

KULI'OU'OU-KALANI IKI NEIGHBORHOOD BOARD NO. 2

c/o NEIGHBORHOOD COMMISSION • 925 DILLINGHAM BOULEVARD, SUITE 160, HONOLULU, HAWAII, 96817

PHONE (808) 768-3710 • FAX (808) 768-3711 • INTERNET <http://www.honolulu.gov/nco>

INITIAL CONVENING MEETING **THURSDAY, SEPTEMBER 3, 2020** **WEBEX**

CALL TO ORDER – Chair Pro Tem Heather Lum called the meeting to order at 7:03 p.m. Quorum was established with ten (10) members present via Webex Application. Note – This 17-member Board requires nine (9) members to establish a quorum and to take official Board action.

Board Members Present – Heather Lum, Joshua Grieg, Douglas Ostrem, Tatiana Reeves, Clarissa Burkert, Jeannine Johnson, William Kilcoyne, Kevin Mulkern, Davin Aoyagi, and Paula Carroll.

Board Members Absent – Sheridan Spangler, Linda Starr.

Guests – Residents Ken Thomas, Jeanne Ohta, Stramer Reeves, Natalie Iwasa, Waipa Parker, Brandy Clark (Neighborhood Commission Office). **Name was not included if not legible on the attendance sheet.**

MEETING DETERMINATION: Aoyagi made a **MOTION** to retain the Neighborhood Board meetings for the first Thursday of the month at 7pm, Carroll **SECONDED** the motion. Neighborhood Assistant performed a **ROLL CALL**, vote was **APPROVED** by **UNANIMOUS CONSENT, (10-0-0)**, (**Aye:** Carroll, Burkert, Lum, Aoyagi, Kilcoyne, Grieg, Ostrem, Reeves, Johnson, Mulkern; **Nay:** None; **Abstain:** None).

BOARD RECESS: Aoyagi made a **MOTION** to recess in January, Kilcoyne **SECONDED** the motion, Neighborhood Assistant performed a **ROLL CALL** to determine a recess on January 2nd 2021. The **MOTION** was **NOT APPROVED** by the Board (**8-2-0**), (**Aye:** Carroll, Lum, Kilcoyne, Ostrem, Johnson, Reeves, Mulkern, Aoyagi; **Nay:** Burkert, Grieg; **Abstain:** None), hence there will be no recess in January.

MOTION FOR BOARD TO KEEP OLELO BROADCASTING: Aoyagi made a **MOTION** to keep Olelo broadcasting, Carroll **SECONDED** the motion, Neighborhood Assistant performed a **ROLL CALL** to determine if the motion was approved or not, motion was **APPROVED** with **UNANIMOUS CONSENT (10-0-0)**, (**Aye:** Carroll, Grieg, Burkert, Lum, Kilcoyne, Ostrem, Johnson, Reeves, Mulkern, Aoyagi; **Nay:** None; **Abstain:** None).

CHAIR ANNOUNCEMENTS: Chair Pro Tem Lum asked about list of vacancies available below to see if anyone else was interested in filling them:

1. Subdistrict 1 Waialae Iki lower (one (1) seat)
2. Subdistrict 2 Waialae Iki upper (one (1) seat)
3. Subdistrict 5 Wailupe Circle (one (1) seat)
4. Subdistrict 7 Niu and Niuiki Circle (two (2) seats)
5. Subdistrict 8 Kuli'ou'ou (one (1) seat)

Hearing none, Chair Pro Tem Lum moved on to the next topic.

BOARD BUSINESS RELATED TO CONVENING OF SECOND YEAR OF TERM: **ELECTION OF OFFICERS TO SERVE FROM JULY 2020 TO JUNE 20, 2021**

Aoyagi nominated Lum to be Chair, Neighborhood Assistant performed **ROLL CALL**, vote was **APPROVED** by **UNANIMOUS CONSENT (10-0-0)**, (**Aye:** Lum, Grieg, Reeves, Burkert, Johnson, Ostrem, Kilcoyne, Mulkern, Aoyagi, Carroll; **Nay:** None; **Abstain:** None).

Carroll nominated Aoyagi to be Vice Chair, Neighborhood Assistant performed **ROLL CALL**, vote was **APPROVED** by **UNANIMOUS CONSENT (10-0-0)** (**Aye:** Grieg, Lum, Aoyagi, Burkert, Reeves, Johnson, Ostrem, Kilcoyne, Mulkern, Carroll; **Nay:** None; **Abstain:** None).

