**Subject:** Council Meeting, 012506, Resolution 06-017

Dear Council Chair Dela Cruz:

I have written to the Council as a whole of my strong support for Resolution 06-017 as it affirms the mediated settlement that allows for the purchase and preservation of Waimea Valley. I am confident you will vote in favor of the Resolution as it appears to fulfill what you have worked so hard to achieve, not only for your constituents on the North Shore but also for the entire state.

I deeply appreciate your tenacity and commitment toward the goal of preserving Waimea Valley. Your resolute stance was instrumental in the tenuous period before the Council closed ranks and established the climate for negotiation that produced the settlement summarized in Resolution 06-017.

Your continued leadership in support of the preservation of Waimea Valley will be an essential part of the process, both during the formal actions by the City Council and the subsequent steps to follow in the implementation of the settlement. Thank you for your hard work on behalf of the community at large to preserve a portion of its legacy for its future.

Sincerely,  
David A. Bramlett
