

Annual Report 2003

# Mission

We, the men and women of the Honolulu Police Department, are dedicated to providing excellent service through partnerships that build trust, reduce crime, create a safe environment, and enhance the quality of life in our community.

We are committed to these principles:

## **INTEGRITY**

*We have integrity. We adhere to the highest moral and ethical standards. We are honest and sincere in dealing with each other and the community. We have the courage to uphold these principles and are proud that they guide us in all we do.*

## **RESPECT**

*We show respect. We recognize the value of our unique cultural diversity and treat all people with kindness, tolerance, and dignity. We cherish and protect the rights, liberties, and freedoms of all as granted by the constitutions and laws of the United States and the State of Hawaii.*

## **FAIRNESS**

*We act with fairness. Objective, impartial decisions and policies are the foundation of our interactions. We are consistent in our treatment of all persons. Our actions are tempered with reason and equity.*

*. . . in the spirit of Aloha.*

## *Message from the Mayor*

This report describes the major activities, programs, and accomplishments of the Honolulu Police Department and presents crime-related statistics for the City and County of Honolulu for 2003. It is designed to inform the community about the goals and accomplishments of the department and provide a statistical summary of the last year.

I believe that we all have good reasons to be proud of the work performed by the Honolulu Police Department's officers and civilian personnel. Their dedication to duty and excellent service continue to make this community a better and safer place for everyone.

A handwritten signature in black ink that reads "Jeremy Harris". The signature is fluid and cursive.

JEREMY HARRIS, Mayor  
City and County of Honolulu

# Honolulu Police Commission

The Honolulu Police Commission is made up of seven members who are appointed by the Mayor and confirmed by the City Council. All members serve staggered terms of five years. They volunteer their services and do not receive any compensation.

The Commission elects its own chair and vice chair each year from among its members. The commission chair for 2003 was Ronald Taketa and the Vice Chair was Cha Thompson.

The commission has the following mandated responsibilities:

- appoints and may remove the Chief of Police;
- evaluates the performance of the Chief of Police at least annually;
- reviews rules and regulations for the administration of the Honolulu Police Department;

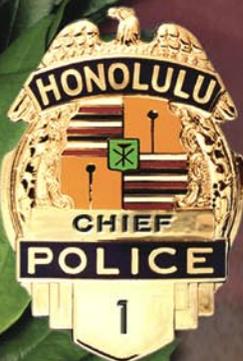

- reviews the annual budget prepared by the Chief of Police and may make recommendations thereon to the Mayor;
- compares at least annually the actual achievements of the police department with the goals and objectives in the five-year plan; and
- receives, considers, and investigates charges brought by the public against the conduct of the department or any of its members and submits a written report of its finding to the Chief of Police.

The commissioners are committed to continue working proactively with the department to address problems regarding police conduct and other issues.

*Honolulu Police Commissioners: (seated from left) Chair Ronald Taketa and Vice Chair Cha Thompson; (standing from left) Jimmy Borges, Caroll Takahashi, Paul Leong, and Alan Ho.*

# Message from the Chief of Police

The year 2003 was a milestone for the Honolulu Police Department (HPD) as we achieved our goal of obtaining national accreditation. It was a monumental undertaking that became a reality through the earnest efforts of all of our employees. Being an accredited agency will produce many benefits for the community and the department, including increasing our capabilities to prevent and control crime.

As always, homeland security is one of the HPD's top priorities. The department's Emergency Management Command continually works with numerous federal, state, and city agencies to prepare and plan for potential civil disturbances and natural disasters. With the recent acquisition of new equipment and enhanced training, the department is well prepared to respond to any emergency.

Technological advancements remain important tools in police work. The new Records Management System came on line and will improve the department's ability to process reports on a timely basis. Another technology implemented in the past year, wireless networking, is being deployed throughout the island. Wireless networking enables officers to transmit and receive information electronically from their patrol vehicles.

Sadly, two fine officers were lost in the line of duty this year. Officer Glen Gaspar was shot while apprehending an attempted murder suspect, and Solo Bike Officer Ryan Goto was killed when his motorcycle was struck by an oncoming vehicle. These officers, who gave their lives while protecting the community, will always be remembered as heroes.

Serving and Protecting with Aloha,

A handwritten signature in black ink that reads "Lee D. Donohue".

