The provisions of this Chapter provide reasonable standards with respect to the location, height, bulk, size of buildings and other structures, yard areas, courts, off-street parking facilities and other open spaces, density of population, and the use of buildings, structures, and land for trade, industry, business, residence, or other purposes.

Sec. 21-103. Administration.

The Planning Director shall administer the provisions of this Chapter.

Sec. 21-104. Appeals.

Sec. 21-105. Variances.

The Zoning Board of Appeals shall hear and determine petitions for varying the application of the provisions of this Chapter pursuant to Section 5-507 of the City Charter (Act 261, S.L.H. 1959).

Sec. 21-106. Violations and Penalties.

- (a) The City may maintain an action for an injunction to restrain any violation of the provisions of this Chapter and may take any other lawful action to prevent or remedy any violation.

- (b) Any person violating any provision of this Chapter shall upon conviction, be punished by a fine not exceeding \$1,000 or by imprisonment not exceeding thirty days, or by both such fine and imprisonment. The continuance of any such violation after conviction shall be deemed a new offense for each day of such continuance.

Sec. 21-107. Nonconforming Uses.

- (a) Nonconforming lots, nonconforming structures, nonconforming uses of land and nonconforming uses of structures may be continued, subject to the provisions hereinafter specified.

If no structural alterations are made, any nonconforming use of a structure, or structure and premises in combination, may be changed to another nonconforming use of the same nature, or to a more restricted use, or to a conforming use; provided, however, that change to a more restricted use or to another nonconforming use may be made only if the relation of structure to surrounding property is such that adverse effects on occupants and

neighboring property will not be greater than if the original nonconforming use continued.

- (4) Repairs and maintenance. On any building devoted in whole or in part to any nonconforming use, work may be done in any period of twelve consecutive months on ordinary repairs, or on repair or replacement of nonbearing walls, fixtures, wiring or plumbing, to an extent not exceeding 10% of the current replacement value of the building, provided that the cubic content of the building as it existed at the time of the effective date of the provisions of this Chapter shall not be increased.

Sign. A 'sign' is any structure, billboard, marquee, awning, canopy, street clock, announcement, declaration, demonstration, display, flag, pennant, banner, balloon, illustration or insignia used to advertise, attract or

promote the interests of any person when the same is placed on any property, building or structure in view of the general public; provided that window displays relating to merchandise for sale on the premises shall not be considered as signs.

Sign Area. The area of a sign shall include the entire area within a single, continuous perimeter of regular geometric form enclosing the extreme limits of writing, representation, emblem, or any fixture of similar character, together with any frame or other material or color forming an integral part of the display or used to differentiate such sign from the background against which it is placed, excluding the necessary supports or uprights on which such sign is placed but including any sign tower. Where a sign has two or more faces, the area of all faces shall be included in determining the area of the sign, except that where two such faces are placed back to back and are at no point more than 2 feet from one another, the area of said sign shall be taken as the area of one face if the two faces are of equal area, or as the area of the larger face if the two faces are of unequal area. The area of ball or globe shape signs shall be the square of the radius times 3.14.

Sound Level Meter. A 'sound level meter' is an instrument standardized by the American Standards Association, used

for measurement of the intensity of sound, and calibrated in decibels.

Steady-state Vibrations. 'Steady-state vibrations' are earth-borne oscillations occurring more than 100 times per minute.

Street Clock. A 'street clock' is any timepiece erected upon a standard upon the sidewalk, or on the exterior of any building or structure for the convenience of the public or placed and maintained by some person for the purpose of advertising his place of business.

Street Frontage. 'Street frontage' is that portion of a lot which has access rights to a street abutting said lot.

Street, Major. 'Major street' shall have the same meaning as defined in the Subdivision Rules and Regulations of the City.

Street, Minor. 'Minor street' shall have the same meaning as defined in the Subdivision Rules and Regulations of the City.

Street, Secondary. 'Secondary street' shall have the same meaning as defined in the Subdivision Rules and Regulations of the City.

Structure. 'Structure' is anything constructed or erected with a fixed location on the ground, or requiring a fixed location on the ground, or attached to something having or requiring a fixed location on the ground.

Three-Component Measuring System. A 'three-component measuring system' is a device for recording the intensity of any vibration in three mutually perpendicular directions.

Usable Roof Area. 'Usable roof area' is total roof area of residential buildings, garages and accessory buildings which has been landscaped or improved as recreation space for use of residents of the development.

Use. A 'use' is:

- (1) Any purpose for which a structure or a tract of land is designed, arranged, intended, maintained, or occupied, or
- (2) Any activity, occupation, business, or operation carried on, or intended to be carried on, in a structure or on a tract of land.

Vacation Cabin. 'Vacation cabin' refers to living quarters consisting of not more than 4 sleeping rooms, kitchen and living area containing not more than 800 square feet of gross floor area and used as a temporary residence for recreational purposes.

Wall Sign. A 'wall sign' is a sign which is affixed to an exterior wall of any building, projecting not more than 15 inches from the building wall and does not extend above the exterior wall of said building.

Wind Sign. A 'wind sign' is any sign or display not exceeding 50 square feet in area including but not limited to flags, banners, balloons, streamers and

rotating devices, fastened in such a manner to move upon being subjected to pressure by wind or breeze.

Yard. A 'yard' is a required open space unobstructed by any structure or portion of a structure from 30 inches above the ground elevation; provided, however, that fences, walls, poles, posts, wires and customary yard accessories, roof overhangs or eaves extending not more than 30 inches into a yard, and carports and garages may occupy portions of certain yards as provided herein; subject, however, to height limitations and other requirements limiting obstruction of visibility applying to such yards.

Yard, Front. A 'front yard' is a yard extending between side lot lines across the front of a lot.

Yard, Rear. A 'rear yard' is a yard extending across the rear of the lot between inner side yard lines, except that in the case of through lots and corner lots there will be no rear yards, but only front and side yards.

Yard, Side. A 'side yard' is a yard extending from the rear line of the required front yard to the rear lot line, or in the absence of any clearly defined rear lot line to the point on the lot farthest from the intersection of the lot line involved from the public street, except as indicated below.

(a) On through lots, side yards shall extend from the rear lines of required front yards.

(b) On corner lots, yards remaining after front yards have been established shall be considered side yards.

Yard, Special. A 'special yard' is any yard other than a yard adjacent to a public street, required to perform the same functions as side or rear yards, but adjacent to a lot line so placed or oriented that neither the term 'side yard' nor the term 'rear yard' clearly applies.

Zoning Lot. A 'zoning lot' is a lot or any portion thereof, or contiguous lots of the same ownership within a single zoning district which are to be used, developed or built upon as a unit.

ARTICLE 2. GENERAL REQUIREMENTS AND PROCEDURES  
APPLICABLE WITHIN VARIOUS DISTRICTS

A. Regulations Relating to Lots, Yards, Heights, Off-Street  
Parking and Off-Street Loading.

Sec. 21-201. Zoning Lots.

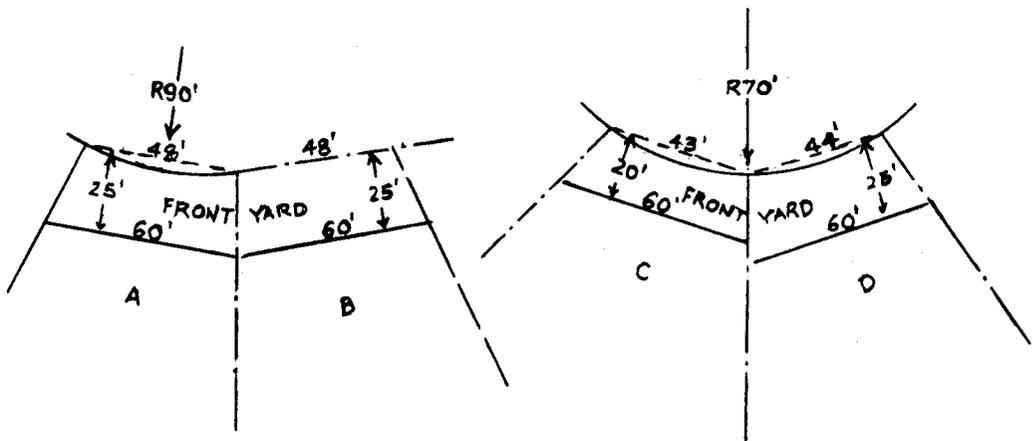

- (a) Lot area. The area of a zoning lot shall be the total area within the lot lines of the zoning lot, exclusive of rights-of-way for ingress or egress in favor of others and easements for drainage channels.

