

HONOLULU POLICE DEPARTMENT

ANNUAL REPORT 2008

Serving and Protecting With Aloha

Mission Statement

We, the men and women of the Honolulu Police Department, are dedicated to providing excellent service through partnerships that build trust, reduce crime, create a safe environment, and enhance the quality of life in our community.

We are committed to these principles:

INTEGRITY

We have integrity. *We adhere to the highest moral and ethical standards. We are honest and sincere in dealing with each other and the community. We have the courage to uphold these principles and are proud that they guide us in all we do.*

RESPECT

We show respect. *We recognize the value of our unique cultural diversity and treat all people with kindness, tolerance, and dignity. We cherish and protect the rights, liberties, and freedoms of all as granted by the constitutions and laws of the United States and the State of Hawaii.*

FAIRNESS

We act with fairness. *Objective, impartial decisions and policies are the foundation of our interactions. We are consistent in our treatment of all persons. Our actions are tempered with reason and equity.*

... in the spirit of Aloha.

Mayor's Message

The 2008 Annual Report of the Honolulu Police Department documents again the exceptional accomplishments of “Honolulu’s Finest” and provides an account of the excellent work of these trusted civil servants. I am proud to serve with them as part of the City and County of Honolulu ohana.

Congratulations to the Honolulu Police Department’s outstanding men and women for their unwavering commitment to public safety. Each day, they live the department’s principles of Integrity, Respect, and Fairness. From those in uniform to the civilian workforce that provides administrative support, all the members of the Honolulu Police Department perform their daily duties with professionalism, courage, and dedication.

The fact that Honolulu is one of the safest cities in our nation is due in large measure to the people of the Honolulu Police Department. These public servants recommit themselves daily to the department’s mission of “providing excellent service through partnerships that build trust, reduce crime, create a safe environment, and enhance the quality of life for nearly one million people in our community.”

I salute the staff and members of the Honolulu Police Department for another year of stellar achievement.

MUFU HANNEMANN, MAYOR
City and County of Honolulu

Honolulu Police Commission

Christine H. H. Camp
Chair

Keith Y. Amemiya
Vice Chair

Boyd S. Andrade, Sr.
Commissioner

Mark D. Hunsaker
Commissioner

Benjamin S. Saguibo
Commissioner

Craig Y. Watase
Commissioner

Helen H. Hamada
Commissioner

The Honolulu Police Commission is made up of seven members who are appointed by the Mayor and confirmed by the City Council. All members serve staggered terms of five years. They volunteer their services and do not receive any compensation.

A chair and vice chair are elected from within its membership every year. The commission chair for 2008 was Christine H. H. Camp, and the vice chair was Keith Y. Amemiya.

The commission has the following mandated responsibilities:

- appoints and may remove the Chief of Police;
- evaluates the performance of the Chief of Police at least annually;
- reviews rules and regulations for the administration of the Honolulu Police Department;
- reviews the annual budget prepared by the Chief of Police and may make recommendations thereon to the Mayor;
- compares at least annually the actual achievements of the police department with the goals and objectives in the five-year plan; and
- receives, considers, and investigates charges brought by the public against the conduct of the department or any of its members and submits a written report of its findings to the Chief of Police.

The commissioners are committed to continue working proactively with the department to address problems regarding police conduct and other issues.

Chief's Message

Aloha.

I am pleased to report that crime on Oahu continued to decline in 2008, dropping to its lowest level in 30 years. Most of the decrease was attributable to a decline in property crimes which fell by 15 percent; violent crimes dropped by 1 percent. These declines are commendable given the sudden, unexpected fiscal challenges thrust on the city and the department toward the end of the year.

Traffic safety remained a top priority for the department. Ongoing efforts in enforcement and education helped to keep vehicular and pedestrian fatalities down for the second year in a row, and collision investigators were able to reduce road closure times without sacrificing the quality of investigations.

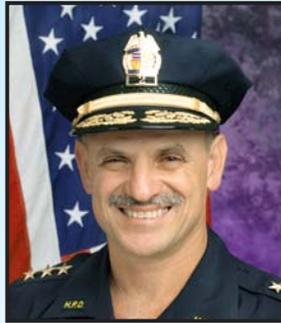

This year also saw visits from presidential candidate and later president, Barack Obama. Born and raised on Oahu, he was greeted by adoring crowds and followed wherever he went. The Honolulu Police Department (HPD) had the great privilege and responsibility of supporting security and providing traffic escort for the 44th president of the United States.

As my four decades of police work draws to a close, I want to thank the employees of the HPD for their dedication and commitment to public service. Thank you for choosing careers in public service and for joining the HPD ohana. Together we have made great progress in making Oahu safer for our residents and visitors.

Organizational Chart

2008 HONOLULU POLICE ADMINISTRATION

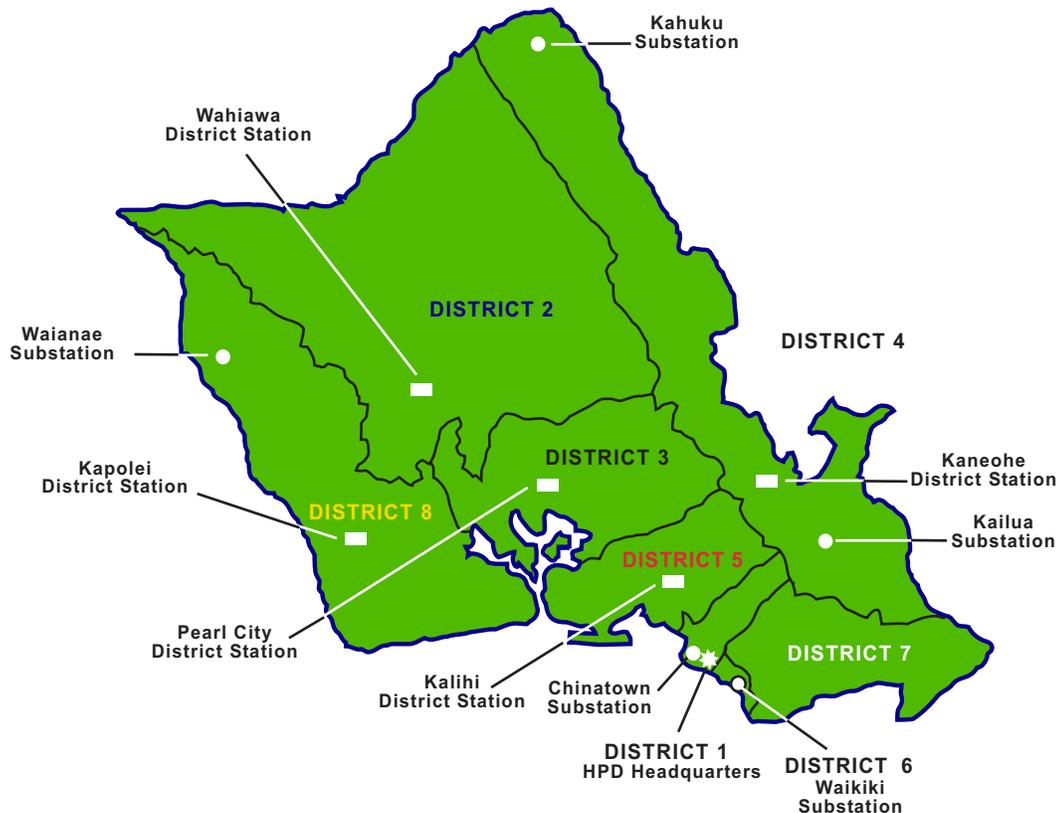

Powers, Duties, and Functions

The Honolulu Police Department serves as the primary law enforcement agency for the entire island of Oahu. The Chief of Police directs the operation and administration of the department and is responsible for the following:

- preservation of the public peace;
- protection of the rights of persons and property;
- prevention of crime;
- detection and arrest of offenders against the law;
- enforcement and prevention of violations of state laws and city ordinances; and
- service of processes and notices in civil and criminal proceedings.

The department's jurisdiction is the City and County of Honolulu. It includes the entire island of Oahu, which has a circumference of about 137 miles and an area of around 600 square miles. The estimated resident population is about 905,000, which includes military personnel but not tourists.

For police operations, the island is divided into eight patrol districts. Each district is subdivided into sectors and beats. The department's headquarters is located at 801 South Beretania Street in downtown Honolulu. District stations are found in Kalihi, Pearl City, Kapolei, Wahiawa, and Kaneohe. Other facilities are identified on the map below.

FIELD OPERATIONS

DISTRICT 1

District 1 encompasses almost eight square miles in downtown Honolulu. The resident population is approximately 75,000. Although this area is small, it includes the financial, political, and retail center of the City and County of Honolulu. The boundaries of the district are Liliha Street in the west, Punahou Street in the east, the Pacific Ocean to the south, and the Makiki/Tantalus area to the north.

The district is staffed by 180 patrol officers and a variety of specialized details that support the patrol officers. These details (Bicycle Detail, Community Policing/Weed and Seed Unit, Crime Reduction Unit, Misdemeanor Follow-Up Detail, and Fourth Watch) address problems and concerns that are often beyond the normal duties of patrol officers.

Uniform support details conducted monthly and quarterly operations such as Truancy Patrol, Project Safe Neighborhood/Prostitution Operations, and Derelict Vehicles Tag and Tow. These operations routinely netted 40 truants a month and 5 to 6 prostitution arrests a month. About 140 citations were issued for vehicle violations, and about 17 vehicles were towed quarterly for various violations. The Derelict Vehicles Tag and Tow operation specifically cleared away vehicles that were cluttering the streets.