LEE D. DONOHUE  
Chief of Police

## Deputy Chiefs and Assistant Chiefs

**GLEN R. KAJIYAMA**  
Deputy Chief of Police

**PAUL D. PUTZULU**  
Deputy Chief of Police

**JOHN P. KERR**  
Assistant Chief  
Administrative Bureau

**KARL A. GODSEY**  
Assistant Chief  
Support Services Bureau

**HENRY B. LAU**  
Assistant Chief  
Investigative Bureau

**ROBERT D. PRASSER**  
Assistant Chief  
Executive Bureau

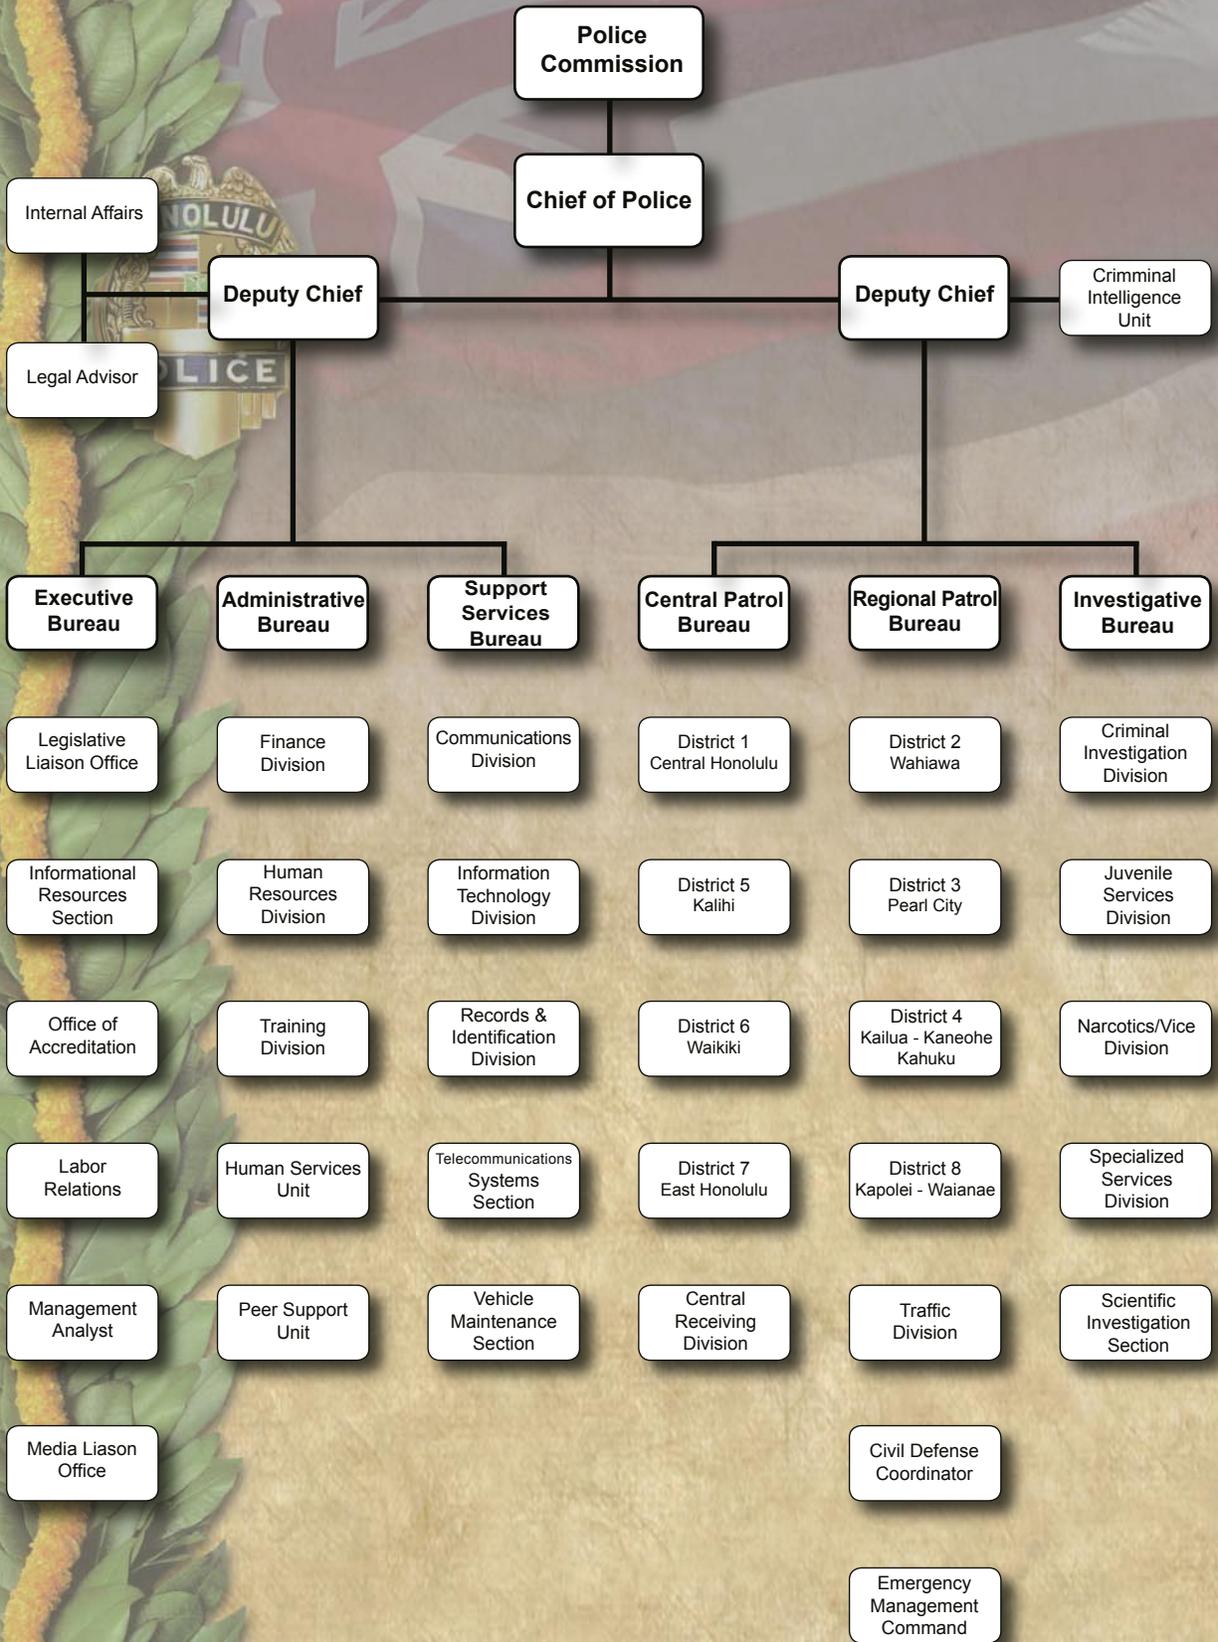

**STEPHEN S. WATARAI**  
Assistant Chief  
Central Patrol Bureau

**BOISSE P. CORREA**  
Assistant Chief  
Regional Patrol Bureau

# Organizational Chart

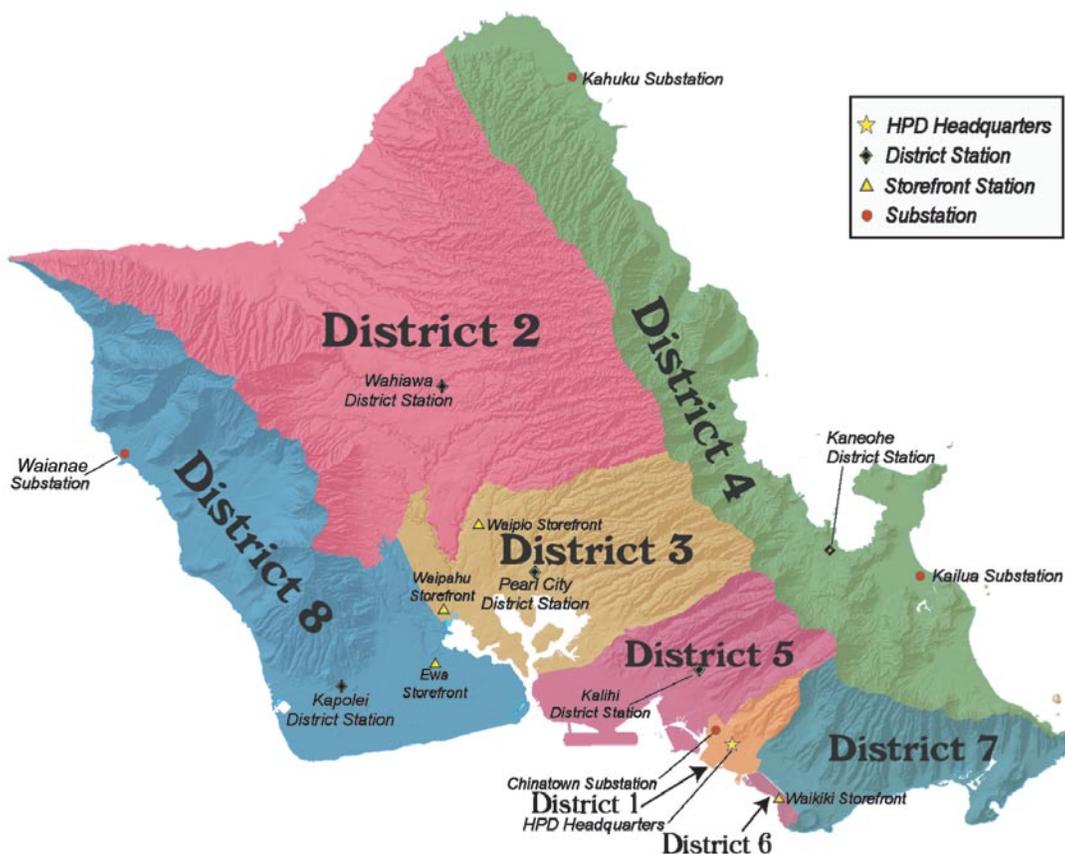

The Honolulu Police Department serves as the primary law enforcement agency for the entire island of Oahu.

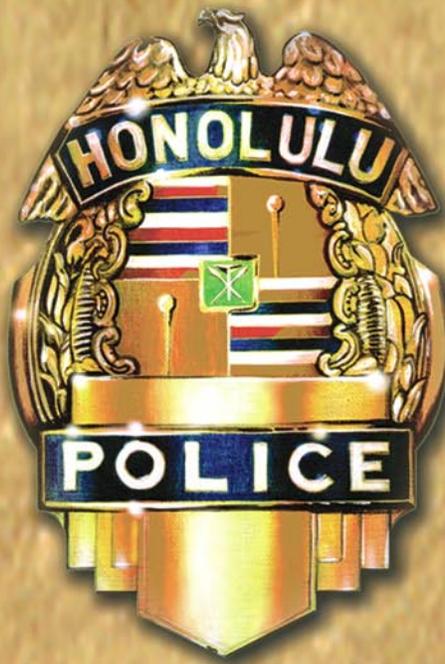

The Chief of Police directs the operation and administration of the department and is responsible for the following:

- preservation of the public peace;
- protection of the rights of persons and property;
- prevention of crime;
- detection and arrest of offenders against the law;
- enforcement and prevention of violations of state laws and city ordinances; and
- service of processes and notices in civil and criminal proceedings.

