Testimony I support Bill 6. Certain companies have been taking advantage and using the public sidewalks in Waikiki as their sales office by bring portable sales kiosks out to the public sidewalk and selling tours and activities from them, and placing sandwich board signs in the public sidewalk advertising their products. Currently it has mostly been these tours and activities companies that have been doing this, but what's to stop any other business from bringing their products out for display on the public sidewalk? What they are doing from these structures is also considered Peddling which is against HRO 29-6. The definition of Peddling from Sec. 29-1.1 is as follows: "Peddle or peddling" means the sale or offer for sale, the renting or offer for rent, or the display for sale or rent of any goods, wares, merchandise, foodstuffs, or other kinds of property or services. The term shall include, but not be limited to, the solicitation of orders or making of referrals on a public place for the future sale, delivery, or performance of property or services in a place other than a public place as part of a scheme to evade the provisions of Article 6.

Testimony I support Bill 6.

Several companies are taking advantage of and using the public sidewalks in Waikiki as their sales office and or place of business. These companies and /or representatives bring portable sales kiosks onto public sidewalk and sell tours and activities from the place they choose to stop on that day and time. Also, these same sales entities place sandwich board signs on the public sidewalk advertising their products. In some instance they impede the sidewalk from pedestrians.

Written  
Testimony

Recently, I have observed several tour and activities companies that have been doing this on a regular basis. However, what's to stop other startup business from bringing new idea products right on the sidewalk and test the new product item on the hundreds of thousands that visit monthly in Waikiki.

By definition this type of enterprise practice should be considered Peddling which is against HRO 29-6. Sec. 29-1.1 indicates:

“Peddle or peddling” means the sale or offer for sale, the renting or offer for rent, or the display for sale or rent of any goods, wares, merchandise, foodstuffs, or other kinds of property or services. The term shall include, but not be limited to, the solicitation of orders or making of referrals on a public place for the future sale, delivery, or

performance of property or services in a place other than a public place as part of a scheme to evade the provisions of Article 6. It is with humble respect I ask the council to unanimously support and defend Bill 6 to its fullest enforcement.

Written  
Testimony

Aloha and thank you for hearing our concerns. My name is Rob Johnson and I am the General Manager of the Ilikai in Waikiki. I wanted to submit testimony as I have prior commitments during your meeting. On behalf of all 1061 owners in the Ilikai we are in support of Bill 6. Our companies have set up portable kiosks selling tours and shuttle rides all over Waikiki. It is especially problematic in front of the Ilikai. The kiosks is manned by several people and a dog without a leash. Not only are they peddling Sec. 29-1.1 without consequence but creating a nuisance. This distracts from the appeal of Hawaii and looks like Las Vegas. I ask that you support Bill 6 and give the police something they can enforce. Thank you for your time and consideration.

Written Testimony

I'm in support of the bill, because I have a legitimate business in Waikiki, offering Tours and Activities to visitors. It is not right, that these mobile Kiosk vendors, can pop up on any sidewalk and intercept legitimate tourists looking for a location like ours and offer them right out of a sidewalk kiosk the same type of tours and activities. Most of them not paying taxes, license fees and certainly no rent to operate their businesses.

Written  
Testimony

Dear Sirs. I hope you will consider approving Bill 6 in order to limit the sales kiosks and sandwich reader boards from being placed on our public sidewalks. Over the last few months I have noticed many such kiosks and signs being placed in front of the building where I live. These are unattractive and interfere with pedestrian traffic. They also over commercialize Waikiki.  
Thank you for your consideration in this matter.
