

Annual Report 2005

Honolulu Police Department

Mission

We, the men and women of the Honolulu Police Department, are dedicated to providing excellent service through partnerships that build trust, reduce crime, create a safe environment, and enhance the quality of life in our community.

We are committed to these principles:

INTEGRITY

We have integrity. *We adhere to the highest moral and ethical standards. We are honest and sincere in dealing with each other and the community. We have the courage to uphold these principles and are proud that they guide us in all we do.*

RESPECT

We show respect. *We recognize the value of our unique cultural diversity and treat all people with kindness, tolerance, and dignity. We cherish and protect the rights, liberties, and freedoms of all as granted by the constitutions and laws of the United States and the State of Hawaii.*

FAIRNESS

We act with fairness. *Objective, impartial decisions and policies are the foundation of our interactions. We are consistent in our treatment of all persons. Our actions are tempered with reason and equity.*

... in the spirit of Aloha.

A Message From the Mayor

The health and safety of the people of our city have always been top priorities, and much of our success in these areas can be credited to the men and women of the Honolulu Police Department.

We are all indebted to the dedicated professionals of HPD, who safeguard lives and properties in our community 24 hours a day. They protect us from the dark side of society, serving as our shield against criminals and also as mentors who promote safe and respectful behavior with excellent prevention and education programs.

This 2005 annual report details HPD's activities and accomplishments, which often go unseen and unappreciated. Described within these pages are the vital ways in which "Honolulu's finest" contributed to preserving and maintaining our quality way of life.

On behalf of the people of the City and County of Honolulu, I salute the officers and employees of the Honolulu Police Department for all they do to ensure that our island community remains a special place of aloha.

A handwritten signature in black ink, reading "Mufi Hannemann". The signature is fluid and cursive.

MUFI HANNEMANN, MAYOR
City and County of Honolulu

Honolulu Police Commission

The Honolulu Police Commission is made up of seven members who are appointed by the Mayor and confirmed by the City Council. All members serve staggered terms of five years. They volunteer their services and do not receive any compensation.

A chair and vice chair are elected from within its membership every year. The commission chair for 2005 was Ronald I. Taketa, and the vice chair was Charlene (Cha) M. K. Thompson.

The commission has the following mandated responsibilities:

- appoints and may remove the Chief of Police;
- evaluates the performance of the Chief of Police at least annually;
- reviews rules and regulations for the administration of the Honolulu Police Department;
- reviews the annual budget prepared by the Chief of Police and may make recommendations thereon to the Mayor;
- compares at least annually the actual achievements of the police department with the goals and objectives in the five-year plan; and
- receives, considers, and investigates charges brought by the public against the conduct of the department or any of its members and submits a written report of its findings to the Chief of Police.

The commissioners are committed to continue working proactively with the department to address problems regarding police conduct and other issues.

Honolulu Police Commissioners:
(back row, from left) Jimmy Borges, Charles Heitzman, Carroll Takahashi, Boyd Andrade, Vice Chair Cha Thompson, and Paul Leong, (front row) Chair Ronald Taketa

A Message From the Chief

Aloha. The Honolulu Police Department (HPD) is pleased to report that crime on Oahu has decreased for the third year in row (by 4 percent in 2005). The men and women of the HPD have worked tirelessly to make our community safer, focusing on the areas of crime prevention and suppression, community-based programs, homeland security, increased program accountability, recruitment and growth, and efficient management of technology.

The department's newly formed Homeland Security Division (HSD), formerly the Emergency Management Command, continues to lead and coordinate the department's efforts to prevent, respond to, and recover from acts of terrorism. The HSD staff provides command support at major events, establishes interagency communications, and coordinates site and threat assessments.

Filling vacant officer positions continues to be a high priority for the department. We conducted six entry-level examinations in 2005 compared to four last year. Additionally, to assist out-of-state applicants, the HPD expanded its mainland recruitment efforts to include two examinations in San Diego, California. In 2005, 118 police recruits graduated from our police training academy.

We continue to move forward in adapting new technology to become more efficient and to improve delivery of services to the community. In 2005, the department implemented an automated field reporting system to assist patrol officers while on patrol.

Looking ahead, the future looks bright as we move forward with a department that is committed to community-oriented policing and to forging strong intradepartmental and interagency partnerships.

Organizational Chart

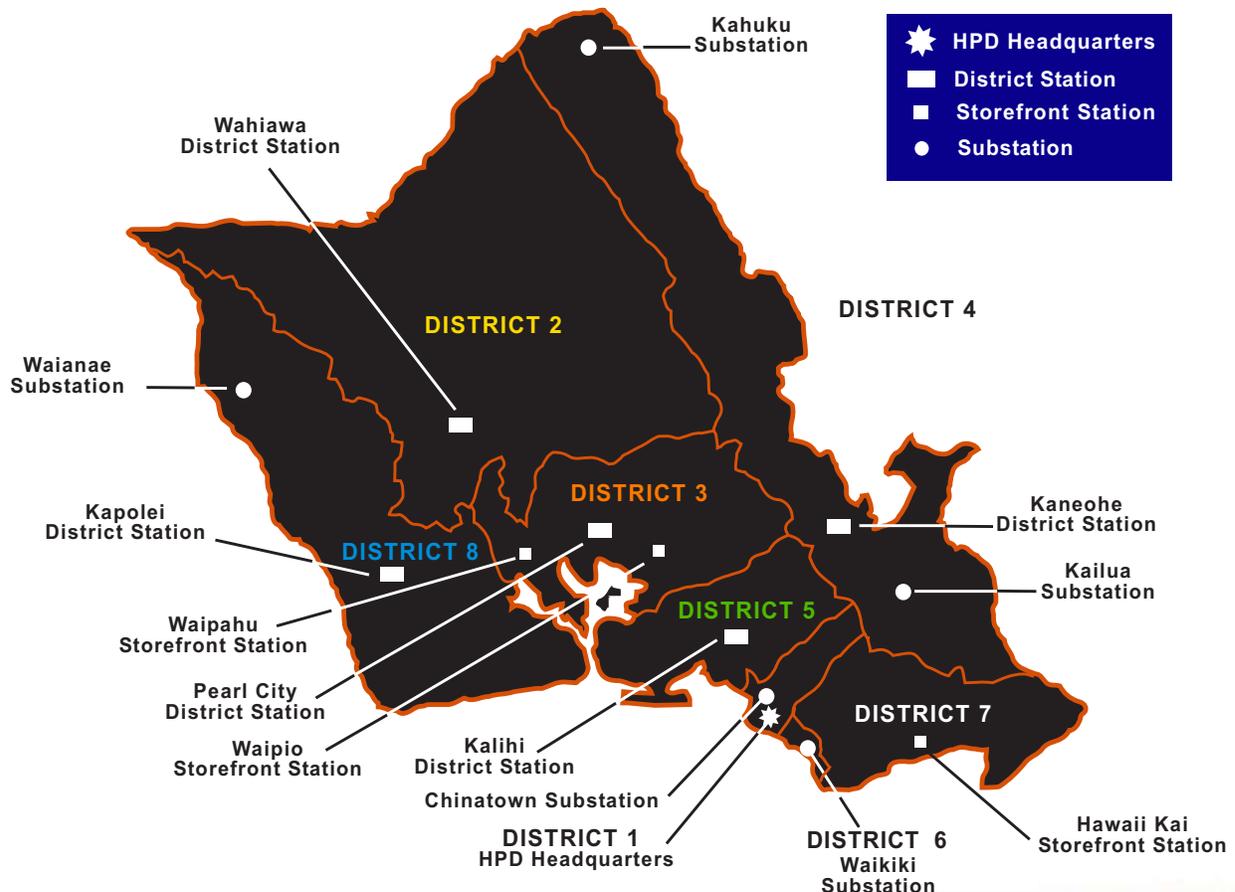

Powers, Duties, and Functions

The Honolulu Police Department serves as the primary law enforcement agency for the entire island of Oahu. The Chief of Police directs the operation and administration of the department and is responsible for the following:

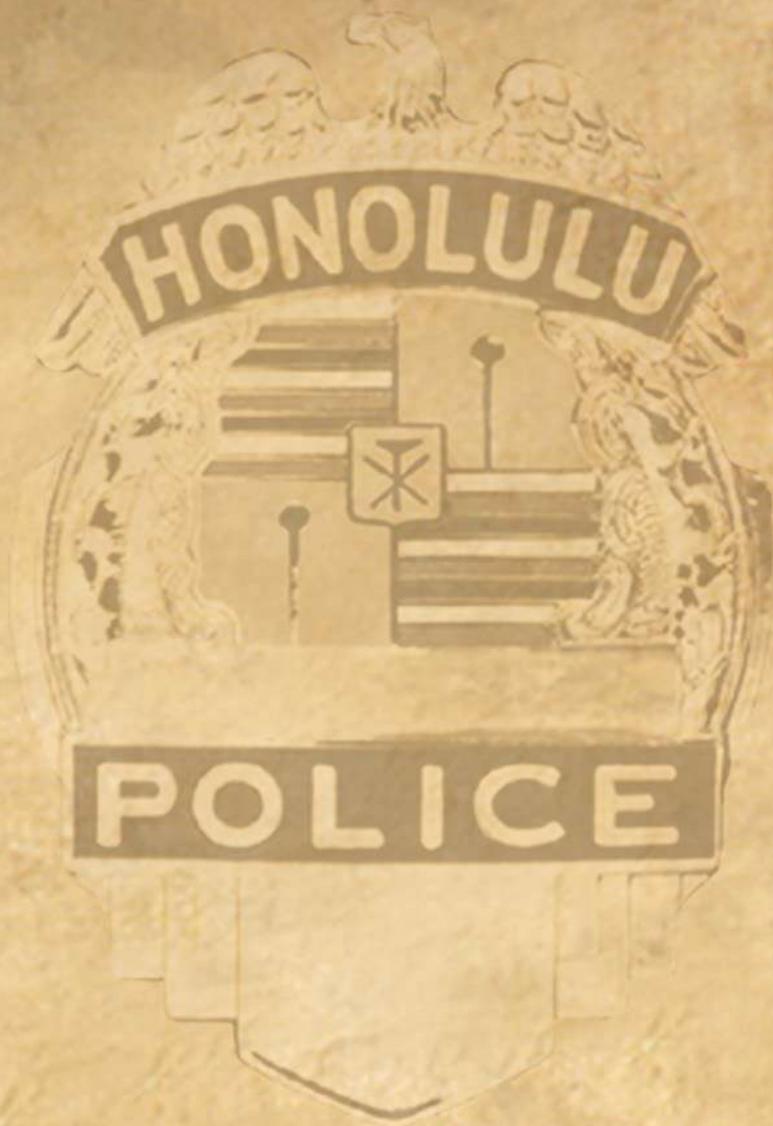

- preservation of the public peace;
- protection of the rights of persons and property;
- prevention of crime;
- detection and arrest of offenders against the law;
- enforcement and prevention of violations of state laws and city ordinances; and
- service of processes and notices in civil and criminal proceedings.