The department's jurisdiction is the City and County of Honolulu. It includes the entire island of Oahu, which has a circumference of about 137 miles and an area of some 596 square miles. The estimated resident population is about 900,700, which includes military personnel but not tourists.

For police operations, the island is divided into eight patrol districts; each district is subdivided into sectors and beats. The department's headquarters is at 801 South Beretania Street in downtown Honolulu. District stations are found in Kalihi, Pearl City, Kapolei, Wahiawa, and Kaneohe. Other facilities are identified on the map below and in the narrative parts of the report.

# Field Operations

## District 1

District 1 includes the downtown Honolulu area, encompassing the area from Liliha Street to Punahou Street. The command and administrative offices are located in the police headquarters at 801 South Beretania Street.

The Chinatown substation, located at 79 North Hotel Street, serves as a satellite office and fixed community contact point for interaction between police officers and citizens of the district. The station houses the Chinatown Bicycle Detail and detectives of the district's Burglary-Theft Detail.

The street video monitoring systems in the downtown area consist of 26 cameras, covering an area from Fort Street Mall to the stretch of River Street that is on the makai side of Beretania Street. The monitors are located in the Chinatown substation and provide officers with the ability to scan the surrounding areas instantly for any situation that may need to be addressed.

The Weed and Seed program continues to experience success in the district. This program has assisted in the revitalization of the downtown area. Criminal justice agencies work to “weed” criminal elements out of the area, and “seed” procedures are then placed to enhance social services and economic growth. The recent expansion of the Weed and Seed program will present new challenges and

allow our officers to conduct a more rigorous campaign against chronic offenders.

District 1 administers the department's Field Training and Evaluation Program (FTEP). This program pairs newly graduated recruits with veteran patrol officers in the field to give the recruits hands-on training with close supervision. In 2003, 52 recruits completed the FTEP program.

## District 2

District 2 is located in central Oahu and is bordered by Kipapa Gulch and Waiahole Ditch on the south, the Waianae and Koolau mountains on the west and east, and the area from Kaena Point to Sunset Beach on the north. This area includes the communities of Wahiawa, Mililani Town, Mililani Mauka, Whitmore Village, Waialua, Mokuleia, and Haleiwa. Military installations include Wheeler Army Air Field and Schofield Barracks.

During 2003, District 2 was deeply committed to the field operations' goals of property crime reduction and traffic management and enforcement as codified in the “Goals HPD 2003.”

District 2 continues to employ the “beach task force,” which consists of officers who aggressively patrol the shoreline areas in an effort to discourage thefts from vehicles and

ensure the public's safety at the beaches. The district also upgraded its geographical information system. This computerized system is used to map locations and times of property crimes in order to provide officers with timely crime trend information. The information is then used to adjust staffing and implement crime suppression programs within the district.

Throughout 2003, the district continued to run 24-hour programs, such as the Line Patrol on the H-2 Freeway. Each Mililani beat officer has a two-hour responsibility during which they must monitor the freeway for collisions, violations, and general traffic congestion. Officers may respond to calls for police service, but they must return to the freeway as soon as each call is concluded.

District 2 continues to actively support the Citizen Aloha Patrol, a volunteer community group that regularly monitors beaches and other tourist areas, reporting any crimes they see. The patrol also provides a highly visible deterrent to criminals and offers crime prevention tips to visitors.

### District 3

District 3 covers the areas between Red Hill, Village Park, and Waipahu. The main station is located at 1100 Waimano Home Road in Pearl City. Storefront stations are located in the Waipahu and the Gentry Waipio Shopping Centers. The district also maintains a trailer office in the Waimalu Shopping Center.

The Waipahu storefront station houses the district's Weed and Seed program. Weed and Seed is a federal program designed to reduce crime, empower the community, and improve the quality of life through partnerships among the government, local businesses, and residents in the area.

Plainclothes officers of the Crime Reduction Unit (CRU) supported the uniformed patrols' efforts by making 806 arrests in 2003. The CRU participated in a variety of investigations and crime suppression activities, such as joint undercover operations with federal and state agencies. The CRU also assisted other

departmental divisions by searching for and arresting fugitives within the district. Additional activities included search warrant executions, stakeouts, and warrant sweeps.

The Burglary-Theft Detail initiated a community awareness program to educate the public about identity theft crimes. A presentation and

pamphlet covering aspects of the crime were presented to other law enforcement agencies, various community groups, and the Manoa and Hilo campuses of the University of Hawaii.

The district introduced another program called the Prevention, Intervention, Treatment to Stop Thieves Operating Permissively or PIT STOP. Initiated on July 1, 2003, with the cooperation of the Department of the Prosecuting Attorney, PIT STOP facilitated immediate charges for automobile thieves within the district.

In partnership with the Waikele and Stadium Marketplace Kmart stores, District 3 officers also helped to organize the annual "Shop with a Cop" event for underprivileged children.

### District 4

District 4 encompasses all of Windward Oahu in an area of 136 square miles and includes the communities of Waimanalo, Lanikai, Kailua, Kaneohe, Ahuimanu, Kahaluu, Waikane, Waiahole, Kaaawa, Punaluu, Hauula, Laie, and Kahuku. The main station is located at 45-270 Waikalua Road in Kaneohe, with substations in Kailua and Kahuku. The population of the district is approximately 170,000.

District 4 is committed to traffic safety and the reduction of traffic deaths and injuries. These objectives continue to be accomplished through enforcement and community partnerships.

The use of speed monitors placed strategically throughout the district, combined with laser gun enforcement, has helped to make drivers aware of their driving habits. In their commitment to traffic safety, district personnel were credited with over 9,500 traffic stops.

The district's Driving Under the Influence (DUI) Enforcement program focuses on arrests for driving under the influence of alcohol. This program has received strong support from district patrol officers as evidenced by the 369 DUI arrests made during 2003.

In 2003, District 4's Bicycle Patrol Detail was reorganized into the Bicycle/All Terrain Vehicle (ATV) Detail. The use of ATVs allows officers to reach secluded beach areas where thieves were normally able to evade capture from regular patrol sedans.

District 4's Crime Reduction Unit made 197 felony and 495 non-felony arrests during 2003 and executed 11 search warrants.

A pilot program, "Agents of Aloha," was initiated at the Kailua Beach Park in 2003. The strategy behind this program is to have highly visible teams of citizens walking throughout the beach park. These "agents" deter crime by greeting park users, providing safety tips, and serving as the eyes and ears of the community.

Partnerships between the police and community continue to be an invaluable resource. District 4 has 168 Neighborhood Security Watches involving nearly 7,000 participants along with 776 members of the 39 active citizen patrols.

### District 5

District 5 encompasses 36 square miles of central Honolulu and has a resident population of 159,000. The district's boundaries span from Aliamanu in the west to the Pali Highway in the east and from the ridges of the Koolau mountains in the north to the ocean shoreline in the south.

District 5 is the major transportation hub of Honolulu. Six major highways intersect in the district, with over 395,000 vehicles passing through every weekday. The Honolulu International Airport and the state's largest shipping container yard are located in the district.

The district completed 114 Community Area of Responsibility (CAR) projects during 2003. These projects continue to address and resolve a multitude of problems. Examples of CAR projects that were conducted by district personnel include graffiti paint-outs, citizen neighborhood patrols, and selective traffic enforcement programs.

Detectives in the Burglary-Theft Detail closed 297 cases, of which 77 were conferred with the Department of the Prosecuting Attorney for further action. In 2003, the Burglary-Theft Detail recovered \$26,414 in cash and \$155,601 worth of property.