The area of a zoning lot shall not include land more than the indicated distances from buildings housing the principal use as listed hereinbelow:

Dwellings for less than 50 families	100 feet
Dwellings for 50-99 families	150 feet
Dwellings for 100-199 families	200 feet
Dwellings for 200-299 families	300 feet
Dwellings for more than 300 families	500 feet
Other uses	300 feet

- (b) Lot width. The width of a zoning lot shall be determined by measuring across the rear of the required front yard; provided, however, the street line width of a zoning lot shall be determined by measurement across the width between the side lot lines of said zoning lot at the points where they intersect the street line. Said street line width shall not be less than 80% of required minimum lot width. Exception: In the case of lots on the turning circle of cul-de-sacs or at points of

street curvature where the radius at the right-of-way line of the street (or a circle approximately following the right-of-way line and intersecting the foremost points of the side lot lines) is less than 90 feet, the 80% requirement shall not apply. The diagrams below indicate the requirements and relationships involved:

Lot 'taper' permissible at 90' curve radius (A) or along straight street (B), with required front yard depth 25', required lot width 60'. (Street line 30% of lot width as measured at rear of required front yard.)

Lots with lines radial to a curved street line with curve radius less than 90' (in this case 70') need not comply with 80% rule. Lot C shows application with 20' front yard, D with 25' applies in turning circles of cul-de-sacs, or at sharp bends in streets.

Sec. 21-202. Yards.

- (a) Front yards. Front yards shall be provided on all street frontages in accordance with the general regulations of the district relating to minimum

depth of front yards. Required front yards shall be measured in the following manner. A straight line shall be drawn between the two points at which lot lines intersect street lines on any side of the lot. Where property corners are rounded, such points shall be plotted by projecting lot lines to the point where they would have met the street line without such rounding. Depth of required yards abutting public streets shall be measured perpendicular to such straight lines, and the inner line of such required yards shall be parallel to the outer line so established.

(b) Other Yards.

- (1) The width of a required side yard shall be measured in such a manner that the yard established is of the minimum width required by district regulations with its inner line parallel with the side lot line.
- (2) The depth of a required rear yard shall be measured in such a manner that the yard established is of the minimum width required by district regulations with its inner line parallel with the rear lot line.
- (3) In the case of special yards, a yard with minimum dimensions required for a side or rear yard shall be provided, running parallel to the lot line involved as for side or rear yards.

- (c) Requirements relating to garages and carports in yards.
- (1) Except where joint garages or carports are provided, no portion of any garage or carport shall occupy any side or rear yard, or any part of a front yard closer than 10 feet to the property line adjacent to a street.
  - (2) Joint garages or carports, which are garages or carports providing parking for adjoining property owners in a continuous structure crossing a property line, with or without a common wall at the property line, may occupy required side or rear yard space, or required front yard space but not closer than 10 feet to the property line adjacent to a street.
- (d) Requirements relating to fences and walls in yards. Fences and walls not more than 6 feet in height may project into or enclose any part of any yard other than a front yard in a business and industrial district; provided, however, that any fence so constructed shall be subject to other applicable provisions of law.
- (e) Optional yard regulations. In A-2, A-3, A-4, and A-5 Apartment districts and H-1 Resort Hotel and H-2 Hotel districts, an area or areas of open space may be provided on the zoning lot, equal or

greater than the area derived from the side and rear yards normally required on such zoning lot. This open space shall be in conformance with the requirements of subsection (a) hereinabove and shall be maintained in landscaping, except for drives or alleyways necessary for access to adjacent streets, and a minimum of 50% of such open space shall be contiguous to the street frontage abutting the zoning lot.

When this optional yard regulation is utilized, parking or accessory use structures partially below and partially above ground elevation may extend to side and rear property lines, provided they do not encroach into the open space described in the first paragraph above; and further provided that any floor above ground elevation shall not be more than 4 feet above ground elevation in the 10 feet adjacent to the property line and a solid wall 2 feet high shall be provided and maintained to screen parked cars.

- (f) Waiver of minimum lot area, width or yard requirements for public utility installations. The minimum lot area, width or yard requirement for public utilities may be waived, if the Planning Director finds that the proposal will have no more adverse effect on the health, safety or comfort

of persons living or working in the area, and will be no more injurious, economically or otherwise, to property or improvements in the surrounding area than would any use generally permitted in the district.

Sec. 21-203. Height Regulations.

Whenever height limits for buildings and other structures are established, no portion of any building or other structure shall extend beyond such height limits, except residential chimneys, roof overhangs or eaves which do not extend more than 30 inches, residential radio or television antennas, spires, flagpoles or monuments otherwise approved for erection; provided, however, that smokestacks, water tanks, radio and television transmitting towers and relay towers may also extend beyond such limits, if they do not exceed in height the distance to the nearest lot line. This latter limitation shall not be applicable as to that portion of the property which borders permanent open space not less than 50 feet in width, other than streets, measured from the abutting property line.

Sec. 21-204. Off-street Parking Requirements.

- (a) General standards. Except as otherwise provided herein, any off-street parking space shall have minimum dimensions of 8-1/2 by 19 feet. Each space shall be unobstructed, shall have access to a street and shall be so arranged that any automobile may be moved without moving another,

except in the case of parking for one- and two-family dwellings and in the case of parking for employees on the premises. All spaces shall be provided and maintained with an all-weather surface. Where parking areas are illuminated, all sources of illumination shall be so shielded as to prevent any direct reflection toward adjacent premises in residential, apartment or hotel districts. In addition:

- (1) Parking areas for three or more automobiles shall have individual spaces marked, and spaces shall be so arranged that no maneuvering directly incidental to entering or leaving a parking space shall be on any public street, alley or walkway.
- (2) Except as otherwise provided in Sec. 21-202(e) for certain apartment and hotel districts, parking areas for 10 or more automobiles within or abutting a residential, apartment or hotel district shall be situated not closer than 5 feet to other property boundaries, and shall be screened by a solid fence not less than 4 feet in height, except for necessary entrances and exits. Side or rear yards situated outside of such fences shall be planted in trees or shrubbery. In addition, such

parking areas shall not be situated within any part of required front yards.

(3) Where eight or more spaces are provided on a zoning lot a suitable turn-around area shall be provided.

(4) Minimum aisle widths required for parking areas shall be according to the following table:

<u>Parking Angle (in degrees)</u>	<u>Aisle Width (in feet)</u>
0-44	12
45-59	13.5
60-69	18.5
70-79	19.5
80-89	24
90	25

(b) Parking for accessory uses. Unless otherwise specified in the district regulations, accessory uses shall conform to the parking requirements applicable to such uses, which requirement shall be in addition to any parking required of the principal use.

#### Sec. 21-205. Off-Street Loading Requirements.

The off-street loading requirements herein specified shall apply for the class or kind of uses indicated. In addition, in connection with planned development zoning and conditional use permits involving such classes or kinds of uses, special requirements may be imposed.

Moreover, if any building existing on the effective date of these provisions is subsequently altered to increase floor area by 50% or more, or converted from any other use to the uses listed in column 1 of the chart below, off-street loading spaces shall be provided as indicated.

Where a building is used for more than one use, and floor area for each use is below the minimum required loading space but the aggregate floor area is greater than such minimum off-street loading space shall be provided as though the total area requiring off-street loading space were used for the purpose requiring the most spaces.

<u>Column 1</u>	<u>Column 2</u>	<u>Column 3</u>
<u>Use or Use Category</u>	<u>Floor Area in Square Feet</u>	<u>Loading Space Requirements</u>

No loading space required under the provisions of this Chapter shall be in any public street or alley, but shall be

provided within the building or on the lot, and shall have minimum horizontal dimensions of 12 x 35 feet and a vertical clearance of at least 14 feet.

B. Land Use Intensity.

Sec. 21-211. Land Use Intensity Scale.

The land use intensity (LUI) scale provides a series of density ratings which include floor area, open space, living space, and recreation space for all dwelling and lodging uses as regulated in apartment, hotel, and B-3 Business Residential, B-4 Central Business and B-5 Resort Commercial districts sections of this Chapter. The land use intensity scale has a range from LUI 30 to LUI 85 and is expressed in ratios as follows:

Sec. 21-212. Application of Land Use Intensity (LUI).

- (a) The purpose of land use intensity is to relate land area, and open space to each other. In

applying land use intensity, the floor area ratio creates a maximum use of building in relation to land area and the open space requirements are minimum requirements based upon and computed from the actual floor area developed on a zoning lot. Where accessory or mixed uses are involved, the open space requirement shall be based on floor area other than that used for commercial purposes. Recreation space (RS) may be a part of living space (LS) and living space a part of open space (OS). The following is an application of the ratios expressed in the foregoing section:

- (1) Floor Area Ratio (FAR). The ratio of floor area (FA) to land area (LA) expressed as a percent or decimal. Floor Area Ratio (FAR) x Land Area (LA) = maximum permitted floor area.
- (2) Open Space Ratio (OSR). The ratio of Open Space (OS) to Floor Area (FA) that has been developed, expressed as a percent or decimal. Open Space Ratio (OSR) x Floor Area (FA) = minimum required open space.
- (3) Living Space Ratio (LSR). The ratio of Living Space (LS) to Floor Area (FA) that has been developed, expressed as a percent or decimal. Living Space Ratio (LSR) x Floor Area

(FA) = minimum required living space which may be part of required Open Space (OS).

(4) Recreation Space Ratio (RSR). The ratio of Recreation Space (RS) to Floor Area (FA) that has been developed, expressed as a percent or decimal. Recreation Space Ratio (RSR) x Floor Area (FA) = minimum required Recreation Space which may be part of required Living Space (LS).