The department's jurisdiction is the City and County of Honolulu. It includes the entire island of Oahu, which has a circumference of about 137 miles and an area of some 596 square miles. The estimated resident population is about 769,464, which includes military personnel but not tourists.

For police operations, the island is divided into eight patrol districts. Each district is subdivided into sectors and beats. The department's headquarters is at 801 South Beretania Street in downtown Honolulu. District stations are found in Kalihi, Pearl City, Kapolei, Wahiawa, and Kaneohe. Other facilities are identified on the map below and in the narrative parts of the report.

Field Operations

DISTRICT 1

District 1 encompasses almost eight square miles in downtown Honolulu, spanning from Liliha Street to Punahou Street and from the ocean to Pacific Heights, Pauoa Valley, and the Makiki/Tantalus area. The resident population is approximately 70,000 people. As the retail, financial, and political center of the state, the actual number of people in the district at any given time is much greater. The Chinatown Substation at 79 South Hotel Street provides a permanent police presence in downtown Honolulu. This facility houses the district's Bicycle Detail, the Burglary-Theft Detail, and the Project Outreach Worker.

The district's officers have contributed to the success of the Weed and Seed program in the downtown Honolulu area. This community restoration program works to "weed" criminal elements out of the district and "seed" the area with elements to strengthen and empower the community and to encourage community spirit. Weed and Seed officers also administer the district's Law Enforcement Explorers Program. In this program, high school students are taught discipline and responsibility while engaging in various community activities, such as Special Olympics and the Keiki Identification Program.

Besides their regular surveillance on bicycles, the Bicycle Detail officers also patrol the Ala Moana Beach Park on all-terrain vehicles. This grants them access to areas that were once difficult to patrol. The community response has been positive, and the vehicles will continue to be used to help prevent crime.

During normal patrol operations, night personnel began an aggressive campaign to enforce the law on Operating a Vehicle Under the Influence of Intoxicants (OVUII). This resulted in a total of 788 OVUII arrests for 2005.

All District 1 officers work with the community to solve problems. Partnerships with the Business Improvement District, Citizen Patrols, and Neighborhood and Business Security Watches allow open communication regarding community concerns and enhance the quality of life in the community.

Intradepartmental and interagency cooperation is considered essential. The Crime Reduction Unit and Weed and Seed officers interact with the department's Narcotics/Vice Division; the Drug Enforcement Administration; the Bureau of Alcohol, Tobacco, Firearms and Explosives; and the Office of the U.S. Attorney to suppress drug and firearms activity. There have also been joint operations with the U.S. Marshals Service; the U.S. Secret Service; and the state Sheriff's Division, Department of Public Safety. District 1 personnel actively work together with the State Legislature, City Council, and neighborhood boards on the impact and procedural issues regarding existing and pending legislation.

DISTRICT 2

District 2 covers approximately 204 square miles, from Central Oahu to the North Shore between the Waianae and Koolau mountain ranges, bounded on the south by Kipapa Gulch and the Waiahole Ditch. The area includes the communities of Wahiawa, Mililani and Mililani Mauka, Whitmore Village, Waialua, Mokuleia, and Haleiwa, as well as Wheeler Army Air Field and Schofield Barracks. The district's headquarters is located in Wahiawa at 330 North Cane Street.

The district continues to use its plainclothes, special crime unit in an effort to aggressively patrol the North Shore beach areas. Using high visibility, educating the public, and partnering with the community all contributed to their efforts in reducing property crimes. District 2 acquired all-terrain vehicles to reach secluded areas and provide increased police presence for beach patrols.

Throughout 2005, the district continued to run its "Line Patrol" on the H-2 Freeway from the District 2/District 3 boundary to Schofield Barracks. This program runs

24 hours a day, 7 days a week. Each Mililani beat officer has a two-hour responsibility during which he or she must monitor the freeway for collisions and general traffic violations.

District 2 moved forward with intelligence-led policing to provide crime analysis via the Crime Analysis and Targeting program. The program's objective is to provide patrol officers with timely information to address crime trends.

In an effort to increase crime prevention awareness and to promote public efforts to combat crime, District 2 officers continued their involvement in numerous community presentations: Keiki Identification, elementary and secondary school crime presentations, senior citizens' group presentations, business security check programs, residential security check programs, Neighborhood Security Watch (NSW) meetings, Wahiawa Police Activities League, and neighborhood board meetings. District 2 officers continue to closely work with the 136 active neighborhood security programs consisting of 5,044 members. Officers provide information and guidance to NSWs and the Agricultural Watch in order to keep up interest and membership while working to revitalize inactive groups.

DISTRICT 3

District 3 encompasses a geographical area that includes Pearl Harbor, Halawa, Aiea, Pearl City, Waipio, Waikele, and Waipahu. Storefront locations are located in the Waipahu and the Waipio Gentry Shopping Centers. The district also maintains a trailer office in the Waimalu Shopping Center. District 3 serves approximately 150,000 residents. Calls for service totaled 99,278.

The Weed and Seed program covers the area of Waipahu, west of Waipahu Depot Street. In 2005, the Weed and Seed team executed two search warrants and arrested 7 wanted fugitives/suspects and 27 individuals. The district also addressed public drinking, gambling, drug trafficking (directed patrols), school property crimes, and burglaries in the Waipahu industrial area. In District 3, there are 41 Neighborhood Security Watches with 1,041 members. Additionally, there are 13 citizen patrol groups with 233 members.

The Crime Reduction Unit (CRU) directly supports patrol operations in a plainclothes capacity. The prevalence of crystal methamphetamine use and its distribution has brought about the need for a heavy emphasis on drug suppression by crime reduction units islandwide. The District 3 CRU effected 834 arrests during the year (264 felonies, 144 misdemeanors, 181 traffic offenses, and 245 warrants). They also executed 12 search warrants leading to the seizure of contraband and the forfeiture of money and property.

District 3's Burglary-Theft Detail is responsible for the investigation of burglary and felony theft offenses. During the year, 5,276 cases were received; 526 were assigned for further investigation and 313 were closed. There were 139 cases conferred with the city Department of the Prosecuting Attorney. The District 3 Burglary-Theft Detail remains the driving force behind the grant-funded, educational program, "Keep Your Identity." From October 2003 to October 2005, detectives conducted 181 public presentations to about 9,102 citizens regarding identity theft crime. Also, approximately 33,000 brochures and booklets on identity theft were distributed to the general public.

The Prevention, Intervention, Treatment to Stop Thieves Operating Permissively (PIT-STOP) program continues to operate in District 3. An agreement was reached with the city Department of the Prosecuting Attorney whereby suspects arrested for a stolen vehicle in the district would be immediately charged. During 2005, 65 adults were arrested for operating a stolen vehicle, and 53 adults were immediately charged for the felony offense of unauthorized control of a propelled vehicle. Without the PIT-STOP program, only 25 suspects would have been immediately charged. The success of the program has led to its expansion in the Kalihi and Central Honolulu patrol districts.

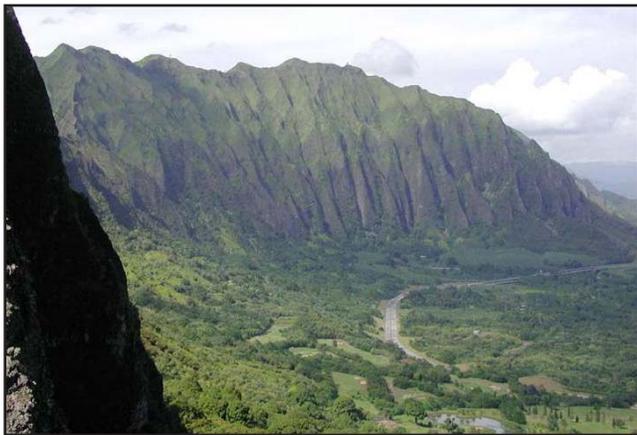

In 2005, District 3 was awarded two Edward Byrne grants. The \$70,000 award for "Project Clean Sweep" will be used to make undercover purchases of unlawfully obtained or possessed firearms. Another \$35,000 award for "Keep Your Identity" will be used to continue educating the public about the crime of identity theft.

DISTRICT 4

District 4 encompasses an area of Windward Oahu covering about 127 square miles, from the Koolau Mountains to the sea, and stretching northwest from Makapuu Point to the mouth of Waialeale Stream just past Kawela Bay. The communities include Waimanalo, Lanikai, Kailua, Kaneohe, Ahuimanu, Kahaluu, Waikane, Waiahole, Kaaawa, Punaluu, Hauula, Laie, and Kahuku. The main station is located at 45-270 Waikalua Road in Kaneohe, and full-service substations are located in Kailua at 219 Kuulei Road and in Kahuku at 56-470 Kamehameha Highway.

District 4 is committed to traffic safety and the reduction of traffic deaths and injuries. The use of speed monitors placed strategically throughout the district, combined with laser gun enforcement, has helped to make drivers slow down and change their

driving habits. The use of saturation patrols (increased high-visibility patrols) and Community Traffic Awareness Partnerships educate the public that the department will not tolerate unnecessary traffic deaths and injuries.