The district's Misdemeanor Follow-Up Detail (MFUD) was assigned 1,580 cases for further investigation. Nearly 330 cases were closed and sent to the Department of the Prosecuting Attorney for prosecution. In May, the MFUD began to investigate Abuse of Household Member cases and Temporary Restraining

Order violation cases. A total of 143 cases were investigated, and 100 arrests were effected for these two offenses.

District officers continue to support the "Pals for PAL" program. This program has on-duty personnel stopping by Police Activities League events to interact with the coaches, youngsters, and parents. By taking the time to show interest, district personnel help sustain the community's perspective of police officers as positive role models.

## District 6

District 6 covers Waikiki from the Ala Wai Canal on the west to the slopes of Diamond Head on the east. The administrative offices are located at the Alapai headquarters. The Waikiki substation is located at 2405 Kalakaua Avenue. The Burglary-Theft Detail and the Crime Reduction Unit are located on the fourth floor of the Royal Hawaiian Shopping Center.

Waikiki is the state's central tourist destination. Both tourists and island residents enjoy many of the activities held in Waikiki. During 2003, Waikiki hosted 132 events, such as Aloha Week, the Dr. Martin Luther King Jr. parade, Sunset on the Beach, and the Okinawa Festival.

Day Operations personnel currently provide safety orientations for visiting teams involved with the University of Hawaii.

Night Operations uniformed officers walk along with various citizen patrols in the evening to show support and gather valuable information concerning beat problems.

District 6's Bicycle/All Terrain Vehicle Detail includes two sergeants and nine officers who patrol Waikiki on bicycles and ATVs. The detail provides high visibility and mobility on the beaches and in the parks.

The district's CRU consists of two sergeants and six motorized and foot officers. During 2003, the unit made 402 arrests, of which 138 were felony arrests.

Prostitution is an ongoing concern in Waikiki. The enforcement of geographical restrictions placed on prostitutes arrested within the district continues to be a highly effective tool. By order of a judge, a person arrested for prostitution can be prohibited from entering or walking on the streets or sidewalks of Waikiki between the hours of 6 p.m. and 6 a.m.

### District 7

District 7 covers the east Honolulu area from Punahou Street to Makapuu Point. This includes Manoa, McCully, Kaimuki, Diamond Head, Waialae, Kahala, Aina Haina, Kuliouou, Hawaii Kai, Kalama Valley, and Sandy Beach. The district is predominately residential with support infrastructures, such as schools, parks, shopping centers, and the University of Hawaii.

An emphasis was made to train officers to better detect Driving Under the Influence (DUI) violations and enforce DUI laws. These and other proactive enforcement measures, such as the safe vehicle compliance program and the racing abatement program, raised the district's proficiency levels. Officers are positioned at specific locations during peak traffic hours to monitor traffic and respond to any situation that may hamper its flow. Supervisors and watch commanders have been directed to use all resources available to assist in the movement of vehicular traffic.

Community-Traffic Awareness Partnership (C-TAP), Strategic Traffic Enforcement Program (STEP), and the Mobile Speed Monitor are programs designed to address hazardous traffic conditions, such as speeding, red light, and seat belt violations.

District 7 currently has 124 Neighborhood Security Watches. The Neighborhood Security Watch program empowers the community through a telephone/fax network that makes crime series or suspect information available to residents.

Prompted by numerous complaints concerning certain parks in District 7, officers began working with the Department of Parks and Recreation to close certain district parks during late evening hours. To date, the Ala Wai Promenade has been designated to this category and is closed to the public between the hours of 10 p.m. and 5 a.m.

### District 8

District 8 services the communities of Ewa, Ewa Beach, West Loch, Kalaeloa (formerly Barber's Point), Kapolei, Makakilo, Campbell Industrial Park, Honokai Hale, Ko'Olina, Nanakuli, Lualualei, Maili, Waianae, and Makaha. The district has approximately 35 miles of coastline and a total land area of 128 square miles.

The Kapolei station continues to serve as a multidivisional police station. In addition to uniformed patrol officers, the Juvenile Services Division also has officers stationed there.

In 2003, the Waianae substation underwent renovation in order to better service the public. The renovation consisted of upgrading the public restrooms and resurfacing the building floor.

The Weed and Seed program was formally implemented in the Ewa and Ewa Beach areas in 2003. The Weed and Seed strategy involves a two-pronged approach. First, the criminal element is “weeded” out; and second, social services and economic revitalization are introduced, providing long-term change and a higher quality of life for the area’s residents.

District 8 has a strong Neighborhood Security Watch (NSW) program and saw ten new groups created in 2003. At the close of the year, the district had 81 active NSW programs that involved 5,100 households. Along the same lines, the district has 36 citizen patrols comprised of nearly 650 trained members.

### Central Receiving Division

The Central Receiving Division (CRD) is the primary booking and detention facility for

the Honolulu Police Department. Persons arrested in Districts 1, 6, and 7 are processed at the CRD and held until they are released on bail or taken to court. The division is also responsible for detaining persons who are arrested and under investigation for felonies. Persons arrested in outside police districts who are unable to make bail are transported to the CRD to be held until they are transferred for arraignment.

Throughout calendar year 2003, the CRD handled more than 35,000 bookings and provided more than 45,000 meals to persons held in the cellblock.

This year, the CRD converted to a new booking and mug photographing system. These two systems are part of the department’s new Records Management System.

The CRD is also responsible for the physical security of the Alapai headquarters and maintains around-the-clock security for the building. Another divisional duty is to provide a timely response for any duress or fire alarm that may occur in the building.

Along with operating the Alapai headquarters’ arsenal, divisional personnel also prepare a court custody log for persons who are scheduled for court arraignment.

### Traffic Division

The Traffic Division investigates certain motor vehicle collisions and promotes the safe and efficient movement of traffic on public roadways through educational programs, traffic management, and the enforcement of traffic laws.

The Vehicular Homicide Section (VHS) investigates motor vehicle collisions involving deaths, critical injuries, and felony traffic crimes. The VHS also oversees the investigation of other traffic collision cases, such as failure to render aid and the follow-up investigation of collisions initially handled by patrol elements. During 2003, the VHS investigated 67 collisions that resulted in 81 traffic fatalities as compared to the 68 collisions that resulted in 68 fatalities in 2002.

During peak morning and afternoon periods when Oahu's roadways are filled to capacity, the Solo Motorcycle Detail is assigned to help maintain the normal flow of traffic. In addition to enforcing traffic laws, solo bike officers provide motorcycle escorts for parades and visiting dignitaries, and they participate in community events such as the "Say Hi!" school program.

The Junior Police Officer (JPO) Detail is a program that provides traffic safety assistance for children traveling to and from our elementary schools. The program services 124 public and private schools throughout the island and has

approximately 5,000 participating children. The JPO program has been in existence for over 80 years and is the only student traffic assistance program of its kind in the nation.

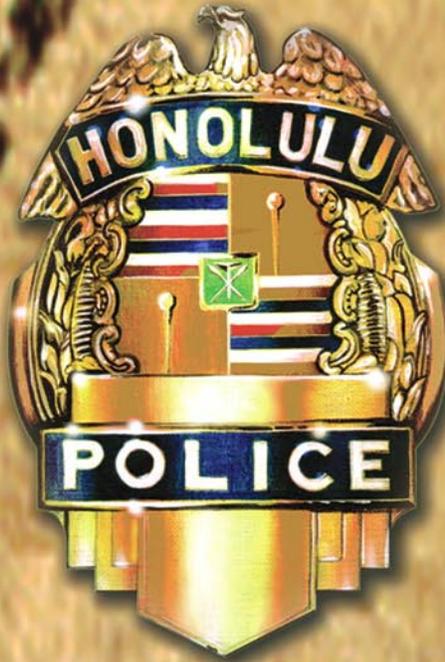

The Traffic Division's disabled parking enforcement program consists of 24 civic-minded volunteers who are trained and commissioned by the department to enforce disabled parking laws. In 2003, these volunteers issued 3,300 parking citations for violations of the disabled parking laws. On December 3, 2003, the Honolulu City Council presented the volunteers with certificates honoring their contributions and commending them for the program's success.