(b) In determining land area, floor area and open space, the following method of computation shall be applicable:

(1) Land area. In determining land area the following shall be included:

- (i) The area of the zoning lot, less any area for which vehicular access has been granted to other properties;
- (ii) An area equal to not more than one-half of the abutting right-of-way of any public street or alley to which the zoning lot has vehicular access rights. Said abutting right-of-way shall not include freeways, nor easements or private streets in which vehicular rights-of-way to other properties are granted. On lots

abutting intersecting streets the area shall be determined by the center line extensions of the abutting streets connected with the lot line extensions of the zoning lot or line established by beneficial open space.

(iii) An area computed by multiplying the total linear feet of the beneficial open space abutting the zoning lot by one-half of the applicable LUI rating or an area equal to not more than one-half of the total area of any beneficial open space abutting the zoning lot, whichever is less.

(2) Floor area. In determining floor area the areas of the several floors of a building measured from the exterior faces of the exterior walls or from the center line of walls separating two buildings and all stairways, balconies and corridors shall be included, but the following areas shall be excluded:

- (i) Attic areas with headroom of less than 7 feet;
- (ii) Storage rooms;
- (iii) Elevator hoist machinery;
- (iv) Cooling towers;

- (v) Areas devoted exclusively to air conditioning, ventilating and other building machinery and equipment;
  - (vi) Parking structures; and
  - (vii) Lanais.
- (3) Open space. In determining the area of open space the following shall be included:
- (i) Land area as determined under (1) above, less the building area;
  - (ii) Usable roof area; and
  - (iii) One-half of the area of eligible covered open space.
- (4) Living open space. In determining the area of living open space the following shall be included:
- (i) Net zoning lot area less the building area and less the uncovered car area;
  - (ii) Usable roof area;
  - (iii) Twenty-five percent of eligible covered open space; and
  - (iv) Off-site permanent recreation space eligible for recreation space requirements.
- (5) Recreation space. In determining the area of recreation space, open areas for both passive and active recreation facilities shall be

included, subject, however, to the following conditions:

- (i) No portion of any open area for passive or active recreation facilities shall be less than 20 feet measured horizontally from any residential window on the ground floor.
- (ii) If the recreation space requirement is less than 10,000 square feet, the recreation space, other than roof areas, shall be located in a contiguous portion of the zoning lot.
- (iii) If the recreation space requirement is 10,000 square feet or more, each separate recreation area shall contain at least 10,000 square feet and shall be not less than one hundred feet in least dimensions at any point, except for any space of less than 10,000 square feet constituting the remainder after provision has been made for the 10,000 square-foot area or areas. Modification of these area and dimensional requirements shall be allowed if the shape or topography of the site prevents compliance or if the recreation space consists of usable

roof area.

- (iv) Off-site permanent recreation space and facilities may be approved as meeting up to one-half of the minimum requirements for countable recreation space, if such off-site space otherwise is in accord with these regulations and abuts the residential site.

### C. Sign Regulations.

#### Sec. 21-221. Applicability.

The provisions of this part relating to signs shall apply in all zoning districts. However, the following types of signs shall be exempted from all requirements of this Chapter, except those specifically provided for herein:

- (a) Temporary signs.

- (1) Announcing signs. One sign per street frontage of a building which is under construction or structural alteration or repair announcing the character of the building enterprise or the purpose for which the building is intended, including names of architects, engineers or contractors, provided the area of such sign shall not exceed 16 square feet in residential districts or 32 square feet in other districts.
- (2) Real estate signs. One sign per street frontage not exceeding 4 square feet in

Residential districts or 8 square feet in other districts advertising the sale, rental or lease of the premises on which displayed.

- (3) Subdivision signs. One sign per street entrance to the subdivision and located on the property to be subdivided provided such sign shall not exceed 32 square feet in area. Such sign may not be erected until the subdivision has been approved by the appropriate City officials and may be displayed for a period of one year from the date of erection, which date must be filed with the Planning Director within 30 days after erection. Erection date will be determined to be the same as the subdivision approval date if not filed within the 30 day period. The display period may be extended by written approval of the Planning Director for a reasonable period of time not to exceed one year at any one time.
- (4) Special event displays. Portable signs and wind signs may be erected on the premises of an establishment having a grand opening or special event, provided that such signs shall be displayed for a period not to exceed 7 calendar days within any 6 month period.

It shall be unlawful to erect or maintain:

- (a) Any sign which is not included under the types of signs permitted in district regulations or in this part.
- (b) Any sign which advertises or publicizes an activity not conducted on the premises upon which such sign is maintained.
- (c) Any wind sign, except as permitted under the provisions of this Chapter.
- (d) Any portable sign, except as permitted under the provisions of this Chapter.
- (e) Any political campaign sign, including poster, banner, writing, picture, painting, light, model, display, emblem, notice, illustration, insignia, symbol and any other advertising device the purpose of which is to announce the candidacy of any person or persons seeking public elected office or offices, when such sign is displayed out of doors.

- (a) Sign regulations applicable to automotive outdoor sales and rental lots separated from new car dealer showrooms or service facilities and drive-in restaurants:
  - (1) A maximum of three business signs not to exceed a total of 1 square foot of sign area for each lineal foot of street frontage or 200 square feet, whichever is the lesser area shall be permitted. Said signs may be either wall, roof, canopy, marquee facie or projecting signs and may be illuminated.
  - (2) One identification ground sign not to exceed 32 square feet of the total sign area may be erected in addition to the above signs which may be illuminated and moving but shall not overhang any required yard or public right-of-way.

(b) Sign regulations applicable to automotive service stations and car washes:

(1) A maximum of 4 business signs not to exceed a total sign area of 1 square foot for each lineal foot of street frontage or 200 square feet, whichever is the lesser area shall be permitted. Said signs may be illuminated and be either canopy, marquee facia, projecting, or wall signs.

(2) One indirectly illuminated, identification ground sign not to exceed 16 square feet of the total sign area may be erected, provided it does not overhang the public right-of-way. Said sign may be a moving sign. If there is more than one street frontage, two such signs may be erected, provided they are on separate sides of the parcel and are more than 75 feet from the point of intersection of the two street frontages.

(c) Sign regulations applicable to drive-in theatres:

(1) One indirectly illuminated ground or wall sign not to exceed 300 square feet in sign area which may state the name of the theatre, name of the currently showing or future motion pictures or other performances and the name of the actors therein or other relevant

information shall be permitted. Such sign shall not extend into the public right-of-way.

(2) Directional signs which may be illuminated, not to exceed a combined area of 60 square feet with 6 square feet maximum per sign, may be erected.

(3) The restrictions imposed by this section shall not apply to signs within the walls or other enclosed parts of the drive-in and not visible from outside the theatre.

(d) Sign regulations applicable to theatres: Four signs either canopy, hanging, marquee fascia, projecting or wall signs, which may be illuminated, not to exceed a total sign area of 300 square feet, may be erected for each theatre establishment.

#### D. Performance Standards.

##### Sec. 21-231. Applicability of Performance Standards.

Unless more restrictive standards are established in the district regulations or by other specific provisions of this Chapter, the following performance standards shall apply in any district.

Except as otherwise provided herein, measurements relating to conformity with performance standards shall be applied at lot boundaries and shall apply to uses and operations on the lot, except construction or demolition of structures.

##### Sec. 21-232. Noise Regulation.

(a) Method of measurement. Sound level meters and octave band filters shall be employed in measurements used in the enforcement of these regulations. Location and timing of measurements shall be so arranged to exclude noises emanating from off the premises involved, or a correction factor reasonable under the circumstances shall be applied to compensate for off-premise noises.

Sounds of short duration, as from forge hammers and punch presses, which cannot be measured accurately with a sound level meter, shall be measured with the impact noise filter manufactured by General Radio Company, or its equivalent, to determine peak value of the impact. For sounds measured with an impact noise filter, the sound pressure levels may be increased to the extent of six decibels over and above the levels indicated in the table in subsection (c) below.

(b) Noise level within specific districts.

(1) In I-2 Heavy Industrial and I-3 Waterfront Industrial districts, sound pressure levels from any use shall not exceed at any point at or beyond the district boundary, the maximum number of decibels for each of the octave bands as set forth in the table in subsection (c) below; provided, however, that where the I-2 Heavy Industrial or I-3 Waterfront Industrial

district adjoins any district which permits residences, apartments or hotels, the maximum sound pressure levels at or beyond the I-2 Heavy Industrial or I-3 Waterfront Industrial district boundary shall be reduced 7 decibels from levels indicated in said table for hours between 8 a.m. and 6 p.m., and shall be reduced 10 decibels between 6 p.m. and 8 a.m.

- (2) In all other districts, sound pressure levels from any activity shall not exceed at any point at or beyond the lot boundaries the maximum number of decibels for each of the octave bands as set forth in the table in subsection (c) below; provided, however, that where such districts permit residences or where such districts adjoin districts which permit residences, apartments or hotels, the maximum sound pressure levels at or beyond the lot boundary shall be reduced 7 decibels from the levels indicated in said table for hours between 8 a.m. and 6 p.m. and shall be reduced 10 decibels between 6 p.m. and 8 a.m.