District 1 officers work closely with the community to address concerns. Patrol officers have embraced the community policing concept and routinely walk with Citizen Patrol groups in their areas of responsibility. The community and officers meet on the most basic level of security and get to know and trust each other.

The Community Policing Team (CPT) focuses on larger operations and projects. In May, employing the Community Policing Through Environmental Design (CPTED) concept, the CPT helped to remove trellises in the Sun Yat Sen Mall to address the problem of gamblers and drug dealers using the shaded area to conduct illicit activities. The removal of the trellises resulted in a drastic reduction in criminal activity in the mall. There was a subsequent increase in the number of families using the mall and customers frequenting businesses there.

In December, the CPT staged its Aloha No Na Kupuna event. Aloha No Na Kupuna evolved from the Shop With a Cop program which focuses on children. The CPT felt that it was time to show love and appreciation for the seniors in the community. This idea gathered a huge amount of community support and resulted in a three-day Senior Citizen Safety Conference. Participants learned the importance of pedestrian safety, received health awareness training, and learned ways to prevent physical and financial abuse. They were also entertained and taught arts and crafts. The conference culminated with a Shop With a Kupuna event for 88 deserving seniors. The kupuna received debit cards and shopped at a local store accompanied by officers who volunteered their time.

For many years, District 1 has successfully supervised the Field Training Evaluation Program (FTEP) and has produced well-trained officers for the Honolulu Police Department. In 2008, the district expanded this role by training a larger number of recruits and teaching classes previously taught at the training academy.

DISTRICT 2

District 2 covers approximately 204 square miles from Central Oahu to the North Shore. The area is bounded by the Kipapa Gulch and the Waiahole ditch to the south, the Waianae mountain range to the west, the Koolau mountain range to the east, and the shoreline from Kaena Point to Sunset Beach to the north. The area includes the communities of Mililani, Wahiawa, Whitmore Village, Mokuleia, Waialua, and Haleiwa, as well as Wheeler Army Airfield and Schofield Barracks.

District 2 is a mixed community with a country flavor. The area incorporates agriculture, popular tourist attractions, and a large military population. District 2 officers partner with all elements of the community. This enables them to gain more insight into the community where many of the officers reside.

The district continues to move forward with intelligence-led policing. The Crime Analysis and Targeting (C.A.T.) program enables the public to access timely crime incident information via the C.A.T. Web site. The sharing of real-time data keeps the community aware of crime trends, trouble spots, and possible suspicious activity.

The Line Patrol program on the H-2 Freeway continues to be an effective traffic management and enforcement tool. Assigned officers provide high visibility police presence, assist stalled and stranded motorists, manage traffic problems, and take appropriate enforcement action when a violation is observed.

Patrol officers are all responsible for monitoring activity in their respective area of responsibility. The district's Community Policing Team (CPT), comprised of five officers, support patrol officers by addressing issues such as recurring complaints, traffic management, and property crimes. The goal of the CPT is to facilitate the reduction of crime and improve the quality of life in the community.

In an effort to increase crime prevention awareness and promote public efforts in combating crime, District 2 officers continued their involvement in numerous community presentations: Keiki Identification, elementary and secondary school crime presentations, senior citizens group presentations, business security check programs, residential security check programs, and Neighborhood Security Watch meetings. Officers also attended and presented regular reports at Neighborhood Board meetings.

District 2 officers continued to work with the 217 active neighborhood security programs consisting of 5,685 members. These groups include Neighborhood Security Watches, Citizen Patrols, Mobile Patrols, Citizen Bicycle Patrols, Business Watches, and an Agricultural Watch. Officers provide information and guidance needed to maintain interest and membership in active groups and continue to work toward revitalizing inactive groups.

The District 2 Crime Reduction Unit (CRU) is an integral part of the district's effort to suppress crime. The CRU supports the patrol officers by taking enforcement action against chronic and major offenders in the community. They are a multipurpose unit that is also responsible for providing the patrol officers with updated intelligence on various known criminals. The CRU also serves as a Rapid Deployment Force and joins forces with other districts during islandwide operations.

District 2 continued its Quality Management concept where the command staff meets with first-line supervisors. In addition to sharing productive ideas and formulating plans to resolve challenges, various projects are discussed; and new methods are developed to improve the quality of life in the community.

DISTRICT 3

District 3 encompasses a geographical area of about 66 square miles that includes Pearl Harbor, Halawa, Aiea, Pearl City, Waipio, Kunia, Waikele, and Waipahu. The district serves approximately 160,000 residents. In 2008, the district responded to 81,141 calls for service.

Weed and Seed is a federal program designed to reduce crime, empower the community, and improve the quality of life for area residents through partnerships with government, local businesses, schools, and the community. During 2008, the Weed and Seed Detail participated in 66 events in the Waipahu Weed and Seed area, which included May Day, Volleyball for Heart, the Annual Turkey Trot, a 3-on-3 basketball tournament, and National Night Out.

The Crime Reduction Unit (CRU) operates in plainclothes to support patrol operations. In 2008, the CRU made 497 arrests: 279 felonies, 179 misdemeanors, and 39 traffic offenses. The CRU also executed four search warrants that resulted in the recovery of five firearms, over two kilograms of methamphetamine, and five motor vehicles. The CRU is also part of the police department's Rapid Deployment Force, which is capable of combining with other districts to respond to critical incidents.

Investigating burglary and felony theft offenses is the responsibility of the district's Burglary-Theft Detail. During the year, the detail received 3,593 cases: 647 were assigned for further investigation and 742 were closed. There were 243 cases conferred with the City Department of the Prosecuting Attorney.

The Burglary-Theft Detail was also responsible for the Keep Your Identity program. Detectives conducted 27 presentations for about 950 citizens, informing them about identity theft.

The Prevention, Intervention, Treatment to Stop Thieves Operating Permissively (PIT-STOP) continues to operate in

District 3. An agreement was reached with the City Department of the Prosecuting Attorney where suspects arrested for operating a stolen vehicle in the district would be immediately charged. In 2008, there were 41 persons arrested for operating stolen vehicles. PIT-STOP was essential in the charging of 16 individuals. The success of the program led to its implementation in other patrol districts.

The Community Policing Team (CPT) works in partnership with the community and various organizations to identify and address problems in the community. In 2008, the CPT worked in partnership with the district's 77 Neighborhood Security Watches, Business Security Watches, and Citizen Patrol groups.

Additionally, the CPT partnered with schools and community members in organizing 11 Community-Traffic Awareness Partnership (C-TAP) events and 10 traffic and pedestrian safety presentations. During the Christmas season, approximately 100 children participated in the CPT's two Shop With a Cop events.

DISTRICT 4

District 4 encompasses an area of Windward Oahu covering 136 square miles from the Koolau Mountains to the ocean and stretching northwest from Makapuu Point to the mouth of Waialeale Stream. Communities include Waimanalo, Lanikai, Kailua, Kaneohe, Ahuimanu, Kahaluu, Waikane, Waiahole, Kaaawa, Punaluu, Hauula, Laie, and Kahuku. The main station is located in Kaneohe, and full-service substations are located in Kailua and in Kahuku.

The population in District 4 is estimated at 132,266. There are rural agricultural areas, small towns, urban centers, military bases, suburban neighborhoods, hotel and resort centers, shoreline recreation areas, and award-winning beaches.

District 4 continues to be proactive and innovative in the areas of crime prevention and criminal apprehension. Increased traffic enforcement enabled officers to spot criminals in the act of committing crimes and arrest many outstanding fugitives. The use of all-terrain vehicles by patrol officers was effective in reducing crime at the parks and beaches within the district. They allowed officers to reach secluded beach areas where suspects would normally be able to evade officers and discard stolen property.

The Crime Reduction Unit (CRU) has continued to be a valuable resource to the district. They provide support for the patrol officers, citizen patrols, neighborhood watches, and other community groups. In 2008, the CRU, along with the Burglary-Theft Detail and the Misdemeanor Follow-up Detail, focused their efforts on repeat offenders which resulted in a reduction in property crimes.

Traffic safety and the reduction of traffic injuries and fatalities continued to be a high priority for District 4 officers. The use of strategically placed speed monitors and laser guns and communication with the community was effective in changing driving habits. Saturation patrols and community involvement, through the Community-Traffic Awareness Partnership (C-TAP) program, was used to send the message that neither the police nor the community would tolerate speeding and unnecessary death and injuries in the area.

District 4 continued to maintain its strong ties with members of the community and community organizations. The district has 108 Neighborhood Security Watches and 3 Business Watches, 14 Citizens Patrols and 2 Mobile Patrols, and 4 Seniors Against Crime groups.

This year, the Community Policing Team (CPT) initiated two new programs to enhance partnerships with schools in the district. The Citizens Response On School Security (C.R.O.S.S.) addresses issues that occur in the school environment, such as bullying, graffiti, and Internet harassment. In the Sportsmanship program, officers collaborate with the City Department of Parks and Recreation to promote the idea of good sportsmanship and inform participants and parents of park regulations.

In November, the CPT held its annual blood drive at St Ann's Church where officers went out into the community to enlist donors. Their efforts resulted in 57 pints of blood being donated to the Blood Bank of Hawaii.