### Civil Defense Coordinator

The Civil Defense Coordinator is responsible for developing departmental guidelines, coordinating training, and ensuring that all departmental elements are prepared to handle police-related activities when natural or man-made disasters threaten or occur. These activities must often be coordinated with other governmental agencies and private organizations. In 2003, the department participated in and conducted several training exercises designed to develop and improve skills necessary for responding to these situations.

### Emergency Management Command

The Emergency Management Command (EMC) assesses, develops, plans, coordinates, and prepares the department's involvement in incidents relating to terrorism. The EMC takes charge of major events, establishes interagency communications, coordinates site and threat assessments, and gathers intelligence involving terrorism. It is responsible for identifying, acquiring, and managing resources to prevent and resolve acts of terrorism. The EMC also participates in and coordinates joint training exercises with federal, state, and other local agencies.

# Investigative Bureau

**Criminal Investigation Division**

The Criminal Investigation Division is responsible for all felony investigations relating to assault, auto theft, forgery, murder, robbery, sexual assault, and white collar crime. Personnel in the division collaborate with various law enforcement and government agencies along with victim advocate groups, citizen groups, and private businesses to combat crime.

The Honolulu Violent Incident Task Force continued to prosecute cases in the federal court system. This joint effort involving the U.S. Attorney's Office, Federal Bureau of Investigation, and the Honolulu Police Department (HPD) resulted in the federal prosecution of 12 suspects on 23 charges.

Project Safe Neighborhoods is also a joint effort by federal, state, and local authorities to ensure that criminals who engage in gun violence face tough sentences. With the assistance of the Bureau of Alcohol, Tobacco, Firearms and Explosives, four males were convicted in federal court under this project.

In May 2003, the Auto Theft Detail acquired Vehicle Identification Number (VIN) etching equipment. This equipment is being used to permanently affix a motor vehicle's VIN on a window of a vehicle. The etching serves as a deterrent to thieves who attempt to alter a vehicle's identity by switching the VIN plate that is located on the dashboard. This is a public

service that is being offered to the community as a means of combating auto thefts in Honolulu.

The Minor Abducted in Life-threatening Emergency (MAILE) alert program was implemented in the latter part of 2002. In May 2003, the Missing Child Center of Hawaii recognized the HPD for its efforts in implementing the MAILE alert plan. In September 2003, the HPD obtained its first scent-discriminating tracking bloodhound to assist in locating missing children, hikers, and other lost persons. The bloodhound and its training were funded entirely by the Missing Child Center of Hawaii.

The CrimeStoppers program continues to solicit community assistance to help the police solve crimes. This includes gathering tips on crimes with no known suspects, locating known suspects, and identifying unknown victims. Information from CrimeStoppers was responsible for solving 408 cases, including two murders. Properties valued at \$293,911 and narcotics valued at \$9,405 were recovered through this program. In 2003, CrimeStoppers was responsible for 207 arrests with the help of 34 volunteers who worked 4,077 hours.

The first Business Police Academy started on September 10, 2003. Seventeen members of the community received more than 24 hours of instruction over an eight-week period. The attendees were afforded a firsthand look into

the rules, regulations, and policies that guide the police department.

### Juvenile Services Division

The Juvenile Services Division (JSD) provides innovative, effective programs of crime prevention, intervention, and education to improve the quality of life for island children and the community.

The Drug Abuse Resistance Education (DARE) program provides third, fifth, eighth, and tenth graders with a curriculum that helps them to recognize and resist the temptation to experiment with alcohol and drugs.

Culminating the school year, DARE Day was held in May 2003 at the Stan Sheriff Center, University of Hawaii at Manoa. More than 10,000 DARE students attended. At the end of 2003, over 13,000 students had participated in the DARE curriculum.

Gang Resistance Education and Training (GREAT) is a program designed to educate middle-school students about the law, delinquent behavior, and the dangers of gang membership. During 2003, nearly 8,700 seventh graders were enrolled in the GREAT program.

Evening Counseling is an intervention program designed to counsel first-time misdemeanor

offenders and second-time status offenders. In 2003, 1,370 juveniles along with their parents attended the Evening Counseling program.

The Runaway Detail is tasked with investigating juvenile runaway cases that are generated from patrol, other divisions, and outside jurisdictions and agencies. The detail is also responsible for the Acquiring Knowledge Awareness Motivation and Inspiration (AKAMAI) program. The AKAMAI program, which is geared to first-time status offenders, is a diversionary program that counsels juveniles about the dangers of committing status offenses. In 2003, approximately 1,500 families were referred to the AKAMAI program.

The Police Activities League (PAL) coordinated athletic programs and other activities with the objective of providing recreation for youths and cultivating friendly relationships with police officers. During 2003, PAL programs reached approximately 9,600 youths islandwide.

### Narcotics/Vice Division

The Narcotics/Vice Division is responsible for the enforcement of laws, ordinances, and regulations relating to gambling, morals, and narcotics offenses.

Personnel of the Hawaii Airport Task Force (HATF) participated with county, federal, and

state agencies to interrupt drug smuggling into and throughout the state. The Hawaii High Intensity Drug Trafficking Area (HIDTA) task force consists of officers assigned to three enforcement groups: one at the Honolulu International Airport working interdiction enforcement and two other groups concentrating on mid- to high-level drug trafficking with possible links to organized crime. During 2003, HATF personnel confiscated more than 217 pounds of narcotics valued at over \$20.1 million and another \$2.4 million in cash, vehicles, and weapons. A total of 198 investigations were initiated and resulted in the arrests of 12 individuals and the seizure of more than 32 pounds of crystal methamphetamine, \$478,000 in cash, and 3 luxury import vehicles.

The 14 members of the Covert Detail are responsible for conducting long-term undercover investigations that focus on major drug trafficking operations and subjects affiliated with local and mainland organized crime. The detail's members are also a part of the Hawaii Interagency Mobile Police Apprehension Crime Task Force (HI IMPACT), which is a multiagency investigative initiative funded by the HIDTA program. A total of 203 investigations were conducted, 36 search warrants were executed, and 120 arrests were made by HI IMPACT. These actions resulted in the recovery of approximately 45 pounds of

crystal methamphetamine with a street value of \$1.95 million and the seizure of nearly \$1.5 million in assets.

Investigators from the two complaints details received 1,410 complaints and closed 1,169 cases through investigations, search warrants, and other means.

The Regional Complaints Detail also conducted 20 buy-bust operations. The detail executed 59 search warrants that resulted in the recovery of 1,846 grams of crystal methamphetamine, 160 grams of powdered cocaine, more than 5,940 grams of marijuana, 875 tablets of ecstasy, 117 tablets of other harmful drugs, 6 firearms, 2 stun guns, and \$73,865 in cash. In addition to their drug enforcement duties, members of the detail also attended 83 community drug awareness meetings, functions, and presentations.

The Clandestine Laboratory Response Team investigated 81 complaints of possible drug laboratories. Six laboratories were discovered and processed, which resulted in 21 arrests and the initiation of ten felony cases. Recovered from these clandestine laboratories were: 5.56 grams of crystal methamphetamine, 56 ounces each of denatured alcohol and acetone, 32 ounces of toluene, 16 ounces of isopropyl alcohol, and 1 quart of muriatic acid. These chemicals are used in the manufacturing process of illegal narcotics, such as crystal methamphetamine.

The Marijuana Eradication Detail is comprised of four officers who conduct investigations relating to marijuana cultivation and distribution. Efforts on Oahu resulted in the eradication of 162 marijuana plots and the seizure of 14,901 marijuana plants and nearly 500 pounds of processed marijuana. The detail participated in five eradication efforts on Oahu and ten on neighboring islands. Working with the Division of Conservation and Resource Enforcement, Department of Land

and Natural Resources, the detail held six Drug Demand Reduction programs at various public and private schools on Oahu.