- (c) Maximum permitted sound pressure level (in decibels).  
The maximum sound pressure level for each octave band herein designated shall be as follows:

<u>Octave Band</u> (cycles per second)	<u>Sound Pressure Level</u> (decibels)
0 - 74	79
75 - 149	74
150 - 299	66
300 - 599	59
600 - 1,199	53
1,200 - 2,399	47
2,400 - 4,799	41
4,800 and over	39

Sec. 21-233. Vibration Regulation.

- (a) Method of measurement. A three-component measuring system approved by the City Council shall be used to make measurements required by this section. Location and timing of measurements shall be so arranged to exclude vibrations emanating from off the premises involved, or a correction factor reasonable under the circumstances shall be applied to compensate for off-premise vibrations.
- (b) Impact vibrations within specific districts.
- (1) In I-2 Heavy Industrial and I-3 Waterfront Industrial districts, steady state or impact vibrations from any use shall not exceed at any point at or beyond district boundaries the levels set forth in the table in subsection (c) below.
  - (2) In all other districts, steady state or impact vibrations from any use shall not exceed at any point at or beyond lot boundaries the levels set forth in the table in subsection (c) below.

- (c) Maximum permitted steady state and impact vibration displacement (in inches).

The maximum steady state and impact vibration displacement (in inches) for each frequency herein designated shall be as follows:

<u>Frequency</u> (Cycles per second)	<u>Vibration Displacement</u> (in inches)	
	<u>Steady State</u>	<u>Impact</u>
Under 10	.0005	.0010
10 - 19	.0004	.0008

E. Conditional Uses and Structures.

Sec. 21-241. Procedural Requirements.

- (a) Application for conditional use permit. An owner or lessee (holding under a recorded lease the unexpired term of which is more than 5 years from date of filing of the application) may file with the Planning Director an application for a conditional use permit; provided that the conditional use sought is permitted in the particular district. The application shall be accompanied by a plan showing the actual dimensions and shape of the lot, the exact sizes and locations on the lot of existing and proposed buildings, if any, and the existing and proposed uses of structures and open areas; and by such additional information relating to topography,

access, surrounding land uses and other matters as may reasonably be required by the Planning Director in the circumstances of the case.

- (b) Fees. The application shall be accompanied by a deposit of \$100 to cover the cost of publication of notice of public hearing.
- (c) Action by Planning Director. The Planning Director shall study the application to determine whether the proposed conditional use conforms to the general purpose and intent of the general plan and any applicable development plan which has been adopted, and to the requirements of this Chapter. Upon completion of such review, the Planning Director shall transmit his findings and recommendations to the Planning Commission.
- (d) Action by the Planning Commission. After receiving the report of the Director, with all pertinent related material, the Planning Commission shall give notice of and hold a public hearing. Within 30 days after the hearing, the Commission shall submit its recommendations to the City Council through the Mayor; provided, however, that upon mutual agreement between the Commission and the applicant, such time may be extended.
- (e) Action by City Council. After receiving the recommendations of the Planning Director and the Planning Commission, the City Council shall

act upon the proposed conditional use, granting the application in whole or in part, with or without modifications, or denying it. In addition to the general or specific requirements set forth in this Chapter concerning the proposed use, which shall be considered minimum requirements with respect to the permit, additional requirements, conditions and safeguards may be added by the City Council as required for the protection of public interest in the specific case.

Sec. 21-242. General Standards for Conditional Uses.

- (a) Compliance with requirements. No conditional use permit shall be issued except upon a finding by the City Council that the proposed use conforms to the requirements set forth in this Chapter and that the proposed conditional use will have no more adverse effect on the health, safety or comfort of persons living or working in the area, and will be no more injurious, economically or otherwise, to property or improvements in the surrounding area than would any use generally permitted in the district. Among matters to be considered in this connection are traffic flow and control; access to and circulation within the property; off-street parking and loading; refuse and service areas; utilities; screening and buffering; signs,

yards and other open spaces; height, bulk and location of structures; location of proposed open space uses; hours and manner of operation; and noise, lights, dust, odor, fumes and vibration.

- (b) Conformity with adopted plans. The proposed conditional use shall be in accord with the purposes of the General Plan and any applicable development plan and the zoning regulations.

Sec. 21-243. Additional Requirements for Conditional Uses.

In addition to the general requirements set forth above and limitations established in the district regulations, the requirements set forth hereafter shall apply to the respective conditional uses and structures.

Sec. 21-244. Animal Hospitals, Pounds, Shelters, Commercial Kennels.

Except where animals are kept in sound-proof air conditioned buildings, no structure or area occupied by such animals, whether in animal hospitals, pounds, shelters or commercial kennels, shall be within 100 feet of the property line of any adjacent lot.

Sec. 21-245. Cemeteries, Columbariums, Crematories, Mausoleums.

With respect to cemeteries, columbariums, crematories and mausoleums, certificates of approval shall be required from the State Department of Health as to conformity with

its regulations, and, in cases where bodies are to be interred, from the Board of Water Supply, indicating that there is no danger of contamination of water supply.

Sec. 21-246. Convenience Establishments.

(a) Distance to alternate facilities or locations.

No convenience establishment, as defined in Sec. 21-103 of this Chapter, shall be permitted within 1,000 feet of any boundary of a district where similar facilities are permitted, nor shall any new establishment of a specific kind be located within 1,000 feet of an existing establishment of the same nature; provided, however, that offices for individuals engaged in a medical profession or occupation may include groups or combinations of such individuals but there shall be not more than four such individuals engaged in a medical profession or occupation. Measurement of distances indicated shall be along usual routes of pedestrian travel.

(b) Grouping of convenience establishments. Where a proposed location is more than 1,000 feet from an existing grocery store, variety store or drug store, and from any boundary of a district in which such establishments are generally permitted, an isolated new grocery store, variety store, or drug store may be permitted if the location is suitable for later addition of other permitted

convenience establishments. No new laundry or dry cleaning establishment, beauty shop or barber shop, shall be located other than within 150 feet of a grocery store, variety store or drug store and within the same block. Measurement of this distance shall be from the principal entrance of the grocery store, variety store, or drug store along the usual routes of pedestrian travel. The location of offices of physicians and dentists shall be determined in the same manner unless a need exists for the selection of other locations.

- (c) Maximum size of establishments. No individual convenience establishment shall have a gross floor area exceeding 5,000 square feet.
- (d) Minimum lot requirements. Other than as necessary to meet other requirements of this Chapter, no minimum lot requirements are specified.
- (e) Minimum yard requirements. A yard 20 feet in depth shall be provided adjacent to all streets. Side yards shall be 10 feet in width adjacent to residential, hotel or apartment lots, but where the side of the lot is adjacent to a lot on which another convenience establishment is located, or is being constructed, no side yard need be provided, if the structures involved are to have a boundary

wall, or are to have no space between their walls. If there is to be space between the walls of adjacent structures housing convenience establishments or their accessory uses, such space shall be at least 5 feet in width. Rear yards shall be 25 feet in depth.

- (f) Landscaping requirements; buffering; control of appearance. Except for drives and walkways, any yard adjacent to a street shall be landscaped for a distance of 10 feet from the lot line adjacent to the street; provided that portions which adjoin lots in residential use shall be so landscaped and maintained for the full width or depth of the required yard within 25 feet of adjoining lot lines. Side yards adjacent to lots in residential use shall be similarly landscaped and maintained for the required minimum width. No such required landscaped area shall be used for off-street parking or loading.

There shall be no exposed garbage or trash containers or outdoor storage in any portion of any outdoor space about the premises of any convenience establishment.

- (g) Lot coverage. Maximum lot coverage by all buildings shall not exceed 40%.
- (h) Maximum height of structures. No portion of any

structure housing a convenience establishment shall exceed 1 story or 15 feet in height.

(i) Off-street parking and loading. Minimum off-street parking and loading shall be required as follows:

(1) Retail stores shall have at least 1 off-street parking space for each 300 square feet of gross floor area in commercial use.

(2) Coin operated laundry and dry cleaning establishments shall have at least 1 off-street parking space for each 2 washing machines (drying machines and dry cleaning machines are not to be included in this computation).

(3) Barber shops shall have at least 1 off-street parking space for each barber chair.

(4) Beauty shops shall have at least 1 off-street parking space for each barber chair, plus one for each hair dryer other than those used while patrons are in barber chairs.

(5) Medical and dental offices shall have at least 1 off-street parking space for each physician, dentist and employee, plus 1 space for each 500 square feet of gross floor area in such offices.

Where practicable, off-street parking facilities for groups of convenience establishments shall be

combined, but the total number of spaces required in such combinations shall at least equal the aggregate of the number of spaces required for each of the individual establishments or uses. Spaces for the patrons or employees of individual establishments need not be marked as so reserved, but the site plan shall clearly indicate the location and the number of spaces provided for each establishment. There shall be no on-street loading in connection with any convenience establishment. Off-street parking areas shall be designed to provide convenient and efficient parking and parking layout, loading facilities, entrances and exits shall be approved by the traffic engineer before any permit is granted. Such parking areas shall be paved with an asphalt or concrete surfacing, shall be properly drained, and shall be maintained in a sound condition.