The Crime Reduction Unit (CRU) has continued to be a valuable resource to the district. It has also taken on the task of assisting and working cooperatively with the Narcotics/Vice Division in the area of drug

enforcement. Using the information gathered from informants, beat officers and detectives obtained 22 search warrants. A total of 20 search warrants were successfully executed in the district. In 2005, CRU made over 278 felony arrests and 232 misdemeanor, warrant, and traffic arrests.

The district's community partnerships and involvement continues to be a valuable resource in the area. The Neighborhood Security Watch program consists of 86 watches with 3,790 members. The Citizens Patrol

consists of 3 active patrols with 38 members. This includes school and beach patrols. In 2005, District 4 received 318 letters of appreciation and 355 commendations.

The District Resource Unit (DRU) takes pride in offering their services to the community. They held two blood drives at Benjamin Parker School's cafeteria in June 2005 and again in November 2005. Together, the DRU and the Hawaii Blood Bank recruited potential blood donors from the community. Both blood drives proved to be a success with over 150 pints of blood received. District 4 enjoys an excellent relationship with the Marine Corps Base Hawaii. The district's representatives regularly attend meetings with the Windward Civilian Military Council, an organization created to maintain open communication and cooperation between the police, military, and community.

DISTRICT 5

District 5, the "Kalihi District," encompasses 36 square miles of central Honolulu and has a resident population of approximately 147,400. The district's boundaries

span from Aliamanu to the Pali Highway (west to east) and from the rim of the Koolau mountain range to the central southeastern shoreline of Oahu (north to south).

District 5 includes six major highways that intersect in the district, with over 395,000 vehicles passing through every weekday. It has the highest density of public housing complexes (13), the highest number

of public and private schools (47), industrial zones (3), the most prominent homeless service center (Institute for Human Services), active military installations (6), hospitals (5), foreign consulates (7), nightclubs and liquor establishments (77), the Honolulu International Airport, the Sand Island and Honolulu Harbor's Commercial Shipping Facility, the Oahu Community Correctional Center, and the Laumaka Work Furlough Center.

The Kalihi Weed and Seed program includes Farrington High School, Kuhio Park Terrace, Kalihi Valley Homes, Kamehameha Homes, Kaahumanu Homes, and Hauiki Homes. As part of their site maintenance, the Weed and Seed detail made two truancy enforcement sweeps that resulted in 90 arrests.

The Burglary-Theft Detail is responsible for the investigation of property crimes that occur in the district. These crimes include burglaries, thefts, unauthorized entry into motor vehicle, fraud, and other related crimes. The detectives were assigned 3,746 cases, of which 301 were actively investigated. The detectives closed 295 of the cases of which 56 were conferred with the city Department of the Prosecuting Attorney. The district's Burglary-Theft Detail recovered a total of \$30,544 in cash and property valued at \$64,242.

The district's Crime Reduction Unit has transitioned from a direct support, on-call unit to a districtwide, problem-solving and crime-trend response entity. Their ability to adapt to problems and circumstances and to respond adequately as situations arise is backed by their innovation, creativity, teamwork, and positive results from their investigations and operations. In 2005, the unit made 1,262 felony arrests. They also executed 20 narcotics search warrants and one gambling search warrant. Additionally, they seized \$16,000 in cash, two firearms, and property totaling over \$130,000 in value. The unit also received a "bait" car to assist in the auto theft problem in the area. The car is placed in areas where a high number of vehicles are reported stolen.

A large segment of the Polynesian population resides in District 5. Yearly, the district's officers partake in the planning and preparation for the "Samoa Mo Samoa" and "Samoa Flag Day" events held at Keehi Lagoon Park. District 5 officers also worked with the military investigators from Hickam Air Force Base and Fort Shafter to facilitate the adjudication of juvenile suspects. Additionally, District 5 personnel are on the community boards of the Federal Detention Center and Mahoney Hale, a federal halfway house.

DISTRICT 6

District 6 encompasses the Waikiki peninsula, which is bordered by the Ala Wai Canal, the slopes of Diamond Head, and the Pacific Ocean. The administrative offices are located at the Alapai headquarters. Patrol personnel also utilize the Waikiki Substation located on Kalakaua Avenue, fronting Waikiki Beach. The Burglary-Theft Detail and the Crime Reduction Unit offices are located on the fourth floor of the Royal Hawaiian Shopping Center.

Field Operations

During the year, Waikiki hosted over 120 events, including numerous parades, Brunch on the Beach, Sunset on the Beach, Waikiki Hoolaulea, and various cultural events held at Kapiolani Park. District officers continue to maintain partnerships with the community, including the: Visitor Aloha Society of Hawaii, Business Watch, Condo Watch, Hawaii Hotel Security Association, Hawaii Visitor Industry Security Association, Tourist Crime Prevention 110, Waikiki Business Improvement District (WBID), and Waikiki Citizens Walk.

The district's Crime Reduction Unit offers classes to hotel personnel (management, security, housekeeping) regarding crime trends affecting their clientele. During 2005, they completed 132 felony arrests, 93 misdemeanor arrests, and 161 warrant arrests. Six video cameras are mounted at different locations along Kalakaua Avenue. The monitoring system is housed at the Waikiki Substation and is monitored by Aloha Patrol personnel hired by the WBID.

Since January 2005, District 6 has been responsible for the Fourth Watch program. As an extension to their training, these police recruits are assigned to foot patrol, traffic enforcement, major events, undercover enforcement, and other duties. The Fourth Watch officers made 652 arrests and issued 4,233 moving citations and 3,563 parking citations. The District 6 Burglary-Theft Detail detectives were assigned 3,174 cases and closed 443 cases in 2005. The district's Bicycle-All-Terrain Vehicle (ATV) Detail is comprised of two sergeants and ten officers who patrol Waikiki on bicycles and ATVs. The detail provides high visibility and mobility on beaches and in the parks where other modes of transportation are less effective.

District 6 officers partnered with the Hyatt Regency hotel and Sheraton-Waikiki hotel for two community service events during the holiday season. Orthopedic children from Jefferson Elementary School were treated to a Christmas lunch. Additionally, a Christmas dinner with entertainment and gifts was also held for less fortunate children and their families.

DISTRICT 7

District 7 covers approximately 40 square miles of East Honolulu from Punahou Street to Makapuu Point. This includes Manoa, McCully, Kaimuki, Palolo,

Diamond Head, Waialae, Kahala, Aina Haina, Kuliouou, Hawaii Kai, Sandy Beach, and Makapuu lookout. The area is predominately residential with supporting infrastructures such as public housing, schools, parks, shopping centers, and the University of Hawaii at Manoa, with a total population in excess of 154,000 people.

The district officers have noticed an increase in graffiti cases and vowed to keep the district graffiti free. District 7's all-terrain vehicles supplement patrol and focus on the beaches along the island's east coast,

specifically Diamond Head Beach Road, Sandy Beach, and Makalei Beach Park areas. The coordination of resources between the Honolulu Police Department and the state Department of Land and Natural Resources helps to reduce property crime in the Diamond Head Crater and in many of the scenic lookouts along the coastline.

District 7's Burglary-Theft Detail is responsible for the investigation of all Unauthorized Entry into Motor Vehicle (UEMV), burglary, theft, and fraud cases. They were assigned to 3,642 cases this year of which 587 were actively investigated due to leads or information gained. The detectives closed 361 of these cases and conferred 73 with the city Department of the Prosecuting Attorney.

During 2005, the Crime Reduction Unit made 116 felony, 47 misdemeanor, 3 status, 14 traffic, and 77 warrant arrests. Due to the plainclothes status of this unit, they have been able to make arrests for

graffiti and trespassing at the state parks and in-progress UEMVs. In April 2005, the unit executed a search warrant at a pawnshop as a result of a month-long undercover investigation into illegal pawnshop activities. A large amount of stolen merchandise was recovered, and a store employee was arrested for three counts of Attempted Theft in the Second Degree. The store's inventory of jewelry, televisions, DVDs, and other miscellaneous property were recovered along with \$6,000 in cash.

The district officers have continued their work with the city Department of Parks and Recreation to have signs posted informing the public of park closures at night. These closures were prompted due to numerous calls for service regarding the homeless, littering, drinking, loud noise, and assaults.

The Community Resource Team (CRT) provides numerous services throughout the year. In 2005, the CRT participated in 16 Keiki Identification sessions, 13 crime prevention and safety talks, 21 neighborhood security presentations, 8 presentations to schools, 4 Career Days, and 2 Strategic Activity for Emergency Response presentations. District 7 also had its annual "Shop With a Cop" event whereby 19 underprivileged children from the area's public schools had the opportunity to go shopping with the district's officers for Christmas.

DISTRICT 8

District 8 serves the communities of Ewa, Ewa Beach, West Loch, Kalaeloa (formerly Barber's Point), Kapolei, Makakilo, Campbell Industrial Park, Honokai Hale, Ko'Olina, Nanakuli, Lualualei, Maili, Waianae, Makaha, Keaau, Makua, and Kaena Point. The district encompasses 128 square miles of which

approximately 38 miles is coastline. The Kapolei Police Station is located at 1100 Kamokila Boulevard. The Waianae Substation, located at 85-939 Farrington Highway, provides police services to the Waianae Coast and serves as a base of operations for officers who patrol that community. The Kapolei station acts as a multidivisional police station. In addition to patrol operations, the station houses offices for the Criminal Investigation, Juvenile Services, and Narcotics/Vice Divisions. The Kapolei Receiving Desk processes all arrests occurring in the district. The Waianae station houses officers who work in the Maili, Waianae, Makaha, Keaau, and Kaena Point areas.

The district's Weed and Seed team continued to serve the Ewa and Ewa Beach communities. Their enforcement activities included: conducting numerous truancy and warrant sweeps, issuing citations for abandoned vehicles, patrolling inaccessible areas using all-terrain vehicles and bicycles, and checking the beach parks and playgrounds for illegal drinking. The U.S. Department of Justice also presented a national award to the district's Weed and Seed team for their Truancy Sweeps program. Additionally, the team participated in several community projects such as "Movie on the Wall" and "Ocean Sports" with the Ewa Boys and Girls Club, the Campbell High School's Summer Culinary Program, Graffiti Paint-Outs, and the Pride for Ewa events.

The Burglary-Theft Detail, Crime Reduction Unit, and patrol operations addressed burglaries and Unauthorized Entry into Motor Vehicles in the district by enhancing area surveillance and the use of a bait car. Their efforts resulted in a decrease in the number of such crimes. District 8 also joined forces with the Specialized Services Division, Honolulu Fire Department, and community members to combat an extensive brush fire season along the Leeward Coast in 2005. This task force was directly responsible for the arrests of eight people suspected of starting the brush fires.

Traffic safety continues to be a major concern in the district. District 8 officers provided the Kapolei High School students with a presentation on the physics involved in motor vehicle collision investigations. The goal was to relate the study of physics to the real world in a way that would illustrate the dangers of speeding. Now, in its 21st year, the district's

"Live and Let Live" campaign utilized sign waving and static displays of wrecked vehicles to encourage motorists to drive safely and responsibly during the holiday season. In June of 2005, the campaign was expanded to cover the graduation season with the implementation of "Operation Safe Graduation."

The Community Resource Officers have worked with the various Neighborhood Security Watch (NSW) programs and Citizen Patrols in the district. There are 92 active NSW programs with 5,213 members. There are also 26 Citizen Patrols with 553 members and two Mobile Patrols with 76 members.

CENTRAL RECEIVING DIVISION

The Central Receiving Division (CRD) is responsible for the detention of arrestees who are under investigation for felony offenses from both the Central and Regional Patrol districts. In addition, the CRD processes and provides custodial care for all arrestees from Districts 1, 6, and 7. Providing security for the Alapai headquarters is another very important responsibility of the CRD. The division screens all building visitors and monitors and responds to fire, duress, and other emergency alarms throughout the building. Within the building, over 70 closed-circuit television cameras are monitored around-the-clock to safeguard the headquarters building and departmental personnel. On July 15, 2005, the CRD implemented the use of walk-through metal detectors to augment the visitor screening process. The security post was also relocated closer to the exterior of the building.

During 2005, the CRD personnel processed 16,025 arrestees, provided over 25,000 meals, and transported

approximately 16,019 arrestees to the Sheriff's Department court lockup facility. In addition, the CRD personnel made 118 arrests and initiated 889 police incident reports while serving at the security post.

The CRD is responsible for the maintenance of the department's 16 Intoxilyzer breath analyzers and the certification of 121 police officers to operate the Intoxilyzer breath test analyzer. During 2005, the CRD personnel administered the Intoxilyzer breath test to 3,199 arrestees.

TRAFFIC DIVISION

The Traffic Division investigates certain motor vehicle collisions and promotes the safe and efficient movement of traffic on public roadways through educational programs, traffic management, and the enforcement of traffic laws. In 2005, the division made a commitment to improve pedestrian safety. In cooperation with the state Department of Transportation, extensive informational and enforcement media campaigns (Walk Wise Kupuna and Walk Wise Hawaii) were launched. As a result, 158 warnings and 247 citations for various pedestrian and motorist violations were issued. The Traffic Division was also the guiding force behind the national "Click It or Ticket" campaign. Through the use of federal grant monies and aggressive enforcement, seat belt usage in Hawaii rose to 95.3 percent.

The Vehicular Homicide Section (VHS) investigates motor vehicle collisions involving death, critical injury, and felony traffic crimes. The officers in this section also review the investigations of major traffic collision cases to ensure their proper disposition and closure.

During 2005, the VHS investigated 75 collisions that resulted in 78 traffic fatalities.

The Selective Enforcement Unit, with its Drug Recognition Expert Detail, looks for impaired drivers at locations and times known to be particularly dangerous. These areas are shown by trends in fatal and critical motor vehicle collisions where drugs or alcohol were found to be contributing factors. As of November 30, 2005, the Selective Enforcement Unit made 770 arrests for Operating a Vehicle Under the Influence of Intoxicants.

The Solo Motorcycle Detail promotes efficient traffic flow, especially during peak morning and afternoon periods when Honolulu's roadways are filled to

capacity. In addition to their enforcement of traffic laws, the motorcycle officers also perform escort duty for parades and visiting dignitaries, provide traffic control at special events, undertake educational speaking assignments, and participate in community events.

The Parking Enforcement and Collection Section (PECS) enforces parking laws and is responsible for the collection of coins from city parking meters as well as the maintenance and proper operation of the units. The parking enforcement officers issued a total of 47,626 parking and related citations in 2005. In addition to the monies from traffic fines, the PECS collected over \$4.5 million from parking meters. The disabled parking enforcement program is staffed by civic-minded volunteers who are recruited, trained,

and commissioned by the Honolulu Police Department. By mid-December 2005, they issued 2,285 disabled parking citations.

The Junior Police Officer (JPO) Detail coordinates the work of approximately 4,389 JPOs and 96 adult traffic monitors who help to provide traffic safety assistance for the children traveling to and from our elementary schools. The program services 128 public and private schools throughout Oahu.

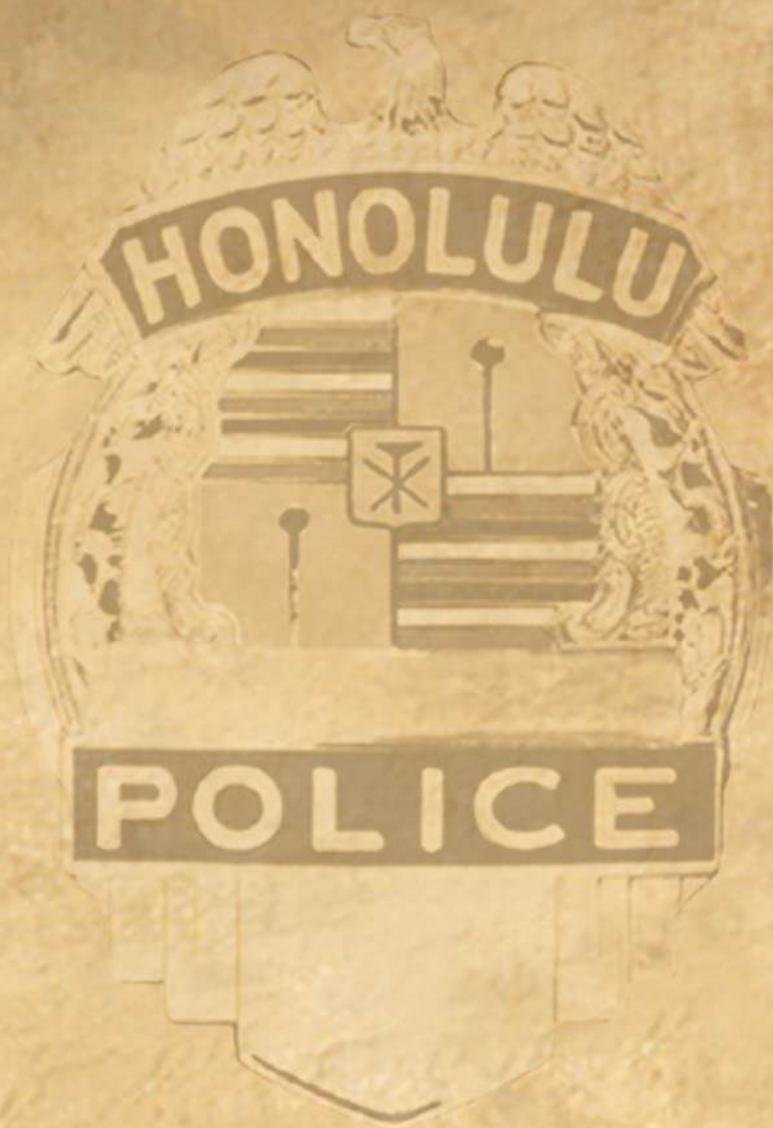

HOMELAND SECURITY DIVISION

This unit, formerly called the Emergency Management Command (EMC), was established in September 2001 to assess needs, develop plans, coordinate efforts, and prepare the department to respond to incidents relating to terrorism. In August 2005, the EMC changed its name to the Homeland Security Division (HSD). The division provides command support during major events, establishes interagency communications, coordinates site and threat assessments, and gathers intelligence involving terrorism. It is responsible for identifying, acquiring, and managing resources to prevent and resolve acts of terrorism. The HSD also participates in and coordinates joint training exercises with federal, state, and other local agencies.

Honolulu Police Department

Investigative Bureau

CRIMINAL INVESTIGATION DIVISION

The Criminal Investigation Division (CID) consists of 11 details which are responsible for the investigation of cases involving the following offenses: murder, robbery, sexual assault, assault, domestic violence, child abuse, financial fraud and forgery, auto theft, and white collar crimes. Through these investigations, divisional personnel have partnered with other law enforcement agencies and the community to assist the victims and their families. The division strives to keep the community informed, to increase their awareness, and to prevent crimes through CrimeStoppers and the Business Police Academy.

In 2005, the Homicide Detail investigated 15 homicides and closed 12 cases with arrests or conferrals with the city Department of the Prosecuting Attorney. This represents a closing rate of 80 percent. In addition, the detail investigated 766 "unattended death" cases.

The Robbery Detail continues to work with the Federal Bureau of Investigation (FBI); the Bureau of Alcohol, Tobacco, Firearms and Explosives; and the U.S. Attorney's Office through a memorandum of understanding to form the Honolulu Violent Crime Task Force. In 2005, the joint effort resulted in the arrests of 15 bank robbers. In addition, they sent 19 firearms cases to the U.S. Attorney's Office for prosecution under the "Project Safe Neighborhoods" program. This effort prosecutes certain firearm-related offenses through the federal court system.

In 2005, the Sex Crimes Detail closed 94 percent of their investigations; the remaining 6 percent are pending further developments. They conferred 49 percent of their cases, of which the city Department of the Prosecuting Attorney accepted 88 percent. In addition, 68 percent of the cases were charged outright. Several improvements were made to enhance the Sex Offender Registration program. This included updating the notification form, collecting original documents, and providing training for all agencies in order to create uniform processes. The Hawaii Criminal Justice Data Center, state Department of the Attorney General, is the lead agency for the program.

The White Collar Crime Detail continues to investigate Internet Crimes Against Children as a part of the Hawaii Internet Crimes Against Children Task Force.

The task force is committed to the prevention, identification, and prosecution of crimes committed against children over the Internet. In 2005, four adults were arrested for the electronic enticement of a child by using the Internet to lure a child for sex. Three adults were arrested for the possession of child pornography.

In January 2005, the Financial Fraud Detail entered into an agreement with the FBI, the U.S. Secret Service, and the U.S. Postal Service, which created the Hawaii Identity Theft and Fraud Task Force. As a result, criminals who steal a person's identity now face a mandatory prison sentence if convicted in federal court. During 2005, the task force conducted 6 investigations and made 37 arrests for identity theft and fraud. In addition, the task force seized contraband, including drugs, and confiscated numerous pieces of equipment that were used for producing fake identification and credit cards.

In 2005, the Honolulu Police Department responded to 336 brush fires in the Waianae, Nanakuli, Makakilo, and Ewa areas, which appeared to have been intentionally set. The brush fires burned approximately 7,700 acres of land and threatened to destroy numerous homes and endangered the lives of the residents. The CID's Arson Detail investigators arrested one adult male and two juvenile males for intentionally setting some of the brush fires.

In 2005, the CID entered into a three-year agreement with the state Department of the Attorney General and various service agencies which created the Hawaii Anti-Trafficking Task Force. The purpose of the task force is to identify and provide services for victims of human trafficking. The funds received through the task force will be used to train police officers to identify and respond to human-trafficking crimes.

The CrimeStoppers program continues to be successful by encouraging the community to help the police solve crimes. Throughout 2005, they received over 1,121 tips and solved 248 cases. With the help of CrimeStoppers' tips, property recovered was estimated at \$88,022 and narcotics seized was valued at \$2,720.

The Third Annual Business Police Academy began in January 2005 with 25 participants who attended classes held at the Alapai headquarters. This gave attendees the opportunity to learn about the police department,

its employees, and the program's objectives. The information gathered is shared with their friends and family in support of the department.

JUVENILE SERVICES DIVISION

The Juvenile Services Division (JSD) is divided into three units: Education, Intervention, and Prevention. Each unit has a specific function that is independent of the other and a common goal of addressing issues involving youths. In 2005, the JSD provided education, leadership, guidance, counseling, and assistance to nearly 40,000 youth in the community. The Drug Abuse Resistance Education curriculum is nationally certified to help students recognize and resist the temptation to experiment with drugs and alcohol. This ten-week program is taught in 176 public and private schools to a total of 16,432 fifth-, eighth-, and tenth-grade students.

The officers assigned to the Gang Resistance Education and Training (GREAT) Detail present a ten-week curriculum in 26 public middle schools and reach a total of 7,985 seventh-grade students. The

program is designed to educate middle-school students about the law and delinquent behavior and to provide alternatives to gang membership. The GREAT Detail is responsible for the administration of the Student Attendance Program (SAP). The program, in partnership with the state Department of Education, is intended to be a diversionary program for juveniles caught for recurrent truancy. The premise is based on the relationship between truancy and delinquency and criminal activity and gang activity. The SAP is usually held on Saturday mornings and is structured to educate and address at-risk behaviors of juveniles who skip school. During 2005, a total of 1,170

families were scheduled for the SAP. This number is a slight decrease from 1,244 families the previous year.

The Intervention Unit is composed of two details: Evening Counseling and Runaway. The Evening Counseling Detail is responsible for providing counseling for juveniles who are apprehended for their second status offense or for certain first-time misdemeanor offenses. This highly successful program provides intense, one-on-one counseling with the juvenile offender within the presence of his or her parents. In 2005, a total of 1,872 families were referred to the Evening Counseling program as compared to 1,777 families during the previous year. Only 20 percent of these offenders go on to re-offend.

The Runaway Detail is responsible for the investigation of reported runaways. A total of 1,103 cases were assigned to the detail for further investigation, and officers made 502 apprehensions. The Runaway Detail is also responsible for the administration of the Acquiring Knowledge, Awareness, Motivation, and Inspiration (AKAMAI) program, a diversionary program geared toward first-time status offenders. They counsel juveniles and their parents about the hidden dangers of status offenses and the lifelong implications of making appropriate choices. The AKAMAI program is administered through partnerships with the Honolulu Police Department, Parent Project, Hawaii Army National Guard Youth Challenge, Youth Outreach, Mothers Against Drunk Driving, Victory Ohana, and Hale Kipa. The AKAMAI sessions are held at the Alapai and Kapolei stations and at the Waipahu Middle School. During 2005, approximately 730 families were referred to the AKAMAI program compared to 640 families in 2004.

The objective of the Police Activities League (PAL) is to provide recreation for youth in a positive environment to foster a positive and friendly relationship with police officers. The PAL program promotes the concepts of friendly sportsmanship, fair play, friendship, sociability, and goodwill for its participants. The PAL program has worked to expand beyond traditional, organized athletic programs to include activities such as cooking; canoe paddling; and the department's Law Enforcement Explorers Program (LEEP), a division of the Boy Scouts of America. These activities provide more opportunities for at-risk youth so that they may also benefit from

teamwork, camaraderie, and nontraditional athletic competition.

During 2005, a total of 11,792 juveniles participated in 19 different PAL activities. Of special note is the LEEP, which specializes in leadership development with an emphasis on law enforcement operations and community service. In 2005, the Explorers volunteered more than 2,000 hours of community service, working on assignments such as traffic and crowd control, keiki identification, charitable fund-raising, and Police Week functions.

In 2005, the JSD personnel touched the lives of nearly 40,000 youth through established and recognized programs. While managing grants worth over

\$500,000, the JSD continues to provide police service through partnerships with many community organizations to ensure that the highest quality of service is delivered to the youth in the community.

NARCOTICS/VICE DIVISION

The Narcotics/Vice Division is responsible for the enforcement of laws, ordinances, and regulations relating to gambling, morals, and narcotics offenses. In 2005, the Honolulu Police Department continued to participate in the High Intensity Drug Trafficking Area (HIDTA) program. The HIDTA task forces are comprised of federal, state, and county law enforcement officers who focus their resources on the interdiction of narcotics at Hawaii's points of entry and the disruption or dismantling of major drug trafficking organizations. One of the task forces initiated 34 federal investigations and made 59 arrests for federal prosecution. Additionally, they seized 18 firearms, 9 vehicles, and about \$1.84 million in cash and other assets. Another HIDTA task force

seized over 98 pounds of narcotics, including a single seizure of 35 pounds of methamphetamine, which was the single largest seizure of methamphetamine in the department's history.

The Covert Detail is responsible for conducting long-term undercover investigations that focus on major drug-trafficking organizations and subjects affiliated with local and mainland organized crime. The detail's members are also part of the Hawaii Interagency Mobile Police Apprehension Crime Task Force, which is a multiagency, investigative initiative funded by the HIDTA program. The detail initiated 222 investigations, executed 34 search warrants, and made 164 arrests. They have been involved in four major investigations with the Federal Bureau of Investigation (FBI), Drug Enforcement Administration (DEA), the state Department of Public Safety, and other county police departments. These investigations have resulted in the recovery of approximately 37 pounds of crystal methamphetamine valued at \$2.5 million, 16 dangerous weapons, 5 pounds of black tar heroin, 200 tablets of MDMA (Ecstasy), and the seizure of over \$1 million in U.S. currency and assets.

The Morals Detail continued to focus on the investigation of prostitution and related offenses in an attempt to target the prostitutes as well as their customers. In 2005, officers were responsible for a total of 401 arrests. The number of females arrested for prostitution and prostitution-related offenses increased to 282; the number of males arrested increased to 116; and the number of juveniles increased to 4. Continuing their partnerships with state and federal agencies, the Morals Detail will continue to address all forms of commercial sexual exploitation.

In 2005, the Gambling Detail made 238 arrests for gambling and gambling-related violations compared to 150 in 2004. In addition, the numerous investigations of cockfighting; bookmaking; and video, pinball, and casino-type gambling operations resulted in the seizure of approximately \$65,000 in cash and more than \$66,000 in property.

The Central Complaints Detail received 449 new complaints and closed 544 complaints in 2005. Investigators executed ten search warrants during the year. Some notable recoveries include approximately 7.2 pounds of methamphetamine, 272 grams of "rock" cocaine, 5.5 grams of powdered cocaine, 22 tablets of

Ecstasy, 167 tablets of harmful or dangerous drugs, and 32.9 grams of marijuana. In addition, the detail's operations resulted in the recovery or seizure of three firearms, \$32,487 in cash, five automobiles, and one stolen motorcycle. Members of the detail also attended 28 community meetings, functions, and presentations.

The Regional Complaints Detail received 772 complaints and closed 988 through investigations, search warrants, and other means. Personnel also conducted 138 controlled buys, 118 of which were purchases by undercover officers. They also executed five search warrants. In addition to drug enforcement, the members attended 12 community drug awareness meetings, functions, and presentations.

The Lockup Detail is responsible for conducting follow-up investigations and prosecutor conferrals for all felony narcotics arrests initiated by the patrol officers. In 2005, the detail investigated 1,440 narcotics-related cases and referred 918 of those cases (including 318 arrestees) to the city Department of the Prosecuting Attorney for immediate charging.

The Marijuana Eradication Team (MET) is comprised of four officers who conduct investigations related to the cultivation and distribution of marijuana. Their efforts on Oahu resulted in the eradication of 105 outdoor plots and three indoor plots and the seizure of more than 13,000 marijuana plants. The MET is a member of the DEA's Domestic Cannabis Eradication and Suppression Program and participated in more than 35 eradication missions statewide.

The Hawaii Airport Task Force (HATF) is assigned to the Honolulu International Airport and is responsible for conducting complex passenger and parcel interdiction drug investigations. Three of the HATF officers are canine handlers and are responsible for their assigned narcotics detection canines. The Canine Unit assisted in the recovery of 4 pounds of cocaine, 70 pounds of marijuana, 35 pounds of methamphetamine, 91 grams of heroin, and approximately \$300,000 in cash. The HATF participated in about 50 operations statewide and seized illegal drugs valued at more than \$3 million. A restructuring of the Narcotics/Vice Division relocated the HATF, Marijuana Eradication Team, Forfeiture Detail, and Clan Lab Response Teams to the Honolulu International Airport. The Clan Lab Response Teams investigated 44 complaints of possible drug labs.

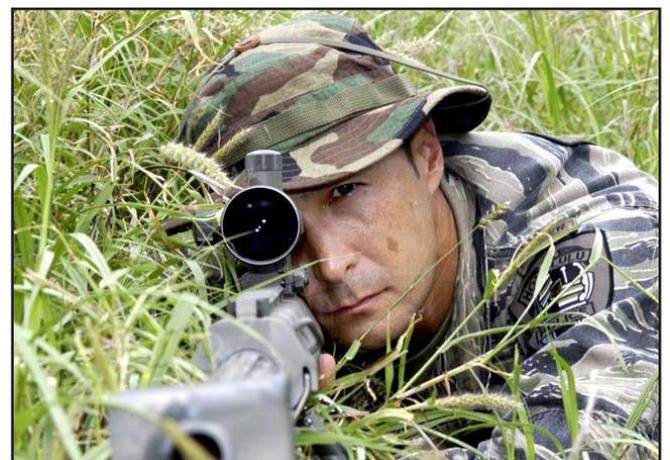

There were 17 clandestine labs that were discovered and processed in 2005.

The Asset Forfeiture Detail investigated 430 cases during the year. Seizures under chapter 712A of the Hawaii Revised Statutes amounted to nearly \$200,000 in cash and more than \$132,000 in property and jewelry. Eighty-four vehicles were also seized. The Asset Forfeiture Detail continues to assist officers of the HPD as well as outside agencies, such as the city Department of the Prosecuting Attorney, the DEA, the FBI, and mainland police departments.

SPECIALIZED SERVICES DIVISION

The Specialized Services Division (SSD) performs a wide range of functions and consists of the Task Group, Bomb/Chem-Bio Detail, Helicopter Section and Canine Unit. The division also serves temporary restraining orders (TROs) where weapons are involved, provides dignitary protection, and enters and secures sites where search warrants are being executed. The SSD was assigned 231 TROs, 173 of which were served. In addition, a total of 65 firearms were recovered. In 2005, the SSD officers made 87 arrests for felony, misdemeanor, and outstanding warrants.

The Task Group includes the Special Weapons and Tactical (SWAT) teams. In 2005, the SWAT teams responded to 15 calls involving high-risk incidents. All of the incidents were resolved successfully without significant injury to the police or suspects. The SWAT teams provided entry assistance for a total of 69 search warrants for both the Narcotics/Vice and Criminal Investigation Divisions.

The Canine Unit is comprised of dog and handler teams trained to detect explosives and narcotics. In 2005, the unit handled 21 calls for explosive detection (bomb sweeps), 59 calls for narcotics detection (narcotic search warrants), 18 calls for missing persons/fugitives, and 19 calls for demonstrations to schools and community groups.

The Bomb/Chem-Bio Unit is recognized as an accredited bomb unit by the Federal Bureau of Investigation and continues to attend training and recertification classes to uphold their status. Participation in these scenarios provided the opportunity to work with other federal and state agencies as well as to test the Honolulu Police Department's level of preparedness. During 2005, the Bomb/Chem-Bio Unit responded to 23 calls for military ordinance; 13 calls for improved explosive devices/suspicious packages; 7 calls for fireworks recoveries; and 11 calls for demonstrations to recruit classes, schools, and business and community groups.

The Helicopter Section, based at the Honolulu International Airport, responded to 499 assignments for the year. In 2005, they acquired night vision goggles, which have greatly enhanced the section's nighttime flying and searching capabilities. The SSD responded to three requests for dignitary protection. Working with the U.S. Secret Service, the U.S. Department of State, and the U.S. Capitol Police, the division provided protection for dignitaries such as U.S. Senator Theodore Stevens and U.S. Attorney General Alberto Gonzales. The SSD, in conjunction with the state Department of the Attorney General, operates a 24/7 Witness Security and Protection program.

SCIENTIFIC INVESTIGATION SECTION

The Scientific Investigation Section (SIS) continues to contribute to the Combined DNA Index System (CODIS), which consists of DNA types of convicted offenders. The Federal Bureau of Investigation (FBI) handles the maintenance of the CODIS. The evidence analyzed by the laboratory for DNA types will be automatically uploaded in the CODIS if the data meets the minimum criteria defined by the FBI. In July 2005, the Legislature passed a law requiring that all convicted felony offenders provide a biological sample for the purpose of including them in the national database. The SIS and the state Department of the Attorney General are actively working in partnership to collect and upload all of the DNA types. In 2005, analytical instruments, such as micro-centrifuges, notebook computers, alternate light sources, and a digital camera were purchased. Additionally, two more evidence-drying boxes were installed in the Crime Scene Unit's evidence room.

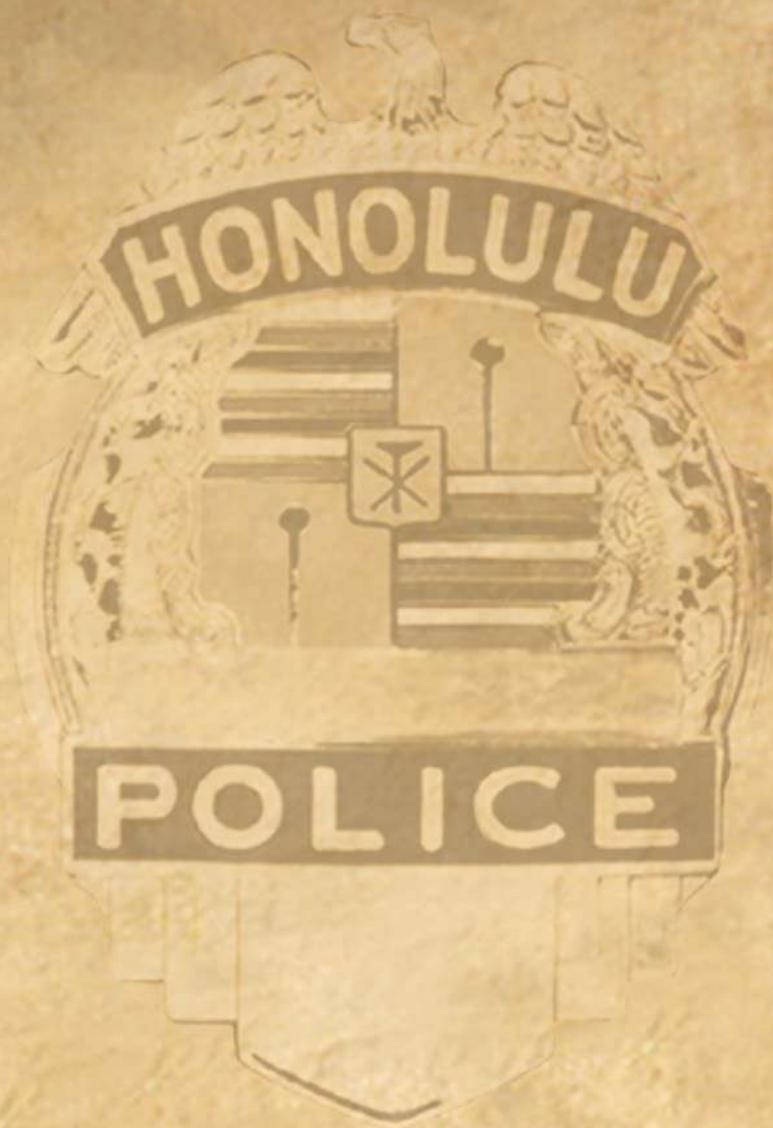

Forensic Quality Services-International conducted an external audit of the DNA/Serology Unit from November 28 to 30, 2005. For the first time, the unit underwent an iso-accreditation inspection, which holds a much more stringent requirement. The SIS passed all of the reviews.

The SIS personnel continue to attend training courses and workshops across the nation in order to keep abreast of the latest technological developments pertaining to forensic science. In 2005, the staff was able to attend such conferences as the Combined DNA Index System, Clandestine Laboratory Investigating Chemists, International Association for Identification, and the American Society for Crime Laboratory Directors.

During the year, one of the SIS's firearm examiners received certification in the area of Firearms and Distance Determination.

Administrative Bureau

FINANCE DIVISION

The Finance Division oversees the Honolulu Police Department (HPD) annual operating budget, which amounted to \$170.5 million for fiscal year 2005. The budget covers all salaries, current expenses, and equipment purchases. Additionally, the division oversees the operation of the Property and Supply Section and the Print Shop.

The division also coordinates, manages, and monitors approximately 40 federal and state grants totaling more than \$40 million. These grants enhance programs and property acquisitions such as mobile data computers, Computer Aided Dispatch System, homeland security, drug trafficking, bulletproof vests, marijuana eradication, sobriety checkpoints, speed and safety belt enforcement, pedestrian safety, youth programs and services, upgrades to forensic equipment, violence against women and children, and alcohol and tobacco programs. The division continually seeks grant funds from federal, state, private, and public foundations in order to enhance current and future innovative programs for the HPD.

HUMAN RESOURCES DIVISION

The Human Resources Division (HRD) is responsible for administering all personnel matters, including recruitment and hiring, labor relations and union issues, special duty jobs for off-duty police services, investigations of sexual harassment and discrimination complaints, and the Drug Urinalysis Screening program.

Filling vacant police officer positions continues to be a high priority for the HRD. In 2005, 164 metropolitan police recruits were hired for three training classes. Six entry-level examinations were given here in Honolulu, which is the same amount as last year. In addition, one examination was given in San Diego, California.

In 2005, psychological services for employees were enhanced with the implementation of fellowship, resident, and counselor programs. These programs were created in partnership with Argosy University. As of December 2005, the authorized strength of the Honolulu Police Department was 2,999 (2,071 officers, 360 recruits, 2 matrons, and 566 civilian employees). The department's actual

strength was 2,476 (1,850 officers, 153 recruits, 2 matrons, and 471 civilian employees).

TRAINING DIVISION

The Honolulu Police Department's Training Academy, Ke Kula Maka`i, is located at 93-093 Waipahu Depot Street in Waipahu. The Training Division focuses on three main areas: recruit training, annual recall training (ART), and specialized training for personnel in units requiring specific skills.