The Asset Forfeiture Detail investigated more than 600 cases during 2003. Seizures under chapter 712A of the Hawaii Revised Statutes amounted to approximately \$2.5 million in cash and over \$500,000 in property and jewelry. One hundred fifty vehicles valued at nearly \$600,000 were also seized. The Asset Forfeiture Detail continues to assist officers of the Honolulu Police Department, as well as the Department of the Prosecuting Attorney, Department of the Attorney General, Drug Enforcement Administration, Federal Bureau of Investigation (FBI), and U.S. mainland departments with their forfeiture cases.

The Morals Detail arrested 355 people, including 9 juveniles, for prostitution and related offenses such as escort services, hostess bars, massage parlors, and street solicitation. The Morals Detail partnered with the Bureau of Immigration and Customs Enforcement, Internal Revenue Service (IRS), Department of Commerce and Consumer Affairs, and the FBI to identify promoters and violators of prostitution.

The Gambling Detail investigated more than 110 complaints. A total of 40 operations and search warrant executions resulted in 58 arrests and the seizure of more than \$21,940 in cash and \$52,186 in property. Partnerships with both the FBI and the IRS have been cultivated to enhance enforcement in curtailing casino-type game rooms, cockfighting operations, sports betting, and video game rooms.

In April 2003, a permanent Lockup Detail was established consisting of three detectives. The detail investigates felony drug arrests made by patrol officers and conducts in-service training on drug investigations and search and seizure issues to patrol officers and recruits. A total of 829 cases were investigated and resulted in 264 people being charged.

## Specialized Services Division

The Specialized Services Division (SSD) consists of the Task Group, Bomb/Chem-Bio Detail, Helicopter Section, Canine Unit, and Mounted Unit. The division also serves temporary restraining orders (TRO) where weapons are involved, provides dignitary protection, and enters and secures sites where search warrants are being executed.

The Special Weapons and Tactics teams responded to 11 high-risk incidents involving suspects in hostage or barricade situations. All incidents were resolved without significant injuries to the hostages or officers. In 2003, the SSD served 241 TROs, recovering 171 firearms in the process. The division's personnel participated in 89 search warrant assists in 2003 with no significant injuries.

The Bomb/Chem-Bio Detail consists of five bomb technicians and four hazardous materials

technicians. In 2003, the detail responded to 41 calls involving military ordnance, improvised explosive devices, commercial explosives, and hoax devices.

The Helicopter Section, based at the Honolulu International Airport, handled 317 assignments for the year. The section, in the course of their duties, recovered 99 stolen vehicles valued at nearly \$1,700,000. The section, in partnership with the Narcotics/Vice Division, recovered nearly 1,700 marijuana plants valued at almost \$5,993,000.

The Canine Unit responded to 106 requests for assistance during 2003. These calls included searches for fleeing suspects as well as “sniffs” for explosives and narcotics. In 2003, “Annie,” a scent-discriminating bloodhound, joined the unit.

The Mounted Unit adds a new dimension to the division’s capabilities. Crowd control, rural area searches, and high-visibility patrols are some of the additional functions that can be accomplished with the six new horses of the

unit. While in the field, the Mounted Unit was responsible for 14 arrests and 20 citations. In an effort to maintain positive relations with our island community, the division conducted 44 presentations at various schools and community events.

### Scientific Investigation Section

The Scientific Investigation Section (SIS) promoted two evidence specialists into supervisory positions in 2003. Currently, there are three vacant criminalist positions, five vacant evidence specialist positions, and one vacant questioned documents examiner position. There are eight approved, but currently unfunded, positions, which include one quality assurance/quality control manager, four forensic unit supervisors, two criminalists, and one senior clerk typist. Two criminalists, one assigned to the Questioned Documents Unit and the other assigned to the DNA/Serology Unit, have completed their training and are undergoing supervised casework. A criminalist assigned to the Trace Evidence Unit has completed his training in fire debris analysis and continues to train in the area of gunshot residue analysis.

An external audit was conducted on the DNA/Serology Unit by the National Forensic Science Technology Center in November 2003. The

unit passed the inspection and retained its accreditation. The uploading of the DNA types into the Combined DNA Index System (CODIS) was planned for in December 2003. Two firearms examiners received training on how to operate and input data into the computer system and are currently contributing information to the national database.

The SIS received two grants totaling \$253,275. The No Suspect Casework DNA Backlog Reduction Program

grant provided \$224,098 that will be used to outsource unsolved cases for DNA analysis. The DNA types will be inputted and searched in the CODIS. The Paul Coverdell Grant awarded the SIS \$29,178.

These monies will be used to install an intrusion alarm system within the laboratories and to purchase equipment for the Crime Scene, Drug, Firearms, and Trace Evidence Units.

In order to keep abreast of the latest technological developments, SIS personnel continue to attend training courses and workshops across the nation. Training seminars included the Accreditation Mentoring Workshop, Clandestine Laboratory Investigating Chemists Conference, and International Association for Identification Conference. Also, some SIS personnel belong to technical working groups which are organized and sponsored by the FBI. Active members participate in creating policies and procedures to standardize forensic analyses across the country.

The SIS continues to work with the community to enhance scientific processes. In addition to giving presentations about the section, training was also provided in fingerprint techniques, criminalistics, and crime scene investigations to members of the Citizens Police Academy, new detectives, recruits, and other interested groups. An interactive program was held for 12 science teachers from across the state, in which the attendees participated in practical

experiments so that forensic studies could be added to academic curriculums. Graphic artists continue to provide information on being effective eyewitnesses so that a more accurate description of suspects can be

compiled. Due to laboratory accreditation, the internship program was put on hold. It is anticipated that once accreditation is received, the internship program will be reinstated.

# Administrative Bureau

## Finance Division

The Finance Division oversaw the department's \$158.5 million annual operating budget for fiscal year 2003. The budget covered all salaries, current expenses, and equipment purchases.

The Finance Division also coordinates or manages approximately 34 grants totaling more than \$21.6 million. These grants cover the purchasing of mobile data computers and equipment relating to seat belt and speed enforcement, forensic DNA testing, and homeland security. Presently, the Finance Division is researching private and public foundation opportunities for current as well as future innovative programs.

## Human Resources Division

The Human Resources Division (HRD) continued their accelerated efforts to fill police officer vacancies. Two hundred and twenty-seven police recruits were hired to fill four recruit classes in 2003.

For the first time in the history of the department, recruitment was carried out on the U.S. mainland. In November, a team was sent to Portland, Oregon, where they tested 83 individuals who were from various parts of the United States. The effort decreased the high costs that mainland applicants incur when

traveling to Honolulu to go through the hiring process.

The division produced a recruitment video that depicts the applicant screening process. Television advertisements were aired during the first Hawaii high school football games to be broadcast on the west coast. A "Recruit Your Beat Partner" campaign was initiated to encourage police officers to recruit quality individuals and to remind officers that they have a major impact on who joins the department.

The HRD also acquired and equipped a vehicle to be used as a "mobile career center," which improved the division's recruiting efforts in reaching the rural areas of Oahu. The division also coordinates the assignment of special duty jobs (off-duty police services) for the department. For the first time in ten years,

officers' compensation for such jobs was increased from \$20 per hour to \$25 per hour. In the past year, the HRD produced and issued new employee identification cards that incorporate bar codes in addition to employees' photographs.

### **Training Division**

The Honolulu Police Department's Training Division, Ke Kula Maka'i, is located in Waipahu. The division is responsible for providing training in three main areas: recruit classes, annual recall training for officers and civilian employees, and specialized training for officers in units requiring specific skills.

During 2003, 106 new officers graduated from four recruit classes. After the three scheduled classes graduate next year, the number of subsequent graduates in the following years should replenish officers who leave through normal attrition.