- (j) Lighting. During hours of darkness when convenience establishments are in operation, parking areas and pedestrian ways on the premises shall be lighted to an intensity of at least 6/10-foot candle. All sources of illumination shall be so shielded as to prevent any direct reflection toward any residential property or any street.
- (k) Signs. No sign intended to be read from off the

premises shall be permitted in connection with convenience establishments except as permitted in the district. Notwithstanding the foregoing, one sign shall be permitted for each side of the building exposed to a public street; provided that:

- (1) No such sign shall extend or be mounted above or beyond the wall of the building; and
  - (2) Such sign shall not exceed 10 square feet in area; and
  - (3) Such sign shall be mounted flat against the side of the building.
- (1) Hours of operation. Except for emergency activities at the offices of physicians and dentists, no convenience establishment shall be open for business between the hours of 9 p.m. and 7 a.m.
- (m) Conduct of operations. All sales, services or displays in connection with convenience establishments shall be within completely enclosed buildings, and there shall be no display, service or storage outside such buildings. No public address systems or other devices for reproducing or amplifying voices or music shall be mounted outside such buildings or be audible beyond any line of the lot on which the building is situated.

Sec. 21-247. Drive-in Theatres.

- (a) Minimum area of a drive-in theatre site shall be 10 acres.
- (b) Relation to major street; entrances and exits. The site shall be adjacent to a major street, and entrances and exits shall be from the major street; provided, however, that where adjacent minor streets can be used for access to the major street, this arrangement may be permitted, except in residential districts.
- (c) Waiting areas. Off-street parking or storage lanes for waiting patrons shall be available to accommodate not less than 30% of the vehicular capacity of the theatre; provided that, if at least six entrance lanes, each with a ticket dispenser, are provided, then the amount may be reduced to 10% of the vehicular capacity.

Sec. 21-248. Extractive Industries.

- (a) Operational requirements. The site of an extractive industry shall be of sufficient size and dimensions to accommodate proposed operations in accordance with performance standards as set forth in part D of this Article, with measurements made at site boundaries; provided, however, that upon written agreement by adjoining property owners the points of measurement may be extended to include their

property. In addition to limitations established by performance standards, blasting operations shall be restricted to Mondays through Fridays between 8 a.m. and 5 p.m. Undrained pockets and stagnant pools resulting from surface drainage shall be sprayed in accordance with requirements of the State Board of Health to eliminate breeding places for mosquitoes and other insects. Off-street parking areas adequate for all employees' vehicles and trucks shall be provided.

(b) Plan for development of site. The plan to be submitted with the application for a conditional use permit shall include a plan for development of the subject property which shall consist of two phases: the exploitation phase and the re-use phase.

(1) Exploitation phase. The plan for the exploitation phase shall show the proposed development as planned in relation to surrounding property within 300 feet, and shall include topographic surveys and other materials indicating existing conditions (including drainage) and the conditions (including topography, drainage and soils) which shall exist at the end of the exploitation phase. Contour intervals for

topography shall be 5 feet in areas where slope is greater than 10%, 2 feet in areas where slope is 10% or less.

The plan for the exploitation phase shall demonstrate the feasibility of the operation proposed without creating hazards or causing damage to other properties. This plan shall also show the different stages of exploitation, where and how traffic on and from the development will be handled, where equipment will be operating, the location and dimension of structures, the manner in which safeguards will be provided, including those for preventing access by children and other unauthorized persons to dangerous areas. The final stage of this plan shall indicate how the project is to be finished in accordance with the plan for re-use.

- (2) Re-use phase. The plan for the re-use phase shall indicate how the property is to be left in a form suitable for re-use for purposes permissible in the district, relating such re-uses to uses existing or proposed for surrounding properties. Among items to be included in such plan are feasible circulation patterns in and around the site, the treatment

of exposed soil or subsoil (including measures to be taken to replace topsoil or establish vegetation in excavated areas) in order to make the property suitable for the proposed re-use, treatment of slopes to prevent erosion, and delineation of floodways and flood plains (if any) to be maintained in open usage. In such plan for re-use, intermittent lakes and marshes shall not be allowed, except in areas included in Flood Hazard (FH) districts, and if situated more than 1,000 feet from the nearest residential, apartment or hotel district boundary.

Sec. 21-249. Marinas, private, including facilities for storage and repairs of boats and sale of boating supplies and fuel.

- (a) Locational and site requirements. Marinas shall be so located as to be accessible from major roads without creating traffic congestion on minor streets through residential, apartment or hotel districts. In general, sites shall include at least 150 feet of water frontage and at least 3 acres in area, but these requirements may be either increased or reduced in a particular case as indicated by other specifications herein.

Operational and site planning requirements.

- (1) Launching ramps, boat repair facilities, facilities for sale of boating supplies and fuel, clubhouses, and parking areas and areas for boat storage on land which are to be open for use between the hours of 9 p.m. and 7 a.m. shall be at least 300 feet from the nearest lot line of any lot on which a residence is permissible. If any of such areas or functions are not open between the hours indicated, the distance may be reduced to 150 feet or if parking areas and areas for boat storage on land are enclosed by a solid masonry wall at least 6 feet in height, the distance may be reduced to 150 feet.
- (2) A minimum of ten off-street parking spaces shall be required, provided that where launching ramps adjoin the parking area, the parking spaces shall have a minimum dimension of 12 feet by 40 feet.

Sec. 21-250. Off-Street Parking for Uses in Adjoining Districts.

Off-street parking for uses in adjoining districts shall be permitted only when the distance of the farthest parking space from the nearest principal entrance of the establishment or establishments involved does not exceed 400 feet by normal pedestrian routes.

Yards shall be provided as required in the district in which the facility is located, except for side or rear yards adjoining district boundaries. Such side or rear yards shall be landscaped and a solid wall at least four feet in height or equivalent vegetative screening shall be provided along the inner boundary of such yards, with no vehicular entrances or exits; provided, however, that where the facility is adjacent to the district in which the use served is located, no such screening shall be required at the rear of the front yard, and entrances and exits may be through such front yard.

Parking in such facilities shall be only at ground level or below.

Sec. 21-251. Refuse Dumps, Sanitary Fills and Incinerators,  
Private.

Private refuse dumps, sanitary fills and incinerators shall be subject to the following conditions:

- (a) Certificates of approval shall be required from the State Department of Health, the State Fire Marshall, the Board of Water Supply and the Department of Public Works.
- (b) No application for a conditional use permit shall be considered unless owners of at least 75% of the area within 750 feet of the boundaries of the proposed dump, sanitary fill or incinerator shall indicate that they have no objection to the allowance of such use.

- (c) No conditional use permit shall be issued for a term of more than 5 years. Any expired permit may be renewed by the City Council for similar period upon application, provided that such renewal may be refused to any person who has violated the conditions of the permit during its term, or if conditions in the area have changed in such a manner as to justify refusal of the renewal. No fee shall be required for the issuance of the renewal permit.

Sec. 21-252 Television or Other Broadcasting Stations and  
Line-of-Sight Relay Devices.

Except where property borders beneficial open space not less than 50 feet in width, other than streets, measured from the abutting property line, setbacks from property lines shall be at least equivalent to the height of the structure for television and other broadcasting stations and line-of-sight relay devices.

Sec. 21-253. Utilities, Private.

Private utilities shall be subject to the following conditions:

- (a) Certificates of approval for private utilities shall be required from the State Department of Health and the Board of Water Supply. In addition, private sewage treatment plants as part of a subdivision development shall require the approval of the Chief Engineer.

- (b) Sureties satisfactory to the City shall be provided to insure the proper installation, operation and maintenance of such facilities.
- (c) Conditions established may provide that when public utilities become available in the area, the private utilities shall be discontinued or combined with the public system, and services to the properties affected shall be from public systems.
- (d) Buildings and other structures shall be set back a minimum of 10 feet from all property lines; provided that when the private utility is located in a zoning lot which is in, or abuts, a residential, apartment or hotel district, the minimum setback shall be 25 feet. Yards and other open areas on the site shall be landscaped and maintained according to plans approved by the Planning Director.
- (e) Performance standards set forth in part D of this Article shall apply, with measurements made at lot lines.
- (f) Such facilities shall be completely fenced so as to be inaccessible, except through a locked gate.

Sec. 21-254. Carnivals, Circuses and Fairs.

The proposed site for a carnival, circus or fair shall have direct access to a major street or highway, be of a size and shape appropriate for the proposed use, and be

dimensioned or located in such a way as to provide spatial or other buffering to protect adjacent development from potentially adverse effects. The plan for the proposed use shall provide for parking, internal vehicular circulation and storage lanes at entrances so that surrounding streets will not be congested with parking or cars waiting to enter the premises. Walkways shall be so located as to minimize conflicts between pedestrian and vehicular traffic. The City Council shall establish conditions controlling location of activities, noise, lights, dust, hours and manner of operation, and other matters likely to have adverse effects on surrounding development.

Sec. 21-255. Piers and Boathouses, Private, Permitted as Accessory to Dwellings.

