## PART II. DESCRIPTION OF PROJECT

### COPS METHAMPHETAMINE GRANT

This contract between the Department of the Attorney General and the Honolulu Police Department implements the Community Oriented Policing Services (COPS) Methamphetamine Grant (a multi-county effort involving the Honolulu Police Department, the Maui Police Department, and the Kauai Police Department) in the City and County of Honolulu. Each county formulated its strategy to reduce the use of crystal methamphetamine and other drugs.

### SUMMARY OF THE HONOLULU POLICE DEPARTMENT PROJECT

In rural Oahu, the Honolulu Police Department (HPD) will work with neighborhood boards or communities to identify public parks where drugs are used and sold. Enforcement will be undertaken to improve public safety by ridding the parks of drug activity. Training for neighborhood security watches/citizen patrols will be undertaken, and the citizens will be equipped to conduct the patrols as well as assess the environmental changes that could be made. The HPD will send teams of community participants and police officers to attend a Community Action Seminar (CAS). The CAS assists teams to identify problems, establish goals, objectives, outcomes, and develop implementation plans. A small pool of funds may be available to help community teams implement their plans.

Performance indicators will include:

- Number of neighborhood board/community meetings
- Number attending each meeting'
- Description of selected parks
- Number and composition of those attending the CAS
- Summary of action plan
- Summary of implemented action plans
- Assessment on the impact the program made on reducing drug use  
(for example, the reduction of drug use by \_\_\_ percent before and after the program, reduction in number of complaints, etc.)
- Results of law enforcement activities (i.e., number of drug arrests)