The current recruit class consists of 1,054 hours of instruction. The concept, application, and examples of the Community Area of Responsibility (that is based on the core principles of integrity, respect, and fairness) are included in class discussions.

The Annual Recall Training (ART) I program is a three-day, 36-hour course where an entire watch from each district receives training. It is

during ART I that officers receive mandatory training in firearms, sexual harassment, bloodborne pathogens, Hazmat, and legal updates.

During 2003, the Training Division held 32 ART I sessions and trained 1,084 patrol officers.

The Training Division also held 19 ART II sessions and trained 629 non-patrol officers and captains. The ART II is a two-day, 16-hour program that covers various aspects of departmental policies and procedures. A "Fit for Life" segment is also included.

The division also conducted 20 ART III sessions for 463 civilian employees. Because of the diverse job descriptions of the department's civilian employees, ART III is geared toward general classes. The eight-hour curriculum covers topics such as sexual harassment training, conflict management, peer support, and bloodborne pathogens.

In November 2003, the Training Division hosted the Chief's Competition. Control and Arrest Tactics, Fit for Life, and firearms events were the areas of competition. The Chief's Competition is intended to reinforce physical fitness and functional skills of police officers and boost the morale of all involved.

The Training Division has taken the lead in the introduction of the M-26 Advanced Taser for police work. The M-26 uses a mild electrical charge to incapacitate a person so that the risk of injury is minimized.

### Human Services Unit

The Human Services Unit (HSU) continues to provide free, anonymous counseling to departmental employees and their families on a variety of issues. Work stress, parenting stress, divorce, illness, anger management, loss, and aging parents are just a few of the concerns covered.

In addition to counseling, the HSU provides consultation to the administration, critical incident debriefings, teaching and training on a variety of subjects, and post-shooting counseling.

In 2003, a research survey was conducted concerning the effects of work-related stress on departmental personnel. The goal is to develop in-service training on how to avoid and/or minimize the damaging effects of pressure.

# Support Services Bureau

## Communications Division

The essential functions of the Communications Division are to serve as the primary public safety answering point for the enhanced 9-1-1 emergency telephone system. Police call takers receive requests for police services, and radio operators dispatch police officers to the appropriate locations throughout the island.

Along with handling calls for service, the division serves as the Hawaii State Warning Point for civil defense emergencies.

Of the more than one million calls for services received by the division in 2003, approximately 700,000 were for police services and 10 percent were emergency situations.

The division continued to push for the establishment of a 3-1-1 nonemergency telephone system that would improve the efficiency of handling both emergency and nonemergency calls from the public.

An enhanced 9-1-1 bill that proposes a surcharge is currently before the state legislature. Monies from this surcharge would help fund technology that can identify and locate cellular telephones in cases of emergencies.

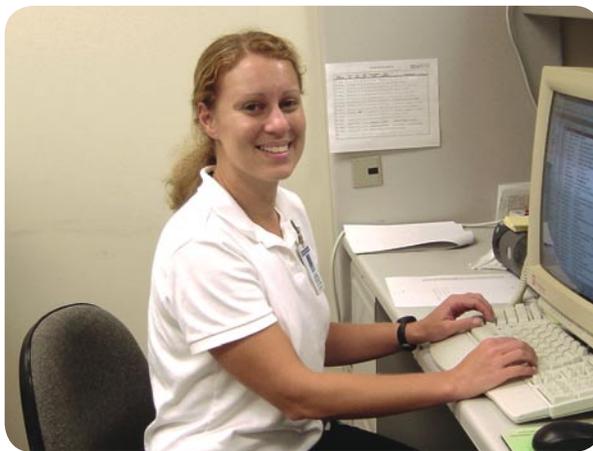

Recruiting and retaining quality police dispatchers continued to be a priority in 2003. The division, in conjunction with state

lawmakers, attempted to pass legislation that would enable dispatchers to retire after 25 years of service and would designate these employees as essential personnel.

The division's Computer Aided Dispatch System (CADS) continued to be improved as software upgrades became available. Plans moved ahead to integrate enhancements such as mobile data computers, the Records Management System, and Automated Field Reporting with the CADS.

## Information Technology Division

The Information Technology Division (ITD) provides technical and research support to all departmental elements. The ITD maintains the department's computer system, conducts general research and staff studies, gathers and analyzes all pertinent crime data, and maintains a centralized statistical reporting system.

In 2003, the Research Section posted departmental policies and procedures on the department's Intranet. A new, automated training program uses e-mail to notify all employees of changes in the directive system and provides links to the current documents on the intranet.

The Data Section continued its progress toward fulfilling Chief Lee Donohue's vision for the strategic technology reengineering of the

Honolulu Police Department. Patrol officers and investigators are being provided with new tools to enhance efficiency with electronic workflow and automated work processes. Police are becoming more effective as more information is being made available in the field from a wider range of sources.

The department is equipped with approximately 1,200 laptop computers in patrol vehicles, along with 900 desktop computer workstations and nearly 40 network servers. Such hardware helps to support the Computer Aided Dispatch System and Records Management System.

Mobile policing requires wireless communications. The backbone of the wireless data communications network was established in 2003. Wireless access points are deployed islandwide to provide "hotspots" that are accessible to each Community Area of Responsibility. These hotspots enable officers to transfer high volumes of data such as electronic photographs and computerized field reports at designated points.

The development of computer forensics continued as the ITD became increasingly involved in the execution of search warrants and recovery of electronic information that may have evidentiary value.

The ITD will continue to provide the best quality of technology and research support service to the department and the community.

### Records and Identification Division

The Records and Identification Division consists of seven major sections: Records, Identification, Evidence, Warrants, Firearms, Follow-Up, and Alarm Tracking and Billing. The division maintains records for all known offenses and is responsible for the servicing of warrants, handling of evidence, registering of firearms and alarms, and fingerprinting.

For the past year, the division has been actively involved in implementing the new Records Management System (RMS). This system will provide the department with a flexible interface platform to support automated field reporting technology and will lead the way to a paperless workflow process.

Two new projects were implemented in 2003. In an effort to reduce time and costs involved in the purging of evidence items, the procedure now takes advantage of the electronic information highway. Property Bureau.com, an on-line auction company, was contracted to use the Internet to solicit and process bids for property that is slated for disposal. Over \$18,000 was collected and turned over to the department's Finance Division through this program.

Another project inaugurated by the division was the bar coding of evidence. All items now

received by the evidence room are bar coded and tracked via the computer. Bar coding allows the thousands of pieces of evidence to be located in a more timely and efficient manner.

The Alarm Tracking and Billing Section is responsible for registering all burglar alarms in the City and County of Honolulu. Permits are issued for burglar alarms and then tracked for excessive false alarms. Alarm owners are allowed three false alarms per year before service charges are assessed. In 2003, there were 27,050 alarm calls versus 30,426 alarm calls in 2002. This is an 11 percent decrease during the course of a year.

### Telecommunications Systems Section

During 2003, the Telecommunications Systems Section (TSS) initiated a host of technical upgrades to the 800 MHz voice radio system.

The 800 MHz radio system program, which utilized a disk operating system (DOS), was upgraded to Windows software. This upgrade has radio management features not found in the DOS.

Another radio improvement carried out by the TSS was the installation of an ACU 1000

Modular Interconnect System in the Emergency Management Command vehicle. This piece of equipment enables radios in the command vehicle to communicate with other state, federal, and military agencies.

### Vehicle Maintenance Section

The Vehicle Maintenance Section (VMS) converted all of its motorcycles to BMWs. As officers transitioned from Harley-Davidsons to the BMWs, they participated in a one-week training course to familiarize themselves with the new motorcycle.

In 2003, the VMS was also able to purchase and place into service 50 new patrol vehicles.