DISTRICT 5

District 5 is a diverse community that encompasses 40 square miles in central Honolulu and has a resident population of nearly 141,000. The district's boundaries span from the Pali Highway to the Aliamanu Crater (east to west) and the Koolau mountain range and to the southeastern shoreline of Oahu (north to south). The area includes residential housing, industrial businesses, Honolulu Harbor, Honolulu International Airport, U.S. Federal Detention Center, and Oahu Community

Correctional Center. The district also includes the following military installations: Hickam Air Force Base, Coast Guard Base Sand Island, and Fort Shafter.

Uniformed patrol officers provide and perform the majority of services in the District 5 area. In 2008, District 5 patrol officers responded to 82,726 calls for service.

The Automatic Number Plate Recognition (ANPR) system was used for the first time in the district to aid in the recovery of stolen vehicles. The ANPR is a mass-surveillance method that uses optical-character recognition to read vehicle license plates. The technology increases the odds of recovery by automating a process that was previously done manually. District 5 was also involved in the pilot evaluation program of a hybrid police vehicle. The evaluation is ongoing.

During 2008, officers participated in the Salt Lake Street Sweeping Project that addressed illegally parked vehicles during scheduled street cleaning. The project resulted in 1,171 citations being issued.

District 5 officers continued to take a proactive approach to traffic enforcement by issuing citations and warnings. Officers issued 15,301 traffic-related citations and made 398 traffic-related arrests in 2008. The number of critical and fatal traffic incidents decreased from the number of incidents in 2007.

The District 5 Burglary-Theft Detail is responsible for the investigation of Burglary, Theft, and Unauthorized Entry into Motor Vehicle (UEMV) cases that occur in the district. In 2008, the detail conducted stings and surveillance and utilized internal and external resources, such as the auto theft bait car, to investigate these crimes. The Burglary-Theft Detail recovered \$275,943 in property and \$15,560 in cash and saw a sharp decline in the number of copper thefts in the district.

The Misdemeanor Follow-Up Detail is comprised of three officers who were assigned 1,639 cases in 2008. When not actively investigating cases, these officers assist the Community Policing Team, Domestic Violence Follow-Up Detail, the Crime Reduction Unit, and patrol officers as needed.

Honolulu's first Weed and Seed site, located in the Chinatown/Mayor Wright Homes area, was established in 1999 to address drug dealing, prostitution, public drunkenness, and thefts. A full-time unit comprised of the Weed and Seed unit and the Community Policing Team (CPT) was developed

to work with both the weeding and the seeding of the now expanded site. The Weed and Seed/CPT unit participated in numerous projects during the year. These projects included Keiki Identification, Keiki Print, community and stream cleanups, graffiti paint-outs, Food Bank collection and distribution, late-night organized basketball and volleyball games, community parades, Neighborhood Security Watches and walks, warrant sweeps, and alcohol enforcement operations as well as truancy and juvenile enforcement operations. In December 2008, the unit partnered with the Crime Reduction Unit (CRU) to investigate a complaint of illegal fireworks sales which resulted in the arrest of two suspects and the seizure of 94 cases of aerial fireworks valued at \$40,000.

The District 5 CRU investigates street crimes that affect the quality of life in the community. Utilizing intelligence and information from the patrol officers, the CRU investigates crimes and actively looks for suspects. In 2008, the CRU conducted investigations of drug trafficking near elementary schools, a community college, and within the district's Weed and Seed site. These investigations led to several federal and state indictments. One investigation resulted in 18 suspects being arrested. Another investigation led to three suspects being prosecuted by the state and five suspects being indicted federally. During the year, the CRU made over 350 felony arrests and seized over \$75,000 in cash and property.

District 5 is proud to have outstanding officers who work in and serve the community. Sergeant John Kauwenaole received the prestigious Ola Pono Award for his outstanding community service work. The Ola Pono Award is presented to those who make valuable community contributions by promoting safe, healthy, and drug-free lifestyles. Sergeant Kauwenaole was also recognized for his volunteer work at the Kuhio Park Terrace public housing.

DISTRICT 6

District 6 encompasses the Waikiki peninsula, which is bordered by the Ala Wai Canal, the slopes of Diamond Head, and the Pacific Ocean. The command and administrative offices are located at the Alapai headquarters. The Waikiki Police Substation, located on Kalakaua Avenue fronting Waikiki Beach, is staffed by patrol personnel. The Burglary-Theft Detail and Crime Reduction Unit (CRU) offices are located on Diamond Head Road.

As the major destination for tourists, many activities are held in Waikiki. In 2008, Waikiki hosted approximately 100 events in which officers were responsible for coordinating security and traffic control. These events included parades, surfing contests, marathons, Sunset on the Beach, the NFL Pro Bowl party, and several cultural events.

District 6 officers have continued their work with the community to resolve issues and address criminal and quality of life concerns. Officers maintain relationships with the Visitor Aloha Society of Hawaii, Business Watch and Condo Watch groups, the Hawaii Hotel and Visitor Industry Security Association, and the new Building Owner's Management. By developing partnerships, officers encourage input and work with the community to create innovative solutions to address concerns. Officers also join neighborhood patrols on their evening Citizen Walks.

For the past 13 years, the district has partnered with the Hyatt Regency Waikiki Beach Resort and Spa and the Sheraton Waikiki Hotels for two service events held during the holiday season for the Jefferson Elementary School's Orthopedic Unit. Officers also visited the Kapiolani Medical Center for Women and Children and distributed toys, stuffed animals, and coloring books to children confined to the hospital during the holiday season.

In 2008, two officers were recognized for their superior performance of duty. Sergeant David Yamamoto was awarded the Bronze Medal of Valor for preventing a suicidal female from jumping off a parking structure. Officer John Fiatoa was awarded the Certificate of Merit for apprehending a male armed with a loaded shotgun.

District 6 is responsible for the Fourth Watch program in which probationary officers are assigned to foot patrol, traffic enforcement, major events, undercover enforcement, and other

duties. During the year, four classes transitioned through the program. In 2008, the Fourth Watch officers issued 19,944 traffic and parking citations and accounted for 1,031 arrests.

The Beach Detail continued their patrols along the beach and frontage areas from the Hilton Hawaiian Village Beach Resort and Spa's lagoon to the Waikiki Natatorium. The effectiveness of this detail was evident in a decrease in the number of cases reported and an increase in the number of arrests made. Along with the Beach Detail, the District 6 Bicycle/All-Terrain Vehicle Detail has continued to provide high visibility and mobility on beaches and in the parks where other modes of transportation are less effective.

During 2008, the district increased their Driving Under the Influence roadblocks, which resulted in 368 drivers being arrested for Operating a Vehicle Under the Influence of an Intoxicant. The district also partnered with the Honolulu Liquor Commission and other agencies to address problems associated with intoxicated patrons at businesses.

The District 6 Burglary-Theft Detail is comprised of one lieutenant and seven detectives. During 2008, the detectives were assigned 2,489 cases and closed 586 cases. The detail has established an ongoing partnership with the Waikiki Condominium Association and the Hotel, Retail and Security Association. They have also partnered with the State Department of Education to formulate a Web-based critical informational layout for schools.

The District 6 Crime Reduction Unit (CRU) concentrates on drugs, prostitution, violent crimes, and other quality of life issues in the district. The unit is split into two teams that provide maximum coverage during the day and night. During the 2008, the CRU made 191 felony, 173 misdemeanor, and 234 warrant arrests.

The district currently has video cameras at various locations along Kalakaua Avenue. Its video monitoring system is housed

in the Waikiki substation and continues to be monitored by the Aloha Ambassadors. The Aloha Ambassadors are hired and compensated by the Waikiki Business Improvement District Association.

DISTRICT 7

District 7 encompasses about 40 square miles in east Honolulu from Punahou Street to Makapuu Point. The area includes the communities of Manoa, McCully, Moiliili, Kaimuki, Palolo, Diamond Head, Waiialae, Kahala, Aina Haina, Kuliouou, Hawaii Kai, Kalama Valley, and Sandy Beach. District 7 is predominately residential with several institutions of higher learning, including the University of Hawaii at Manoa, Chaminade University, and Kapiolani Community College.

The District 7 Burglary-Theft Detail was assigned 3,944 cases in 2008. Detectives actively investigated 755 cases with leads and closed 400 of these cases. In August 2008, the detail worked with the Crime Reduction Unit (CRU) to arrest and charge an individual responsible for more than 30 commercial burglaries.

In March 2008, the CRU executed a drug search warrant on a residence in the McCully area. The search warrant led to the arrest of the resident and the recovery of an improvised explosive device, drugs, and paraphernalia.

In October 2008, the CRU worked with the Criminal Investigation Division and arrested and charged a suspect wanted for six robberies committed in the University of Hawaii area.

The District 7 Community Policing Team (CPT) held eight Keiki Identification events with over 1,000 children being fingerprinted. In October, the CPT participated in traffic safety sign waving at Kaimuki High School.

District 7 officers were recognized by the Hawaii Chapter of Mothers Against Drunk Driving for their enforcement accomplishments. Patrol officers cited over 5,500 drivers for speeding and arrested more than 550 drunk drivers.

District officers have continued to patrol beaches and scenic lookouts along the district coastline. All-terrain vehicles are used to patrol and respond to emergencies in areas not readily accessible by standard police vehicles.