Depending upon the location involved, no conditional use permit for private piers and boathouses shall be issued unless the proposed structures have the approval of the Harbors Division, State Department of Transportation, or the Chief Engineer of the City.

Sec. 21-256. Riding Academies.

Where a conditional use permit is issued for the operation of a riding academy, not more than five riding animals shall be kept for each acre of land within the site. All buildings housing animals, and all corrals in which animals are kept or assembled in concentrated groups, shall be at least 100 feet from any property line.

Sec. 21-257. Temporary Structures and Uses in Relation to Land Development or Building Construction.

- (a) Location. Temporary structures and uses shall be located on the site being developed.
- (b) Operational requirements. Activities on the site shall be so conducted as to avoid annoyance due to noise or dust in surrounding areas. Times of operation shall be limited to the hours between 7 a.m. and 6 p.m., Mondays through Fridays. Road leading to and from the site shall be paved with asphalt, concrete or equivalent.
- (c) Disposal of material. Rock, soil, sand or gravel moved from its original location may be used for fill or construction on the site, but no such material may be used for on-site manufacture of building materials.

Sec. 21-258. Vacation Cabins, Private.

Minimum area for private vacation cabins shall be 1 acre per cabin in Preservation and Agricultural districts. Roadways shall be kept to minimum lengths and grading, filling or other disturbance of the natural surface and slope shall be held to a minimum in areas occupied by vacation cabins.

Sec. 21-259. Private Off-Street Parking Facilities.

- (a) Joint use of facilities.  
Joint use of private off-street parking facilities in satisfaction of appropriate portions of off-

street parking requirements may be allowed under the following circumstances:

- (1) Distance of the farthest parking space from the nearest principal entrance of the establishment or establishments involved in such joint use shall not exceed 400 feet by customary pedestrian routes.
- (2) The amount of off-street parking which may be credited against the requirements for the use or uses involved shall not exceed the number of spaces reasonably anticipated to be available during differing periods of peak demand.
- (3) A written agreement assuring continued availability of the number of spaces indicated at the periods indicated shall be drawn and executed by the parties concerned, and a certified copy of said agreement shall be filed with the records of the Planning Department. In such case, no change in use or new construction shall be permitted which increases the requirements for off-street parking space unless such additional space is provided. The agreement shall be subject to the approval of the Corporation Counsel of the City.

(b) Off-Site facilities.

Off-site parking facilities may be permitted where the required off-street parking cannot be provided on the lot with the principal building or use and where joint use of facilities is not allowed; provided:

- (1) Distance of the farthest parking space from the nearest principal entrance of the establishment or establishments involved shall not exceed 400 feet by customary pedestrian routes.
- (2) A written agreement assuring continued availability of the number of spaces indicated shall be drawn and executed, and a certified copy of such agreement shall be filed in the records of the Planning Department. Such agreement shall stipulate that if such space is not maintained, or space acceptable to the Planning Director substituted, the use or such portion of the use as is deficient in number of parking spaces shall be discontinued. The agreement shall be subject to the approval of the Corporation Counsel of the City.

Sec. 21-260. Joint Development of Two or more Adjacent Lots.

(a) Status of lots jointly developed.

Whenever two or more lots are developed in accordance with the provisions of this section, they shall be

considered and treated as one 'zoning lot' for purposes of this Chapter.

(b) Application for joint development.

Owners of adjacent lots who believe that joint development of their property would further the public health and general welfare and would result in a more efficient use of land may apply for a conditional use permit to undertake such development. The plan submitted with the application shall demonstrate that the development as a whole conforms to the regulations for the district in such a manner that light, air, view, privacy, access, density or land use intensity, height, bulk, off-street parking and other objectives of public control are satisfied to an equivalent or higher degree than if regulated on a lot-by-lot basis. The plan shall also indicate that the effect on adjoining lots will be the same, or of lesser adverse effect, than if regulation within the area were on a lot-by-lot basis.

(c) Agreement to continue development.

The applicants shall submit to the City an agreement which binds themselves and their successors in title, individually and collectively, to maintain the pattern of development proposed in such a way that there will be conformity with applicable

zoning regulations. The right to enforce such agreement shall also be granted to the City.

The agreement shall be subject to the approval of the Corporation Counsel of the City.

- (d) Action by Planning Director. If the Planning Director finds that the area involved is compact, regular and logical in relation to the form of development proposed, that the proposed development as a whole conforms to the intent and requirements set forth above, and that the proposed agreement assures future protection of the public interest and the achievement of public objectives to the same or a higher degree than would application of regulations to the individual properties, he shall recommend the issuance of the conditional use permit. Upon issuance of the permit, the agreement, which shall be part of the conditions of the permit, shall be filed with both the Planning and Building Departments of the City and notations shall be made on the official zoning map in the City Clerk's office and on the copy in the Planning Department for future guidance in administration and as a public record.

Sec. 21-261. Headquarters and Meeting Hall Facilities of  
Labor Unions.

Headquarters and meeting hall facilities of labor unions permitted as conditional uses shall be subject to

the following:

- (a) The use of the premises and structures shall be restricted to activities of labor unions and union members;
- (b) No accessory business use open to the general public shall be permitted; and
- (c) Parking shall be provided at a minimum of one (1) space for each ten (10) persons or fraction thereof based on the occupant load of assembly area (as provided in the Building Code of the City and County of Honolulu), plus one (1) space for each four hundred (400) square feet or fraction thereof of gross floor area of the remaining portions of all buildings.

Sec. 21-262. Cluster Developments.

Cluster developments shall be subject to the following requirements:

- (a) Minimum area of the development. The minimum area of the cluster development shall be not less than 2 acres in the District of Honolulu, and not less than 5 acres outside of the District of Honolulu.
- (b) Types of buildings.
  - (1) Within R-1, R-2 and R-3 Residential districts only one-family detached dwellings shall be permitted;
  - (2) Within R-4, R-5 and R-6 Residential districts

- (1) 1 acre per dwelling unit for any development within a R-1 Residential district;
  - (2) 1/2 acre per dwelling unit for any development within a R-2 Residential district;
  - (3) 10,000 square feet per dwelling unit for any development within a R-3 Residential district;

  - (5) 6,000 square feet per dwelling unit for any development within a R-5 Residential district;
- and
- (6) 5,000 square feet per dwelling unit for any development within a R-6 Residential district.
- (d) Lot size. The minimum size for detached dwellings of a lot of record within the development shall be at least 80 percent of the minimum area required per dwelling unit but not less than 4,800 square feet, provided that an area equal to the difference, if any, between the minimum area required per dwelling unit and the size of the lot of record actually provided shall be set aside as common open space.

- (e) Attached dwellings.
  - (1) The minimum lot size for attached dwellings shall be 2,500 square feet for one dwelling unit and 5,000 square feet for two dwelling units;
  - (2) Attached dwellings shall not exceed 8 dwelling units in one building. Building line and front elevations shall be varied to avoid 'row house' developments.
- (f) Common open space. Common open space, permanently reserved and maintained as landscaped park or recreational space, and excluding streets or parking areas, shall be provided in an amount equal to the difference between:

- (g) Yards abutting the boundaries of cluster developments shall conform to minimum requirements for the district; provided that landscaped strips at least 10 feet in width shall be maintained along the boundaries of the development. Such strips

shall not be used for parking adjacent to streets bordering the cluster development; nor shall such strips be used for drives or for parking where the cluster development borders any other residential or apartment district without an intervening street or alley. Where groups of buildings are other than perpendicular to a side or rear boundary of the cluster development, and such boundary is not in or at a street or alley, the yard adjacent to such boundary shall be 30 feet in least dimension, and a 10-foot landscaped strip shall be maintained free from drives or parking.

- (h) The maximum lot coverage by all buildings, as specified for the district, shall be applied to the cluster development as a whole, and not to individual lots of record within the cluster development.
- (i) The Planning Director finds that:
  - (1) The subdivision is designed to produce an environment of stable and desirable character, consistent with the intent and purpose of the cluster development regulations to promote public health, safety and general welfare, and not out of harmony with its surrounding neighborhood;

- (2) Property in the vicinity of the area, included in the plan, will not be adversely affected;
- (3) The property would be used for purposes and in a manner permitted in the existing residential district except for lot sizes;
- (4) The location, size, nature and topography of the open areas make them suitable for use as common areas for park, recreational purposes and buffer areas between groups of homesites, and that not less than 50 percent of the open areas resulting from the reduction in lot sizes have a slope of 10 percent or less and not more than 25 percent of such open areas have a slope in excess of 20 percent;
- (5) There is assurance of adequate provision for perpetual maintenance of the open areas, including those in excess of that resulting from reduction in the lot sizes, by the inclusion of covenants running with the land in the deeds or other instruments of conveyance, delineating such open areas; and
  - (i) Obligating purchasers to participate in a homeowners' association and to support maintenance of the open areas by paying to the association, assess-

ments sufficient for such maintenance and subjecting their properties to a lien for enforcement of payment of the respective assessments.

