"(b) Nonconforming Structures.

(1) If that portion of a structure [which] that is nonconforming is destroyed by any means to an extent of more than [50] 90 percent of its replacement cost at the time of destruction, it [shall] may not be reconstructed except in conformity with the provisions of this chapter. All reconstruction and restoration work must comply with building code and flood hazard regulations, and commence within two years of the date of destruction.

(A) Notwithstanding the foregoing provision, a nonconforming structure devoted to a conforming use which contains multifamily dwelling units owned by owners under the authority of HRS Chapter 514A, 514B or 421H, or units owned by a "cooperative housing corporation" as defined in HRS Section 4211-1, whether or not the structure is located in a special district, and which is destroyed by [accidental] any means, [including destruction by fire, hurricane, other calamity, or act of God] may be fully reconstructed and restored to its former permitted condition, provided that such restoration is permitted by the current building code and flood hazard regulations and is started within two years from the date of destruction.

(B) [The burden of proof to establish that the destruction of a structure was due to accidental means as described above and that the structure was legally nonconforming shall be on the owner.

(C) Except as otherwise provided in this section, no nonconforming structure that is [voluntarily razed] required by law to be razed by the owner thereof may thereafter be reconstructed and restored except in full conformity with the provisions of this chapter.
(2) If a nonconforming structure is moved, it [shall] must conform to the provisions of this chapter.

(3) Any nonconforming structure may be repaired, expanded or altered in any manner [which] that does not increase its nonconformity.

(4) Improvements on private property, which become nonconforming through the exercise of the government's power of eminent domain, may obtain waivers from the provisions of this subsection, as provided by Section 21-2.130.

(5) Nonconforming commercial use density [shall] will be regulated under the provisions of this subsection. For purposes of this section, "nonconforming commercial use density" means a structure [which] that is nonconforming by virtue of the previously lawful mixture of commercial uses on a zoning lot affected by commercial use density requirements in excess of:
