Written Testimony

Do not increase the height variance or density in this already very congested area with aging infrastructure. It is not helpful to create this kind of development in areas that are in flood and SLR prone zones. Affordable housing and MR housing is needed, so put it where it will be adding to rather than detracting from the neighborhood. Convenience at a place like Ala Moana Shopping Center will only make Goliath fall harder when nature encroaches into susceptible areas. This is a well worked on bill and would be better served by taking out the increases in height and density.