Aoyagi nominated Carroll to be Secretary, Neighborhood Assistant performed ROLL CALL, vote was APPROVED by UNANIMOUS CONSENT (10-0-0), (Aye: Carroll, Lum, Aoyagi, Reeves, Grieg, Burkert, Ostrem, Kilcoyne, Johnson, Mulkern; Nay: None; Abstain: None).

Neighborhood Assistant performed a ROLL CALL to fill Reeves in to Subdistrict 8, vote was APPROVED by UNANIMOUS CONSENT (10-0-0), (Aye: Lum, Burkert, Mulkern, Kilcoyne, Ostrem, Johnson, Reeves, Grieg, Carroll, Aoyagi; Nay: None; Abstain: None).

CITY MONTHLY REPORTS

Honolulu Fire Department (HFD) – No report was given.

Honolulu Police Department (HPD) – No representative was present, no report was given.

Board of Water Supply (BWS) – No representative present, Chair Pro Tem Lum read the following report.

- Update regarding August 27th, 2020 inquiry: Resident Jeanne Ohta brought up Resident Ken Thomas' inquiry regarding City and County of Honolulu coming by the house and wanted to know if vegetation cut behind their homes could be considered. Chair Lum brought up the update and read the following inquiry about the rock wall mitigation behind the 'Ewa side. On aforementioned date a BWS Inspector met with amiable residents regarding the ongoing project behind the properties on Ekoa Place. Some have expressed concerns that the cut vegetation placed on the hillside behind their homes could be a potential fire hazard. Chair Lum continued that BWS has addressed the issue and their contractor is disposing of the vegetation and all future trimmings in a timely manner. The large boom that was heard on Tuesday, August 18th, 2020 could have resulted from an air hose that malfunctioned or from a separate project using a large excavator on the property with the address of 1169 Mona Street. No blasting is permitted on any current BWS projects. Please note that the contractor will extend a temporary fence across the entire property, a house has a fence to protect the house from construction work but only covers half the property. The contractor will extend the temporary fence with compost filter socks installed against the bottom, which should assist with diverting water runoff towards the existing drainage ditch. A community member wanted to know if the cement water swell/drain that leads to the drain behind Mona Street could be extended behind the rest of the homes. The resident states it prevents BWS from doing more work while reducing liability. Slope stabilization on Ekoa Place is being performed under emergency procurement. State procurement code prohibits extension of the project's scope once the emergency contract is awarded. We also suggest to contact Department of Facility Management (DFM) about the drainage ditch. Resident Thomas stated BWS will contact him, in the meantime, City and County of Honolulu is inspecting BWS to check their work to make sure they are doing it safely. Resident Thomas added that it would have been easier to see who was doing the work instead of not knowing who was handling this project. Chair Lum expressed her gratitude that BWS provided an answer with this issue.

ELECTED OFFICIALS' REPORTS

Mayor Kirk Caldwell's Representative – no representative was present, no report was given.

Governor David Ige's Representative – no person was present, no report was given

City Councilmember's Representative – Davin Aoyagi, Councilmember Waters' Office, reported the following updates:

- Census Update: Aoyagi explained that the deadline to fill out the Census is September 30th, 2020, gave two ways to fill out the census if a person has not done so already: my2020census.gov or can fill it out by phone: 844-330-2020, questions can go to r.l.su@2020census.gov.
- Resolution 2020191: Councilmember Waters introduced this resolution to urge the City administration to create a task force considering the use of geofencing; for the City to offset the impact of properties on City and County and other resources, and the collection of fees. Aoyagi explained that a geofence is a virtual perimeter in a geographic area, can be used to trigger an alert to a local device user or a geofence operator or both. It is an idea about how to grow economic recovery after the pandemic is over, especially after making up for lost revenue. When a person is hiking Koko Crater Stairs, if a tourist wants to pay 50 cents or a dollar, they can learn about the site as they use it, thus being educated about the site they are in.
- Bill 42 – Aoyagi explained that this bill passed the reading and has reached the Mayor. It will require applicants for building permits for residential structures to attest that the construction complies with all restrictive covenants for the land on which the proposed work is to be done. Aoyagi thanked the community members for testifying on behalf of this bill.

- Questions, comments and concerns followed:
 1. Geogrids: Grieg asked about geogrids to track people's location and charge them based on their location.
 2. Waimanalo Residence: Grieg brought up the future Obama residents in Waimanalo applying for a seawall permit, they were not allowed to obtain a building permit for a house larger than 7500 square feet, does the aforementioned square footage include businesses, schools, all construction, or is it just residential construction? Aoyagi responded no to the first question, added that he will look into Grieg's second question and will respond at a later time.
 3. Koko Head: Mulkern asked about the maintenance of the expansion of Koko Head parking lot, wondering where the 4.5 million dollars will be justified to accommodate for additional parking. Mulkern noted that it would be disastrous for the City to have a tourist to be accidentally paralyzed by a wayward bullet. Aoyagi thanked Mulkern for his comment.

Senator Stanley Chang – No representative was present, no report was given.

Representative Mark Hashem – No representative was present, no report was given.

State Department of Transportation (HDOT) Representative – No representative was present. Chair Lum read the following updated report from Casey Abe:

- Trees on Kalaniana'ole Highway: Chair Lum inquired in an email after last month's meeting about the trees being cut down, will they be replaced on Kalaniana'ole Highway, asked why was there no mention made of this to the Neighborhood Board before it happened. Abe's response stated that HECO's directional cutting to clear power lines weaken the trees. Mentioned an incident near Kalani High School where a tree fell due to one sided canopy instability; O'ahu District Horticulturalists inspected remaining trees and found termite infestation and weakened conditions so for safety reasons the trees were extricated. The Highways Division is unaware of HECO's plans for relocation of power lines so it is nonsensical to replant trees and recreate existing condition. Our O'ahu District Office is willing to entertain suggestions from the Community for alternative landscaping improvements to replace the trees.
- New Traffic Signal System at Kalani Iki Street and Waeli Street Intersection Traffic Signal Modernization Phase I (Kalani High School Entrance): Spangler asked regarding the job specifications that the base yard for the project not to be inside the Neighborhood; Abe's report responded that it is not in the specifications; intention is to document avoidance measure during the pre-bid meeting, minutes from that meeting will be included in the bid documents prior to bid. The former caretaker's cottage that was burned down was suggested as a possibility as well as Kilauea Avenue. HDOT is not intending to formally suggest using this cottage site due to said cottage being outside the department's jurisdiction. Kilauea was not suggested earlier but also may be outside department's jurisdiction. If suggestion of Kilauea is under Waiialae Viaduct that may have been considered during the construction phase; however it is an inaccessible site and is currently being landscaped.
- Drainage Ditch on Waeli: rumors have it that a sidewalk may replace drainage ditch 'Ewa of Waeli on the highway, is that why the trees are being cut? Drainage ditch is essential to keeping neighbors safe and should not be filled in. Abe's response was that the project will not alter the drainage ditch, as that is not consistent with the intent of this project.
- Interstate Route H-1, Guardrail and Shoulder Improvements Project Kapi'olani Interchange to Ainakoa Avenue: on hold due to a utility conflict; new tentative completion date is November of 2020, still waiting on funding for additional work.

Questions and concerns followed: Mona Street: Johnson reported that there was a request from a community member regarding a huge hole on Mona Street, will send picture of aforementioned hole to Chair Lum. Resident Jeanne Ohta stated that on Mona Street, it is supposed to be resurfaced, which could explain the possibility of the problem being fixed, Chair Lum decided to ask about the homeowner's street situation.

PUBLIC INPUT FOR ITEMS NOT ON THE AGENDA –

The Academy Learning Hub at the former Waldorf Site: Resident Natalie Iwasa wanted to address discussion held last month regarding this topic and state that her comments are her own (as a former parent of this school, is a Certified Public Accountant (CPA) for this school also, and is allowed to make certain statements but is not speaking on behalf of the Learning Hub).

- Regarding Minutes from August 2020: Resident Iwasa commented that in the minutes from last month, LaVoie has stated that there had been ten years' worth of neglect at that building, stated to the public and the Board that the comment was considered a mischaracterization of the condition

of the building and that has not been her experience, mentioned the flood in 2018 and has participated in meetings there on a regular basis. Chair Lum agreed with Resident Iwasa, stating there was a lot of work done on the building after the flood of 2018. Resident Iwasa then mentioned from LaVoie's comment that the school did not receive preferential treatment for real property taxes. Resident Iwasa clarified that there is an exemption available for nonprofit organizations that allows taxes reduced to \$300 per year. Resident Iwasa noted that for someone paying \$20,000 per year, a little bit of paperwork is worth it, advises this to her clients who have nonprofit organizations. Resident Iwasa noted that the deadline to apply was September 30th, 2020 and the signed lease started on September 27th, 2020, which meant there was little time to sign up for that option (had they been operating as a nonprofit organization).

- City Website Regarding Real Property Tax: Resident Iwasa explained reasoning for that site (to look up properties, to see who owns which parcels of land, what their assessments are, etc.), noted the record for the site is incorrect, still lists Honolulu Waldorf School as the lessee. Resident Iwasa asks of the City to correct that error because it has been displayed for at least a year, wants rumors dispelled.
- Operating as a For-Profit: Resident Iwasa was surprised to learn that Mary LaVoie stated the Learning Hub was operating under a for-profit institution when The Academy listed as a nonprofit corporation in the Department of Commerce and Consumer Affairs (DCCA) State business registration website, will be following up with LaVoie personally. Resident Iwasa stated that if there are any future questions about Waldorf, the school is open to addressing them; there is talk about the school performing community projects in the area and emphasized they want to be a good neighbor.

Rating System for Representatives: Mulkern suggested creating a rating system for representatives who represent the No. 2 Kuli'ou'ou-Kalani Iki Board so that way Board and Community members could see their progression as far as how often they show up, also suggested they be graded by how often these representatives show up. Chair Lum stated that this item would need to be on the agenda in October 2020's meeting, told Mulkern to think about how that would work prior to October's meeting.

NEW BUSINESS-- Presentations, Discussions, Residents' Concerns (Board Action taken as needed)

Smart Justice: Shayna Lonoaea-Alexander—not present, no report was given.

Demolition Dumpster on Makaniolu Place—report was moved to October, person was unavailable to make this meeting

Resolution Supporting Pickleball: Chair Lum read the resolution supporting Pickleball, discussion ensued. Burkert stated that there were errors within the resolution and disagreements with the current resolutions. Chair Lum explained that she read the current resolution with errors taken out of them. Burkert also requested to view the current version of the resolution, Chair Lum offered to share her screen so that request was possible. Johnson noted that there are no gyms for community centers in that area, believes the motion is pointless to vote on. Chair Lum clarified about when it says "future parks" in this area but acknowledged that Johnson is right; more about in the future. Burkert stated there is at Waialae Iki Park, Chair Lum pressed about the community centers and gyms in the Kuli'ou'ou-Kalani Iki area and stated there are courts in existence but that the Neighborhood does not have any. Burkert expressed concern about parks being vandalized, organization has their equipment on the corner of the court and that system seems to work, also expressed that there are temporary lines on the courts put on by the City.

The MOTION to adopt the Resolution Supporting Pickelball was MOVED by Aoyagi and SECONDED by Mulkern, Neighborhood Assistant performed ROLL CALL, the MOTION FAILED, (6-3-0) (Aye: Burkert, Lum, Johnson, Reeves, Mulkern, Aoyagi; Nay: Grieg, Ostrem, Carroll; Abstain: None.)

CONTINUING BUSINESS

Proposed Additional Emergency Warning Siren at Niu Valley Neighborhood Park: Chair Lum gave questions of concern that were raised, gave them a reminder that the meeting was coming up and is status quo.

Limu Place Arch Expansion: No report was given.

East Honolulu Sustainable Communities Revised Plan (EHSCP) – Chair Lum expressed her thanks to Resident Waipa Parker for working on this resolution, Resident Parker mentioned that Residents Angela Correa-Pei, Stramer Reeves, and Tatiana Reeves whom deserve the thanks as well. Resident Parker was present to address the Board with a resolution related to a request by the Community of this Neighborhood Board regarding amendments to the revised EHSCP, he read the resolution related to this topic.

- Purpose behind EHSCP: Aoyagi commented that the purpose of this plan is to provide a vision for implementing guidelines for this entire region; considered this plan commendable as well as amounting to

the Community for protecting and preserving the attributes that make East Honolulu great; is urging fellow Board members to support this plan; believes it incredibly important to pass this resolution and move this forward. Chair Lum added that she feels blessed to save the contentious back of the valley where people have wanted to develop the area for years and is grateful that the Board has been able to preserve it for the Community.