- (ii) Obligating such association to maintain the open areas,
- (iii) Empowering the City, as well as other purchasers in the subdivision to enforce the covenants in the event of failure of compliance, and
- (iv) Providing for agreement that if the City is required to perform any maintenance work pursuant to item (iii) above, said purchasers would pay the cost thereof and that the same shall be a lien upon their properties until said cost has been paid; provided that the subdivider shall be responsible for the formation of the homeowners' association of which the subdivider, or if the subdivider is not the owner of the subdivided tract, then such owner shall be a member until all of the lots of record are sold. Other equivalent provisions to assure adequate perpetual maintenance may be permitted if approved by the Planning Director and the Corporation Counsel.

Assurance that such covenants or equivalent provisions will be included in the deeds or other instruments of conveyance shall be evidenced by the recordation in the Bureau of Conveyances or with the Assistant Registrar of the Land Court, of a declaration providing for adequate perpetual maintenance of the open areas, as prescribed hereinabove, and identifying the tract and each lot therein. The declaration shall be included in the deed or other instrument of conveyance of each lot of record and shall be made binding on all purchasers; provided that such declaration may, as to subsequent conveyances other than the initial conveyance of each lot of record, be incorporated by reference in the instrument of conveyance.

In general, off-street loading spaces shall be located in service areas at the rear or sides of establishments in such a way that there will be minimum interference with off-street parking or vehicular movement in off-street parking areas.

Sec. 21-1029. Sign Regulations.

Plans shall indicate the location, size and character of any sign within the district intended to be seen from public ways outside the district. Not more than two sign surfaces, each with a surface area not exceeding 30 square

feet, shall be permitted at any principal entrance to the district. Such signs shall be limited in text to wording identifying the resort by name and character, indicating time of opening and closing of the resort and giving directions to parking areas.

Where exits are at different points from entrances, not more than two sign surfaces, each with a surface area not exceeding 30 square feet, shall be permitted, if necessary to indicate that entry at such points is prohibited, to direct to the principal entries, and to identify the resort by name.

D. Planned Development-Shopping Center (PD-SC)

Sec. 21-1031. Planned Development-Shopping Center Districts, Creation.

Planned Development-Shopping Center districts may be established in zoning districts, other than preservation, agricultural, and industrial, where planned shopping centers will serve areas not already conveniently and adequately provided with commercial and service facilities of the kind proposed.

Establishment of such districts shall be in accordance with the general procedures and requirements of this Article. Each such district shall be identified as to type (neighborhood, community or regional) and shall be regulated accordingly.

Sec. 21-1032. Use Regulations.

- (a) Neighborhood shopping centers. The principal and accessory uses permitted in connection with

neighborhood shopping centers shall be the same as for 'B-1' Neighborhood Business districts, provided that the floor area in residential use shall be limited to 5% of the area of the district, and that residential uses shall be located above or behind principal commercial or service uses, or in a separate area, in such a manner that residential uses do not constitute an impediment to free pedestrian flow between commercial or service establishments.

- (b) Community shopping centers. The principal and accessory uses permitted in connection with community shopping centers shall be the same as for 'B-2' Community Business districts, provided that the floor area in residential use shall be limited to 10% of the area of the district, and shall be located as indicated for neighborhood shopping centers.
- (c) Regional shopping centers. The principal and accessory uses permitted in connection with regional shopping centers shall be the same as for 'B-4' Central Business districts, and shall also include automotive service stations; provided, however, that hotels shall be excluded from regional shopping centers and that the floor area in residential use shall be limited to 15% of the

area of the district, and shall be located as indicated for neighborhood shopping centers.

**Sec. 21-1033. Area Requirements.**

Minimum area for a neighborhood shopping center shall be 2 acres; for a community shopping center, 8 acres; and for a regional shopping center, 20 acres.

**Sec. 21-1034. Land Occupancy by Buildings.**

Total land occupancy by all buildings for a neighborhood shopping center shall not exceed 40% of the area of the district, nor 60% for a community or regional shopping center; provided, however, that underground parking structures, the highest portions of which are not more than 30 inches above the level of the center line of the nearest adjacent street, shall not be included in computations of land occupancy by buildings.

**Sec. 21-1035. Floor Area Limitation.**

Total floor area shall not exceed the equivalent of 50% of the area of the district for neighborhood shopping centers; 75% for community shopping centers; and 100% for regional shopping centers. Total floor area computation for determining compliance with these requirements shall include all floor areas in permitted principal and accessory uses, whether involving commercial or service uses or dwelling units; provided, however, that floor area for off-street parking or loading in structures shall not be included.

Sec. 21-1036. Relation to Major Transportation Facilities.

- (a) Neighborhood shopping centers shall have direct access to secondary streets, major streets or major thoroughfares.
- (b) Community shopping centers shall have direct access to major streets or major thoroughfares.
- (c) Regional shopping centers shall have direct access to major thoroughfares.

Sec. 21-1037. Site Planning.

The same requirements applicable to Planned Development-Housing projects, as set forth in Section 21-1015 of this Article, shall apply to Planned Development-Shopping Center districts. In addition, yards with a minimum width of 50 feet shall be provided along all property lines at the boundaries of the district, except where it adjoins a Business or Industrial district. Landscaping and use of such yards shall be as follows:

- (1) Along major thoroughfares, major streets, or secondary streets, except in areas described in (2), hereinbelow, the nearest 10 feet to the right-of-way shall be maintained in landscaping, unless turn-out or merging lanes are provided, in which case the nearest 10 feet to the turn-out or merging lane shall be landscaped. The remainder of such yard may be used for surface or sub-surface off-street parking.

- (2) Where front or side yards in residential districts adjoin the Planned Development-Shopping Center district without an intervening street, the nearest 25 feet to the right-of-way within the Planned Development-Shopping Center district shall be maintained in landscaping and no vehicular access or parking shall be permitted in such landscaped area.
- (3) Where lots in residential districts front on minor streets at the boundary of a Planned Development-Shopping Center district, the nearest 25 feet to the right-of-way within the Planned Development-Shopping Center district shall be maintained in landscaping and no off-street parking shall be permitted in such area. Vehicular access through such landscaped strip shall be permitted only for convenience of residents of adjoining residential areas, or for access to dwelling units within the Planned Development-Shopping Center district and not for use by the general public.
- (4) All other yards within the Planned Development-Shopping Center district, except those abutting a Business or Industrial district to the extent of a 10-foot depth along the property lines, shall be maintained in landscaping and not used for parking.

(5) In general, landscaping as required herein shall be of a nature which conceals parking areas, service areas and other undesirable views of the district, but shall not create hazards to automotive traffic or pedestrians at intersections within or adjoining the district.

Sec. 21-1038. Off-Street Parking and Loading Requirements.

Off-street parking shall be provided at the minimum ratio of 5.5 spaces per 1,000 square feet of gross leasable area for all shopping centers. In addition, one off-street parking space shall be provided for each dwelling or lodging unit. 'Gross leasable area' shall mean total floor area designed for tenant occupancy and use, including basements, expressed in square feet measured from the center line of joint partitions and from the outside wall faces, but shall exclude parking areas in structures as are reserved for tenant occupancy and use.

A minimum of 2% of the area devoted to off-street parking shall be maintained in landscaping in such parking areas.

Off-street loading space shall be provided with area, location and design appropriate to the needs of the shopping center and specific uses within it, and no space designated for off-street parking shall be used as off-street loading space.

Sec. 21-1039. Sign Regulations.

Plans shall indicate the location, size, and character

of any sign within the district intended to be seen from public ways outside the district. In general, one sign structure with not more than two sign surfaces, each with surface area not exceeding 30 square feet for neighborhood shopping centers, not exceeding 50 square feet for community shopping centers, and not exceeding 75 square feet for regional shopping centers, shall be permitted in the yard area adjacent to each principal entry from a major thoroughfare, major street or secondary street. Such signs shall be limited in text to wording identifying the shopping center by name, stating days and hours when the center is open, and indicating direction to parking areas.

In addition, one flat or wall sign per establishment, intended to be seen from public ways, shall be permitted and, if the establishment has two or more walls facing major thoroughfares, major streets or secondary streets, one such sign may be permitted for each street exposure; provided, however, the size, character and location are compatible with the adjoining districts.

No sign which is not approved as part of the plan shall be erected; provided, however, that in the event of changes in ownership or name or character of establishments, new signs may be erected reflecting such changes upon a finding by the Planning Director, that the new signs are essentially the same in size, character and location as the signs to be replaced.

## ARTICLE 11. FLOOD HAZARD DISTRICTS

### Sec. 21-1101. Legislative Intent.

The provisions of this Article enable the City Council to establish Flood Hazard districts which would be subject to special restrictions. The purpose of establishing such districts would be to protect life and property and to reduce public costs for flood control and rescue and relief efforts.

### Sec. 21-1102. Creation of Flood Hazard Districts.

Flood Hazard districts, consisting of floodways and flood plains, may be established by the City Council and any land included within a Flood Hazard district shall be subject to the use regulations and the special requirements relating to floodways and flood plains as set forth in this Article.