The division's training program is divided into two curricula: the functional skills curriculum and the administrative curriculum. Each curriculum is managed by a lieutenant and is assigned several sergeants and officers in each unit. The functional skills curriculum includes the following courses: Control and Arrest Tactics, Emergency Vehicle Operations Course (EVOC), Fit for Life, Firearms, and ART. The administrative curriculum includes the following courses: Accreditation, Administrative, and Recruit Training.

The current recruit curriculum consists of 1,054 hours of instruction over a 28-week period. Police recruits are taught police organization, law, communication,

police procedures, and functional skills. During 2005, the Training Division graduated 118 new officers from three recruit training classes. The ART I session consists of mandatory training regarding firearms, sexual harassment, bloodborne pathogens, hazardous materials, automated external defibrillator, and cardiopulmonary resuscitation. Patrol officers attend a three-day, 36-hour ART I session and non-patrol officers attend a three-day, 24-hour ART II session. In 2005, the Training Division held 32 ART I sessions for 1,047 patrol officers and 21 ART II sessions for 562 non-patrol officers.

The division holds specialized training courses to enhance career development and patrol skills. The Supervisory Training Regimen in Preparation and Education of Sergeants (STRIPES) course is a two-week program that prepares candidates for their roles as supervisors. Lieutenants attend a three-day Lieutenants Training Session (LTS) to further their leadership and management skills. In 2005, 108 officers attended the STRIPES course, and 28 supervisors attended the LTS. In order to improve teaching methods and set training standards, 34 officers attended a 32-hour Instructor Development Course. The division also conducted a 40-hour Police Radio Dispatchers (PRD) class for 18 new PRDs.

The police recruit classes participated in several community service activities throughout the year. These projects and programs included the Great Aloha Run, Special Olympics, Police Activities League Opening Day ceremonies, the Police Week Memorial Service, the Hawaii Blood Bank, and Easter Seals.

In addition to the firing range and EVOC track, the Training Division utilizes shooting and driving simulators for recruit training and ART to test and improve the officers' decision-making skills through the use of scenarios. The Training Division continues to use a wireless report writing, computer-training system for recruits. The wireless system involves the installation of fiber-optic cabling and access-point antennas to provide wireless (802.11 b/g) connectivity throughout the campus. Laptop computers are provided to the recruits during their training at the academy. The division issued over 400 laptops to recruits in the past seven recruit classes.

In 2005, the Training Division started groundbreaking on an indoor pistol range at the academy. The \$7 million range is slated for completion in the third quarter of 2006. This new range will have 30 firing points, a gunsmith shop, a classroom, and an arsenal. Additionally, it will have the capability to accommodate firearms qualifications for day and night operations personnel.

In order to promote superior public safety training academy standards and to recognize professional excellence, the Training Division executed an accreditation agreement with the Commission on Accreditation for Law Enforcement Agencies, Inc., to seek accreditation for the Public Safety Training Academy Accreditation Program. The Training Division began this task in 2004 and completed its accreditation assessment in December 2005. The division complied with all of the 166 applicable standards, and there were no discrepancies. The division expects to receive its formal accreditation award in March 2006 in Jacksonville, Florida.

Support Services Bureau

COMMUNICATIONS DIVISION

The Communications Division receives emergency requests and dispatches emergency services throughout the island. The division serves as the primary public safety answering point for all 9-1-1 calls on Oahu. It also serves as the Hawaii State Warning Point for all civil defense emergencies such as tsunamis, enemy attacks, or other disasters. In 2005, the division handled over one million calls (1,068,779), of which 72 percent were for police services (769,464). The rest of the calls were for the Honolulu Fire Department (56,484), the Honolulu Emergency Services Department (72,910), and miscellaneous events (169,921). In 2005, the Communications Division sought legislation for the establishment of a 3-1-1 system to handle nonemergency requests for police services. These nonemergency calls make up over 71 percent of the calls for police services. In 2005, the Legislature granted a new measure to penalize individuals who misuse the 9-1-1 system. About half of the 9-1-1 calls came from cellular telephones. In order to prepare for the growing number of cellular telephones, Oahu (following Maui) will be the next island to implement improvements to the 9-1-1 system to identify callers via global positioning system coordinates.

INFORMATION TECHNOLOGY DIVISION

The Information Technology Division (ITD) provides technical and research support for the entire department. The division assists with the department's computer and software systems, conducts research, analyzes crime data, and maintains a sophisticated information management system.

The ITD is equipped with approximately 1,400 laptop and 800 desktop computers. An islandwide system of wireless access points and a high-speed data network provides the infrastructure for wireless data communications. The ITD provides training for mobile computing and other applications, and the MDC Help Line provides 24/7 support.

In 2005, the ITD continued the ongoing process to technologically reengineer the department and to streamline and automate the work flow of information. The information management system includes state-of-the-art computer aided dispatching featuring a direct link to patrol officers equipped with laptop computers.

The Data Section continued to work with other agencies at the federal, state, and county levels to develop interoperable voice and data communications statewide. During 2005, the use and content of the Honolulu Police Department's intranet continued to expand dramatically and served as a focal point for efficiently sharing information. New systems using Extensible Markup Language were deployed, including a new program to capture field information contacts. The ITD continued to expand services for computer forensic evidence recovery and reached a new height of expertise in the execution of search warrants on active networks.

The Research Section provided important services, including support for the department's directive system, crime information and statistics, research into new equipment, and other projects. Research studies were conducted in a wide range of subjects, including the use of force by police officers, assaults on police, and crime in Honolulu. During the year, the section carried out field evaluations of new high-visibility light bars

for police vehicles and supported research into new police equipment.

RECORDS AND IDENTIFICATION DIVISION

The Records and Identification Division consists of seven major sections: Records, Identification, Evidence, Warrants, Firearms, Follow-Up, and Alarm Tracking and Billing. The division maintains records for all known police offenses. The division is also responsible for the service of warrants, firearms registrations, alarm registrations, handling of evidence, and fingerprinting.

During 2005, the division continued with the implementation and fine-tuning of the new Records Management System. On September 25, 2005, a new, mandatory automated field reporting system was installed.

assessed if more than three false alarms occur within a one-year period. The alarm owners are also given the opportunity to attend a class given by the police department and alarm companies covering the proper use of alarms. Currently, there are over 27,124 registered alarm users on Oahu.

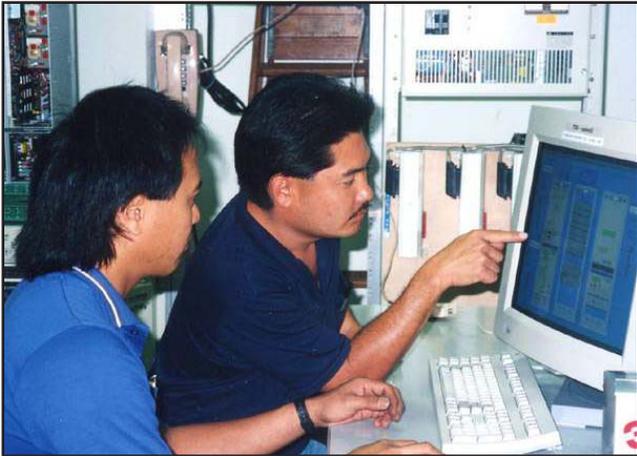

The Records and Identification Division personnel spearheaded the formation of a Toastmasters Club within the HPD. The "Honolulu's Finest" Toastmasters Club was chartered in June 2005 and provides a professional and nurturing environment to develop communication and leadership skills.

In 2005, the Evidence Room continued to use PropertyBureau.com to complete their auctions to dispose of property. A total of \$22,494.61 was collected from the on-line auctions. In early 2005, they moved their bulk evidence into a new location on Hart Street.

During 2005, the Firearms Section executed 4,125 firearms permits and registrations. This section also processed 169 security guard firearm licenses and 33 Special Police Officer Commission licenses that included permits for the department's parking enforcement officers.

This section is responsible for registering all burglar alarms in the City and County of Honolulu. These alarms are then tracked in case there are excessive false alarms. Additionally, service charges are

TELECOMMUNICATIONS SYSTEMS SECTION

The Telecommunications Systems Section (TSS) worked with the city's Department of Information Technology and the microwave radio contractor, Harris Farinon, to complete the second phase of the microwave system upgrade. This upgrade will accommodate the installation of video surveillance cameras at the critical communication sites and allow additional expansion channel capacity for the 800 MHz radio system.

In January 2005, the radio technicians attended a factory mobile and portable radio maintenance training course to learn the latest maintenance practices of the new Jaguar P7100 portables and the Orion M7100 mobile radios.

In July 2005, the TSS started to reprogram all of the department's 800 MHz portable and mobile radios to add systems-expansion frequencies and interoperable capabilities. These upgrades would allow the police officers to communicate with first responders such as the Honolulu Fire Department, Honolulu Emergency Services Department and its Ocean Safety and Lifeguard Services, and Oahu Civil Defense Agency. The technicians provided proactive maintenance to repair minor problems and update radio software codes to resolve known radio issues.

Throughout the year, the radio technicians followed up on numerous reported radio interference problems that affected our 800 MHz radio reception. The TSS continues to work in partnership with the cellular telephone companies to eliminate the problem.

The TSS along with representatives from the Information Technology Division and the State of Hawaii Organization of Police Officers worked with vendors to develop and test a new light emitting diode (LED) bar and rear mid-level light for the police subsidized vehicles. The distribution of the new lights will begin as a pilot program in the first quarter of 2006. LED technology will increase the visibility of the police subsidized vehicles for the safety of the public and the police officers.