On December 13, 2008, District 7 held its annual Shop With a Cop event at Kahala Mall. Eighteen deserving students were treated to a day of food, fun, and activities. District 7 officers personally donated money to fund the event, and many of those same officers took personal leave to spend the day with the children.

DISTRICT 8

District 8 serves the communities of Ewa, Ewa Beach, West Loch, Kalaeloa, Kapolei, Makakilo, Campbell Industrial Park, Honokai Hale, Ko'olina, Nanakuli, Lualualei, Ma'ili, Waianae, Makaha, Keaau, Makua, and Kaena Point. Kapolei houses the main police station, and there is also a substation in Waianae.

The district encompasses 128 square miles of which approximately 38 miles is coastline. The Kapolei Police Station is located at 1100 Kamokila Boulevard. The Waianae Police Substation, located at 85-939 Farrington Highway, provides service to the Waianae Coast and serves as a base of operations for officers who patrol that community.

In addition to patrol operations, the Kapolei station houses officers for the Criminal Investigation, Juvenile Services, and Narcotics/Vice Divisions. The Kapolei Receiving Desk processes all arrests occurring in the district.

Traffic safety continued to be a major concern in the district. District officers, aided by officers from the Traffic Division and the Fourth Watch, stepped up their enforcement efforts in areas that had a high incidence of speeding and hazardous driving. District officers also participated in traffic safety campaigns addressing pedestrian safety.

Burglary and Unauthorized Entry into Motor Vehicle (UEMV) incidents are addressed by the district's Burglary-Theft Detail and Crime Reduction Unit. Surveillance, use of a bait car, and increased traffic enforcement in areas with a high incidence of burglaries and UEMVs resulted in multiple arrests. Property crime also decreased by 20 percent in the last quarter of 2008.

The district continued to work closely with the City Department of Parks and Recreation on park maintenance projects. Several parks along the Leeward Coast and in the Ewa Beach area established park and parking lot closures during the year. A Parks Detail was created to monitor parks for violations and criminal activity.

Improving service to the community is an ongoing project and continued to be the focus of the district. The District 8 Community Policing Team (CPT) worked closely with Neighborhood Security Watches and Citizen Patrols in the district to enhance safety in the community. Currently, there are 76 active Neighborhood Security Watch programs with 4,462 members, 54 Citizen Patrols with 1,623 members, and 2 mobile patrols with 76 members.

The Weed and Seed Detail in District 8 continued to service the Ewa and Ewa Beach communities. Enforcement activities during the year included truancy sweeps, warrant sweeps, illegal drinking enforcement, bike and all-terrain vehicle patrols, and abandoned vehicle enforcement. The detail also held community events, such as the Movie on the Wall and ocean sport activities with the Ewa Boys and Girls Club. The detail also participated in the Campbell High School Summer Culinary Program, graffiti paint-outs, and the Pride for Ewa event.

The District 8 Live and Let Live campaign, held during the holiday season, is now in its 23rd year of operation and was expanded to include the communities of Ewa Beach, Makakilo, and Kapolei. Community members and district officers held sign waving events where static displays of wrecked vehicles were placed to encourage motorists to drive safely and responsibly. Sign waving and displays were also a part of

Operation Safe Graduation which was held in June to promote safe driving during the graduation season.

District 8 officers continued to meet with the Neighborhood Boards in the community on a monthly basis. During these meetings, community members were able to express their concerns and hear how these issues were being addressed. The district worked with various city and state agencies during the year to address issues such as illegal dumping in the Waianae and Ewa Beach areas; traffic concerns at the intersection of Keaunui Drive and Kolowaka Drive; and speeding drivers on Makakilo Drive, Fort Barrette Road, Kapolei Parkway, and Farrington Highway. Monthly meetings were also held with the Kalaeloa Public Safety Committee to discuss safety issues and public concerns in Kalaeloa.

CENTRAL RECEIVING DIVISION

The Central Receiving Division (CRD) is responsible for the safe and secure processing and detention of arrestees who are unable to post bail or are under investigation for felony offenses. The CRD is also responsible for the security of the Alapai headquarters where personnel screen visitors, monitor all building access points, and respond to fire and duress alarms in the building.

During 2008, the CRD processed 16,337 adult and juvenile arrestees, provided over 42,500 meals, and transported approximately 8,800 arrestees to court detention facilities. In addition to processing arrestees, CRD personnel made 1,032 arrests and initiated 3,496 police incident reports.

The CRD is responsible for the maintenance of the department's 23 breath alcohol analyzers and the certification of over 500 operators. In 2008, CRD personnel administered the breath test to 3,196 arrestees.

In 2008, the CRD implemented buccal swab testing to improve the suspect identification process. The buccal swab test aids in the identification of individuals on the basis of their DNA. During the year, 209 DNA samples were collected.

The CRD initiated plans to upgrade older equipment and systems. The division is currently in receipt of 12 new breath alcohol analyzer units with distribution and training to be completed in early 2009. A plan to replace the current video monitoring and recording equipment is ongoing with completion scheduled for mid-2009.

TRAFFIC DIVISION

The Traffic Division investigates certain motor vehicle collisions and promotes the safe and efficient movement of traffic on public roadways through educational programs, traffic management, and the enforcement of traffic laws. During 2008, the division coordinated the department's traffic safety strategies to make Oahu's roadways safer. These strategies involved expediting the flow of traffic; enforcing vehicle occupant protection laws; streamlining traffic investigative procedures; and aggressively enforcing pedestrian safety, speeding, and impaired driver laws.

The Vehicular Homicide Section (VHS) investigates motor vehicle collisions involving death, critical injury, and felony traffic crimes. The VHS investigators also review all major traffic collision cases to ensure their proper disposition and closure. In 2008, the VHS investigated 46 fatalities that resulted from 44 collisions.

Traffic delays are an inconvenience to commuters. However, traffic investigators have only one chance to recover the valuable evidence that would be lost or contaminated once the roadways are opened. Beginning in 2007 and continuing into 2008, the VHS was authorized to bring in additional investigators to collision scenes. This trial program ended in October 2008 and demonstrated that additional staffing could reduce collision scene investigation time by over an hour.

During 2008, the VHS acquired a DART LX 2 electronic drag sled. This is a computer-controlled friction measuring device used in collision reconstruction. The unit provides better accuracy and is more time efficient.

The Solo Motorcycle Detail promotes efficient traffic flow during peak morning and afternoon periods. In addition to

enforcing traffic laws, the motorcycle officers perform escort duty for parades and visiting dignitaries, provide traffic control at special events, and participate in community events. In 2008, the detail participated in 36 speaking engagements at various schools, reaching approximately 8,355 students. They were also involved in 14 traffic safety events and provided 29 escorts.

In 2008, the Traffic Division continued its commitment to improve pedestrian safety through the Walk Wise Hawaii campaign. Informational presentations and stepped-up enforcement efforts were conducted to address both pedestrian and motorist violations. From January to November, the department issued 5,917 warnings and 5,064 pedestrian citations.

The Traffic Division was also the guiding force behind the Click It or Ticket campaign. Seatbelt usage on Oahu was at 96.2 percent.

The Selective Enforcement Unit and Drug Recognition Expert Detail look for impaired drivers at locations and times shown to be particularly dangerous. In 2008, these details made 965 Operating a Vehicle Under the Influence of an Intoxicant (OVUII) arrests. The department as a whole made 4,316 OVUII arrests in 2008.

The Parking Enforcement and Collection Section enforces parking laws and is responsible for the collection of coins from city parking meters as well as for the maintenance and proper operation of over 4,600 meters. In 2008, parking enforcement officers issued a total of 57,907 parking and related citations and collected nearly \$4.4 million from parking meters.

The Volunteer Service Enforcement Officer (VSEO) program enlists the aid of civic-minded volunteers to assist the police department in enforcing certain parking laws, allowing patrol officers to focus their efforts on other aspects of law enforcement. In 2008, officers of the VSEO program issued over 4,800 citations.

The Junior Police Officer (JPO) Detail coordinates the work of approximately 4,088 JPOs and 81 adult traffic monitors who provide traffic safety assistance for the children traveling to and from elementary schools. The program services 109 public and private schools throughout Oahu. The JPO program has been active for over 84 years and is the only student traffic assistance program of its kind in the nation.

Traffic safety education continued to be a priority with the department. Traffic Division officers conducted 41 presentations, reaching over 21,500 people during the year. Officers from the Traffic Safety Unit set up displays at various conventions and expositions where they were able to discuss traffic safety and distribute brochures to community members. During the graduation season, the unit gave talks to high school students about underage drinking and driving.

The Traffic Safety Unit also provided training to military personnel returning from Iraq and Afghanistan. Topics included impaired driving, Honolulu's traffic laws, and traffic safety.

INVESTIGATIVE BUREAU

CRIMINAL INVESTIGATION DIVISION

The Criminal Investigation Division (CID) consists of nine details which investigate cases involving murder, robbery, assault, sexual assault, domestic violence, child abuse, financial fraud and forgery, auto theft, and white collar crimes. In addition to preparing investigations for criminal prosecution, the division strives to increase public awareness by partnering with other law enforcement agencies and the community through programs like CrimeStoppers.

In 2008, the Homicide Detail investigated 20 homicides and closed 17 cases with arrests or conferrals with the City Department of the Prosecuting Attorney. The detail's closing rate for the year was 85 percent, compared to 90 percent in 2007 and 83 percent in 2006.