# Executive Bureau

## Media Liaison Office

The Media Liaison Office (MLO) is staffed with two civilian employees who handle much of the department's internal and external communications. Along with publishing and mailing "The Blue Light" newsletter to all employees and retirees, the MLO helps to produce the Chief's videotaped messages and the department's calendar of events. The MLO also edits departmental publications, instructs recruits and new sergeants in media relations, and assists in the development of the department's Intranet.

The MLO also responds to daily inquiries that come from the news media and initiates departmental news releases.

## Labor Relations

The labor relations specialists coordinate and handle grievances for all collective bargaining units. They also represent the department in quasi-judicial and appellate bodies relating to collective bargaining issues. Additionally, they participate in collective bargaining negotiations and advise the administration about the proper application of contract provisions.

## Legislative Liaison Office

The Legislative Liaison Office (LLO) is responsible for coordinating all legislative

matters that affect departmental operations. During the 2002-2003 legislative session, the LLO tracked 958 bills and resolutions that were introduced. The office is also responsible for tracking bills and resolutions that go before the Honolulu City Council.

The LLO also provides classes for the department and other county police departments on recently enacted and modified state laws.

## Office of Accreditation

On July 12, 2003, the Honolulu Police Department (HPD) achieved national accreditation through the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA).

Of the approximately 17,000 law enforcement agencies in the United States, only about 600 have achieved CALEA accreditation. The

HPD is the fourth largest of the 14 accredited U.S. agencies in the Major Cities Chiefs Association.

The Office of Accreditation is responsible for the department's compliance with accreditation standards and issues involving departmental

policies. The keys to a successful accreditation program are: (1) assimilating accreditation practices and philosophies into all aspects of departmental operations and (2) establishing a permanent accreditation unit as a part of the process.

The Office of Accreditation was established to ensure that operational policies and procedures

comply with accreditation standards and meet departmental objectives and goals.

Staffed with a major, lieutenant, two sergeants, and an officer, the office also serves as the departmental liaison with the CALEA.

### The Informational Resources Section

The Informational Resources Section (IRS) operates and coordinates a number of the department's special projects and events.

#### HPD Museum

The Honolulu Police Department's museum houses exhibits that tell the history of the department from its inception through the present day. The museum is a popular stop for visitors touring the Alapai headquarters and had more than 7,100 visitors in 2003.

#### Speakers Bureau

The IRS coordinates the departmental Speakers Bureau, which provides experts on subjects such as home and personal security, robbery and theft prevention, child security, traffic safety, drug awareness, domestic abuse, and workplace violence. More than 950 requests for speakers were handled in 2003.

#### Ho'ike Information Line

The Ho'ike Information Line continues to provide the public with a central contact point from which they can obtain answers or referrals for police-related questions. Anyone with a question can call 529-3352 on weekdays during normal business hours. During the year, over 1,950 calls were handled via the information line.

#### Citizens Police Academy

Held twice a year, the Citizens Police Academy is designed to open lines of communication between the public and the police department. By enrolling in this academy, members of the public can gain a firsthand understanding of what it takes to become an officer. Among other things, participants come to realize the educational, physical, and emotional demands endured by those who serve in law enforcement. It is hoped that this heightened understanding will correct some of the misconceptions about police work and foster mutual respect between the public and the department.

#### Youth Citizens Academy

The Youth Citizens Police Academy is open to high school sophomores, juniors, and seniors. Like the adult Citizens Police Academy program, the goals of the youth program are to promote the understanding of police work to the participants and enhance the relationship between students and the department.

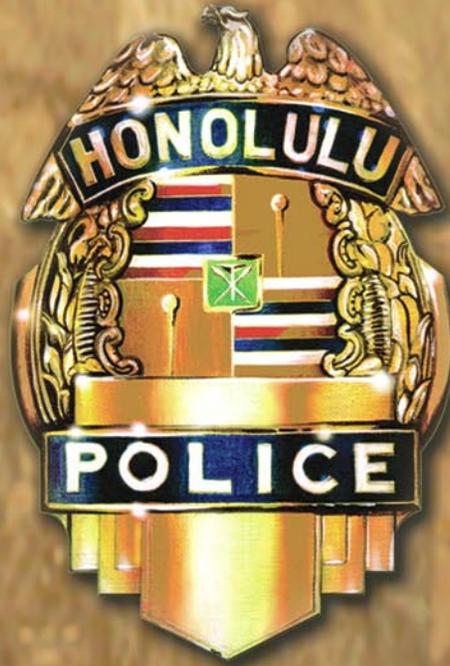

#### Other Activities

The IRS continues to coordinate the department's awards program and activities that are part of the national observance of Police Week. The section also maintains the department's Internet web site, [www.honoluluupd.org](http://www.honoluluupd.org).

In 2003, the section helped to plan and coordinate events such as the Law Enforcement Coalition of Hawaii breakfast and visits by officers from the Philippine National Police Academy.

# Awards & Honors

*Assistant Chief Boisse Correa*  
2003 City and County Manager of the Year

*Lieutenant Clayton Kau*  
Police Officer of the Year

*Lieutenant Clayton Kau*  
Lieutenant of the Year

*Detective Randal Nakamura*  
Detective of the Year

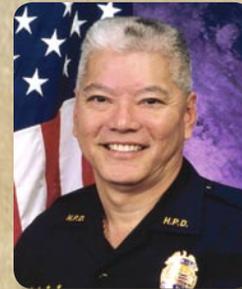

*Sergeant Glenn Maekawa*  
Sergeant of the Year

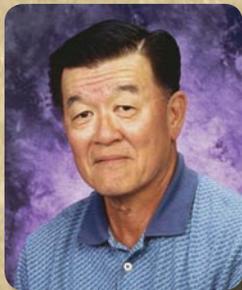

*Officer Duane Samson*  
Metropolitan Police Officer of the Year

*Reserve Officer Silverio Nacino, Jr.*  
Reserve Officer of the Year

*Officer Guy Yamashita*  
Police Parent of the Year

*Mr. Benjamin Kusano*  
Civilian Employee of the Year

*Mr. Kenneth Tano*  
Citizenship Award

*Warrior Gold Medal of Valor*

*Lieutenant Curtiss Loui*

*Sergeant Aaron Bernal*

*Officer Robert Steiner*

*Warrior Bronze Medal of Valor*

*Officer Mace Minakawa*

*Warrior Bronze Medal of Merit*

*Officer Tay Deering*

*Aloha, Ryan*

*Officer Ryan Keith Goto*  
*March 27, 1968 to July 31, 2003*

# Statistics 2003

Major statistics are presented on pages 43 through 56. For purposes of presentation, statistics are categorized in different ways.

For instance, offenses are counted in two ways: actual and reported.

"Actual offenses" are defined according to the standards of the Uniform Crime Reporting program of the Federal Bureau of Investigation. Counts of actual offenses are a common measure of crime. The data that appear on pages 43 through 48 of this section are based on actual offenses.

"Reported offenses" include unfounded complaints, which are screened out in the counting of actual offenses. Counts of reported offenses are a common measure of workload. The data on pages 49 through 56 of this section are based on reported offenses.

Seven serious offenses are used to define trends and make comparisons across the nation. These offenses are called index crimes, and data about them are drawn from the Federal Bureau of Investigation's Uniform Crime Reporting (UCR) program. The offenses consist of four violent crimes (murder, forcible rape, robbery, and aggravated assault) and three property crimes (burglary, larceny-theft, and motor vehicle theft).

During 2003, a total of 50,912 index crimes occurred in Honolulu, a decrease of 11 percent from 2002. The number of indexed crimes are still lower than the number of crimes recorded in the mid-1990s. Violent crimes increased by less than 1 percent, with the number of aggravated assault incidents accounting for the largest percentage increase (11 percent). Property crimes decreased by 12 percent, with the number of larceny-thefts having the largest percentage decrease (14 percent).