- Regarding Population Density in EHSCP: Grieg commented that he did not see in the revised edition of the resolution of an increase in population density, would be nice to discourage renting out to people from their homes; noted that every home has a second family living in it and that the added people to the population density has put a strain on infrastructure and resources (water, parking, sewage, etc.). Tatiana Reeves noted the issue regarding population density is not part of the revised resolution.
- Map of Boundary/Importance of Protection: Burkert asked to see a map of the area and what the current zoning is for the resolution. Parker mentioned an old 1999 resolution that shows the section that is residentially zoned as outside of the urban community boundary; in the new resolution they have taken the designation away because it was on a steep slope and unstable. Aoyagi mentioned an effort to attempt to acquire and build four (4) units within a cul-de-sac which ultimately did not happen but it reinforces the idea that the area needs to be protected and to downzone it in a potential developmental interest and the fact that there are potential hazards and issues marked in that section of the valley.
- Papahehi Place: Parker mentioned that this particular valley has a bad history of slow moving landslides due to the soil in this section; mentioned in 1988, after the big flood on Papahehi Place, numerous homes have been condemned and roads are twisted to this day, area is known for bad soil which is documented in the United States Geological Survey.
- Change of Boundary/Moku Boundary: Resident Jeanne Ohta asked Aoyagi how Department of Planning and Permitting (DPP) could change the boundary without notifying the residents, Aoyagi responded that DPP circulated these drafts of the boundaries and will look into answering her question. Resident Ohta stated it was "shocking" that DPP could make so many changes without consulting the Community first, which fuels the motivation to become more vocal about situations like this in the future. Johnson noted that this issue has been brought to the Neighborhood Board for numerous years, stated this is the last moku boundary on O'ahu and that should always be preserved; section deserves to be preserved and Community-supported.
- PBR Hawaii and Associates Presentation: Mulkern noted that PBR (architectural firm based on O'ahu) did a presentation several years ago showing renderings of homes and parks at the end of the road in this district; was impressed by the schematics behind addressing rock fall and drainage by channeling water catchment. Chair Lum noted that in her experience with developers (due to being on a slope also), they will be quick to build and then it does not become their problem anymore, continued they use the C/D team to do it which may look fine for a year until the problems commence. Parker commented about the additional homes available for development, there are many in-filled areas that are currently being developed on level terrain. Parker mentioned that a cluster permit was pulled from 21 homes a few years ago, permit was rejected due to insufficient soil report studies. Developers were losing money, they tried to obtain funding based on the Olelo video but the study was already done. Parker believes there are other areas to build on; it is the safety of the concerned residents that are of biggest concern.

Kilcoyne left at 8:38pm, returned at 8:39pm.

Ostrem left at 8:29pm, returned at 8:40pm.

Aoyagi made a MOTION to adopt the resolution passing the revised EHSCP, Johnson SECONDED the MOTION, the MOTION FAILED, (8-2-0) (Aye: Carroll, Burkert, Lum, Kilcoyne, Ostrem, Johnson, Reeves, Aoyagi; Nay: Grieg, Mulkern; Abstain: None).

Ostrem left at 8:41p.m., returned at 8:51p.m.

Kuli'ou'ou Hiking Trail Concerns – Mulkern noted concerns regarding hikers not socially distancing and not wearing their masks while on the trails.

Nenu Street Crosswalk and Lane Changes – Chair Lum stated they have not done the study yet, no report was given.

Wailupe Stream Stabilization Work / East Honolulu Flooding – Chair Lum forwarded the latest to Andrew Wagner, no representative was present, no report was given,

Paiko Ridge Subdivision Development—Resident Waipa Parker read resolution relating to the community seeking support of Paiko Ridge, discussion ensued:

- Extra Trail: Mulkern asked if this will provide an additional trailhead behind Kuli'ou'ou Valley so that residents on the opposite end have a lighter burden of people flooding in on the right side of the valley. Parker responded that there is not an active trail in the area, can be put forth for discussion. Mulkern asked and Parker responded if this issue would be something to consider, discussion will be brought forth to the committee. Mulkern noted that there were members of the Aina Haina Community Association saying the neighbors did not want public access, it was insinuated and Chair Lum stepped in, stating that said community has never said that, does not know where that information came from. Resident Ohta admonished Mulkern, saying to not spread rumors because that was inaccurate, it is not helpful to the process of preserving the land. Grieg stated he spoke to quite a few of the neighbors when construction started and it led to them purchasing the land; the neighbors reported they did not want a trail there and has seen that sentiment first-hand. Chair Lum noted that the comment seems like the whole of the Aina Haina Community does not want the trail. Chair Lum continued to say that four (4) neighbors would rather not have people park in their driveways but that does not resemble the whole sentiment of Aina Haina. Resident Ohta mentioned that when trails in Kuli'ou'ou are not maintained properly, neighbors become concerned, is requesting for consistent management of the trails.
- Buying Land: Grieg mentioned that future talk of stewarding the land, is that something that our public body would be purchasing the parcel to turn it over to another nonprofit? Grieg noted that it would be nice if the public is utilizing the space, it should be for the public to use it, not just the people who get their way into a nonprofit. Johnson asked that Grieg stop spreading lies because the neighbors make sure that it is in the easement that people cannot enter. It is not the expectation of the nonprofit organization that purchased the land to keep the community out. The nonprofit fully understands that the Community pay for it, they want the community to come.
- Clarification of Resolution: Mulkern inquired about the same parcel just discussed, Parker responded "yes". Burkert asked for clarification, both Chair Lum and Parker responded that it is the denial of the subdivision application of the developer, based on the current HHSCP, it is asking for the rejection of the subdivision application. Grieg asked and Parker responded regarding about the parcel being purchased from the State, Department of Land and Natural Resources (DLNR) submitted comments that they are willing to take a portion of that property and convert it to a forest reserve. Grieg asked and Parker responded to make it into the Kuli'ou'ou Forest Reserve, yes, to take the parcel in its entirety; Parker wants this for the result of this resolution to be passed.
- Passing Subdivision: Aoyagi commented that if the subdivision gets passed, it may open up the residential portion without doing the mitigation that other members have wanted in this district for the larger parcel. Aoyagi noted there will be development of the four (4) acre parcel without any mitigation for rock fall and speaks to one of the primary concerns of subdividing the section. Chair Lum mentioned that this resolution may set a precedent for what may happen to sloped development in the future.

Johnson made a MOTION and Aoyagi SECONDED motion to SUPPORT REJECTION OF THE PAIKO RIDGE SUBDIVISION DEVELOPMENT APPLICATION BY DEPARTMENT OF PLANNING AND PERMITTING, Neighborhood Assistant performed a ROLL CALL, vote was APPROVED by UNANIMOUS CONSENT (9-1-0), (Aye: Grieg, Aoyagi, Mulkern, Johnson, Carroll, Burkert, Kilcoyne, Lum, Reeves; Nay: Mulkern; Abstain: None.)

'Aina Haina Wedding Chapel Business in Residential Areas – No updates were reported, no report was given.

Hawaii Loa Ridge Preserve Property Update – No report was given, no updates were reported.

Update on Property Development at end of Keikilani Circle – Aoyagi mentioned he did not have any reports to give.

West Hind Drive Traffic Circle and Other Issues Pertaining to 'Aina Haina Longs – No report was given.

Approval of July Meeting Minutes – Johnson mentioned that a correction needed to be amended, on Page 7 for August 2020 minutes, it was Resident Jeanne Ohta, not Johnson, that made a comment regarding Limu Place. Chair Lum suggested to say there was nothing to report.

Aoyagi made a MOTION to adopt all the unapproved minutes and memorandums for previous Board meetings and Johnson SECONDED for the APPROVAL of all past meetings (including the amended meeting minutes in August), Neighborhood Assistant performed a ROLL CALL, vote was APPROVED by UNANIMOUS CONSENT (9-0-0), (Aye: Carroll, Kilcoyne, Aoyagi, Johnson, Reeves, Lum, Burkert, Grieg, Mulkern; Nay: None; Abstain: None).

Ostrem left at 9:07p.m., nine (9) members remaining.

Treasurer's Report – Chair Lum reported the total printing costs for the month of August 2020 was \$ 6.84, postage costs were \$50.70, total expenditures were \$57.54 with the remaining balance of \$503.32.

ANNOUNCEMENTS

Board Member Announcements – No announcements were given.

Next Meeting – The next Kuli'ou'ou-Kalani Iki Neighborhood Board No. 2 Regular Meeting is scheduled on Thursday, October 1, 2020 at 7:00 p.m., location to be determined.

Audio and Video Recordings – Informal audio and video recordings of the meetings are available to the general public via `Olelo "On Demand" at <http://goo.gl/mhGBVv>. Search for "Kuli'ou'ou Board" and you can download an mp3 file or watch a video of the meetings online.

ADJOURNMENT – The meeting was adjourned at 8:55 p.m.