The Robbery Detail continues to participate in the Honolulu Violent Incident Crime Task Force. The task force is a joint effort with the United States Attorney's Office; the Federal Bureau of Investigation; and the Bureau of Alcohol, Tobacco, Firearms and Explosives, State Department of the Attorney General. The cross-deputized status of officers in this task force allows for cases to be federally prosecuted. In 2008, 20 cases were presented for federal prosecution.

The Sex Crimes Detail continues to work with the State Attorney General's Hawaii Internet Crimes Against Children Task Force (HICAC). The Honolulu Police Department's Internet Crimes Against Children Unit arrested seven individuals for Electronic Enticement of a Child in the First Degree. The Sex Offender Registration Program was initiated to identify and arrest sex offenders who are not in compliance with the sex offender registration requirements. The unit initiated 83 cases in 2008; 68 for noncompliance with registration requirements and 15 for failure to register. The detail also monitors and administers the DNA buccal swabbing program for forensic identification of various convicted felons.

The Missing Persons Unit investigated 795 cases in 2008, closing 94 percent of its cases. Individuals afflicted with Alzheimer's disease, dementia, and other mental disorders accounted for 372 of the unit's cases. The Minor Abducted In Life-Threatening Emergency/America's Broadcast Emergency Response alert program is also administered by the unit.

The Financial Fraud Detail continues to work with other government law enforcement agencies as well as the private

sector to address various financial crimes, especially crimes involving identity theft. The detail also conducts presentations in an effort to educate the community about preventing fraud and identity theft.

The CrimeStoppers Unit received over 1,150 tips, which resulted in the closure of over 300 cases. The unit was also able to recover nearly \$3,500 in seized drugs and \$7,500 worth of property.

JUVENILE SERVICES DIVISION

The Juvenile Services Division (JSD) addresses issues involving the development of the community's youths through a variety of prevention, education, and intervention efforts. In addition, the division conducts follow-up investigations of reported runaways. As an extension of the various programs in the JSD, divisional personnel frequently provide guidance and leadership presentations at schools, community organizations, and special events.

The Drug Abuse Resistance Education (DARE) curriculum is a nationally certified program that helps students recognize and resist the temptation to experiment with drugs and alcohol. This ten-week program is taught in 156 public and private schools, reaching 16,000 students in the fifth, eighth, and tenth grades. In May 2008, the JSD organized the DARE Day event, where nearly 10,000 students took an oath to be drug free.

The Gang Resistance Education and Training (GREAT) Detail presented a ten-week curriculum to seventh-grade students at 22 middle schools, reaching over 7,800 students. The program is designed to educate middle school students about the law and delinquent behavior and to provide alternatives to gang membership. The GREAT Detail also administers the School Attendance Program (SAP), a day-long intervention program. In 2008, 241 juveniles, accompanied by their parents, attended the Saturday morning SAP classes.

In June, the GREAT and DARE Details conducted a leadership camp for 56 middle school students who successfully completed

both programs. This three-day camp included activities to develop leadership skills and promote self-confidence. The participants were referred by their teachers, and final selections were made by the DARE and GREAT officers.

The Police Activities League (PAL) program promotes the concepts of sportsmanship, teamwork, leadership, and community service. The program also fosters social, decision-making, and problem-solving skills. In 2008, over 15,000 youths participated in 12 different PAL activities, the most popular being basketball, volleyball, and baseball. The PAL also expanded the referee mentoring program, which now trains officials in flag football, basketball, and volleyball.

In 2008, the PAL celebrated its 60th anniversary at the Mayor's Family Festival. Six hundred PAL participants, volunteer coaches, and advisors were in attendance.

The department's Law Enforcement Explorers Program (LEEP), a division of the Boy Scouts of America, is also coordinated by the JSD. During 2008, 30 explorers were trained in basic police procedures, which included traffic and crowd control. These explorers volunteered at 175 community service events, such as the Keiki Identification Program. Six explorers and four advisors attended the Channel Island Challenge in Oxnard, California, where they took first place in the Active Shooter Scenario event and third place in the Hostage Negotiations event.

The Runaway Detail is responsible for investigating reported runaway cases. In 2008, 1,815 cases were assigned to the detail for further investigation.

NARCOTICS/VICE DIVISION

The Narcotics/Vice Division is responsible for the enforcement of laws, ordinances, and regulations relating to gambling, prostitution, pornography, and narcotics offenses. These offenses are investigated by the division's units at all levels: from street dealing to high-level crimes. Partnerships are also formed with various federal, state, and county law enforcement agencies, and a number of officers are cross-deputized to hold federal authority and powers.

In 2008, the Honolulu Police Department (HPD) continued to participate in the High Intensity Drug Trafficking Area (HIDTA) program. The HIDTA task forces are comprised of federal

and county law enforcement agencies focused on the interdiction of narcotics at Hawaii's points of entry and the disruption or dismantling of major drug trafficking organizations.

The division's Hawaii Interagency Mobile Police Apprehension Crime Task Force (HI-IMPACT) Detail primarily conducts long-term undercover investigations. These investigations target high-level drug trafficking organizations and individuals with local and mainland affiliations.

In 2008, all narcotics investigations resulted in the seizure of over 225 pounds of methamphetamine with a street value of over \$30.6 million, 31 pounds of cocaine with a street value of over \$2.8 million, 7 pounds of heroin with a street value of over \$500,000, 337 pounds of processed marijuana with a street value over \$19.1 million, and over 12,700 ecstasy tablets worth over \$380,000.

The Gambling Detail is responsible for investigating gambling-related complaints, including cockfighting, bookmaking, and arcade gambling operations. In 2008, the detail received 86 complaints and closed 57.

SPECIALIZED SERVICES DIVISION

The primary responsibility of the Specialized Services Division (SSD) is to provide special weapons and tactical support to the department in high-risk situations. The SSD also serves firearms-related protective orders, assists the patrol districts by saturating high crime areas, and assists with the protection of dignitaries. In addition, the SSD provides assistance to state and federal law enforcement agencies. The division is comprised of specially trained officers in the Task Group, Bomb/Chem-Bio Unit, Helicopter Section, and Canine Unit.

In 2008, the SSD assisted the U.S. Secret Service and the U.S. Department of State in providing protection to dignitaries, including Secretary of State Condoleezza Rice and President-elect Barack Obama.

In 2008, the SSD responded to 3 call-outs involving high-risk incidents and performed 26 search warrant entries for the Narcotics/Vice Division, 8 for the Criminal Investigation Division, and 36 for the Crime Reduction Units. Around 200 temporary restraining and protective orders were served, with 117 firearms recovered. Divisional officers also effected 41 felony and 44 misdemeanor warrant arrests.

The Bomb/Chem-Bio Unit, trained and certified by the Federal Bureau of Investigation, is responsible for addressing all explosives or suspected explosive devices from identification to disposal. In 2008, the unit responded to 34 bomb call-outs. The Bomb/Chem-Bio Unit also gave 22 public demonstrations.

The Helicopter Section, based at the Honolulu International Airport, provides helicopter support to the department by extending visual capabilities through aerial patrol. While logging 7,616 hours of flight time, the section responded to 471 requests for assistance from the department. The section assisted with 51 arrests and the recovery of 29 stolen vehicles and 3,049 marijuana plants valued at over \$3 million. The section also gave ten public demonstrations.

The Canine Unit, comprised of dog and handler teams, are specially trained to find illegal narcotics, explosives, evidence, and people. In 2008, the unit responded to 96 calls for assistance and gave 38 public demonstrations.

The new SSD Tactical Command Truck was put into service in 2008 to enhance the division's ability to perform life-saving missions.

HOMELAND SECURITY DIVISION

The Homeland Security Division (HSD) was formally established by the City and County of Honolulu in 2007. This division provides support during major events and facilitates interagency communications during these events. It also coordinates site and threat assessments and manages resources to prevent and respond to acts of terrorism. In addition, the HSD organized and participated in joint training with federal, state, and other local agencies.

In 2008, the HSD implemented the Incident Command System, a framework to effectively manage catastrophic incidents. This system is designed to provide coordination and communication between various emergency responder groups that do not routinely work together. The HSD, along with other agencies, participates in quarterly field communication exercises where incident command protocol is followed.

SCIENTIFIC INVESTIGATION SECTION

The Scientific Investigation Section (SIS) provides investigative support through the application of forensic science. The SIS also trains officers and participates in speaking requests from public and private organizations.

The renovation and expansion work of the SIS laboratory began in November 2007 with an expected completion date of February 2009. This work will increase the laboratory work areas of the DNA, Drug, Firearms, Trace Evidence, Questioned Documents, and Crime Scene Units.

Through grant funding, the SIS was able to obtain new equipment and personnel. They were also able to purchase digital photographic equipment, continuing the transition from film-based photography.

In 2008, SIS personnel attended training courses and conferences, such as the International Association for Identification Annual Educational Conference, Combined DNA Index System State Managers Conference, Association of Firearms and Tool Mark Examiners Conference, and the Clandestine Laboratory Investigating Chemists Association Conference.

ADMINISTRATIVE BUREAU

FINANCE DIVISION

The Finance Division oversees the Honolulu Police Department's annual operating budget, which amounted to \$189.3 million for fiscal year 2008. The budget covers all salaries, current expenses, and equipment purchases. Additionally, the division oversees the operations of the Grants Section, Payroll Section, Property and Supply Section, and the Publications Section.