### Sec. 21-1103. Use Regulations.

In a Flood Hazard district, the following uses and structures may be permitted, subject to the requirements of this Article:

- (a) Public and private outdoor recreational facilities.
- (b) Carnivals and similar transient amusement enterprises situated more than 500 feet from the boundary of any residential, apartment or hotel district.
- (c) Agricultural uses, including farming, grazing and the raising of poultry or livestock, except swine; provided that poultry or livestock shall not be housed within 500 feet of any residential, apartment or hotel district.

- (d) Open uses, such as off-street parking or loading and unloading areas related to uses in adjoining districts.
- (e) Commercial mining, soil removal, quarries and sand and gravel pits, subject to regulations applicable to extractive industries as set forth in the conditional use provisions.
- (f) Refuse dumps, sanitary fills and incinerators situated more than 1,000 feet from the boundary of any residential, apartment or hotel district, subject to regulations as set forth in the conditional use provisions.
- (g) Public improvements, such as dams, levees and channel improvements, and utilities installations and substations, including temporary storage of materials, except flammable, toxic or noxious material, and temporary location of maintenance installations.
- (h) Uses and structures customarily accessory and clearly incidental and subordinate to uses listed above, including, in connection with agricultural uses:
  - (1) Dwelling units for owners or employees working on the premises; provided, however, that not more than one such accessory dwelling unit shall be permitted for each two acres of lot

area and that all such dwelling units shall be so located, elevated and constructed as to minimize hazards to life during design floods.

- (2) Roadside stands for the sale of agricultural products produced on the premises; provided that (1) only one such stand shall be permitted per lot, (2) no such stand shall exceed 500 square feet in floor area, and (3) no such stand on the street frontage shall be erected within 20 feet of the property line.

Sec. 21-1104. Special Requirements Applicable to Flood Hazard Districts.

- (a) Regulation of Floodways. Any provision to the contrary notwithstanding, no use or structure shall be permitted in any floodway, if such use or structure will adversely affect normal flood flow, or will increase flooding of lands above or below the property, or will increase erosion within or adjoining the floodway, or will cause diversion of flood waters in a manner more likely to create damage than does flow in a normal course, or will increase peak flows or velocities in a manner likely to lead to added property damage or hazards to life, or will increase amounts of damaging materials (including those likely to be injurious to health) which might be carried downstream in floods.

(b) Regulation of Flood Plains. Every structure permitted in flood plains shall be so located, elevated and constructed as to resist flotation and to offer minimum obstruction to flood flow. The ground floor level of every dwelling shall be a minimum of three feet above the design flood or maximum recorded flood, whichever is greater. No use shall be permitted if such use will increase the amounts of potentially damaging materials (including those likely to be injurious to health) which might be carried downstream in floods.

ARTICLE 12. HISTORIC AND CULTURAL DISTRICTS

Sec. 21-1201. Legislative Intent.

The purpose of this Article is to provide the vehicle by which certain areas, structures and objects within the City that have historic or cultural significance may be preserved and protected.

Sec. 21-1202. Establishment of Historic and Cultural District

(a) Action by Planning Director. The Planning Director shall prepare proposed ordinances for the establishment of Historic and Cultural districts. Each proposed ordinance shall be accompanied by a written report, which shall include:

(1) An analysis of existing structures by period of construction, historic significance, architectural style, condition, present use, assessed valuation, location on lot, location of yards and other open spaces, access to interior of the block, off-street parking provided and other pertinent matters. In addition to a general analysis, two specific and detailed classifications shall be established:

a. A classification of individual structures and premises deemed desirable for preservation, with maps, photographs and other data indicating why such structures and premises should be preserved.

- b. A classification of existing structures, premises and uses likely to have an adverse effect on the desired character of the district, with maps, photographs and other data indicating the reason for such classification.
- (2) An analysis of lands not occupied by structures. Ownership, use and location of such lands shall be indicated and recommendations made as to possible actions which should be taken or encouraged.
  - (3) Recommendations concerning detailed regulations to be applied within the district (and its subdivisions, if there are reasons for subdividing it for regulatory purposes) and within its transitional areas, including permitted and prohibited principal and accessory uses and structures; minimum lot, yard and building spacing requirements; maximum lot coverage by all buildings; maximum height of structures; off-street parking and loading requirements; control of signs and exterior character of buildings and landscaping and general appearance of premises and unoccupied lands; and control of additions to or removal of existing buildings.
  - (4) Such report may also include known plans for public or private action in or adjoining the

district and likely to affect its character.

- (b) Action by Planning Commission. The Planning Commission shall review such proposed ordinances and the accompanying reports. The Commission shall transmit such ordinances and reports together with its recommendations through the Mayor to the City Council for its consideration and action. The Commission shall recommend approval in whole or in part, with or without modifications, or shall recommend rejection thereof.
- (c) Action by City Council. The City Council shall create a Historic and Cultural district by ordinance, if it finds that the district is in fact of historic or cultural significance.

Sec. 21-1203. Applicability of Regulations.

In addition to the regulations set forth in the ordinance creating the Historic and Cultural district, the underlying regulations of the zoning district within which the Historic and Cultural district area is situated shall continue to remain applicable; provided that if any conflict occurs, the more restrictive provisions shall apply. In addition thereto, any proposed development within a Historic and Cultural district shall be subject to all the provisions of this Article, including the requirement of certificates of appropriateness.

Sec. 21-1204. Certificates of Appropriateness.

(a) Requirement of Certificate of Appropriateness.

Except as provided in subsection (f), no building permit shall be issued for the construction, alteration or repair of any structure within a Historic and Cultural district and no permit shall be issued for the relocation or demolition of any structure within a Historic and Cultural district, unless and until the Planning Director has issued a certificate of appropriateness therefor.

(b) Materials to be Submitted for Review. The Planning

Director may require submission of any or all of the following: architectural plans, site plan, landscaping plans, proposed signs with appropriate detail as to location, size, number and character, proposed exterior lighting arrangements, elevations of all portions of structures with significant relation to public view, indications as to construction materials, design of doors and windows, ornamentation and colors, photographs or perspective drawings indicating visual relationship to adjoining structures and spaces and such other exhibits and reports as are reasonably necessary in making his determination as to appropriateness.

(c) Grounds for Issuance and Denial of Certificate of Appropriateness.

(1) Issuance. The Planning Director shall issue a

certificate of appropriateness only if he finds that the proposal is in fact appropriate to the character, appearance, and efficient functioning of the district and meets the requirements and objectives established by City Council in creating the district.

- (2) Denial. The Director shall not issue a certificate of appropriateness authorizing issuance of any permit, if he finds that the action proposed would adversely affect the primary character of the district or the setting of structures of public interest. The Director shall state his reasons for denial in writing. Appeals from decisions of the Director in such cases shall be to the Zoning Board of Appeals.
- (d) Consultation. Upon direction by the City Council or the Planning Commission, no certificate of appropriateness shall be issued by the Planning Director until the Historic and Cultural Conservation Committee has been consulted.
- (e) Demolition. In the case of demolition, if preservation is found to be physically or economically unfeasible, the Director shall issue the certificate forthwith. If preservation is found to be physically and economically feasible, the Director and the Historic and Cultural Conservation Committee shall take or promote the taking of whatever public or

private action seems likely to lead to such preservation, either on the site on which the structure is located or on another site to which it might appropriately be moved.

- (f) Automatic Issuance. If after 6 months from date of receipt of the application (unless the owner of the property agrees to an extension of the time) the Planning Director has not taken final action upon the application, the building permit, relocation permit, or demolition permit shall be issued on demand without the certificate of appropriateness.

Sec. 21-1205. General Certificates of Appropriateness for Specified Classes of Cases.

If the Planning Director finds, and the Historic and Cultural Conservation Committee and the Planning Commission concur, that particular materials, designs, architecture or other structural characteristics are generally appropriate within the district, it shall not be necessary to consider individual applications concerning such matters, but building permits may be issued in accord with a general certificate of appropriateness under specifications proposed by the Planning Director and approved by the Historic and Cultural Conservation Committee and the Planning Commission.

ARTICLE 13. MISCELLANEOUS REGULATIONS.

(a) Purpose. (c) Setback. No structure, including but not limited to building, seawall, groin and revetment shall be placed or erected within 10 feet of the zone of wave action as measured horizontally and landward from the inland boundary line of the zone of wave action, on any lot which is situated immediately adjacent to a sandy beach; provided, however, the Zoning Board of Appeals, after a hearing as provided for in Section 5-515.3 of the City Charter, may authorize such construction as may be designed for minimum interference with natural beach processes pursuant to a variance granted on the ground of hardship.

(d) Exception. The provisions of this section shall not apply to the installation of the following structures:

Any structure erected within the setback area prior to the enactment of this section shall be permitted to be maintained as a nonconforming structure; provided, however, if such nonconforming structure is removed from the setback area and is not replaced within six months after such removal, the replacement or reconstruction of such structure thereafter within such setback area shall be prohibited.
- (f) Review of Plans. The Planning Director shall, prior to granting his approval, review, and if he deems it necessary and feasible, require modification of the plans submitted pursuant to subsection (d) to minimize the effect of the structures to be installed under the plans on the natural beach processes.
- (g) Conflict with Other Laws. In case of a conflict between the requirements of this section and the requirements of any other law, the more restrictive requirements shall apply.