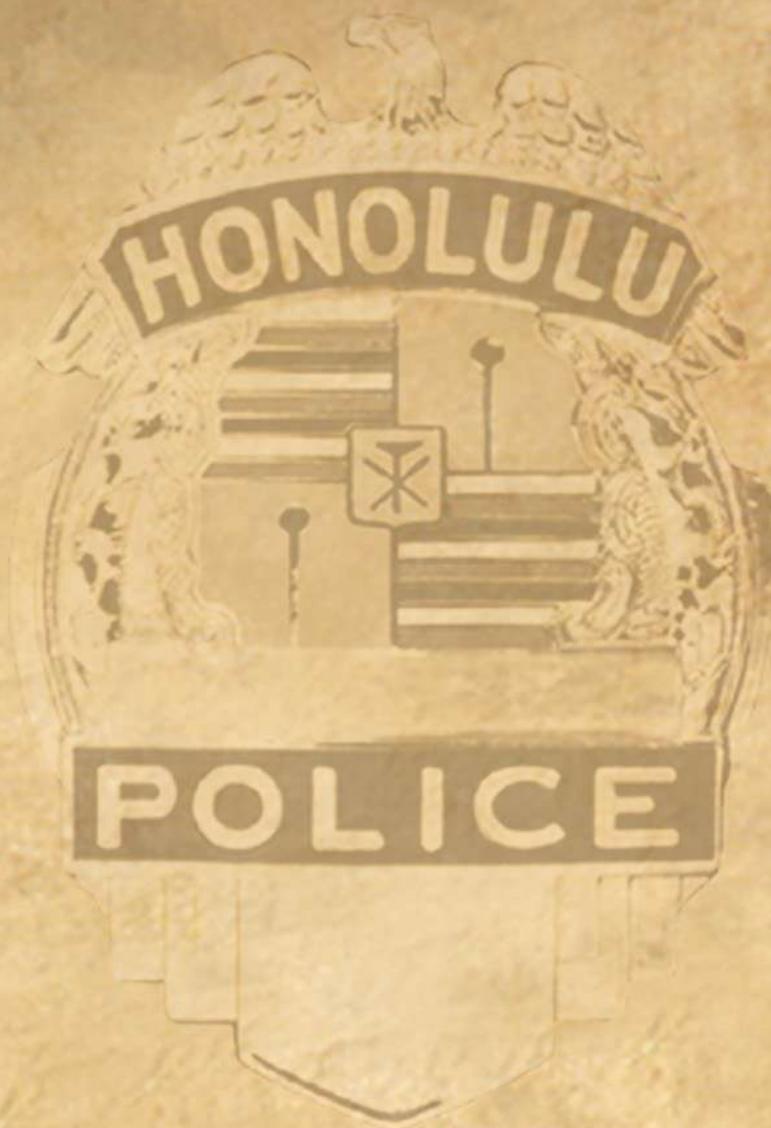

The TSS modernized the Training Division's Emergency Vehicle Operations Course (EVOC) track with an electronic lane-change simulator. The TSS technicians designed and built a simulator to automatically trigger traffic signal lights at the end of the EVOC track to indicate which lane is clear to steer the vehicle around a simulated hazard. This simulator provides a realistic view for the trainee and consistency in the training.

VEHICLE MAINTENANCE SECTION

The Vehicle Maintenance Section is responsible for maintaining the department's fleet of police vehicles. This section is responsible for the repair, maintenance, and deployment of the department's approximately 500 pieces of equipment. In 2005, a total of 71, 2005 Crown Victoria patrol cars and 7 BMW motorcycles were added to the fleet.

Executive Bureau

COMMUNITY AFFAIRS SECTION

In January 2005, the Informational Resources Section was reorganized and renamed the Community Affairs Section (CAS). The CAS is responsible for coordinating and operating a number of the department's special projects and events. They include the departmental museum, Speakers Bureau, Mounted Unit, Reserve Officer program, Maka`i Video Productions unit, Ho`ike Information Line, Ride-Along program, Citizens Police Academy, Youth Citizens Police Academy, Business Police Academy, and numerous award ceremonies. The section also maintains the department's Internet Web site.

The museum houses exhibits that narrate the history of the Honolulu Police Department (HPD) from its inception through the present day. The museum is a popular stop for visitors touring the Alapai headquarters and had 3,423 visitors in 2005.

The Speakers Bureau coordinates and provides speakers to educate and inform the public about home and personal security, robbery and theft prevention, identity theft, child safety, traffic safety, drug awareness, domestic abuse, workplace violence, and disaster preparedness. In 2005, there were 886 requests for various speakers. Of those requests, the CAS handled 204 engagements.

The Mounted Unit adds a unique dimension to the department by providing high visibility patrol, crowd control, rural area searches, and assistance to the districts with projects in the beach areas. The unit received 33 commendations and 31 letters of appreciation in 2005.

The Reserve Officer program enlists the services of qualified citizens to perform emergency police duties. Reserve officers provide additional police protection to the public with emphasis on supplementing the patrol divisions. The Reserve Officer program has 100 authorized positions; however, there are only 84 active members. The reserve officers work without compensation or financial obligation from the City and County of Honolulu. The reserve officers are assigned to a specific division where they work five hours a week. In addition to their regular assignments, they assist the CAS with various special events such as Police Week, Drug Abuse Resistance Education Day, the Troy Barboza torch run, Memorial Day, Explorers' conference, Honolulu City Lights Electric Light Parade, and the annual city employees' Christmas party. In 2005, the reserve officers provided the city with a total of 15,703 hours.

The Maka'i Video Productions unit provides audio-visual support for the HPD. They create and produce videos for the department's projects, functions, and events. The unit produced about 12 videos and assisted with over ten projects in 2005. The staff attended virtually every departmental function and is presently working on the following eight projects/videos: On the Beat, HPD in Action, the Chief's Message, a fire prevention public service announcement, the Troy Barboza torch run, Hawaii State Law Enforcement Officials Association Conference, Police Week 2006, and administering the grant for video streaming.

The Ho'ike Information Line at 529-3352 provides a contact point for the public to obtain answers or referrals for police-related questions. Anyone with questions can call on weekdays during normal business hours. The Graffiti Hotline at 529-3222 is available around-the-clock, providing the public with a direct line to report graffiti problems on public or private property. The Ride-Along program provides citizens a firsthand look at officers on the beat. The department provided 186 ride-alongs in 2005.

The Citizens Police Academy (CPA) holds yearly classes to open the lines of communication between the community and the police department. By enrolling in the CPA, members of the public gain firsthand experience on what it takes to become an officer. Participants learn the educational, physical, and emotional demands that officers undergo. The heightened understanding can alleviate misconceptions about police work and foster a mutually respectful relationship between the public and the department. There have been 24 CPA classes since its inception in 1994, and a total of 450 men and women have graduated from the program.

The Youth Citizens Police Academy (YCPA) is open to high school sophomores, juniors, and seniors. The goal of the YCPA is to enhance the relationship between youth and officers. Training sessions give the students an introduction to the department, education in problem solving, and information about how to make decisions that modern youth face every day. There have been four classes since its inception in 2000, and a total of 60 students have graduated from this program. Those interested in information on the CPA or YCPA, may call 529-3351

The Business Police Academy (BPA) began in 2003, and classes are held annually. This interactive program is for members of the private and public sector. The BPA fosters "understanding through education" and helps to develop awareness for business people, enhancing the quality of life in our community. The BPA is a revolutionary approach in law enforcement, which helps develop awareness within the business community. Since its inception in 2004, 71 men and women have graduated from the program.

For information on the BPA, interested parties may call 529-3115.

The CAS manages the department's Internet Web site at www.honolulu.org. The site includes a departmental overview and history, statistics, safety information, answers to frequently asked questions, and other useful information. In 2005, the CAS received and responded to approximately 2,400 emails.

LEGISLATIVE LIAISON OFFICE

The Legislative Liaison Office (LLO) is responsible for coordinating all legislative matters that affect departmental operations. During the 2005 legislative session, the LLO tracked 3,689 bills and resolutions that went before the City Council. The legislative liaisons provide classes for the Honolulu Police Department and other county police departments on recently enacted and modified state laws.

OFFICE OF ACCREDITATION

The Office of Accreditation ensures that operational policies and procedures comply with the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA), standards and meet departmental goals and objectives.

A community survey was developed and implemented by the Office of Accreditation staff on June 1, 2004, and continued through the calendar year 2005. The survey was designed to enable the police to learn about the general views and opinions of the people it serves and to provide a means for citizens to communicate their opinions and suggestions anonymously. The survey was made available at all police stations and substations and on-line via the department's Web site at <http://www.honolulu.org>. This survey of citizens' attitudes and opinions addressed: overall agency performance, overall competence of agency employees, officers' attitudes and behavior toward citizens, community concerns over safety and security within the agency's service area as a whole, and any recommendations and suggestions for improvements.

In 2005, the CALEA conducted two mock assessments for the department. The department's Training Division underwent an on-site assessment by CALEA from December 10 to 14, 2005.

Statistics

Major statistics are presented on pages 45 through 58. For purposes of presentation, statistics are categorized in different ways.

For instance, offenses are counted in two ways: actual and reported.

“Actual offenses” are defined according to the standards of the Uniform Crime Reporting program of the Federal Bureau of Investigation. Counts of actual offenses are a common measure of crime. The data that appear on pages 45 through 50 are based on actual offenses.

“Reported offenses” include unfounded complaints, which are screened out in the counting of actual offenses. Counts of reported offenses are a common measure of workload. The data on pages 51 though 58 of this section are based on reported offenses.

Murder	29.8	2.9
Forcible Rape	110.7	24.7
Robbery	149.5	90.9
Aggravated Assault	891.8	160.2
Burglary	3,591.6	804.8
Larceny-Theft	923.8	3,280.6
Motor Vehicle Theft	5,698.9	819.1
TOTAL	28,373	5,183.2

Crime Index 1996-2005

Seven serious offenses are used to define trends and make comparisons across the nation. These offenses are called index crimes, and data about them are drawn from the Federal Bureau of Investigation's Uniform Crime Reporting (UCR) program. The offenses consist of four violent crimes (murder, forcible rape, robbery, and aggravated assault) and three property crimes (burglary, larceny-theft, and motor vehicle theft).

During 2005, a total of 44,953 index crimes occurred in Honolulu, a decrease of 4 percent from 2004. The number of indexed crimes are still lower than the number of crimes recorded in 2000. Violent crimes increased by 3 percent, with the number of rape incidents accounting for the largest percentage increase (5 percent). Property crimes decreased by 4 percent, with the number of burglaries having the largest percent decrease (14 percent).

Offenses	1996	1997	1998	1999	2000
Murder	27	34	17	37	20