The division also evaluates, coordinates, manages, and monitors approximately 50 grants with a total value of \$25.4 million. These federal, state, and private grants help to reduce crime and enhance public safety by funding programs such as antidrug trafficking, homeland security, traffic safety and enforcement, juvenile education, and forensic laboratory expansion. The Finance Division continually seeks grant funds from federal and state sources as well as from private and public foundations to enhance current and future innovative programs for the Honolulu Police Department.

HUMAN RESOURCES DIVISION

The Human Resources Division (HRD) is responsible for administering all personnel matters, including recruitment and hiring, fitness-for-duty and performance evaluations, labor relations and union issues, special duty jobs for off-duty police services, investigations of sexual harassment and discrimination complaints, preemployment psychological services, and the drug urinalysis screening program.

Filling vacant police officer positions continues to be a priority for the HRD. The department began offering monthly entry

examinations for the police recruit position and continues with recruitment and entry examinations on the mainland.

As of December 2008, the actual strength of the department was 2,613 (1,928 officers, 170 recruits, and 515 civilian employees).

TRAINING DIVISION

The Honolulu Police Department's (HPD) Training Academy, Ke Kula Maka'i, is located at 93-093 Waipahu Depot Street in Waipahu. The Training Division focuses on four main areas: recruit, annual recall, executive, and specialized training.

In 2008, the recruit curriculum was restructured to help facilitate the transition from recruit to police officer. In 2008, 89 recruits graduated from three recruit classes. With over 1,450 hours of instruction (compared to 1,000 hours in 2007) during a 39-week period, recruits are taught police organization and procedures, law, communication, and functional skills.

The division's training program is divided into the functional skills curriculum and the administrative curriculum. The functional skills curriculum is comprised of the following course and programs: Control and Arrest Tactics, Emergency Vehicle Operations Course, Fit for Life, Firearms, and Police Officer Survival Training. The administrative curriculum is comprised of courses and programs on Administration, Annual Recall, and Recruit Training.

Annual Recall Training (ART) sessions are held to keep officers apprised of current standards and practices, which include training required by the Commission on Accreditation for Law

Enforcement Agencies, Inc. (CALEA). These sessions consist of mandatory training in firearms, sexual harassment, bloodborne pathogens, hazardous materials, automated external defibrillators, and cardiopulmonary resuscitation. In 2008, the division held 57 sessions with 1,973 officers in attendance.

Executive training was provided for all supervisory staff. In 2008, seminars covered topics ranging from ethics to risk management to leadership.

In addition to the firing range and the emergency vehicle operations course, the Training Division uses firearm and driving simulators to enhance officer training. By using this technology, the division is able to create "real-life" situations to test and improve officer decision-making skills, all without risk of injury. The simulators also serve as an effective way to maximize training resources. Officers are able to replay scenarios as needed, and critiques are immediate.

As a continuing component of the electric gun program, the division has 12 certified instructors and increased the number of qualified gun carriers from 375 in 2007 to 729 in 2008. The HPD has 530 electric guns in the field, which are all equipped with audio and video recorders.

Progress on the \$7 million indoor pistol range at the academy continued throughout 2008, and the range is slated to open in 2009. With 30 firing points, a gunsmith shop, and an arsenal, the new range will have the capability to accommodate firearms qualifications for day and night operations.

The Training Division completed the on-site assessment by the CALEA to seek reaccreditation for the Public Safety Training Academy Accreditation Program. The division received a favorable recommendation and expects to receive the formal reaccreditation award in 2009.

SUPPORT SERVICES BUREAU

COMMUNICATIONS DIVISION

The Communications Division is the largest Public Safety Answering Point in the State of Hawaii. It serves as the answering point for all 9-1-1 calls placed in the City and County of Honolulu. The division also serves as the Alternate Hawaii State Warning Point for civil defense emergencies, such as tsunamis, enemy attacks, and other disasters. In 2008, the division received nearly one million 9-1-1 calls, of which 724,241 were for police services.

Wireless calls to 9-1-1 have continued to increase and accounted for approximately 65 percent of all 9-1-1 calls received during the year. The division continued its work toward improving the enhanced wireless 9-1-1 telephone mapping system, which displays the location of wireless 9-1-1 callers. In 2008, work with the Wireless Enhanced 9-1-1 Board resulted in improvements in the efficiency and accuracy of the system.

The division completed the initial phase of the Automated Vehicle Location (AVL) system. This system, integrated with the Computer Aided Dispatch System mapping system, provides the location of police vehicles. Full implementation of the AVL system will provide a quicker response to calls for service by enabling dispatchers to determine which officers are nearest to an incident scene.

The Communications Division worked closely with the City Department of Human Resources and the police department's Human Resources Division to modify job requirements for the position of police radio dispatcher. This has created a larger pool and resulted in a better selection of applicants.

The division continued its involvement in the planning of the Joint Traffic Management Center (JTMC). Dispatchers from all first responder agencies will staff the center. The JTMC will improve communications between agencies, resulting in better traffic management, quicker incident response, and the ability to provide accurate and timely information to the public.

INFORMATION TECHNOLOGY DIVISION

The Information Technology Division (ITD) provides a wide range of information technology, research, and statistical support services for the department. The ITD is organized into three sections: Data, Mobile Computing, and Research.

The department has placed a significant emphasis on technology that enables personnel to work faster, smarter, and safer through the use of contemporary technology and advanced information technology. As a result, the department compares favorably in operational technology with any major metropolitan police department in the nation. Efficiency gains have enabled officers to better serve their communities through expanded and enhanced community policing services and involvement in their Community Areas of Responsibility. Effectiveness has been improved with data communications and access to information that improves enforcement, criminal investigations, and other police services.

The element's office area was expanded and redesigned in 2008 to provide a more efficient work area that enhanced productivity and services. The Service Center was established with dedicated staffing to improve customer service for patrol and other front-line personnel.

During 2008, an additional 600 new mobile computers for patrol officers were deployed, bringing the total number of modernized laptop computers available to patrol officers to 1,000.

Significant developments in the Geographical Information System (GIS) and crime mapping provided improved crime analysis capabilities. New GIS applications now allow officers to access crime information via their mobile data computers. As a result, crime mapping is used more effectively as a tool by patrol and investigative elements to identify crime trends. GIS training was provided for new users in patrol and investigative elements. A library of GIS resources and crime data is now available to users over the department's intranet.

The Network Infrastructure Strengthening and Cyber Security Project was launched in partnership with the City Department of Information Technology to protect and harden information and communications assets.

The overall workload increased for the Data Section. There were 6,386 requests for assistance in 2008, compared with 3,112 the previous year. The section supports an integrated system of law enforcement technology that includes Computer Aided Dispatching, Automated Field Reporting, Records Management, Document Imaging, and Mobile Computing. Managed assets included 997 desktop computer workstations and 1,311 laptop and mobile computers.

The ITD operates the department's Computer Forensics Laboratory. The laboratory provides facilities and expert personnel for computer forensics investigations and evidence recovery. In 2008, there were 41 computer forensic examinations conducted involving 81 devices and over 2 terabytes of data. The devices examined included personal computers, laptops, cellular telephones, and personal data assistants.

The Research Section provides support and services for police operations and management. Responsibilities include maintaining and revising the department's directive system, providing accreditation support, and researching and reporting crime information and statistics. The section engaged in 256 assignments and research projects in this calendar year. Additionally, it manages the Directive E-Mail Notification System which provides notification of all changes in departmental directives to all employees. Research in support

of the Uniform and Equipment Committee was conducted for improvements in equipment and uniforms.

RECORDS AND IDENTIFICATION DIVISION

The Records and Identification Division consists of seven major sections: Records, Evidence, Warrants, Firearms, Identification, Follow-Up, and Alarm Tracking and Billing. The division maintains records for all reported incidents requiring police services. The division is also responsible for serving warrants, administering the registration of alarms and firearms, handling evidence, and fingerprinting.

The division continued to fine-tune the Records Management System to meet departmental needs. Automated field reporting via mobile data computers and desktop computers are now required islandwide.

The digital imaging of documents continued throughout the year with a total of 1,062,866 pages scanned.

The Evidence Room continued the use of an on-line police auction site to dispose of property. During 2008, a total of \$35,504.94 was collected from on-line auctions.

During 2008, the Firearms Unit processed 6,402 firearms permit applications for rifles and handguns. Of these applications, 379 permits were denied. The unit also processed 16,641 firearm registrations and confiscated 104 firearms.

The Alarm Tracking and Billing Section is responsible for registering all burglar alarms in the City and County of Honolulu. Permits are issued for burglar alarms and then tracked for excessive false alarms. Service charges are assessed if more than three false alarms occur within a calendar year. Alarm owners were given the opportunity to attend a class

conducted by police personnel and representatives of various alarm companies on the proper use of alarms. Currently, there are 33,558 active alarm permits. In 2008, officers responded to nearly 25,000 alarm calls.

The Warrants Unit worked closely with patrol districts on an intranet site that provides officers with updated wanted persons information. The section also provided each patrol district with a weekly listing of new high-profile warrants. As a result of these efforts, the number of warrants served in 2008 increased by 57 percent.

In 2008, the Identification Section oversaw the department's transition to the digital fingerprint processing of arrested persons. Digital fingerprinting has eliminated the use of ink and has expedited the arrestee identification verification process. Digital fingerprint images and arrestee identification information are digitally transmitted to the State Department of the Attorney General's Hawaii Criminal Justice Information System, which transfers the information to the Federal Bureau of Investigation's databases.

