current rates.

Thank you for the opportunity to provide testimony in support of Resolution 17-70, CD1 and appreciate your consideration.

As a REALTOR, I work with many Oahu residents to help their dream of homeownership come true. However, rising property values, which results in higher property taxes, have made it increasingly more difficult for local, working families to own or rent a home.

I believe any increase in Residential Rates should be spread fairly to everyone in that property class. It shouldn't be separated by investor or owner occupant or by value of property.

Any tax increase to investment property, as currently done with Res A, will be passed onto the tenant.

Thank you for the opportunity to provide testimony in support of Resolution 17-70, CD1 and appreciate your consideration.

I support keeping the Residential rate at \$3.50 and the two tier Residential A rate at \$4.50 and \$9.00. Any increase in these rates will only add to the cost of housing for local families, whether they rent or buy.

I urge the City Council to support the current rates.

Thank you for the opportunity to provide testimony in support of Resolution 17-70, CD1 and appreciate your consideration.

Aloha Council Member - District 4 Ozawa,

As a REALTOR, I work with many Oahu residents to help their dream of homeownership come true. However, rising property values, which results in higher property taxes, have made it increasingly more difficult for local, working families to own or rent a home.

I support keeping the Residential rate at \$3.50 and the two tier Residential A rate at \$4.50 and \$9.00. Any increase in these rates will only add to the cost of housing for local families, whether they rent or buy.

I urge the City Council to support the current rates.

Thank you for the opportunity to provide testimony in support of Resolution 17-70, CD1 and appreciate your consideration.