TELECOMMUNICATIONS SYSTEMS SECTION

The Telecommunications Systems Section (TSS) is responsible for maintaining the city's radio communications infrastructure and the police department's 4,500 portable and mobile radios. The section is also directly involved in the planning and research of new communications technology and equipment.

In 2008, TSS projects included upgrading departmental mobile and portable radios, improving roof light bars for police vehicles, and transitioning to the federally mandated 800 MHz radio frequency bands.

The TSS increased its staffing during the year, which enabled the section to efficiently address a backlog of installations and repairs. The additional personnel also allowed the section to better support other divisions with new technology projects.

The section began the second phase of the light-emitting diode light bar and rear mid-level light project. By the end of October, the TSS completed the installation of approximately 80 light bars on police vehicles throughout the island. The TSS also continued its work on new siren modules equipped with a public address system.

The TSS field tested and evaluated new types of batteries for portable radios to provide prolonged use for officers. They also continued to work with different vendors regarding an efficient battery charger for use in police vehicles.

In 2008, the TSS took over the maintenance of the mobile data computer (MDC) equipment installed in fleet patrol vehicles. The radio technicians and radio mechanics conducted preventive maintenance inspections on MDCs and radio equipment in all fleet patrol vehicles to ensure equipment reliability.

The section continued to plan and prepare for the 800 MHz radio frequency rebanding, which is anticipated to start in March of 2009. Part of the preparation work involved reprogramming the portable and mobile radios with the latest radio code and software.

VEHICLE MAINTENANCE SECTION

The Vehicle Maintenance Section (VMS) is responsible for the repair and maintenance of the department's fleet of police vehicles as well as motorcycles, support vehicles, trailers, and off-road gear.

In 2008, the section added six Toyota Camry hybrid vehicles to its patrol vehicle fleet. These vehicles are currently being evaluated by patrol officers. The VMS also acquired 62 flexible-fuel vehicles, 30 replacement police motorcycles, 2 passenger vans, and 2 cargo vans.

The VMS received a Department of Justice grant to expand the Automated Fuel Management System to include the Kalihi, Kaneohe, Kapolei, and Pearl City Police Stations.

EXECUTIVE BUREAU

LEGISLATIVE LIAISON OFFICE

The Legislative Liaison Office (LLO) is responsible for coordinating all legislative matters that affect departmental operations. During the 2008 legislative session, the LLO reviewed 3,794 bills and resolutions that were introduced.

The LLO is also responsible for tracking bills and resolutions that were presented before the City Council. In 2008, 353 bills and resolutions were reviewed by the office.

The LLO provides up-to-date information to departmental personnel on recently enacted and modified laws via classes and the intranet. The office also provides information to other county police departments.

COMMUNITY AFFAIRS SECTION

The Community Affairs Section (CAS) is responsible for managing the department's community relations as well as coordinating and operating a number of special projects and events. They include the departmental museum, Speakers Bureau, Reserve Officer program, Maka`i Video Productions unit, Ho`ike Information Line, Graffiti Hotline, Ride-Along program, Citizens Police Academy, Youth Citizens Police Academy, Business Police Academy, and numerous award ceremonies. The section oversees the community policing efforts of the eight districts and maintains the department's intranet Web site.

The museum houses exhibits that narrate the history of the Honolulu Police Department (HPD) from its inception in 1932 to the present day. The museum is a popular stop for visitors touring the Alapai headquarters and had over 2,500 visitors in 2008.

The Speakers Bureau coordinates educational talks and presentations on home and personal security, robbery and theft prevention, child safety, and many other topics. In 2008, departmental personnel gave 665 presentations, with the CAS handling 100 engagements.

The Reserve Officer program enlists the services of qualified sworn citizens and retired police officers to perform emergency police duties. Reserve officers provide additional police protection with emphasis on supplementing the patrol divisions without compensation from the City and County of Honolulu. The program has 100 authorized positions; however, by the end of 2008, there were only 72 active members. In 2008, the reserve officers volunteered over 16,375 hours to the city and worked 52 special events, totaling an additional 1,295 hours.

The Maka`i Video Productions unit creates and produces media products for the department's projects, functions, and events. The unit completed 35 new videos and assisted with 165 other projects. The unit also produced internal training videos for various departmental elements, such as the Training Division, Criminal Investigation Division, and Traffic Division. Specialized productions include assisting the Attorney General's Office with a video regarding the Uniform Services Employment and Reemployment Rights Act, the Police Activities League's 60th Anniversary/ Family Festival, etc.

The Ho`ike Information Line at 529-3352 provides a contact point for the public to obtain answers or referrals for police-related questions. The public may call with questions on weekdays during normal business hours. The Graffiti Hotline at 529-3222 is available 24 hours a day, 7 days a week,

on public or private property. The department addressed more than 2,880 graffiti-related problems in 2008.

The Citizens Police Academy (CPA) holds yearly classes to open the lines of communication between the community and the police department. By enrolling in the CPA, members of the public gain firsthand experience on what it takes to become an officer. Participants learn about the educational, physical, and emotional demands that officers undergo. This heightened understanding can alleviate misconceptions about police work and foster a mutually respectful relationship between the public and the department. There have been 27 CPA classes since its inception in 1994, and a total of 499 people have graduated from the program.

The Business Police Academy (BPA) began in 2003 as an interactive program for citizens in public and private sector businesses. The BPA fosters "understanding through education" and helps to develop awareness for business people, thus enhancing the quality of life in the community. Subject matters covered in the class include identity theft, forgery, shoplifting, employee theft, workplace violence, and drug and narcotics awareness. Since its inception, 99 members of the business community have graduated from the program. For information on the BPA, interested parties may call 529-3351.

The CAS manages the department's Internet Web site at www.honoluluupd.org. The site includes a departmental overview and history, statistics, safety information, answers to frequently asked questions, and other useful information. Questions or comments may be forwarded to the department via e-mail at hpd@honolulu.org. In 2008, the CAS received 12,720 e-mails.

OFFICE OF ACCREDITATION

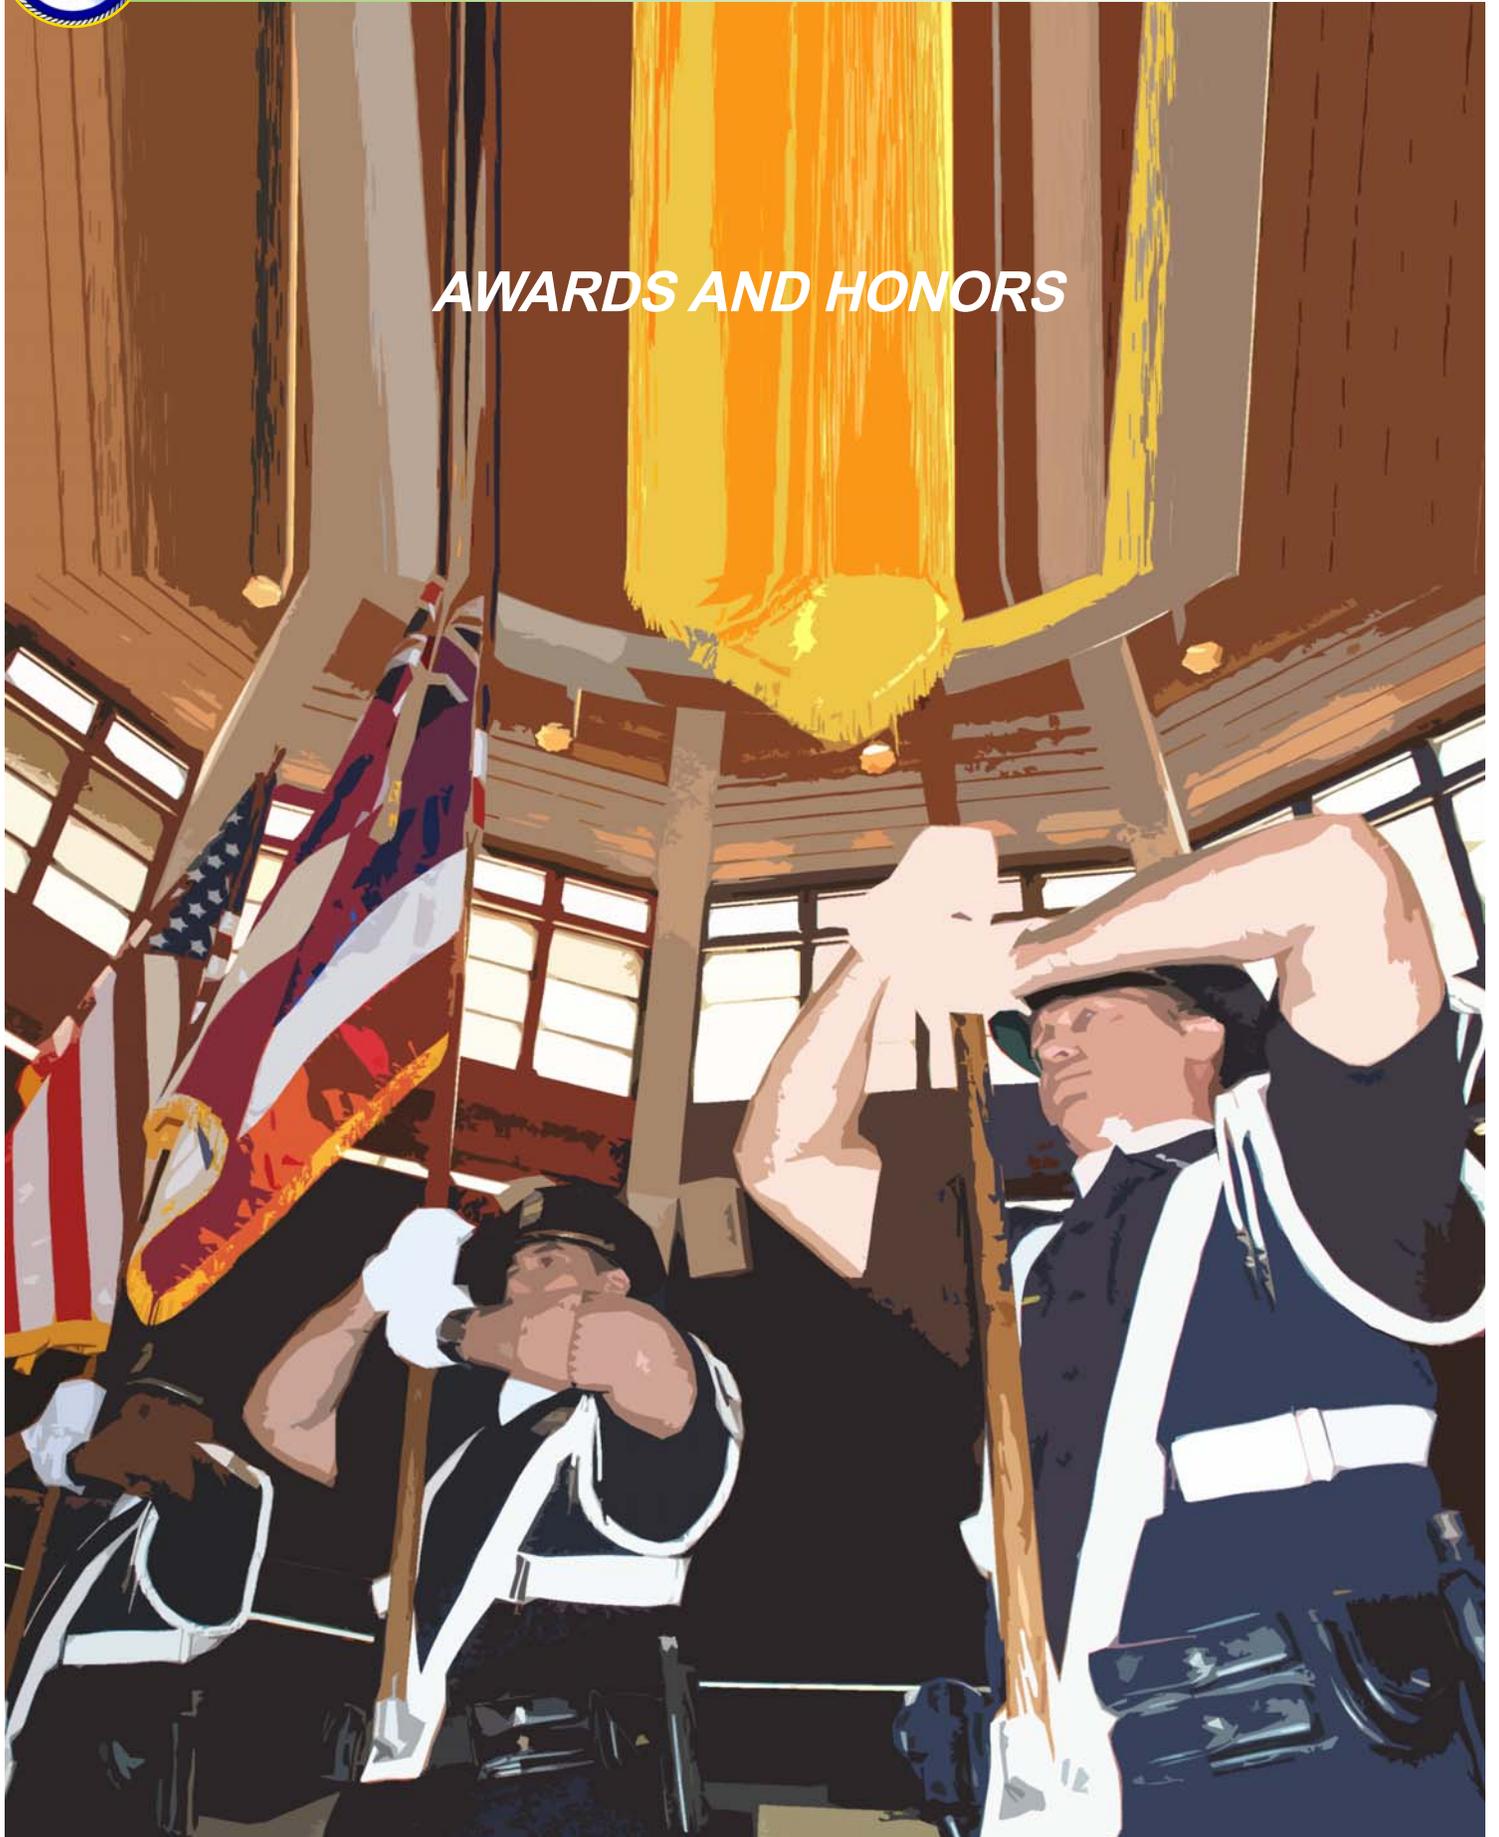

The Office of Accreditation is responsible for facilitating the compliance of operational policies and procedures with the Commission on Accreditation for Law Enforcement Agencies, Inc.'s (CALEA), accreditation standards. By ensuring that periodic reviews and reports are completed, the office prepares the department for future reaccreditations.

Created to promote and recognize excellence, professionalism, and competence in law enforcement, the coveted CALEA Accreditation Program is an independent process designed to encourage international standards. The Honolulu Police Department (HPD) was awarded its first CALEA Law Enforcement Accreditation certificate in 2003 and has since been awarded accreditation in Public Safety Communications and Public Safety Training Academy. In 2006, the department was presented the CALEA TRI-ARC Excellence Award. This award recognizes agencies that received accreditations in all three CALEA accreditation programs. The HPD is the first major metropolitan law enforcement agency to attain this triple accreditation and one of only three major cities in the nation to have received this coveted award.

The HPD is working toward its second Law Enforcement and Public Safety Communications reaccreditation and its first Public Safety Training Academy reaccreditation.

AWARDS AND HONORS

Honolulu Police Department

Bronze Medal of Valor

Sergeant David P. Yamamoto

Officer William K. N. Malina

Honolulu Police Department

Bronze Medal of Merit

Officer Chris J. H. Kim

Honolulu Police Department

Certificate of Merit

Officer Lucius K. Crabbe

Officer Johnny M. Fiatoa

Officer Gordon F. Gomes Jr.

Officer Keoni R. Hong

Officer Gary A. Montalbo Jr.

Officer Bradon C. Ogata

Officer John M. Otto

AWARDS AND HONORS

Metropolitan Police Officer of the Year

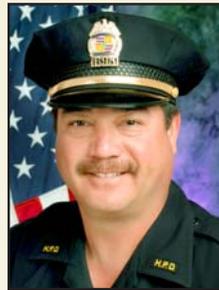

Officer Gerald J. Scoville Jr.

Lieutenant of the Year

Lieutenant Daniel M. Ford

Detective of the Year

Detective Edward M. Ah Chong

Sergeant of the Year

Chief Francis A. Keala
April 16, 1956, to April 1, 1983

Chief Daniel S. C. Liu
June 1, 1932, to July 1, 1969

Inducted May 17, 2007

Sergeant Edwin I. Adolphson, Jr.
September 1, 1939, to May 31, 1966

Sister Roberta Julie Derby
November 4, 1976, to April 8, 1996

Detective Chang Apana
1898 to 1932

Inducted May 15, 2008

**Reserve Officer
Ladislaus "Roger" Piwowarski**
November 21, 1950, to March 31, 2002

STATISTICS 2008

Major statistics are presented on pages 41 through 54.

For purposes of presentation, statistics are categorized in different ways. For instance, offenses are counted in two ways: actual and reported.

"Actual offenses" are defined according to the standards of the Uniform Crime Reporting program of the Federal Bureau of Investigation. Counts of actual offenses are a common measure of crime. The data that appear on pages 41 through 46 are based on actual offenses.

"Reported offenses" include unfounded complaints, which are screened out in the counting of actual offenses. Counts of reported offenses are a common measure of workload. The data on pages 47 through 54 of this section are based on reported offenses.

Crime Index 1999-2008

Seven serious offenses are used to define trends and make comparisons across the nation. These offenses are called index crimes, and data about them are drawn from the Federal Bureau of Investigation's Uniform Crime Reporting (UCR) program. The offenses consist of four violent crimes (murder, forcible rape, robbery, and aggravated assault) and three property crimes (burglary, larceny-theft, and motor vehicle theft).

During 2008, a total of 34,356 index crimes occurred in Honolulu, a decrease of 14 percent from 2007. The number of indexed crimes are still lower than the number of crimes recorded in the mid-1970s. Violent crimes decreased by 1 percent, with the number of rapes accounting for the largest percentage decrease (10 percent). Property crimes decreased by 15 percent, with the number of burglaries having the largest percent increase (10 percent).

Offenses	1999	2000	2001	2002	2003
Murder	37	20	20	18	15
